Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

Swaim's Panacea has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by W. Gibson, M.D., Prof. of Surgery, Pa. University. Valentine Mott, M.D., Prof. of Surgery, N. Y. " W. P. Dewees, M.D., Prof. of Mid., Pa. University. N. Chapman, M.D., Prof. of Physic, Pa. University. I. Parke, M.D., Prof. College of Physicians, Phila. Dr. Del Vallo, Prof. of Medicine, Havana. Jose Eourenco de Luz, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spaine. J. Chipman, Member Royal Col. Surg., London. Dr Thomas Pearson, Maj. Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA."

and having the name Jas. Swaim stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Dyper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swain, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in a similar manner of them by a person bearing a *somewhat* similar name, well calculated to deceive.

Greatest Discovery of the Age.

Planters, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Chest, Back, etc.

If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.

It is an English discovery, and was used by William IV. late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Linimeut, but considers it warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's Office, 240 Green

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc.

wich street, New York.

For Summer Riding.

C. H. SIDES & CO., having fully the best of Horses, and Carriages of the latest and most approved styles, for the summer travels, would respectfully invite a call from those about enjoying themselves by riding. The best and safest teams furnished, for any purpose, at reasonable rates.

HACKING in all its departments, attended to with promptness. Their splendid new Hack, the most beautiful carriage ever brought into Portsmouth, will run for public accommodation as heretofore.

Stable on State street, nearly opposite the Rockingham House. m31

Ocean House,

ISLES OF SHOALS.

The subscribers respectfully inform their friends and the public that they have taken the well known House on BEAUTY NOSE, where they will be most pleased to entertain all who may favor them with their patronage. Every attention will be given to make their sojourn with them pleasant during the hot months.

The Yacht SPY, Capt Goodwin, will run daily to the Islands from Pier Wharf, Portsmouth, at 10 o'clock, A. M., or on arrival of cars from Boston and Concord. LEMUEL L. CASWELL,

je22 2mo EDWARD S. FOSS.

Appledore House,

ISLES OF SHOALS.

Steam having died out in Portsmouth, the subscriber has the pleasure to announce to his old friends and the public, that he has chartered the beautiful YACHT SPY, of 40 tons burden, and has had the good fortune to secure the services of Capt. JAMES W. GOODWIN, the well known pilot, as master. His skill, carefulness and attention will secure to the travelling public a more safe, expeditious, comfortable and pleasant transit to and from the Islands, than has hitherto been attained.

She will leave PIER WHARF, foot of State Street, Portsmouth, every day (Sundays excepted) immediately after the arrival of the trains from Boston and Concord, and return in season for the evening trains.

Many alterations and improvements have been made in the establishment to make it more convenient and comfortable.

An abundant supply of Ice has been carefully laid in, and the facilities for fishing perfected.

To the invalid, the weary and the active pleasure seeker, this location presents attractions not equaled in New England.

je17g THOMAS B. LAIGHTON.

Gerrish House,

KITTERY POINT, MAINE.

This Establishment having been put in perfect order, will open for visitors on the 15th of June. Every attention will be given to make this House one of the most pleasant Summer resorts. Kittery Point is celebrated for its conveniences for bathing, fishing and sailing. Arrangements have been made to afford every facility for guests to enjoy the above amusements. The Post Office is within three minutes' walk of the House. A coach runs regularly twice a day to and from the Point, via the U. S. Navy Yard, arriving at and leaving the City of Portsmouth, three miles distant, on the arrival and departure of the cars. For further particulars address the proprietor, at Kittery Point, Me.

For Sale.

HOUSE on Christian Shore, suitable for two small families. If applied for immediately will be sold low. Apply to

April 17. E. S. WENDELL.

HOUSES FOR SALE.

THE DWELLING HOUSE, No. 9 School street. This is a well built house, two (high) stories, in good repair, and is convenient for one family or two families, or for a large Boarding House. It contains nine or more rooms and two scuileries, and has an excellent cellar under the whole house. The situation is central, being about equi-distant from the markets, factories and railroads. Connected with this house is a building which has been and may be occupied both as a barn and a work-shop. If not sold soon, a part or the whole of the premises will be let.

The DWELLING HOUSE No. 6 Green street. This house is fitted for two tenements; it is well built, was thoroughly painted and put in good order the last season, and is well calculated for two families, (having about 6 rooms each) and may be considered a good location for persons employed in the north end. It is centrally located between the different ship-yards in that section of the city. each tenement will be sold separately, if desired.

The DWELLING HOUSE No. 7 Liberty street, corner of Charles street. This house was formerly owned and occupied by the late Peter M. Lowd and is in good order. Attached to it is a lot of land large enough for a Stable or for another dwelling house. It would make a good place for the residence of a person employed at the shipyards across the river, or at the Navy Yard.

The DWELLING HOUSE No. 47 Bow street.—This house has been built but a few years, is well finished off, and is very convenient. In the rear is quite a large garden spot. This would be a desirable place for a person employed at the shipyards, or at the Navy Yard, nearly opposite.

Also, for sale, a BUILDING LOT, on Mount Vernon street, (opposite No. 2,) with a small building thereon, which can be finished off into a Dwelling house.

All of the above property will be sold on liberal terms, if applied for soon. For further particulars apply to JOSEPH M. EDMONDS,

Feb. 27. No. 9 Islington street.

TO LET—The STORE on the corner of Vaughan and Deer streets. It was occupied as the first Union Store in this city, and is considered as a good stand for business. It is within a few rods of the Boston and Concord Railroad Depots. Possession can be had immediately.

FOR SALE—The HOUSE in the rear of the above, on Vaughan street—a convenient house for two families, and has been so occupied for about six years, by the same tenants. It rents for $160. For information, terms, &c., call on JOSEPH L. LOCKE, on the premises, or JOSEPH M. EDMONDS, 9 Islington st. m29

10,000 *Bottles Sold since the First of January.*

DR. ORDWAY'S
HUMOR DISCOVERY,
AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an herb, discovered in California, by Dr. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,
LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattles ake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head.
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.
Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all-gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA.
A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS,
It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.
One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,
It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue the use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.
☞ Price $1.00. ☜

HE HAS ALSO A HUMOR SALVE,
Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.
PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.
This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicine has discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.
PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.
This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Crumps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.
PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

ORDWAY & WADLEIGH,
LAWRENCE, MASS.,
SOLE PROPRIETORS.

Sold in Portsmouth, by Jos. H. Thacher, B. Hutchings and J. P. Morse. apl9eod6m&w

TRUE Lemon Syrup, Raspberry, Boxberry and

PATENTS.
American and Foreign Office.
AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ———.

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,
Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Boston, Dec 7, 1852. eodly

Morning Chronicle.

MONDAY, JULY 24, 1854.

For the Morning Chronicle.

"FRAUD."

Let no one be alarmed at the caption of this article. For in these times of fraudulency, every word that looks like the one that we have used for a heading, is doubly scrutinized. Portsmouth, we hope, will never be infected with the *fraud* disease. Yet Uncle Sam,—for by that familiar cognomen the government of these United States is known—Uncle Sam has really *marked* and *underscored* the word *fraud* on one of the doings of a citizen of this city. And Uncle Sam, you know, is always honest, prudent and upright, and is never fraudulent; and therefore has, it would seem, an unquestionable right to *detect* and *mark* and *underscore* a *fraud*. Uncle Sam never wastes the people's money for any purpose—not even to buy a vote, or an office for any body, and therefore, Uncle Sam wont be gouged out of a single penny. He will exact to the uttermost farthing; and if you attempt a cheating game with Uncle Sam, he will smell you out, and mark you *fraud*, and send you forth branded. Oh! the tender mercies of Uncle Sam are really cruel.

But to the point, and to the particulars thereof. The undersigned "bright particular Star," having occasion to correspond with a kindred luminary, revolving around its own centre in another sphere, called in the aid of Uncle Sam, in the shape of a yellow colored envelope, on which was stamped the cabalistic figure—some say it is the head of Washington—denoting that the treasury of the individual pocket had suffered depletion in favor of the already plethoric pocket of the aforesaid Uncle Sam, to the amount of three cents, at least. Well, this envelope was unfit for use, by reason of certain rents and tears, which were in it and on it and through it, when it came out of Uncle Sam's hands. Not that Uncle Sam knew of it; for he would not cheat a star out of a silver ray, though it should be as slender as a three cent piece.—Now what was to be done? The envelope was unfit for use; the letter written, and waiting to be enclosed. Taking our scissors, we cut off the head of the great Washington—was that murder and treason both, to take off the head of the Father of his Country?—and carefully pasted it on another envelope, superscribed the letter, and mailed it. The letter reached its destination somewhat circuitously, but the envelope came back to us, marked—*fraud*, with *five cents* written on it, which was paid out of the pocket of the person who received the letter. Of course, Uncle Sam would'nt swindle any body out of *three cents!* Uncle Sam takes whole States, and talks about putting Cuba, and other small change into his big pocket; of course he is not going to grab at a three cent piece. At all events, three cents are *gone, gone* somewhere?—Where? Why into Uncle Sam's pocket!—How? Never mind how; it is not swindling! Is this one way of making a New England minister pay up for an anti Nebraska sermon? Come, gentlemen, go a bigger figure than three cents.

Now, dropping the fact, and taking up the rule, it seems the Post Master General has issued an edict, that, no matter how many unusable envelopes he sells to the people, every one shall cost three cents, and the buyer be a loser. A regular cheating advertisement, to make the best of it. Many, very many of these government envelopes are unfit for use; and the persons who buy them have no means of ascertaining this fact until they want to use them. And then they find that they have paid too dear for the envelope to the amount of three cents, and there is no redress for the sovereign citizen. How long will it take the administration to refund to the sub treasury the ten millions recently voted away, by manufacturing false envelopes, and selling them at three cents each to the people? This is a plain question, and some may think it is one which a New England minister has no right to ask; still we ask it, and plainly.

Supposing you buy a *paper stamp;* you stick it on your envelope, and put the letter in the Post Office, and the Post Master checks it by stamping over it the Post Office mark. Then, it can never be used thereafter. So in the case of the stamped envelopes. The Post Master checks it, in the office where it is mailed, and *it* can never be used again. Now if you have a spoiled *stamped* envelope—and you will find more or less of them in every package—why not cut off the stamp and paste it on another envelope, and use it, without having it marked *"fraud"?* It was'nt even a *"breach of trust."* Nothing ever before reminded me of the learned Dogberry more than that same word *fraud*, on that envelope. Uncle Sam, in his eagerness not to be overreached, has laid a trap to overreach every body else. It is but justice to say that the Post Master here says, it was not marked *fraud* in our office. *

N. B. We have a number of tora envelopes on hand now, and would gladly sell out; but fear the stock is below par. *

LETTER FROM KANSAS.—The following letter from a gentleman belonging to Worcester county, who is now exploring the territory of Kansas, will be perused with interest, and all its statements may be implicitly relied upon.—*Worcester Spy.*

Kansas, July 8, 1854.—Dear sir:—Knowing that you feel a deep interest in every thing pertaining to this new country, I will pen a few lines for your perusal.

The territory of Kansas, you may be assured, is all that it has been described to be, by the most flattering writers. This point is settled beyond a doubt. It is the finest country on the globe as relates to soil, scenery, and climate. There is no soil more fertile, scenery more beautiful, or climate more healthy. This is the only fertile part of this country, so far as I know, that is to a great degree exempt both from the consumption, fever and ague. The cholera also, which has appeared in a few towns below, on the Missouri river, does not prevail here, except in the camps of the Mormons, where a few cases I am told, have occurred.

This territory is now opened for emigrants, except a small tract on the Kansas river and the military stations, and people are flocking in from all parts of the United States. One year from this time will probably see Kansas knocking at the door of the Union for admission as a State. Such is the opinion of those persons here who are best informed upon the subject.

You perhaps have seen reports of meetings, in our Western papers, with resolutions designed to intimidate Northern men, and to keep them from settling in this territory; but if you have, you may believe me, they are all for effect. Some political mountebanks have written out these reports and resolutions in their bedrooms, read them to their friends, to the number of one or more, and then sent them off to the papers, if, indeed, the whole thing was not got up in the editor's office. The truth is, as an old citizen from Missouri just said, more than one-half of the people in Missouri wish slavery out of the State, and are opposed to its introduction into Kansas; and what can a few men do against the army of freemen from the North, now pouring in here, under such circumstances? Why, just what they are doing, and nothing else, viz.: pass *resolutions*. But I must close. Tell the boys that now is the time to make a fortune, and build a State the most glorious in the Republic. In haste, yours,

P. S.—There is no fear of cholera. I have not seen a case from Boston to Kansas, and, although it has prevailed to a limited extent in some places, it is confined to the filthy and intemperate. I was never better in my life, and any others from the East may be as well, if careful.

WHO OWNS THE ROMAN CATHOLIC CHURCH PROPERTY?—Can any one tell us who really owns the Roman Catholic Church property, in this country? Not long ago, in this city, an Irish girl, Roman Catholic, died. She had paid for, and supposed she owned a pew in one of the Roman churches in this city, not a great way from Franklin street.—In looking up her property after her decease, the title to the pew was found. The attorney found that the title never was worth a penny. He was told that no *person* owned any property in the church. It was supposed that an application to the Bishop would make the matter all right. On consulting that functionary, however, it was found that *he* did not own the property. The *real* owner was over the water—in Italy—the Pope. So the girl's relatives, who are not Catholics, could get nothing for what she had paid out her hard earned money.—*Boston Bee.*

Our readers who intend to visit Niagara Falls will thank us for the hint, never to engage a vehicle to cross the bridge. The best plan is to cross the ferry for a shilling, select one of the conveyances always in waiting, which belong to colored men, (the only reasonable persons there,) order your route to terminate at the bridge, then walk over, and back or omnibus will do the rest; or, first drive to the bridge, dismiss your carriage, walk over, and take a hack on the opposite side; otherwise you must pay in addition to 25 cents toll for each passenger, $1,50 for the carriage toll. We know a gentleman who with his lady hired a hack at Niagara, for $4, to convey them across the suspension bridge and up to Chippawa, to join the steamer, but what with toll gates, bridges, &c., it cost him nine dollars! *Albany Atlas.*

A GOOD SHOT.—"Ned Buntline" fired a pistol, on the new road, yesterday, at a target one hundred yards distance, and hit it. This may be called a capital shot. The pistol is of peculiar construction, containing eleven charges; which can be fired in the short space of sixteen seconds. As the weapon is cocked the charge is forced into the barrel from its chamber and exploded. It is a new invention and calculated, we should think, to supercede the revolver.—*New Bedford Standard.*

The watering places are much less crowded this season than last. Saratoga is much less crowded than last year. So is Newport, though filling up rapidly, and so are Niagara Falls and Cape May. The business relations of the country, and the general prevalence of the cholera, have had the effect to abridge the pleasure travel this year from one third to one half.

PEACHES about the size of grape-shot, and about as hard, are retailing in the streets, and will doubtless do good execution in thinning out the ranks of our redundant population. One of these balls in the stomach may do the business as effectually as a bullet in the head. —*New York Journal of Commerce.*

MADISON, IND., July 21.—Miss Delia Webster was discharged from custody today, the Court deciding that no sufficient crime was specified in the requisition of the Governor of Kentucky.

SINGULAR DEATH.—It is stated that Mr. King of the town of Schnyler, N. Y., came to his death in the following singular manner: He had been walking in a field, and inadvertently, while chewing some herbs, got a blade of grass in his throat. Every effort was made to relieve his sufferings, but he died in a short time from strangulation.

LOCAL.

FIRE AT HAMPTON.—We stated in Saturday's Chronicle, that the Winicummet House at Boar's Head, Hampton Beach, kept by Mr. Thomas Leavitt, was destroyed by fire on Friday morning about 3 o'clock. We have since learned that the fire originated in one of the out-buildings, and could have been easily extinguished with a few buckets of water when first discovered. The furniture of most of the rooms was saved. Owing to the scarcity of water, the tide being out, the structure was wholly consumed. There are three large hotels, including the original house on the hill, yet remaining at Hampton, so that visitors will find ample accommodation for the remainder of the season.

The Newburyport Herald says the fire was undoubtedly caused by an incendiary. The building was valued at $8000, that sum having been offered for it within a short time. There is insurance at the Rockingham office for $2000 which only covers a mortgage, so that the loss to Mr. Leavitt is total.

Several hundred dollars worth of stores were also consumed. The house was large and was filled with boarders, excepting fourteen rooms in the attic, which were unoccupied.

HIGHLAND COTTAGE IN STRATHAM.—*Messrs. Editors:*—Permit me to recommend to any who wish a pleasant excursion, a call on Mr. J. H. Diman, the gentlemanly landlord of the above House. He is always happy to see and wait on all his patrons, and they to see and be waited on by him. His fare is second to none in this section, and his prices are such as cannot fail to satisfy. This is from one who has been there and knows.—Try it. Fare out and back by Portsmouth & Concord Railroad, 50 cents. H.

BOY DROWNED.—We learn that a young lad, named Michael Morrison, aged 10 years, son of Mr. Lorenzo Morrison, accidentally fell into the river, near the new bridge on Central street, yesterday afternoon, (Thursday) and was drowned.—*Dover Gazette.*

General Niepokoitchytzki has been appointed to the command of the fifth corps of the Russian army. Bringing out such a name as this does not look much like peace. The Turks may beat him, but he will defy them to pronounce his name; and if he beats them it can be truly said that they will never be able "to tell what hurt them."

The Lafayette, Ind., Journal tells a good story about a certain citizen of Laporte, who, after gravely listening to a New York merchant talking about the business prospects and advantages of his city, very inocently remarked that New York was too far from Laporte ever to amount to much.

Pittsburg, with a population in the city proper of 70,000 persons, only averages about 20 deaths in a week? Not a single case of cholera has occured in that city during the present season. There seems to be something in the coal-smoke and atmosphere of Pittsburg that is conducive to health.

A man styling himself the Rev. G. W. Adams, was arrested at Fulton, Dane county, Wisconsin, on the 12th inst. He is charged with absconding from New Hampshire with $5000 awarded to Mrs. Templeton for the death of her husband, caused by the Norwalk tragedy.

We love to see a woman treading the high and holy path of duty, unblinded by sunshine, unscared by storm. There are hundreds who do so from the cradle to the grave, heroines of endurance, of whom the world has never heard, but whose names will be bright hereafter, even beside the brightest angel.

AN EVIL LIVER.—They say that Nicholas is laboring under a liver affection—the only sort of affection of which his nature is capable. It appears, therefore, that the Czar is troubled with bile; and there can be no doubt that he complains bitterly of Gaul.—*Punch.*

In Savannah, on Friday 14th inst., about one o'clock, a watchman discovered an alligator, between three and four feet in length, passing towards the South Common. With the aid of one of the mounted police, he was captured and taken to the Guard House.

The Bangor Mercury learns that another attempt was made on Saturday, 15th inst., to fire the Catholic chapel at Ellsworth, Me. Tar and other combustibles were placed against it and set on fire, but it was immediately extinguished.

Capt. William S. Weeden of North Kingstown, R. I, was found dead in his bed on the 15th inst. He was a good mechanic, and worked the day before, as usual. He has left a wife and four children to mourn his sudden death.

The editor of the Prairie News is one of the most facetious of the fraternity. A subscriber writes to him) "I dont want your little paper any longer,"—to which he replies. "I wouldn't make it any longer if you did; its present length suits me very well."

Take the hand of the friendless. Smile on the sad and dejected. Sympathise with those in trouble. Strive every where to diffuse around you sunshine and joy. If you do this you will surely be beloved.

The wife of the author of the "Reveries of a Bachelor," has got a baby. If he don't get woke up now from his "reveries" by the "midnight cry," it will be because "there never was such a baby before."

A Cincinnati paper states that several thousand barrel of swine's blood is used in that city every year, for the manufacture of sweet wine.

ADVICE TO YOUNG LADIES.—Never treat your parents with disrepect, lest your lovers be within carshot.

CAYUSE WAR.—Our Congressional news, being telegraphic, speaks of passing a bill to pay the expense of the Cayuse War in Oregon. Another paper calls it the Cayuse Wall. What is it?

The High School Committee

WILL meet at the Girls' High School Room, on WEDNESDAY, Aug. 2d, at 9 o'clock, and in the Boys' High School Room on FRIDAY, Aug. 4th, at 9 o'clock, A. M., to attend to the examination of candidates for the respective schools.

No pupil will be admitted to either of the High Schools who is not eleven years old.

There will be no special re-examination of the unsuccessful candidates.

All applicants for admission to either of the High Schools, after the time specified by the Committee, must furnish satisfactory evidence that it was their intention to have been present at the time of examination, and that they were unavoidably prevented.

By direction of the High School Committee.

The Motto of every true American, "The Extinction of Popery."

A BOOK FOR AMERICANS.

The Great Red Dragon;

OR THE

MASTER-KEY TO POPERY.

By Anthony Gavin, formerly one of the Roman Catholic Priests of Saragossa, Spain. Boston: Published by Samuel Jones, No. 86 Washington street, 1854.

COMPRISING a complete history of Popery; giving a full account of all the customs of the Priests and Friars, and the Rites and Ceremonies of the Popish religion; to which is added an account of the Inquisition at Goa; the Inquisition at Macerata; a Preservative against Popery; a Summary of the Roman Catholic Faith; and a number of authenticated Damnations and Excommunications proclaimed by the Pope at sundry times against well known European personages.

Also a detailed account of the Roman Catholic Auricular Confession, comprising a number of private confessions of young women, and of Priests at the point of death; the deplorable practice of the Priests in selling permission to commit crimes, or Indulgences of the most awful and indelicate nature; to which is appended a List of Prices required for each sin; Extirpation of Heretics, and Notes giving a statement of the Power and Prospects of the Papal Church in the United States. PRICE $1.25.

Those wishing copies of the above work will please leave their names at the Store of JOSEPH P. MORSE, Congress street, and they will be supplied at an early day by the exclusive Agent for Portsmouth, who is now in the city.
jy22 F. H. JAQUES, Agent.

DYSENTERY, CHOLERA MORBUS

AND

DIARRHŒA ELIXIR,

PREPARED BY WM. R. PRESTON,

Druggist, Congress Block, Congress street.

AT this season of the year, when the above diseases are so prevalent, and in our larger cities, sweeping off a great portion of the population, it becomes every one to keep in his family a remedy that will immediately arrest its course and give certain relief. This is no quack nostrum; it has been used the present season by one of the first Physicians in New York, and in thirty cases out thirty-two of confirmed cholera, that came under his treatment, he was successful in the employment of the above remedy.

PRICE 50 CENTS A BOTTLE.

Sold by
jy21 1mpm WM. R. PRESTON, Apothecary.

Carl Meinerth's

MUSIC AND DRAWING SCHOOL removed to Hanover st. Chapel, (up stairs) where Mr. M. maybe found every morning, except Saturdays and Sundays, until 11 o'clock. Orders or invitations by letter please to leave in the Post Office.

Circulars containing particulars in regard to price, &c., furnished on application to the Publishers.

PHILLIPS, SAMPSON & CO.,

PUBLISHERS AND BOOKSELLERS

CONGRESS.

FRIDAY, July 21.

SENATE.—Mr. Chase presented several petitions, praying for the abolition of slavery in the District of Columbia.

Mr. Geyer introduced a bill fixing the time for the meeting of next Congress. Laid on the table.

It provides for the assembling of Congress on the first Monday of November.

The Homestead bill was taken up and a debate by Messrs. Shields, Cooper, Douglas, Chase and others, followed, when the bill was read a third time, and passed—Yeas 36, nays 11.

The title of the bill was amended so as to read—"A bill to reduce and graduate the price of public lands to the purchasers and actual settlers, and to grant the pre-emption privilege in certain cases, and for other purposes."

The Texas Debt bill was taken up.

Mr. Chase moved to strike out $8,500,000, and to insert $6,500,000.

Messrs. Walker, Chase and Douglas supported the amendment; Messrs. Bright and Badger opposed it. $8,500,000 is the amount which the United States would have to pay at the end of fourteen years, principal and interest; $6,500,000 is what the principal and interest now amount to, with the market premium added.

The amendment was rejected—Yeas 18, nays 25.

The bill was then passed—Yeas 27, nays 20.

Mr. Mason moved an executive session.—Agreed to.

After the doors were opened the following bills were passed:—The House bill increasing the salaries of judicial and executive officers of the Territories; a bill granting land to Iowa for railroad purposes; the House bill to defray the expenses of the Cayuse war, in Oregon.

Mr. Petit's resolution, to print 20,000 copies of the Nebraska and Kansas act, in pamphlet form, was adopted.

Subsequently Mr. Chase moved to reconsider this vote, for the purpose of adding an amendment, to print, also, the votes, amendments, &c., on the bill. Lost—Yeas 16, nays 22.

At 3 1-2 o'clock the Senate adjourned.

HOUSE.—The House took up and passed the Senate bill, authorizing the Alexandria and Washington Railroad to extend their track through Washington, except on Pennsylvania Avenue, to the Baltimore and Washington Railroad Depot, with an amendment authorizing the Baltimore and Ohio Railroad Co. to construct a branch to some point opposite Alexandria, or to connect with Southern Railroads, on certain conditions.

Fifteen private bills were passed.

HARLEM RAILROAD AFFAIRS.—*New York*, July 21.—The Board of Directors of the Harlem Railroad co., accepting the report of their Committe on the over issue of stock in the Company, adopted the following resolutions:

Resolved, that in the opinion of this Board it is just and right that the Committe assume the whole of the over issue reported to the Board by their Committe, by purchasing stock equal to the over issue in said stock, and retaining the same, and by an increase of the old capital stock equal to the over issue in the old stock.

Resolved, that for this purpose a meetieg of the stockholders shall be called on the first day of August next to consider and pass on the subjecct.

It appears that the whole amount of stock, old and preferred, overissued, can be replaced for less than $150,000, if purchased now at the market value of said stock at the time the transfer books were closed.

LOSS TO CATTLE SPECULATORS.—In an article on the cattle trade, and the speculation going on in it in New York, the Tribune says:

We know of one operator, one of the most shrewd business men in Chicago, who happened to be here in the highest inflation of prices, and telegraphed home to his agents to buy all the cattle for a market that would not fall below 11c. (the current price of good beef, now, is down to 8 a $10 per hundred,) this season. He has sent forward several droves that have been selling at falling prices, and would have had 200 in market to-day, but they were detained in Albany, without being able to get here to lose for their owner $4000, or go to Boston at less loss. The same man has 1200 head in Illinois, not worth there so much by $10 a head as he paid for them.

DECLINE IN PORK.—The Louisville Courier says the pork market of that city is excessively dull, and that 800 bbls. of mess were offered on the 12th inst., at $10. It also notes a sale of 700 bbls. at $10 per bbl., on four months credit, and shipment of 2100 bbls. to New York. The Courier is of opinion that the price of pork will be much lower this season than it was last.

HIGH PRICES.—The Journal of Commerce says: "The wholesale markets show a fall in the prices of beef and flour within a few days, but beef continues to be retailed as formerly, and bakers' loaves are as diminutive as ever.

SUICIDE OF A STRANGER.—On Saturday of last week, a stranger committed suicide at Somers' tavern, St. Louis, by taking strychnine. His baggage contained a quantity of fashionably made clothing, a pistol and a pound flask of powder, with a variety of small articles. The handle of his flask was marked "A. Watson," and on one of the blank leaves of a book entitled Carmina Sacra, was written "James Brown, Boston," in pencil mark. Some money, amounting to $15 80, was found in his purse. The Coroner took possession of his effects and sent the body out to the County Farm for interment.

ABDUCTION.—S. M. Sutliffe has been committed in default of $2000 bonds, in Pittsburg, Pa., on a charge of abducting a girl 17 years of age, whose home is in Franklin, St. Mary's Parish, Louisiana, from a seminary in Ohio, for the alleged purpose of placing her in a house of ill repute in Philadelphia. Suspecting his motives she claimed the protection of Mr. Reily, a hotel keeper, which was at once

To the Musical Public.

A. PEARSON,
TEACHER OF MUSIC,

WOULD respectfully give notice to the citizens of Portsmouth, that he would be happy to give instruction to a limited number of Pupils on the PIANO FORTE, ORGAN, THOROUGH BASS and SINGING.

Particular attention paid to the cultivation of the voice.

N. B.—Mr. P. is agent for Messrs. Hallett and Davis's celebrated Piano Fortes. Persons wishing to procure superior instruments will do well to consult him before purchasing elsewhere.

☞ Mr. Pearson has taken the spacious Room in the rear of the Chronicle Office, formerly occupied by Mr. T. P. Moses—where he may be found during business hours. Residence No. 44 Hanover Street. 3w*jy6

Dentistry.

FRANK FULLER, DENTIST,

CALLS the attention of Citizens and Strangers to his extensive and complete
DENTAL ESTABLISHMENT,
No. 60 Congress Street,
PORTSMOUTH, N. H.

The establishment has been recently thoroughly refitted and enlarged, and the facilities for the performance of every operation in
Surgical or Mechanical Dentistry,
materially increased.
The services of a skilful and competent Assistant,
DR. JULIUS GUTTMAN, OF GERMANY,
For some years past in the employ of DR. HITCHCOCK, of Boston—have been secured, and persons desiring DENTAL OPERATIONS will be attended to with less delay than formerly.

☞ Every operation performed at this Establishment is warranted as satisfactory, elegant and servicable as can be produced in Boston or elsewhere.

☞ Office open day and evening.

ml J. E. HAM, Draper and Tailor.

Marble Chimney Pieces.

THE PENRHYN MARBLE is a new and beautiful article, manufactured of Stone imported from England, which is enameled in imitation of of the richest and most expensive Spanish, Galway, Egyptian, Pyronese, Lisbon, Sienna and other rare and desirable kinds of Marble—the imitation being so perfect as to challenge detection without the closest scrutiny. In style of finish these Chimney Pieces stand unequalled, being very highly polished—retaining their beauty much longer than common marble, and are not injured by oils, smoke, coal gas or acids. They have been extensively introduced into public and private buildings, giving perfect satisfaction to those who have used them. The best of references can be given, showing their adaptedness for general use, the subscriber having furnished some of the best dwelling houses in the city with them during the last two years.
While excelling all others in beauty of finish and appearance, they are sold much cheaper than any thing of the kind in the market. The subscriber has now in Store a complete assortment of the above named desirable Goods, to which he invites the attention of all interested.
je21 G. N. CARLETON, 15 Daniel st.

American Porcelain Ware.

GEO. W. TOWLE & CO.

Saddlery Goods, &c.

JAMES LARRABEE, No. 5 Pleasant street, has just received a NEW STOCK of
SADDLERY GOODS,
Carefully selected in Boston, for his customers, to which he would invite the attention of those in want of
RIDING SADDLES AND BRIDLES,
Fancy Driving Bridles, Horse Nets, Whips, or any other article in this line for use or ornament.
He manufactures to order, as heretofore, every description and quality of
HARNESSES,
From the lightest Trotting Rig to the heaviest Truck or Team Harness; and guarantees the stock and workmanship of Harnesses from this establishment to be equal to any manufactured for a similar price.
TRIMMING of new or old Carriages, in any desired style, carefully and neatly executed.
TRUNKS made to order—and any business in his line promptly attended to. Those in want will do well to call at
No. 5 Pleasant street, near Market Square,
where they will find all articles at the lowest prices for CASH.
Portsmouth, June 26.

Repairs on Vessels.

HAVING taken store No. 5 Commercial Wharf, from 10 Water street, will attend to repairs on vessels, in his line, such as Carpentering, Coppering and Caulking, on marine railway or beach. All orders promptly attended to. [3mje7*] S. B. LORD.

Garden Engines.

JULT received at "the sign of the Big Coffee Pot" a full supply of Garden or Fire Engines, which are respectfully commended by the subscriber to the notice of the public. Wherever these Engines have been introduced they have invariably given entire satisfaction. They are unsurpassed for power, capacity or usefulness. From the size of the air chamber sufficient power is obtained to enable one man to throw a steady stream of water to a height of fifty feet perpendicularly, thereby rendering it a desirable article as a
PROTECTION AGAINST FIRE,
And for washing windows of second and third stories of buildings, carriages, &c. With a newly invented water diffuser as a Garden Engine it defies competition. The diffuser is a perfect and simple article, and its superiority over the common rose sprinkler is that it will throw three times the quantity of water a much greater distance and spread it perfectly even, with less power applied. An Engine with a diffuser of this description, used in orchards and gardens to throw soap suds on the young trees, will destroy many kinds of vermin liable to injure the fruit and be an invaluable addition to the implements of the Nurseryman and Horticulturist.
Jy8 J. E. CHAPMAN, 18 Daniel st.

BEWARE OF COUNTERFEITS!!

THE CELEBRITY OF
DR. S. O. RICHARDSON'S
Sherry Wine Bitters

HAS induced several persons, who do not possess the least medical knowledge, to assume the title of Doctor, and put before the public an article in imitation of my Medicine, which they call Sherry Wine Bitters, and attempt to palm them off under the pretence that I have retired from business, and also that they manufacture an improved article of the same name.

I would say to those in pursuit of health, to be sure that you obtain the REAL article, which may be known by the Fac Simile of my signature upon the outside wrapper, covering each bottle, and also by the copyright border of the same covering.

Sold wholesale and retail at my office, No. 51 Hanover street, Boston, and by all dealers in Medicine in every city, town and village throughout the New England States.

MEXICAN MUSTANG LINIMENT—
Every land has hailed with
Many this preparation whose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its tortures, have yielded to its
Magical influence; cancers, contorted joints,
Ulcerated and stiffened limbs that have
Suffered for years under the weight of disease,
Turn by its application to suppleness and health.
A remedy of such general usefulness that can
Restore newness of Action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.
Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over diseases,
No matter of how long standing—sold at
The agents in all parts of the Union,

The Greatest Medical Discovery of the Age.

MR. KENNEDY, of Roxbury, has discovered in one of our common Pasture Weeds a remedy that cures Every Kind of Humor, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing on the pastures and along old stone walls, should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. There is no if's and ands, humbugs and humbugs in suiting some cases, but not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. I gave it to children, and to old decrepid people of sixty. I have seen poor, puny, worry looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some have taken it who have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will produce very singular feelings; but you must not be alarmed; they will disappear in from four days to a week. There is never a bad result from it; on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

Nothing in the annals of Patent Medicines has ever been received by the public with so much favor as this simple preparation. It is now composed of nine different herbs. In May, 1852, when I commenced making a business of it, I sold about two bottles per day. In June, 1853. I sold 4320 bottles. In October, 1853, I sold 6120 bottles. I hope you will call that doing well; I do.

In my own practice, I confine it strictly to humors; but there are some who are so enthusiastic in its favor they think what cured them will cure any thing and any body; they accordingly recommend it for every variety of disease. In this way a great many virtues of it have been found that I never would suspect.

Cases of Dyspepsia, of many years standing, that withstood every known remedy, have been permanently cured.

I know one man to gain 17 lbs. by taking three bottles; another 11 lbs.; another 10 lbs.; and another 7 lbs.—the venerable master Robinson of Boston.

In diseases of the Liver it is a specific. I know several with yellow skin and yellow eyes, the body emaciated and the mind melancholy, get fat and cheerful by a few bottles.

I know several cases of Dropsy, and one particularly bad. A lady, aged 79, was unable to leave her house for the last twelve years, was so much relieved (she was reduced in circumference thirty-four inches,) as to visit her friends in several neighboring towns.

Another had the Dropsy in her left leg, and was unable to walk for ten years, sometimes swelling to an enormous size; at last bursted, making a bad wound which could not be healed; by taking three bottles and using two boxes of ointment, she is now quite well. Why it should make some fat and others lean, I cannot tell, but so it is.

I know of several cases of Kidney complaints cured by it. If this comes to the newspaper was a proper medium, I could tell of cases of this most distressing of all diseases that would make your heart bleed, that were permanently cured by it.

It has been lately found to be a sure cure for Panama fever. In one case it was tried, and put off the fit two hours. One bottle cured him. Another came home to die, and was induced by his brother to try it. Three bottles cured him.

It brings great relief in the Asthma. A lady in Lawrence was unable to lie in bed for a number of years; she can now lie without the least inconvenience.

A lady in Weymouth lost the use of her left side by the Erysipelas. In the second bottle, she broke out in one mass of humor from head to foot. In a few days she was well.

It has lately been found to be equally good for humor outside as inside, (taking it inwardly in the meantime,) for Erysipelas, Salt Rheum, Pimples on the Face, or any eruption of the skin whatever; only where the flesh is very sore you must dilute it with water.

When made weak enough it is the best eye-wash for weak and watery eyes that I ever saw.

Others use it to cleanse the dandruff out of the hair and strengthen its roots, which it certainly does, and to crown all, it made the hair grow on bald heads, which, if I had not seen with my own eyes, I would not believe from you or anybody else.

As regards dieting, I never came across the first person that ever got any benefit from it. On the contrary, numbers came to death's door by it, as it gives the humors the upper hand. My medicine requires the most nourishing food you can get. It will soon give you an appetite.

Do not for a moment suppose that I warrant a cure of all those diseases, in every case. I merely tell you what it has done, hoping it will do the same for you. I do not warrant a cure in any disease but humors, *where it never fails.* For further particulars see the circular around each bottle.

No change of diet ever necessary. Eat the best you can get, and enough of it.

I have an herb, simmered in olive oil, scatters Scrofulous swellings of the neck and under the ears. Price fifty cents per box.

DIRECTIONS FOR USE. One, the table spoonful per day; children of eight years, dessert spoonful; from five to eight, tea spoonfuls. As no direction can be applicable to all constitutions, take enough to operate on the bowels once a day.

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than 30 thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by

W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y. "
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
T. Parke, M.D., Pres't College of Physicians, Phila.
Dr. Del Vallo, Prof. of Medicine, Havana.
Jose Eduardo de Lus, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spain.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and often on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase the Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Chest, Back, &c.

If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.

It is an English Remedy, and was used by William IV. late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Linimeut, but considers warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's Office, 240 Green

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Sore Buildings, Cuts, Bruises, etc.

wich street, New York.

For Summer Riding.

C. H. SIDES & CO., having fully re-furnished their Stable with the best of Horses, and Carriages of the latest and most approved styles, for the summer travels, would respectfully invite a call from those about enjoying themselves by riding. The best and safest teams furnished, for any purpose, at reasonable rates.

HACKING in all its departments, attended to with promptness. Their splendid new Hack, the most beautiful carriage ever brought into Portsmouth, will run for public accommodation as heretofore.

Stable on State street, nearly opposite the Rockingham House. m31

Ocean House,

ISLES OF SHOALS.

THE subscribers respectfully inform their friends and the public that they have taken the well known House on SMUTTY NOSE, where they will be pleased to entertain all who may favor them with their patronage. Every attention will be given to make their sojourn with them pleasant during the hot months.

The Yacht SPY, CAPT GOODWIN, will run daily to the Islands from Pier Wharf, Portsmouth, at 10 o'clock, A. M., or on arrival of cars from Boston and Concord. LEMUEL L. CASWELL,
Je22 2mo EDWARD S. FOSS.

Appledore House,

ISLES OF SHOALS.

STEAM having died out in Portsmouth, the subscriber has the pleasure to announce to his old friends and the public, that he has chartered the beautiful YACHT SPY, of 40 tons burden, and has had the good fortune to secure the services of Capt. JAMES W. GOODWIN, the well known pilot, as master. His skill, carefulness and attention will secure to the travelling public a more safe, expeditious, comfortable and pleasant transit to and from the Islands, than has hitherto been attained.

She will leave LAIGHTON'S WHARF, foot of State Street, Portsmouth, every day (Sundays excepted) immediately after the arrival of the trains from Boston and Concord, and return in season for the evening trains.

Many alterations and improvements have been made in the establishment to make it more convenient and comfortable.

An abundant supply of Ice has been carefully laid in, and the facilities for fishing perfected.

To the invalid, the weary and the active pleasure seeker, this location presents attractions not equaled in New England.

Je17g THOMAS B. LAIGHTON.

Gerrish House,

KITTERY POINT, MAINE.

THIS Establishment having been put in perfect order, will open for visitors on the 15th of June. Every attention will be given to make this House one of the most pleasant Summer resorts. Kittery Point is celebrated for its conveniences for bathing, fishing and sailing. Arrangements have been made to afford every facility for parties to enjoy the above amusements. The Post Office is within three minutes' walk of the House. A coach runs regularly twice a day to and from the Point, via the U. S. Navy Yard, arriving at and leaving the City, of Portsmouth, three miles distant, on the arrival and departure of the cars. For further particulars address the proprietor, at Kittery Point, Me.

For Sale.

HOUSE on Christian Shore, suitable for two small families. If applied for immediately will be sold low. Apply to

April 17. E. S. WENDELL.

HOUSES FOR SALE.

THE DWELLING HOUSE, No. 9 School street. This is a well built house, two (high) stories, in good repair, and is convenient for one family or two families, or for a large Boarding House. It contains nine or more rooms and two sculleries, and has an excellent cellar under the whole house. The situation is central, being about equi-distant from the markets, factories and railroads. Connected with this house is a building which has been and may be occupied both as a barn and a work-shop. If not sold soon, a part or the whole of the premises will be let.

The DWELLING HOUSE No. 6 Green street. This house is fitted for two tenements; it is well built, was thoroughly painted and put in good order the last season, and is well calculated for two families, (having about 6 rooms each) and may be considered a good location for persons employed at the north end. It is centrally located between the different ship-yards in that section of the city, each tenement will be sold separately, if desired.

The DWELLING HOUSE No. 7 Liberty street, corner of Charles street. This house was formerly owned and occupied by the late Peter M. Lowd and is in good order. Attached to it is a lot of land large enough for a Stable or for another dwelling house. It would make a good place for the residence of a person employed at the shipyards across the river, or at the Navy Yard.

The DWELLING HOUSE No. 47 Bow street.—This house has been built but a few years, is well finished off, and is very convenient. In the rear is quite a large garden spot. This would be a desirable place for a person employed at the shipyards, or at the Navy Yard or Brewery opposite.

Also, for sale, a BUILDING LOT, on Mount Vernon street, (opposite No. 2,) with a small building thereon, which can be finished off into a Dwelling house.

All of the above property will be sold on liberal terms, if applied for soon. For further particulars apply to JOSEPH M. EDMONDS,

Feb. 27. No. 9 Islington street.

TO LET—The STORE on the corner of Vaughan and Bow streets. It was occupied as the first Union Store in this city, and is considered as a good stand for business. It is within a few rods of the Boston and Concord Railroad Depots. Possession can be had immediately.

FOR SALE—The HOUSE in the rear of the above, on Vaughan street—a convenient house for two families, and has been so occupied for about six years, by the same tenants. It rents for $160. For information, terms, &c., call on JOSEPH L. LOCKE, on the premises, or JOSEPH M. EDMONDS, 9 Islington st. m29

10,000 *Bottles Sold since the First of January.*

DR. ORDWAY'S
HUMOR DISCOVERY,
AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. Kelley, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattles ake, or rabid animal, resort to this Herb for a cure—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head.
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.

Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all-gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA.

A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS,

It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.

One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,

It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.

☞ Price $1.00. ☜

HE HAS ALSO A HUMOR SALVE,

Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier, will much facilitate a cure.

PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.

This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicine yet discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.

PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.

This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.

PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

PATENTS.
American and Foreign Office.
AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS.—The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and a collection of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ——.

"R. H. EDDY, Esq., Boston, MASS.

"SIR:—Your facilities for the prosecution of any business connected with this office, are equal to those of any other agent. I am very respectfully,
Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Boston Dec 7 1852 eodly

Morning Chronicle.

TUESDAY, JULY 25, 1854.

LAW—AND OATHS.

Newspapers, aye, and lawyers and judges also, have been greatly exercised for several months past, about the laws, whether they ought to be obeyed;—and about oaths, whether they are all binding. Some apparently religious writers have seemed horror-stricken at the revolutionary or rebellious idea that any man might innocently resist a human statute; and others dreadfully shocked at the impiety of violating an oath in any instance.

Much disputation and some confusion of ideas might be spared, if the writers would take time to consider, and find out what *law is*, and if they can, what they mean by the word *law*, as they use it; and also deliberate somewhat in the same manner on the nature and obligations of an oath.

If by *law* is only meant, any edict of any human power, then men must measure the justice or injustice of the edict first, and afterwards consider, if unjust, whether they are strong enough to fight, swift enough to flee, or crafty enough to evade the wicked statute. An example of this kind of statutes is found in the Annals of Pharaoh's reign, where he commanded the Israelitish mid-wives to kill all the Hebrew male children; a command which those noble women honored in the breach and not in the observance.

By *law*, in its full and proper sense, we mean a fixed rule of action. When we speak of the laws of nature, as applied to physical objects, we mean the immutable principles by which they and all their motions are governed. And moral laws, in our view, are no less fixed, no more changeable. It is a law of nature that one man ought not to injure another; and therefore murder and robbery or theft must always be crimes, whether any written statute forbids them or not.

Written statutes, which forbid these crimes, deserve the title of laws, because they are founded, like the laws themselves, in truth.—But written statutes which go to legalize and approve robbery and murder, and which aid one man to injure another, are not laws. No good man ought to obey them. No wise man will obey them or even submit to them one moment longer than he must.

Burke gives a beautiful definition, when he says, "Law is benificence working by rule."—But there is no benificence in wicked ordinances.

The nature and obligations of an oath are very simple to any man of a tolerable brain who will be at the trouble to think.

A man taking the usual oath in our courts, promises to tell the truth, and adds, "So help me God." That is to say, I pray God to help and bless me, *as* or *if* I tell the truth. And the judges and divines have told us that it also means "I pray God to hurt and curse me, *if* I tell a lie." This makes an oath and a curse mean about the same thing; and they are once or twice so used in the scriptures.—This is the common, and we believe the proper idea of a court oath.

Now we have no doubt that such an oath is binding, when a man swears to *tell the truth*.—But suppose he swears somewhere, in some corrupt body or secret clique, to tell a lie, or to do the same thing by withholding the truth? Will anybody say his oath binds him in this case? We trow not.

But all oaths are not made to secure truth in words; but some to secure fidelity in action. Major Wyse, of the army, swore the usual military oaths, which include strict obedience. Yet, when he was ordered to lead his command on board an old crazy trap of a steamer, he disobeyed—and yet no man believes he perjured himself—but every man, even the swindlers who meant to make money by the operation, and the other swindlers who connived at it,—ay, and the court which tried him, honor him for his manly stand.

A wicked sovereign of Israel said, "God do so to me, and more also, if the head of Elisha the Son of Shaphat stand on his shoulders this day." This was an oath and a curse; will any man say he ought to keep it?

Herod promised and swore to give Herodias the dancer, any thing she should ask: but when she said "give me John Baptist's head!" he was very sorry; nevertheless, for his oath's and honor's sake, he beheaded a prophet and more than a prophet. Will any body say, he ought to murder a saint to keep his oath? I any, speak!

Certain Jews bound themselves with a great curse, that they would neither eat nor drink till they had killed Paul. They *could not* kill him, for a Roman Captain carried him off under an armed escort. Did this accursed oath bind these poor frantic fools to starve themselves to death after Paul's escape?—Was it perjury? or was it any crime at all to break such an oath? Was it not rather a crime to make so foolish and wicked a promise, and a duty to break it as soon as possible?

We perceive then, that the moral force, both of statutes and oaths, depends upon their being good and just, or evil and unjust, exactly as the moral character of a man depends on his actions.

We purposely avoid making any particular application of these remarks to cases present or future; wishing the reader rather to ponder the general principles laid down, and pronounce them to be sound or unsound, according to his second sober thought.

CONGRESS.

SATURDAY, July 22.

SENATE.—Several memorials were presented and disposed of. A large number of bills from the House were read twice and referred.

Mr. Foot, of Vt., moved to reconsider the vote of yesterday whereby the Texas debt bill was passed. He said that the object he had in view was to amend the bill by reducing the sum to be paid to six million dollars. The motion was lost. Yeas 18, nays 22.

The bill from the House for the relief of the widow of Major Gen. Brown was taken up and passed.

The bill from the House providing for the erection of suitable buildings in New York, Philadelphia, and Boston for Post Office business and for court houses, was taken up, debated and referred to the judiciary Committee.

The Civil and Diplomatic bill was taken up and in order to save time, by previous agreement, was considered in Committee of the Whole and reported back without amendment. Mr. Hunter then offered numerous amendments, reported by the Finance Committee, some of which were adopted and the bill was postponed.

Senator Pearce, of Maryland, gave notice that he would move an adjournment of the Senate at three o'clock, to enable the members to attend the funeral of the lamented General Towson, upon whom the speaker delivered an appropriate and touching eulogy.

Mr. Chase offered a resolution for causing the votes on the Nebraska bill, and the various amendments that were proposed, to be printed. Laid over.

A message from the President was received, stating that he had signed the bill making appropriations for removal of obstructions in Cape Fear River, but he did so on the ground that the obstructions to be removed were placed there by the United States Government. The Senate then adjourned.

HOUSE.—A special committee was nominated to enquire into the charges made against Mr. Bayly. Mr. May made a report from the Committe on the Judiciary adverse to the New York City Temperance Alliance, praying Congress that the charter of Washington city may be so amended as to give the corporate authorites the power to prohibit the sale of intoxicating drinks.

Mr. Gerrit Smith moved that the report be recommitted with instructions to report a bill clothing the corporation of Washington with express and ample power to prohibit the sale of intoxicating drinks in places within its limits. Mr. Gerrit Smith continued his remarks at some length, and at 9 o'clock the house adjourned for want of a quorum.

A HORRIBLE PICTURE.—*Buffalo, July* 21.—In consequence of various rumers concerning a large number of deaths by cholera at the Poor House in this city, a large party of physicians and citizens visited the house to day, and found every thing connected with the establishment in the most horrible condition.—Within 24 hours 18 insane persons and seven others had died of cholera, and four more were in a collapsed state. The house was so foul and filthy that it was almost impossible for persons to enter it. The inmates are in the most awful condition imaginable. On enquiry it was found that they had been kept on insufficient food and that of the worst quality. Their regular diet has been for breakfast a piece of bread cut in pieces about five inches square, with coffee made from barley, and a piece of salt pork. For dinner they had the same fare, with the exception of the coffee, and for supper they had bread and tea. This is the kind of food the poor inmates have been accustomed to.

Scurvy was also found to be raging in the building as well as cholera. Several deaths from actual starvation had taken place, particularly among the children. These disclosures caused the most intense excitement throughout the city.

THE NORTHERN ALLIES OF SLAVERY.—We have more than once expressed the opinion that indignation against the South for the encroachments of slavery is misspent. The South pursues its aggressive policy no farther than it is led by Northern venal doughfaces, as is well expressed in the following sentence from the Columbus (Ga.) Sentinel:

"The South must unite. But even then we will be outflanked and overpowered. *We must have Northern allies.* If they will enlist under our banner, we will not stop to inquire into their antecedents, nor question their motives. *If they desire spoils, let them strip the dead.* They necessarily march *in the van*, and this is guarantee enough of their fidelity."

Wednesday evening, John Donaval attempted to go from Lynn to West Lynn, on the Portland train. After the train had started, he was informed that it did not stop at West Lynn, and was cautioned against attempting to get off at that place. He paid no attention to the caution, and when the train was passing through West Lynn, jumped off and was killed, almost instantly.

The Bank of Charleston, S. C., has voted an annual appropriation of one thousand dollars out of the current profits of its business, to be set apart as a fund for the relief of indigent retired officers, who may now or hereafter need pecuniary assistance for their support.

LEATHER BELTING.—Mr. C. L. Richards, of Boston, advertises in to-day's paper a full supply of *Leather Belts*. See the advertisement in another column.

FRUITS AND FARINACEA, the Proper Food for Man.—Part 2 of this work is just received from Fowlers & Wells, New York.

LOCAL.

For the Chronicle.

WATCHMAN, WHAT OF THE NIGHT?—On Friday night last, a gang of rowdies—drunk of course—made great disturbance in Fleet street, near Hanover. One more drunk, perhaps, than the rest—being prefaced by female shrieks of "murder"—made night hideous for more than half an hour by shouting and swearing; and, after disturbing the whole neighborhood, was *coaxed to go home!* It is said that some of the city watchmen were there, but did nothing except remonstrate.—If they were not there, they should have been and if they could not have got the noisy brawler off in any other way, should have knocked him down with their hooks, and carried him off to the watch house. But few words should be wasted in attempting to reason with such fellows, especially when they are outraging a whole neighborhood at midnight.

ONE OF THE WAKED-UP.

PROLIFIC.—Our friend Mr. Jas. Larrabee, has a cherry tree near his house in Commercial Alley that has so much fruit on it that he was almost tempted to cut the tree down and sell it by the bushel, as the most correct way of getting at the amount of fruit produced. As it was, he cut off one limb, which he got tired of carrying, so he gave it to us. The limb was 2 feet 3 inches in length, and had on it 250 cherries; a small twig attached had about 50 more within a space of six inches—and from the whole about 50 had been taken before we got it. Who knows that the bunches of grapes taken from Canaan were not limbs of black-heart cherry tree in full fruit?

DAMAGE BY LIGHTNING.—We understand that the Ocean House at Rye Beach, was slightly injured by lightning on Sunday afternoon. The rod being defective, the fluid left it for the bell-pull, knocked off the casing of the door, and ran over the house on the wires. Several persons standing in the entry were somewhat startled by the unceremoious entrance of the stranger.

Four trees standing near the centre of Exeter were struck on Friday last in a thunder storm of terrific violence.

At nearly the same time a barn was struck on Kingston plains, and a tree in Hampton Falls.

ROCKINGHAM FAIR.—The annual exhibition and fair of the Rockingham Agricultural Society will be held at Exeter on Thursday and Friday, Sept. 14th and 15th. The Address is to be by Hon. John W. Procter of Danvers, Mass.

POOR DOG.—The Boston Chronicle says, that in the destruction of the Winnicummett House at Boar's Head, the well known bird-dog "Bruce" perished in the flames.

CLIPPER SHIPS.—The celebrated clipper ships Wild Pigeon, built by George Raynes, of Portsmouth; the Sweepstakes, built by Westervelt, of New York, and the Flying Fish, built by Donald McKay, of Boston, arrived at New York on Wednesday, as we have announced in our ship news of yesterday.—These three ships passed the Straits of Sunda—the Sweepstakes and Wild Pigeon in company, and the Flying Fish four days previously, and after repeatedly falling in with each other on the passage, arrived within fourteen hours of the same time—the Wild Pigeon being first reported, then the Sweepstakes, and shortly after the Flying Fish.—*Boston Post of Saturday.*

MAN KILLED IN NEW YORK.—In a street fight in New York, on Wednesday night, a powerful Irishman named Gerarty knocked down a policeman, and was proceeding to serve others in the same manner, when a blow from the club of one of the policemen brought him to the pavement; he get up, however, and fought with desperation, but was again overpowered and brought to the station house, where he died soon afterwards. An examination was made upon his body, when one side of the skull was found to be split open.—Whether it was done by the policeman with his club, or was the result of his falling upon the pavement, will probably be ascertained to-day, when an inquest will be held upon the body.

MELANCHOLY DEATH.—From the South Boston Gazette we learn that on Monday, the 16th, a young man named Frank Cushing, residing at Harrison Square, Dorchester, left his home to go to work at Squantum. He did not appear on Monday or Tuesday, but on Wednesday his hat and coat were found on the bank of the Neponset river, and his body was found in the water below Neponset bridge. Intense grief, caused by the sudden death of his father last week, is supposed to have made him temporarily insane.

FATHER KROEGER.—The Cincinnati Gazette of Wednesday says:

"There is intense excitement among a portion of our German born citizens, at a villanous attack made upon the life, as is supposed, of Catharine Myers, the girl who made the charge of assault against Father Kroeger, the Roman Catholic Priest."

A river pirate, in the shape of a yacht called the Robert Marshall, was recently captured in New York harbor. She was in the practice of anchoring alongside of honest lighters and stealing their cargoes. Seven barrels of flour led to her pursuit and capture by a steam tug, a resolute member of a lighterage firm, and four police officers.

The Louisville Courier says that the Grand Jury of Hardin County has indicted four of the notorious persons who composed the Ward Jury, on a charge of perjury.

THE PROFITS OF GOING TO LAW.—The case of Israel P. Brown vs. the town of Plymouth, Vermont, which has so long been pending in the Windsor County Court, and has found its way once or twice to the Supreme Court and back, was decided last week in favor of the plaintiff, after occupying ten days of the time of the court in the trial. A piece of mountain land in the town of Plymouth, valued, as we are informed, at about forty dollars, is the matter in controversy.—The costs which have already been incurred in attempting to settle the question of title will probably exceed $3000.

EFFICACY OF COLD WATER.—The house of William H. Moody of Standish, Me., was struck by lightning, which demolished the chimney, burst a large hole in the ceiling of the sitting room, smashed the stove, and broke the door. It struck a daughter of Mr. Moody, six years old, on the back of the neck, the side, and leg, to the foot, leaving a discolored mark half an inch wide the whole distance. Cold water was at once copiously applied to the apparently dead girl, who, in twenty minutes from the time she was struck, revived and is expected to recover.

The High School Committee

WILL meet at the Girls' High School Room, on WEDNESDAY, Aug. 2d, at 9 o'clock, and in the Boys' High School Room on FRIDAY, Aug. 4th, at 9 o'clock, A. M., to attend to the examination of candidates for the respective schools.

No pupil will be admitted to either of the High Schools who is not eleven years old.

There will be no special re-examination of the unsuccessful candidates.

All applicants for admission to either of the High Schools, after the time specified by the Committee, must furnish satisfactory evidence that it was their intention to have been present at the time of examination, and that they were unavoidably prevented.

By direction of the High School Committee.

j24. JOHN BENNETT, Secretary.

The Motto of every true American, "The Extinction of Popery."

A BOOK FOR AMERICANS.

The Great Red Dragon;

OR THE MASTER-KEY TO POPERY.

By Anthony Gavin, formerly one of the Roman Catholic Priests of Saragossa, Spain. Boston: Published by Samuel Jones, No. 86 Washington street, 1854.

COMPRISING a complete history of Popery; giving a full account of all the customs of the Priests and Friars, and the Rites and Ceremonies of the Popish religion; to which is added an account of the Inquisition at Goa; the Inquisition at Macerata; a Preservative against Popery; a Summary of the Roman Catholic Faith; and a number of authenticated Damnations and Excommunications proclaimed by the Pope at sundry times against well known European personages.

Also a detailed account of the Roman Catholic Auricular Confession, comprising a number of private confessions of young women, and of Priests at the point of death; the deplorable practice of the Priests in selling permission to commit crimes, or Indulgences of the most awful and indelicate nature; to which is appended a List of Prices required for each sin; Extirpation of Heretics, and Notes giving a statement of the Power and Prospects of the Papal Church in the United States. PRICE $1.25.

Those wishing copies of the above work will please leave their names at the Store of JOSEPH P. MORSE, Congress street, and they will be supplied at an early day by the exclusive Agent for Portsmouth, who is now in the city.

jy22 P. H. JAQUES, Agent.

DYSENTERY, CHOLERA MORBUS

AND

DIARRHŒA ELIXIR,

PREPARED BY WM. R. PRESTON,

Druggist, Congress Block, Congress street.

AT this season of the year, when the above diseases are so prevalent, and in our larger cities, sweeping off a great portion of the population, it becomes every one to keep in his family a remedy that will immediately arrest its course and give certain relief. This is no quack nostrum; it has been used the present season by one of the first Physicians in New York, and in thirty cases out thirty-two of confirmed cholera, that came under his treatment, he was successful in the employment of the above remedy.

PRICE 50 CENTS A BOTTLE.

Sold by

jy21 1m*** WM. R. PRESTON, Apothecary.

Window Shades, Fixtnres, Tassels,

LATEST FOREIGN NEWS.

ARRIVAL OF THE PACIFIC.

NEW YORK, July 24.—The steamship Pacific, Capt. Nye, with Liverpool dates to the 12th inst. arrived here this morning.

At Liverpool, Cotton had declined about 1-16d; breadstuffs were declining. Flour down 9d a 1s, and Wheat 4 a 6d. Corn firm and in moderate demand.

The fleet has been withdrawn from Crenstadt without action.

Prussia has sent a special envoy to Austria to urge her to refrain from further steps with the allies, and also to unite with Prussia in new negotiations for peace. Very strong suspicions are entertained as to the faith of Austria towards the allies.

The Russians are not in a hurry to evacuate Wallachia. On the contrary the Czar's letter to Prussia says that under any circumstances he insists on retaining the line of the Soreth.

No actual war news, excepting an action at Gueergovo on the 5th of July, when the Turks crossed the river in force, and meeting the Russians, a battle ensued. The latter lost 500 killed and wounded.

The Russians still occupy the bank of the Danube from the Aluta downwards.

The French and English continue to concentrate between Varna and Schumla; 50,000 men are now there.

Greece is quite tranquil.

Montenegro professes friendship towards Austria.

From Asia no news has been received.

The allied fleets were at Balshik, doing nothing.

A difficulty occurred on board the ship Harkaway, at Liverpool, for Charleston. Lorenzo Canson, a seaman, was shot. Capt. Breck, and Mr. Devine, the mate, were apprehended.

The details of the Spanish insurrection are conflicting, but the Insurgents maintain themselves, although the country does not rise in their favor.

On the 6th, after a long struggle, the Turks got possession of the Islands of Mokan and Oineka, and subsequently Giurgeve. The Russians were totally defeated on the Wallachian territory. Prince Gortschakeff is forming a camp of 30,000 men between Bucharest and the Danube.

LATER FROM CALIFORNIA.

NEW YORK, July 23.—The steamer North Star, of the Independent Line, arrived here at 11 o'clock this forenoon, having connected at Panama with the steamer Uncle Sam which left San Francisco on the morning of the 1st inst.

The North Star brings about 300 passengers, and a small amount of treasure. She left Aspinwall on the 14th inst, and reports that the steamer Illinois with the mails and upwards of $1,000,000 of gold on freight was to sail for New York on the following day.

The news from California possesses no new feature of special interest. The appointment of delegates to the Democratic Convention for the nomination of Congressmen was the occasion, in various places, of much violence. So far as heard from, a large majority of the counties oppose the election of the U. S. Senator at the next session. This subject appears to have entered largely into the local elections, and bids fare to cost much trouble in the Democratic ranks.

The city of San Francisco continues to improve, notwithstanding the commercial embarrassments under which it is suffering. The probability of the City Council adopting the modified grades has given a fresh impetus to building operations, and it is confidently predicted that the ensuing six months will witness more marked improvements in the city than was ever apparent in any previous year. The mining prospects continue quite as encouraging as they have been at any previous time, and the return of the exportation of gold is not, it is said, a fair indication of the success of the miners. The yield of breadstuffs this year is far in excess of any previous season, and it estimated that more wheat and flour will be thrown upon the market than will be required for consumption in 18 months.

The Nicaragua steamer has about $1,000,000 on board.

H. L. Bateman made a murderous attack on Frank Soule, editor of the Chronicle, in San Francisco, on the 30th of June; the difficulty arose out of theatrical criticism. Revolvers were freely used, but without any very serious consequences.

The weather had been for some time unusually fine, and the physicians at San Francisco report that the city was never more healthy. Fine native fruit was beginning to arrive in the market in great abundance. Figs are found to thrive in Sonora Valley.

We have intelligence from Acapulco and the Isthmus; papers at hand make no allusion to the death of Alvarez.

We have Oregon dates to the 20th of June. The Convention question is admitted to have been lost by a small majority, although the returns of the elections were still incomplete.

We have nothing later from the Sandwich Islands.

Valparaiso dates are to the 14th of June, and Lima to 25th. The Revolution in Peru continues, and a decisive battle was daily expected.

U. S. REVENUE MARINE SERVICE.—The Washington Star announces that Joseph Amazeen of New Hampshire, has been appointed a 3d Lieutenant in the Revenue Marine service, and ordered to the cutter Harrison, at Oswego, N. Y.

DEATH OF MRS. HAILE.—We regret to learn that Mrs. Haile, the widow of Judge Haile, died at Warren last Thursday, after an illness of a few hours. She survived her husband less than a week. When he died she was in good health.—*Providence Journal.*

All Work warranted to give entire satisfaction.
No. 22 Market Street, Up Stairs.—No. 22.
m1 J. E. HAM, Draper and Tailor.

Marble Chimney Pieces.

THE PENRHYN MARBLE is a new and beautiful article, manufactured of Stone imported from England, which is enameled in imitation of of the richest and most expensive Spanish, Calaway, Egyptian, Tyronese, Lisbon, Sienna and other rare and desirable kinds of Marble—the imitation being so perfect as to challenge detection without the closest scrutiny. In style of finish these Chimney Pieces stand unequalled, being very highly polished—retaining their beauty much longer than common marble, and are not injured by oils, smoke, coal gas or acids. They have been extensively introduced into public and private buildings, giving perfect satisfaction to those who have used them. The best of references can be given, showing their adaptedness for general use, the subscriber having furnished some of the best dwelling houses in the city with them during the last two years.
While excelling all others in beauty of finish and appearance, they are sold much cheaper than any thing of the kind in the market. The subscriber has now in Store a complete assortment of the above named desirable Goods, to which he invites the attention of all interested.
G. N. CARLETON, 15 Daniel st.

American Porcelain Ware.

AN assortment just received at CITY SALES ROOM, 3 Congress Block, comprising
Tea Sets, Maize Jugs, handled & unhandled Teas, Spittoons, Muffins, Soap Boxes, Ash Trays, Brush Trays, Cigar Vases, Embossed Cane Heads, Shaving Boxes, Ink Stands, Paper Weights, Curtain Pins, Door Plates, Number Plates, Finger Plates, Shutter Knobs, Drawer Knobs, Bell Levers, and a handsome variety of Door Knobs. GEO. W. TOWLE & CO.

Saddlery Goods, &c.

JAMES LARRABEE, No. 5 Pleasant street, has just received a NEW STOCK of
SADDLERY GOODS,
Carefully selected in Boston, for his customers, to which he would invite the attention of those in want of
RIDING SADDLES AND BRIDLES,
Fancy Driving Bridles, Horse Nets, Whips,
or any other article in this line for use or ornament.
He manufactures to order, as heretofore, every description and quality of
HARNESSES,
From the lightest Trotting Rig to the heaviest Truck or Team Harness; and guarantees the stock and workmanship of Harnesses from this establishment to be equal to any manufactured for a similar price.
TRIMMING of new or old Carriages, in any desired style, carefully and neatly executed.
TRUNKS made to order—and any business in his line promptly attended to. Those in want will do well to call at
No. 5 Pleasant street, near Market Square,
where they will find all articles at the lowest prices for CASH.
Portsmouth, June 26.

Repairs on Vessels.

HAVING taken store No. 5 Commercial Wharf, from 10 Water street, will attend to repairs on vessels, in his line, such as Carpentering, Coppering and Caulking, on marine railway or beach. All orders promptly attended to. [3mje7*] S. B. LORD.

Garden Engines.

JUST received at "the sign of the Big Coffee Pot" a full supply of Garden or Fire Engines, which are respectfully commended by the subscriber to the notice of the public. Wherever these Engines have been introduced they have invariably given entire satisfaction. They are unsurpassed for power, capacity or usefulness. From the size of the air chamber sufficient power is obtained to enable one man to throw a steady stream of water to the height of fifty feet perpendicularly, thereby rendering it a desirable article as a
PROTECTION AGAINST FIRE.
And for washing windows of second and third stories of buildings, carriages, &c. With a newly invented water diffuser as a Garden Engine it defies competition. The diffuser is a perfect and simple article, and its superiority over the common rose sprinkler is that it will throw three times the quantity of water a much greater distance and spread it perfectly even, with less power applied. An Engine with a diffuser of this description, used in orchards and gardens to throw soap suds on the young trees, will destroy many kinds of vermin liable to injure the fruit and be an invaluable addition to the implements of the Nurseryman and Horticulturist.
jy8 J. E. CHAPMAN, 18 Daniel st.

BEWARE OF COUNTERFEITS!!

THE CELEBRITY OF
DR. S. O. RICHARDSON'S
Sherry Wine Bitters
HAS induced several persons, who do not possess the least medical knowledge, to assume the title of Doctor, and put before the public an article in imitation of my Medicine, which they call Sherry Wine Bitters, and attempt to palm them off under the pretence that I have retired from business, and also that they manufacture an improved article of the same name.
I would say to those in pursuit of health, to be sure that you obtain the REAL article, which may be known by the Fac Simile of my signature upon the outside wrapper, covering each bottle, and also by the copyright border of the same covering.
Sold wholesale and retail at my office, No. 51 Hanover street, Boston, and by all dealers in Medicine in every city, town and village throughout the New England States.

MEXICAN MUSTANG LINIMENT—

Every land has balled with
Xtacy this preparation whose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its tortures, have yielded to its
Magical influence; canners, contorted joints,
Ulcerated and swollen limbs that have
Suffered for years under the weight of disease,
Turn by its application to suppleness and health.
A remedy of such general usefulness that can
Restore newness of action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.

Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over diseases,
No matter of how long standing—sold at
The agents in all parts of the Union,

The Greatest Medical Discovery of the Age.

MR. KENNEDY, of Roxbury, has discovered in one of our common Pasture Weeds a remedy that cures Every Kind of Humor, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of crofula.

A benefit is always experienced from the first bottle and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing on the pastures and along old stone walls, should cure every humor in the system, yet it is now a fixed fact. If you have a humor lay aside your pride. There is no if's and ands, hums and ha's about its suiting some cases, but not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old; to old people of sixty. I have seen poor, puny, wormy looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some have taken it who have been costive for years, and have been relieved by it. Where the body is scouring it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings; but you must not be alarmed; they will disappear in from four days to a week. There is never a bad result from it; on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

Nothing in the annals of Patent Medicines has ever been received by the public with so much favor as this simple preparation. It is now composed of nine different herbs. In May, 1852, when I commenced making a business of it, I sold about two bottles per day. In June, 1852, I sold 2520 bottles. In October, 1852, I sold 6120 bottles. I hope you will tell that doing well; I do.

In my own practice, I confine it strictly to humors; but there are some who are so enthusiastic in its favor they think it has what cured them will cure any thing and any body; they accordingly recommend it for every variety of disease. In this way a great many virtues of it have been found that I never would suspect.

Cases of Dropsy, of many years standing, that withstood every known remedy, have been permanently cured.

I know one man to gain 17 lbs. by taking three bottles; another 11 lbs.; another 10 lbs.; and another 7 lbs.—the venerable master Robinson of Boston.

In diseases of the Liver it is a specific. I know several with yellow skin and yellow eyes, the body emaciated and the mind melancholy, get fat and cheerful by a few bottles.

I know several cases of Dropsy, and one particularly bad. A lady, aged 78, was unable to leave her house for the last twelve years, was so much relieved (she was reduced in circumference thirty-four inches,) as to visit her friends in several neighboring towns

Another had the Dropsy in her left leg, and was unable to walk for ten years, sometimes swelling to an enormous size; at last she contrived, making a bad wound which could not be healed; by taking three bottles and using two boxes of ointment, she is now quite well. Why it should make some fat and others lean, I cannot tell, but so it is.

I know of several cases of Kidney complaints cured by it. If the columns of a newspaper was a proper medium, I could tell of cases of this most distressing of all diseases that would make your heart bleed, that were perfectly cured by it.

It has been lately found to be a sure cure for Panama fever. In one case the first spoonful put off the fit two hours. One bottle cured him. Another came home to die, and was induced by his brother to try it. Two bottles cured him.

It likewise gives great relief in the Asthma. A lady in Lawrence was unable to lie in bed for a number of years; she can now lie without the least inconvenience.

In A lady in Weymouth lost the use of her left side by the Erysipelas. On the second bottle, she broke out in one mass of humor from head to foot. In a few days she was well.

It has lately been found to be equally good for humor outside as inside, (taking it inwardly in the meantime,) for Erysipelas, Salt Rheum, Pimples on the Face, or any eruption of the skin whatever; only where the flesh is very sore you must dilute it with water.

When made weak enough it is the best eye-wash for weak and watery eyes that I ever saw.

Others use it to cease the dandruff out of the hair and strengthen its roots, which it certainly does, and to crown all, it made the hair grow on bald heads, which, if I had not seen with my own eyes, I would not believe from you or anybody else.

As regards dieting, I never came across the first person that ever got any benefit from it. On the contrary, numbers came to death's door by it, as it gives the humors the upper hand. My medicine requires the most nourishing food you can get. It will soon give you an appetite.

Do not for a moment suppose that I warrant a cure of all those diseases, in every case. I merely tell you what it has done, hoping it will do the same for you. I do not warrant a cure in any disease but humors. Other diseases are mentioned in the pamphlet see the circular around each bottle.

No change of diet ever necessary. Eat the best you can get, and enough of it.

I have an herb, simmered in olive oil, scatters Scrofulous swellings of the neck and under the ears. Price fifty cents per box.

DIRECTIONS FOR USE. Adults, one table spoonful per day; children of eight years, dessert spoonful; from five to eight, tea spoonfuls. As no direction can be applicable to every case and constitutions, take enough to operate on the bowels twice a day.

Manufactured and for sale by DONALD KENNEDY, 120 Warren street, Roxbury.

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by

W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y. "
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
R. Parke, M.D., Prest. College of Physicians, Phila.
Dr. Del Valle, Prof. of Medicine, Havana.
Jose Eurenco de Luz, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spaine.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Med. Gen. British Army.
Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different devices, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swain, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

General Agents for the United States,

SCHIEFFELIN BROTHERS & CO.,

170 Williams St., cor. of Beekman, jel 6m

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Chest, Back, etc.

If it does not give relief, the money will be refunded; all that asks for a fair trial, and use it according to the directions.

It is an English Remedy, and was used by William IV. late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Liniment, but considers warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's Office, 240 Green

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc.

ISLES OF SHOALS.

THE subscribers respectfully inform their friends and the public that they have taken the well known house on SMUTTY NOSE, where they will be pleased to entertain all who may favor them with their patronage. Every attention will be given to make their sojourn with them pleasant during the hot months.

The Yacht SPY, CAPT GOODWIN, will run daily to the Islands from Pier Wharf, Portsmouth, at 10 o'clock, A. M., or on arrival of cars from Boston and Concord. LEMUEL L. CASWELL,

je22 2mo EDWARD S. FOSS.

Appledore House,

ISLES OF SHOALS.

STEAM having died out in Portsmouth, the subscriber has the pleasure to announce to his old friends and the public, that he has chartered the beautiful YACHT SPY, of 40 tons burden, and has had the good fortune to secure the services of Capt. JAMES W. GOODWIN, the well known pilot, as master. His skill, carefulness and attention will secure to the travelling public a more safe, expeditious, comfortable and pleasant transit to and from the Islands, than has hitherto been attained.

She will leave PIER WHARF, foot of State St., Portsmouth, every day (Sundays excepted) immediately after the arrival of the trains from Boston and Concord, and return in season for the evening trains.

Many alterations and improvements have been made in the establishment to make it more convenient and comfortable.

An abundant supply of Ice has been carefully laid in, and the facilities for fishing perfected.

To the invalid, the weary and the active pleasure seeker, this location presents attractions not equaled in New England.

je17g THOMAS B. LAIGHTON.

Gerrish House,

KITTERY POINT, MAINE.

THIS Establishment having been put in perfect order, will open for visitors on the 15th of June. Every attention will be given to make this House one of the most pleasant Summer resorts. Kittery Point is celebrated for its conveniences for bathing, fishing and sailing. Arrangements have been made to afford every facility for parties to enjoy the above amusements. The Post Office is within three minutes' walk of the House. A coach runs regularly twice a day to and from the Point, via the U. S. Navy Yard, arriving at and leaving the City of Portsmouth, Boston, Dedham, and on the arrival and departure of the cars. For further particulars address the proprietor, at Kittery Point, Me.

For Sale,

HOUSE on Christian Shore, suitable for two small families. If applied for immediately will be sold low. Apply to

April 17. E. S. WENDELL.

HOUSES FOR SALE.

THE DWELLING HOUSE, No. 9 School street. This is a well built house, two bright stories, in good repair, and is convenient for one family or two families, or for a large Boarding House. It contains nine or more rooms and two sculleries, and has an excellent cellar under the whole house. The situation is central, being about equi-distant from the markets, factories and railroads. Connected with this house is a building which has been and may be occupied both as a barn and a work-shop. If not sold soon, a part or the whole of the premises will be let.

The DWELLING HOUSE No. 6 Green street. This house is fitted for two tenements; it is well built, was thoroughly painted and put in good order the last season, and is well calculated for two families, (having about 6 rooms each) and may be considered a good location for persons employed at the north end. It is centrally located between the different ship-yards in that section of the city. each tenement will be sold separately, if desired.

The DWELLING HOUSE No. 7 Liberty street, corner of Charles street. This house was formerly owned and occupied by the late Peter M. Lowd and is in good order. Attached to it is a lot of land large enough for a Stable or for another dwelling house. It would make a good place for the residence of a person employed at the shipyards across the river, or at the Navy Yard.

The DWELLING HOUSE No. 47 Bow street.—This house has been built but a few years, is well finished off, and is very convenient. In the rear is quite a large garden spot. This would be a desirable place for a person employed at the shipyards, or at the Navy Yard nearly opposite.

Also, for sale, a BUILDING LOT, on Mount Vernon street, (opposite No. 2,) with a small building thereon, which can be finished off into a Dwelling House.

All of the above property will be sold on liberal terms, if applied for soon. For further particulars apply to JOSEPH M. EDMONDS,

Feb. 27. No. 9 Islington street.

TO LET—The STORE on the corner of Vaughan and Deer streets. It was occupied as the first Union Store in this city, and is considered as a good stand for business. It is within a few rods of the Boston and Concord Railroad Depots. Possession can be had immediately.

FOR SALE—The HOUSE in the rear of the above, on Vaughan street—a convenient house for two families, and has been so occupied for about six years, by the same tenants. It rents for $160. For information, inquire, &c., call on JOSEPH L. LOCKE, on the premises, or JOSEPH M. EDMONDS, 9 Islington st. m29

10,000 *Bottles Sold since the First of January.*

DR. ORDWAY'S HUMOR DISCOVERY,
AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by DR. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,
LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The native, when bitten by a rattlesnake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head.
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.
Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all-gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA.
A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS,
It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.
One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,
It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.
☞ **Price $1.00.** ☜

HE HAS ALSO A HUMOR SALVE,
Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.
PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.
This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicicine yet discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.
PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.
This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.
PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

PATENTS.
American and Foreign Office.
AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ———.
"R. H. EDDY, Esq., Boston, Mass.
"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,
Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Boston Dec 7 1853 eodly

For the Chronicle.

PAPAL PRETENSIONS.

In some parts of our country there seems to be some alarm lest the power of the Roman Pontiff shall ultimately prevail here.—But we have no fears that a religion made up, to so great a degree, of absurd and superstitious notions, while reason is left free to combat it, can undermine our free institutions. It is true that our own government could not stand a moment, should the Papal power, an absolute despotism, ever be established here. But who can believe that a majority of our citizens can ever be induced to think that a corrupt Papal Priesthood can pardon sins, or send souls to purgatory and by solemn masses or prayers take them out, for money? We admit that measures should be taken to counteract the influence of the priests over the ignorant, unlettered Catholics that crowd some of our cities and villages. Then the adults might be enlightened.

And means should be used to educate the Catholic children. The Pontiff can exercise no control, where knowledge prevails among the people generally. We view the Papal pretensions as supremely ridiculous, although their exposure may be useful. The London Quarterly Review of 1851 furnishes the following summary of the more important articles of faith, or maxims of Pope Gregory 7th, which formed the basis of his system.

"The Pope is the one Universal Bishop—with all power to depose, to restore, to translate and to alter the sees of other Bishops. No book is canonical without his sanction. No council can be called general without his precept; his legate presides in every Council with supreme power. Those who are not in communion with him cannot be Catholics; those who are excommunicated by him are cut off from the commerce of mankind.—[Their souls go to purgatory or else to hell.] He can depose emperors—he can absolve subjects from their allegiance. He is the judge of all men, and no man can judge him. He can reverse all sentences, and no one can reverse his. No one can be prevented appealing to the Holy See, and to it all great causes ought to be referred. All Princes kiss his feet. There is only one name in the world—that of the Pope, and by the merits of the blessed St. Peter he is endowed with *personal sanctity.*"

The Pope impiously pretends that he is the vice-gerent of God on earth, and holds to the infallibility of the Romish Church.

We believe that measures can and should be taken to convince the Catholics now here of the folly of their superstious belief; but to do this, the absolute despotism of the priest over them must first be broken. To guard against future danger of their immigration, and possible numerical strength, it becomes expedient to improve our naturalization laws. Indeed the latter may become necessary to guard against the great influx of certain other classes of ignorant foreigners. T.

A Badly Built Poor House.—A Buffalo paper, speaking of the Erie County Poor House, in that city, where a number of persons lately died of cholera, says:

We intended to speak of the ventilation, but we are sick of the subject. Suffice it to say that the ground floor is on a level with the earth, paved with bricks and laid directly open upon the clay; that all the dining, cook, and wash-rooms are on this floor; and that the steam and stench of all the household offices find vent only through the joints of the floor above—none of the ceilings are lathed and plastered; and the foul odors of the basement ascend to the fourth story. There is not a hall in the building; and the ventilators connecting with the flues are mere shams.—Throughout the whole house there is a sickening, decaying odor. All these remarks apply to both buildings alike.

One grand reason for the building of the well-contrived and spacious Alms-House in this city, was the impossibility of ventilating the old one; and another, its ill arrangement.

Thorough ventilations of halls and passages as well as rooms, is easily accomplished in a house thus contrived.

The arrests in Boston for two months past, for crime, quarreling, drunkenness, &c., have averged nineteen a day. On Friday evening last, an athletic Irishman named Quinn, while crazy drunk, burst into a store on Sea street and knocked a woman down. Her husband put him out of doors, when a general scuffle took place, in which Quinn drove a man head foremost through a window, cutting his head badly, and nearly severing his right hand from his arm at the wrist. He was then taken in charge by the police.—*Newburyport Herald.*

Laws prohibiting the use of the drinks which produce nearly all this crime, are doubtless unconstitutional. But it does seem as if there must needs be some angel or minister of grace to preach the gospel of temperence with a trumpet tongue.

The Wheeling Bridge.—The U. S. Marshal of the District of Columbia, has served an injunction in the suit of the State of Pennsylvania vs. the Wheeling and Belmont Bridge Co. The injunction is to prevent the rebuilding of the bridge at a less height than one hundred and eleven feet above the surface of the water. The structure, before it was blown down, was raised but ninety-two feet above the river.

Washington's Opinion.—An original letter of Washington, to Tobias Lear, written in Philadelphia, in May, 1794, while Mr. Lear was in Great Britain, charged with negotiations for the sale of a considerable portion of Washington's landed estate, has recently been published for the first time. In it he says:—"I have no scruple in disclosing to you that my motives to these sales are to reduce my income, be it more or less, to specialities,—that the remainder of my days may thereby be more tranquil and free from care. * * Besides these, I have another motive which makes me earnestly wish for these things; it is indeed more powerful than all the rest; namely, to liberate a certain species of property which I possess very repugnantly to my own feelings, but which imperious necessity compels, until I can substitute some other expedient by which expenses, not in my power to avoid, (however well disposed I may be to do it) can be defrayed."

Of course Gen. Washington here means his slaves, which he held "repugnantly to his own feelings" while he lived, and set free by his will when he died, directing at the same time that no one of them should be sent out of the State of Virginia.

We have no doubt there are as many Southern Washingtons now, in feeling, as there are Northern Doefaces; and we honor the one class as heartily as we pity the other. If there be any pitiable state on earth, it is the condition of that man who sells his manhood to those who use the treason and spit on the traitor.

Mormon Wives.—B. G. Ferris, in his recent work on Utah and the Mormons, gives a gloomy picture of the progress of the licentious and demoralizing system of polygamy, and its effects upon society, among the Mormons. Of the Mormon *wife*, distinguished from the concubine, he says:

"A *wife*, in Utah, cannot live more than half her days. In families where polygamy has not been introduced, she suffers an agony of apprehensien on the subject which can scarcely be conceived, much less described. There is a sad, complaining, suffering look, obvious to the most ordinary observer, which tells the story, if there were no other evidence on the subject. In most cases it is producing premature old age, and some have already sunk into an early grave under an intolerable weight of affliction. The man, from the moment he makes up his mind to bring one or more concubines into the family, becomes always neglectful, and in most cases abusive to his wife."

The disclosure of the filthy state of the Buffalo almshouse, where the inmates are but half fed, and the cholera finds abundant food, exhibits one of the seres of the north. It would be well for the free states to correct all their evils, and take good care of poor and miserable whites, before turning attention to the woes of other sections.—*Boston Post.*

Exactly: and by a similar rule we shall expect to see the Post convert all the whigs of Boston into good sound democrats, *before* it goes out on a mission to convert other sections of New England.

City Burials.—At a meeting of the meeting of the Mayor & Aldermen of Boston, July 24, the Committee on Cemeteries submitted a report with regard to intermural interments, accompanied with orders prohibiting the further issue of permits for burials under St. Matthew's church, South Boston, on and after the first day of September next, without the consent of the Mayor, and the same with regard to Copps Hill Cemetery, after this date until the first day of October. This report was laid on the table. (It is said that there are four thousand corpses under St. Matthew's church at the present time.)

If this latter statement is true, an order ought to be issued and enforced, which should forbid any living men to enter said church.

Washing Day in the Baltic.—Some of the officers in the Baltic have been writing home to their mammas for the means of washing and ironing their own linen, as well as for ample instructions how to 'get up' a shirt.—One gallant youth entreats that full directions may be given him as to the whole details of the operation, with hints as to where to begin and where to leave off. He also urges his mamma to send him by an early packet a package of starch, for though he is prepared to pay a stiff price for the article, he does not like to be without it, as its absence prevents him from showing a bold shirt front to the enemy.

It is to be regretted that the thoughts of our naval officers should be absorbed in the washing tub at such a critical moment, and there is reason to fear that they will have too many irons in the fire, if they are found ironing their own collars when they ought to be mangling the breast works of the enemy. A lieutenant with his hands in the suds can scarcely be prepared for a sudden emergency, and we would therefore recommend a naval hero to learn to 'rough it' with his linen as well as every thing else while on active service.—*Punch.*

Homicide by an Officer.—In New York on Thursday, Patrick Garetty died at a police station from the effects of a blow on the head given by an officer. He had been to a dance the night before, was a little intoxicated, made a noise, and was arrested, and while being forced to go up stairs at the station house was killed. His two sisters who were with him testified to the fact.

A Husband Awarded.—Among the rewards at the late celebration of the Jacksonville (Ill.) Female Seminary was the following: "To Miss Hattie J. Hine, for meekness of disposition, kind-heartedness and affection, a husband—Mr. Austin Rockwell." If such magnificent prizes are annually awarded, that school will become very popular.

LOCAL.

A Musical Treat.—Our music-loving readers will be glad to learn that, in accordance with the desire of many of our citizens, expressed through the papers and otherwise, Mr. Henry S. Thompson of Newburyport, with a select Glee Club of ladies and gentlemen from that city, will probably give a Concert in Portsmouth some evening next week. Mr. Thompson has a splendid voice, is one of the most pleasing of singers, and never fails of getting and entertaining an audience. The club he brings with him on this occasion is one of the best.

You came near losing your equilibrium, said the doctor to Mrs. Partington, helping her to regain an upright position when she was nearly crowded from the pavement in Court street, and hung, in the effort to save herself, like a mountain cliff above a stream. In her agitation a small bundle fell from her hands, which the doctor gallantly picked up and handed to her with the remark, You came near losing your equilibrium.

Yes, said the old lady, blowing the dust from the parcel, but it isn't that—I haven't got no equilibrium, it is blue yarn. The doctor moved on. Equilibrium! what a word that was for Mrs. Partington to treasure up, and it lay upon her memory as heavy as a fifty six until she got home. The dictionary—Worcester's Critical—was taken down and the meaning sought by Ike, who read the definitions in their order until he came to 'just poise.' What does that mean? asked Mrs. Partington, smiling, what sort of poise is that?

I guess it means avoirdupois, suggested Ike, who was well posted up in weights and measures, who could tell you to a kernel how much powder went to make an ounce, and whether a foot of match rope was less than twelve inches long.

Making fun of my heft, I dare say, said she; the doctor is such a funny man! I declare sometimes he is almost enough to make any body laugh. She here inhaled a pinch of particular, while Ike stood vainly endeavoring to balance his big dictionary upon his nose, with a strong chance of running his nose into knowledge.—*Boston Post.*

Interesting to the "Fancy."—The rumor we noticed yesterday, relative to a collision between the pugilists Morrissey and Hyer, their subsequent arrest and discharge, and agreement to meet early yesterday morning, at the Abbey Hotel, a sporting house on Bloomingdale Road, turns out to have been correct. The meeting at the "Abbey," whither a considerable number of the "sports," hearing of the affair, and anticipating some "rare sport," had assembled, did not amount to anything more than a wordy battle. Morrissey was anxious to fight it out by a "rough-and-tumble" battle, but to this Hyer demurred, and offered to enter into a regular ring fight with him, for a wager of $7,000 to $10,000. No blows were exchanged, but it is said that they both used very high words, and showed revolvers. It is not unlikely that something very serious will grow out of this affair, but it is to be hoped the vigilance of our police will be too much for these fighting gentlemen.—*N. Y. Express.*

The accounts from Barbadoes represent the cholera as raging to an unprecedented extent. About 2,200 had died in the small city of Bridgetown in less than 20 days, and on the last day that we have a report, (June 13th,) there were 244 victims, and there had been a steady increase for several days previously.—Reports from other West India Islands are far from satisfactory.

A despatch from New Orleans reports the steamer Illinois as having sailed from Aspinwall for New York on the morning of the 16th with the California mails, 400 passengers, and upwards of $1,000,000 in treasure.

An earthquake occurred at Panama on the 10th inst., which caused considerable damage.

Freights from China.—Emigration.—Freights from China to San Fransisco, are raling exceedingly high. Twenty-six dollars per ton, for ordinary vessels, is freely given, but the number of passengers coming excludes a large amount of goods which might be sent. From reliable sources, it is ascertained that a large emigration is on the way and waiting shipping at Hong Kong. During the present year, upwards of 3,000 Chinese have reached our shores, with a prospect of further additions, which may swell the number to 10,000 before the close of it.

Effects of Peach Tree Leaves.—The Rapphannock Virginian states that a gentleman near that place informs the editor of a strange circumstance which took place at his house a few days since. Having occasion to trim some peach trees, he left the branches lying in the yard. A number of young ducks partook of the leaves, which caused instant death. The leaves and kernels of peaches contain prussic acid in sufficient qdantity to endanger the life of persons and animals partaking of them.

Bed Room Carpets.—Miss Hale in her new Receipt Book gives the following information of interest to housekeepers, hotels, &c.:—"Sew together strips of cheap cotton cloth of the size of the room, and tack the edges to the floor. Then paper the cloth, as you would the sides of the room, with any sort of room paper. After being well dried, give it two coats of varnish, and your carpet is finished."

Comparative Cost of Soldiers in Europe.—The following statement, which is founded on *data* afforded by Marshal Marmont, will show the relative expense to their respective countries, of English, French, Prussian, Austrian, and Russian soldiers, viz.:—120 English soldiers cost as much as 538 Russian; 120 French cost as much as 350 Russian; 120 Prussian cost as much as 240 Russian; 120 Austrian cost as much as 212 Russian.

HARPER'S

Gazetteer of the World.

THIS work has been undertaken to supply a want which is daily becoming more pressing. The Censuses of the United States, of Canada and British America, of Mexico, of Great Britain, and of the Continental States of Europe, are all of recent date; and of these the most important have been laboriusly consulted, and their information arranged and classified in the best manner. The editor has had it constantly in view to present the greatest amount of useful matter in the smallest possible space; and confidently hopes that the work will fully meet the wants of the times, and that the general reader, the student and the artisan will find in it all the information adapted to their several requirements, brought down as nearly as possible to the present day, in a form more convenient than in any other work of similar character.

Harper's Gazetteer of The World is to be completed in TEN NUMBERS at 25 cents each; and will comprise about 1800 royal octavo pages, with seven new and accurate Maps.

☞ No. 1 can be seen, and subscriptions received, at the Bookstore of

jy19 LA FAYETTE LAIGHTON.

The Motto of every true American, "The Extinction of Popery."

A BOOK FOR AMERICANS.

The Great Red Dragon;

OR THE

MASTER-KEY TO POPERY.

By Anthony Gavin, formerly one of the Roman Catholic Priests of Saragossa, Spain. Boston: Published by Samuel Jones, No. 86 Washington street, 1854.

COMPRISING a complete history of Popery; giving a full account of all the customs of the Priests and Friars, and the Rites and Ceremonies of the Popish religion; to which is added an account of the Inquisition at Goa; the Inquisition at Macerata; a Preservative against Popery; a Summdry of the Roman Catholic Faith; and a number of authenticated Damnations and Excommunications proclaimed by the Pope at sundry times against well known European personages.

Also a detailed account of the Roman Catholic Auricular Confession, comprising a number of private confessions of young women, and of Priests at the point of death; the deplorable practice of the Priests in selling permission to commit crimes, or Indulgences of the most awful and indelicate nature; to which is appended a List of Prices required for each sin; Extirpation of Heretics, and Notes giving a statement of the Power and Prospects of the Papal Church in the United States. PRICE $1.25.

Those wishing copies of the above work will please leave their names at the Store of JOSEPH P. MORSE, Congress street, and they will be supplied at an early day by the exclusive Agent for Portsmouth, who is now in the city.

PORTSMOUTH WHARF COMPANY.

THE grantees of the Act incorporating the Portsmouth Wharf Company will hold their first meeting at the office of Alfred W. Haven, Esquire, in Portsmouth on Saturday the twenty ninth day of July, A. D. 1854, at two o'clock in the afternoon, at which time and place they will attend to the following business, to wit,

To see if they will adopt the act incorporating said company.

To choose Directors, Clerk, Treasurer and such other agents and officers as may be thought necessary at said meeting.

To fix and limit the capital Stock of said company and divide the same into shares.

To admit associates, make by-laws and to do any other business which may come before said meeting.

Portsmouth, July 17, 1854.

JOS. HARVEY,
WM. MARTIN,
A. W. HAVEN,

Grantees authorised to call the first meeting of said company. jy18

The High School Committee

WILL meet at the Girls' High School Room, on WEDNESDAY, Aug. 2d, at 9 o'clock, and in the Boys' High School Room on FRIDAY, Aug. 4th, at 9 o'clock, A. M., to attend to the examination of candidates for the respective schools.

No pupil will be admitted to either of the High Schools who is not eleven years old.

There will be no special re-examination of the unsuccessful candidates.

All applicants for admission to either of the High Schools, after the time specified by the Committee, must furnish satisfactory evidence that it was their intention to have been present at the time of examination, and that they were unavoidably prevented

By direction of the High School Committee.

jy24. JOHN BENNETT, Secretary.

DYSENTERY, CHOLERA MORBUS

AND

DIARRHŒA ELIXIR,

PREPARED BY WM. R. PRESTON,

Druggist, Congress Block, Congress street.

AT this season of the year, when the above diseases are so prevalent, and in our larger cities, sweeping off a great portion of the population, it becomes every one to keep in his family a remedy that will immediately arrest its course and give certain relief. This is no quack nostrum; it has been used the present season by one of the first Physicians in New York, and in thirty cases out thirty-two of confirmed cholera, that came under his treatment, he was successful in the employment of the above remedy.

PRICE 50 CENTS A BOTTLE.

Sold by

jy21 1m|rs |WM. R. PRESTON, Apothecary.

Window Shades, Fixtures, Tassels,

NEW MUSIC received every week at JAMES H. HEAD'S Book Store, 18 Exch. Building.

CONGRESS.

MONDAY, July 24.

SENATE.—Mr. Petit made a personal explanation in regard to Mr. Benton's charges against him. He denounced Mr. Benton in the strongest terms as a malicious falsifier, imbecile dotard, &c., and was frequently called to order.

Mr. Sumner presented a petition from Charles McKenzie, a British subject, praying that the large fees exacted on Foreign Patents be abolished.

Mr. Mason objected to the reception of the petition. Foreigners cannot communicate with the government through its legislators.

The Civil and Diplomatic bill was taken up. The bill was postponed, and after a lengthy executive session Senate adjourned.

☞ Washington despatches of the 25th, speak of the Reciprocity Treaty as sure to be ratified some days hence; of the River and Harbor Bill to be modified to suit the President's views; and of a proposal, by Russia, to sell us her North American territory, (including the bears, we suppose.)

FROM SAN JUAN.

NEW YORK, July 24.—The steamship Prometheus arrived at half past 5 o'clock, from San Juan, Nicaragua. She brought 330 passengers, $800,000 gold dust on freight, and $200,000 in the hands of passengers.

The United States Sloop-of-war Cyane arrived at San Juan on the 11th, to demand a full and satisfactory apology for the insult to Mr. Borland. The authorities and inhabitants refused to make the slightest apology. Capt. Hollins, on the 12th, issued a proclamation to those parties, that, unless an apology was made by 9 A. M. of the 13th, he should proceed to bombard the town. No apology came.

The Captain, in the mean time, took possession of the Transit Company's steamers, and sent them to the town, offering protection to all who may wish it. Precisely at the time designated, the cannonading commenced, and continued, without intermission, until 3 P. M. No disposition being manifested, on the part of the inhabitants, to come to terms, at 4 P. M., a large party was landed from the Cyane, who burned the town, and nothing now remains but two small buildings in the suburbs, to mark the spot. No lives were lost.

Mr. Scott, agent of the Transit Company, tendered a free passage, per the Prometheus, to all who wished to leave, and a few accepted the offer.

The Cyane intended sailing for Boston on the 17th, taking the Hon. Mr. Fabins, our commercial agent.

The British war sch Bermuda, West India mail steamer Dee, and a British Merchantman, were witnesses to the scene.

The rainy season had commenced in earnest.

The difficulties at San Juan did not interfere with the transit of passengers.

SUICIDE AT MANCHESTER.—On the morning of the 22d inst., as some men connected with the Gas Works, came across the Railway Bridge from Ward 7, they discovered the body of a man near the eastern pier, lying in the water. The officers were soon notified and police officer Lowell immediately visited the spot, in company with others. They found the body in water about a foot deep, and some twenty feet from the shore. By its side was one of Colt's pistols which had been discharged. On examination it appeared that the deceased was a young man by the name of Austin A. Morse, who formerly resided in this city, but who has of late lived in Salem, Mass., with his mother. He came to town on Wednesday, and stopped with his grandfather, Mr. David Graves. On Friday afternoon, he gave a watch to Mrs. Graves which she had formerly given him. He told her he wished her to have it, as she had been so kind to him during his illness a year ago. He afterwards went out, as his friends supposed, to see some young acquaintances. His absence caused the family much anxiety and this morning they were making search for him when they received intelligence of his death.

No cause is assigned for so rash an act, though it is said that for the past year, he has appeared very singular at times, and it is supposed that he must have been temperarily deranged. In the pocket was found a memorandum containing his name. His age was about 21.—*Manchester Miror.*

FIRE AND RIOT AT ST. LOUIS.—On Tuesday last, the composition roofing manufactory of Messrs. C. M. and H. M. Warren, at St. Louis, was destroyed by fire, with a number of contiguous outbuildings. After the fire, one of the companies went into a beer house close by and demanded beer, which the proprietor could not furnish, as his pump was out of order. An attack was then commenced on the landlord, Martin Graf, when he fired two pistols into the crowd, slightly wounding three firemen.

☞ The Cholera has broken out at Niagara Falls, among the Irish laborers on the canal, and about 60 died in three days.

Marble Chimney Pieces.
THE PENRHYN MARBLE is a new and beautiful article, manufactured of Stone imported from England, which is enameled in imitation of of the richest and most expensive Spanish, Galway, Egyptian, Pyronese, Lisbon, Sienna and other rare and desirable kinds of Marble—the imitation being so perfect as to challenge detection without the closest scrutiny. In style of finish these Chimney Pieces stand unequalled, being very highly polished—retaining their beauty much longer than common marble, and are not injured by oils, smoke, coal gas or acids. They have been extensively introduced into public and private buildings, giving perfect satisfaction to those who have used them. The best of references can be given, showing their adaptedness for general use, the subscriber having furnished some of the best dwelling houses in the city with them during the last two years.
While excelling all others in beauty of finish and appearance, they are sold much cheaper than any thing of the kind in the market. The subscriber has now in Store a complete assortment of the above named desirable Goods, to which he invites the attention of all interested.
je21 G. N. CARLETON, 15 Daniel st.

American Porcelain Ware.
AN assortment just received at CITY SALES ROOM, 3 Congress Block, comprising

where they will find all articles at the lowest prices for CASH.
Portsmouth, June 26.

Repairs on Vessels.
HAVING taken store No. 5 Commercial Wharf, from 10 Water street, will attend to repairs on vessels, in his line, such as Carpentering, Coppering and Caulking, on marine railway or beach. All orders promptly attended to. [3mje7*] S. B. LORD.

Garden Engines.
JUST received at "the sign of the Big Coffee Pot" a full supply of Garden or Fire Engines, which are respectfully commended by the subscriber to the notice of the public. Wherever these Engines have been introduced they have invariably given entire satisfaction. They are unsurpassed for power, capacity or usefulness. From the size of the air chamber sufficient power is obtained to enable one man to throw a steady stream of water to the height of fifty feet perpendicularly, thereby rendering it a desirable article as a PROTECTION AGAINST FIRE,
And for washing windows of second and third stories of buildings, carriages, &c. With a newly invented water diffuser as a Garden Engine it defies competition. The diffuser is a perfect and simple article, and its superiority over the common rose sprinkler is that it will throw three times the quantity of water a much greater distance and spread it perfectly even, with less power applied. An Engine with a diffuser of this description, used in orchards and gardens to throw soap suds on the young trees, will destroy many kinds of vermin liable to injure the fruit and be an invaluable addition to the implements of the Nurseryman and Horticulturist.
jy8 J. E. CHAPMAN, 18 Daniel st.

BEWARE OF COUNTERFEITS!!
THE CELEBRITY OF
DR. S. O. RICHARDSON'S
Sherry Wine Bitters
HAS induced several persons, who do not possess the least medical knowledge, to assume the title of Doctor, and put before the public an article in imitation of my Medicine, which they call Sherry Wine Bitters, and attempt to palm them off under the pretence that I have retired from business, and also that they manufacture an improved article of the same name.
I would say to those in pursuit of health, to be sure that you obtain the REAL article, which may be known by the Fac Simile of my signature upon the outside wrapper, covering each bottle, and also by the copyright border of the same covering.
Sold wholesale and retail at my office, No. 51 Hanover street, Boston, and by all dealers in Medicine in every city, town and village throughout the New England States.
N. B.—OTIS MORTON, JR., is my sole Travelling Agent for the N. E. States. je23 3m2aw*

MEXICAN MUSTANG LINIMENT—

Every land has failed with
Xtacy this preparation whose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Netralgia, with its tortures, have yielded to its
Magical influence; cancers, contorted joints,
Ulcerated and swollen limbs that have
Suffered for years under the weight of disease,
Turn by its application to suppleness and health.
A remedy of such general usefulness that can
Restore newness of Action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.

Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its powers over diseases,
No matter of how long standing—sold at
The agents in all parts of the Union,

The Greatest Medical Discovery of the Age.

MR. KENNEDY, of Roxbury, has discovered in one of our common Pasture Weeds a remedy that cures Every Kind of Humor, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of crofula.

A benefit is always experienced from the first bottle and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing on the pastures and along old stone walls, should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. There is no if's and ands, hums and ha's about its suiting some cases, but not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old; to old people of sixty. I have seen poor, puny, wormy looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in costiveness and dizziness. Some have taken it who have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings; but you must not be alarmed; they will disappear in from four days to a week. There is never a bad result from it; on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

Nothing in the annals of Patent Medicines has ever been received by the public with so much favor as this simple preparation. It is now composed of nine different herbs. In May, 1852, when I commenced making a business of it, I sold about two bottles per day. In June, 1853. I sold 4320 bottles. In October, 1853, I sold 6120 bottles. I hope you will call that doing well; I do.

In my own practice, I confine it strictly to humors; but there are some who are so enthusiastic in its favor they think what cured them will cure any thing and any body; they accordingly recommend it for every variety of disease. In this way a great many virtues of it have been found that I never would suspect.

Cases of Dyspepsia, of many years standing, that withstood every known remedy, have been permanently cured.

I know one man to gain 17 lbs. by taking three bottles; another 11 lbs.; another 10 lbs.; and another 7 lbs.—the venerable master Robinson of Boston.

In diseases of the Liver it is a specific. I know several with yellow skin and yellow eyes, the body emaciated and the mind melancholy, get fat and cheerful by a few bottles.

I know several cases of Dropsy, and one particularly bad. A lady, aged 70, was unable to leave her house for the last twelve years, was so much relieved (she was reduced in circumference thirty-four inches,) as to visit her friends in several neighboring towns

Another had the Dropsy in her left leg, and was unable to walk for ten years, sometimes swelling to an enormous size; at last bursted, making a bad wound which could not be healed; by taking three bottles and using two boxes of ointment, she is now quite well. My wife thinks it could make some fat and others lean, I cannot tell, but so it is.

I know of several cases of Kidney complaints cured by it. It the columns of a newspaper was a proper medium, I could tell of cases of this most distressing of all diseases that would make your heart bleed, that were permanently cured by it.

It has been lately found to be a sure cure for Panama fever. In one case the first spoonful put off the fit two hours. A bottle cured him.

Another came home to die, and was induced by his brother to try it. Three bottles cured him.

It likewise gives great relief in the Asthma. A lady in Lawrence was unable to lie in bed for a number of years; she can now lie without the least inconvenience.

Ida lady in Weymouth lost the use of her left side by the Erysipelas. On the second bottle, she broke out in one mass of humor from head to foot. In a few days she was well.

It has lately been found to be equally good for humor outside as inside, (taking it inwardly in the meantime,) for Erysipelas, Salt Rheum, Pimples on the Face, or any eruption of the skin whatever; only where the flesh is very sore you must dilute it with water.

When made weak enough it is the best eye-wash for weak and watery eyes that I ever saw.

Others use it to cleanse the dandruff outof the hair and strengthen its roots, which it certainly does, and to crown all, it made the hair grow on bald heads, which, if I had not seen with my own eyes, I would not believe from you or anybody else.

As regards dieting, I never came across the first person that ever got any benefit from it. On the contrary, numbers came to death's door by it, as it gives the humors the upper hand. My medicine requires the most nourishing food you can get. It will soon give you an appetite.

Do not for a moment suppose that I warrant a cure of all those diseases, in every case. I merely tell you what it has done, hoping it will do the same for you. I do not warrant a cure in any disease but humors. *I never write.* For further particulars see the circular around each bottle.

No change of diet ever necessary. Eat the best you can get, and enough of it.

I have an herb, simmered in olive oil, scatters Scrofulous swellings of the neck and under the ears. Price fifty cents per box.

DIRECTIONS FOR USE. Adults, one table spoon ful per day; children of eight years, dessert spoonful; from five to eight, tea spoonfuls. As no direction can be applicable to all constitutions, take enough to operate on the bowels twice a day.

Manufactured and for sale by DONALD KENNEDY, 120 Warren street, Roxbury.

For sale by E. H. ROLLINS, Concord, N. H.

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by

W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y.
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
T. Parke, M.D., Pres't College of Physicians, Phila.
Dr. Hall Davis, Prof. of Medicine, Havana.
Jose Eourenco de Luz, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spaine.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swain, copy right secured

ALSO, SWAIM'S VERMIFUGE.

A valuable family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet which may be had gratis accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

General Agents for the United States,

SCHIEFFELIN BROTHERS & CO.,

170 Williams St., cor. of Beekman, New York.

je1 6m

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Chest, Back, &c.

If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.

It is now English money, and was used by William IV. late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Linimeut, but considers warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's Office, 240 Green

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc. which street, New York.

Agents in Portsmouth—B. Hutchings, S. Gilbert, W. R. Preston and J. H. Wells. n21 eod&wly

For Sale.

HOUSE on Christian Shore, suitable for two small families. If applied for immediately will be sold low. Apply to

April 17. E. S. WENDELL.

HOUSES FOR SALE.

THE DWELLING HOUSE, No. 9 School street. This is a well built house, two (high) stories, in good repair, and is convenient for one family or two families, or for a large Boarding House. It contains nine or more rooms and two sculleries, and has an excellent cellar under the whole house. The situation is central, being about equi-distant from the markets, factories and railroads. Connected with this house is a building which has been and may be occupied both as a barn and a work-shop. If not sold soon, a part or the whole of the premises will be let.

The DWELLING HOUSE No. 6 Green street. This house is fitted for two tenements; it is well built, was thoroughly painted and put in good order the last season, and is well calculated for two families, (having about 6 rooms each) and may be considered a good location for persons employed at the north end. It is centrally located between the different shipyards in that section of the city. each tenement will be sold separately, if desired.

The DWELLING HOUSE No. 7 Liberty street, corner of Charles street. This house was formerly owned and occupied by the late Peter M. Lowd and is in good order. Attached to it is a lot of land large enough for a Stable or for another dwelling house. It would make a good place for the residence of a person employed at the shipyards across the river, or at the Navy Yard.

The DWELLING HOUSE No. 47 Bow street.—This house has been built but a few years, is well finished off, and is very convenient. In the rear is quite a large garden spot. This would be a desirable place for a person employed at the shipyards, or at the Navy Yard nearly opposite.

Also, for sale, a BUILDING LOT, on Mount Vernon street, (opposite No. 2,) with a small building thereon, which can be finished off into a Dwelling house.

All of the above property will be sold on liberal terms, if applied for soon. For further particulars apply to JOSEPH M. EDMONDS,

Feb. 27. No. 9 Islington street.

TO LET—The STORE on the corner of Vaughan and Deer streets. It was occupied as the first Union Store in this city, and is considered as a good stand for business. It is within a few rods of the Boston and Concord Railroad Depots. Possession can be had immediately.

FOR SALE—The HOUSE in the rear of the above, on Vaughan street—a convenient house for two families, and has been so occupied for about six years, by the same tenants. It rents for $180. For information, terms, &c., call on JOSEPH L. LOCKE, on the premises, or JOSEPH M. EDMONDS, 9 Islington st. m29

10,000 *Bottles Sold since the First of January.*

DR. ORDWAY'S
HUMOR DISCOVERY,
AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,
LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattlesnake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 2 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head.
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice,
Its effects are new and wonderful, removing obstructions from the liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all-gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA.
A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS,
It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.
One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,
It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.
☞ **Price $1.00.** ☜

HE HAS ALSO A HUMOR SALVE,
Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.
PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer..
This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicine has ever been discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.
PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.
This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.
PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

ORDWAY & WADLEIGH,
LAWRENCE, MASS.,
SOLE PROPRIETORS.

PATENTS.
American and Foreign Office.
AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ———.

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,
Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

No. 17 Congress Street,.....PORTSMOUTH, N. H.

CONTINUES TO PROSECUTE CLAIMS of every description against the United States, such as Pensions, Bounty Land, back pay, and three months extra pay to the Soldiers and Marines of the Mexican War, and all other claims arising out of said War. Also Extra Pay to the Sailors and Marines who were in government vessels on the coast of California, from the commencement of the war with Mexico until Feb. 1852, or during any part of that time, and all other Claims for Naval Service. Pensions to the Widows of Revolutionary Soldiers, and to the Widows of officers and soldiers in any of the wars who have died in service, or since their discharge, by reason of wounds received or disease contracted while in the line of duty. Also, to officers and soldiers disabled in the service, and to the Widows of officers, sailors and marines who have died in the Naval service.

BOUNTY LAND obtained under the recent Acts of Congress.

The highest cash price paid for Land Warrants.

Morning Chronicle.

THURSDAY, JULY 27, 1854.

For the Morning Chronicle.

GROSS "FRAUD" COMMITTED

BY THE U. S. GOVERNMENT.

Dear Uncle Toby.—The writer of this little communication, like you, has suffered in consequence of the decision of our wise Postmaster General, in pronouncing it "fraudulent" to cut the stamp from the envelope of which it is part and parcel and use it upon another. Having occasion to use envelopes of a size & kind which our Postmaster could not at the time furnish, I procured them at the Boston office, and out of a goodly number which I purchased there were scarcely half a dozen perfect ones among the lot. And I should say that with those unfit for use and a few misdirected, my loss must amount to twenty-five per cent. on the purchase, which 25 per cent. goes into the pockets of rich and greedy Uncle Sam, while I have to suffer—I, who can earn no more than money enough to feed and find myself and family, and buy a reasonable amount of *innocent* pleasures for my innocent children—big and little. This is only one, and a little one at that, of the thousand evils and abuses which exist in our country, and are practiced by our officials and Representatives, high and low, every day. Hit the old fellow a dig in the ribs for *this*, and for *other* greater evils, prick him and *keep pricking* him until he smarts and wakes up to a proper sense of *his* duty and the *people's* wants. Give them no rest. No Catholics shall be office holders! Reform! is our watch word—*that is*, the *Know Nothings'*.

YOU "KNOW" WHO.

Uncle Toby assures this correspondent that Uncle Sam has not inflicted any injury of the postage kind upon Uncle Toby, since the Post-office was turned into confusion by removing Mr. McLean from the Post office to the bench, by Gen. Jackson. On this occasion, the *experiment* of throwing nearly all newspapers out the Mail stages, and the sudden removal of Post Masters, injured Uncle Toby's business to the extent of two or three thousand dollars, and fastened pecuniary shackles upon him, which he was never able entirely to remove.

He pities both * and the other complainant, who have had their pockets picked of quarters or dimes by Uncle Sam; though these gains go to swell the public public purse.

In his own case, where he lost thousands, no one gained. The revenue of the Post-office suffered a little, and a prosperous newspaper establishment was ruined by ignorant and reckless changes made in the Post Office Department. The new Post office men learned their trades in a year; and in a year or two more, the newspaper carrying was *put back* on its old footing, and even improved! But for him, it was too late: it did not repair nor touch his injury.

We suppose the sufferers by bad envelopes have no remedy on government but the right to grumble. In the English Post office we suppose the writers could get their pay for bad stamps. But as our government cannot be sued, we must pocket all such affronts as calmly as we can.

THE PAULINE CHART.—This Chart is a Caligraphic and Lithographic sheet, of great beauty and no little utility. It was prepared by J. W. Bonham, a Baptist student for the ministry, at Newton, Mass, and lithographed by our townsman Bufford, 260 Washington st. Boston. It is for sale, as advertised this day, by Mr. Shores, bookseller, of this city. A glance at the chart will show any event in the Life of Paul the Apostle, with the place where it occurred, the supposed date, and the chapter and verse where mentioned or described.

☞ Blackwood's Magazine, for July 1854, is just received from the publishers, Leonard Scott & Co. New York. It contains ten articles.

PROMOTION.—Lieut. A. M. Chisholm, 42d Royal Highlanders, who attended the Boston Railroad Jubilee, in the full costume of that splendid corps, and who recently ran away with an heiress in Scotland, and subsequently married her, has been promoted to the rank of Captain in the 42d, without purchase.

The "paper don't say" whether this promotion is the reward of Lt. Chisholm's gallantry in running off with the heiress, or of some other equally meritorious exploit.

UNITED STATES JURISDICTION.—The Attorney General of the United States, in disposing of a question recently arising in connection with the Government property at Harper's Ferry, has decided that officers of the Government or other persons residing on land ceded by any of the States to the United States, are not subject to be taxed by the authorities of the States, and are not, in general amenable to the State laws or municipal regulations.—*Washington Star.*

A singular case of suicide occurred at New York on Thursday. Harriet S. Gardner, a young woman of respectable character, who was supposed by all her relatives to be unmarried, told an acquaintance a week ago that a few nights before that, she, while lying awake in bed had seen her husband standing before her, and that by Friday she would be dead with him. She took poison and died.

A WELL SPENT LIFE.

A capital correspondent of the Boston Transcript, dating New York, July 13th, writes as follows, concerning Musical Entertainments and Publications in New York—Lowell Mason and his forthcoming work—general Literature, &c.:

Musical amusements are as dull in New York just now, as fancy stocks in Wall street. The Italian opera excites no enthusiasm; the excessive heat of the weather being too much for us all, even when coaxed by the murmuring waves which plash around Castle Garden. This is an inauspicious time for the opera: most of our resident opera goers are out of town, and strangers are exceedingly scarce. Beside, Maretzek has made a great mistake in putting his tickets at one dollar instead of fifty cents; his company not being sufficiently good to pull unusually hard upon public curiosity, taste, or pocket: consequently, the audiences at Castle Garden are very thin, and whoever furnishes the funds must be losing money rapidly.

Great activity prevails among the publishers of sheet music and music books. Mr. Lowell Mason, is engaged upon his crowning musical work. It is to be called "*The Hallelujah,*" and will contain the maturest flowerings of a mind of great natural strength and activity, enriched with half a century of assiduous and well directed culture. Mr. Mason is the author of fifty musical works, over forty of which were written and published in Boston, two in London, and four in New York.—Among these are the *Boston Academy's Collection*, and the famous *Handel and Haydn Society's Collection*, which ran through thirty five editions; also, the *Carmina Sacra*, which has had a larger sale than any other music book ever published.

Beside editing the fifty books mentioned, Mr. Mason has always been extensively engaged in lecturing and teaching, and how he has ever got through with all his work is a mystery. I have been informed that it has always been his practice to rise about eight o'clock and go down to breakfast, where there would be lying beside his plate a batch of music proof, which he would examine and correct while breakfasting. At 9 o'clock, his teaching and other public labors would begin, and continue until dinner time. By the side of his plate at dinner would be another lot of proof, which he would correct as he dined.—After dinner, he would again engage in teaching, lecturing, or other business; and at tea there would be more proof to be examined and corrected. After tea, he would give a lesson in music to some class or to his choir, unless otherwise engaged, and then return home and work till midnight, and often till 2 o'clock in the morning.

It is said that for twenty years he was never known to spend even half a day in mere amusement. His labor was a labor of love, and consequently his work was his recreation. It is thus that Mr. Mason has been enabled to write fifty works, instruct thousands in music, lecture far and wide, travel over the United States and Europe, amass a splendid fortune, and give away another fortune, for his industry is only equalled by his benevolence.

And now, "*The Hallelujah*" is to be the crowning work of this long and useful life.—It will doubtless be a magnificent production, worthy of its author and our country, which has thus far taken the lead of all the world in works of Psalmody.

In general literature, there is very little being done just now. Publishers are shy of bringing out new works, as they consider the thing has been greatly overdone during the past year. Of some twenty books, which have been published this season, only three have had a respectable sale when judged by the present standard, and these are the "Lamplighter," "Mrs. Partington," and the "Second Series of Fern Leaves." All the rest have slept soundly—a warning to those writers who mistake their faculty of *appreciating* the works of genius, for the ability to *do* works of genius. X.

PIERCE GENEALOGY.

The venerable Joshua Coffin, in the Newburyport Herald, gives us the following piece of corrected genealogy.

It has been several times asserted in books, papers and public addresses, that President Pierce is a descendant from the Newbury family of that name, and particularly from Benjamin Pierce, who died May 19th, 1711, aged 42 years, and who it is said was buried in the Byfield burying ground. Neither of these statements is true. I have never heard or known of any person named Pierce, who either lived or was buried in Byfield. A Benjamin Pierce, whose epitaph commences thus—"Pillar 'i th' State he was"—was buried in the first parish burying ground in Newbury, but neither he or his father Daniel, or any of the Newbury Pierces was the ancestor of President Pierce, who is a descendant from Thomas Pierce of Woburn, who died at Woburn Oct. 7th, 1666. He had a son Steven, who was born July 16, 1651. This Steven by his wife Tabitha, had a son Steven, who was one of the purchasers of Wonalancet's possessions called Wamesit, near Chelmsford, where he settled and had sons, Benjamin and Robert.

This Benjamin had 10 children, the 7th of whom, Benjamin, was born at Chelmsford, Dec. 25, 1757. This last Benjamin was the late Governor Pierce of Hillsborough, N. H., the father of President Pierce, who was born Nov. 23, 1804. The line of descent runs thus: Thomas, Steven, Steven, Benjamin, Benjamin, Franklin Pierce. For proof of these statements see Farmers' Monthly Visiter for July, 1852, Genealogical Register for January, 1853, and the County Records of Middlesex. President Pierce's great-grandfather's grandfather, Thomas Pierce, lived in Woburn, Mass., and President Fillmore's ancestor about as far back, lived in Ipswich. If I have made any mistake in the preceding statements, any person who will point it out will much oblige JOSHUA COFFIN.

At the Newburyport 4th of July dinner, Gen. Cushing claimed the President as a son of Newburyport. This may be the moving cause of Mr. Coffin's communication, as he prides himself upon his antiquarian knowledge of families in Essex county, and wishes always to set things right, when he perceives that there is any mistake in his "Old Mortality" records.—*Boston Courier.*

LOCAL.

FIRST OF AUGUST.

Friends of Freedom will hold a Mass Meeting at Eliot, Me. on Tuesday next, being the Anniversary of West India Emancipation.

Railroad Tickets for the Excursion may be had of Messrs. Gilbert, Morse, and Jas. Nowell.

Wm. P. Fessenden and Rev. Mr. Willey of Portland, and Seth Webb, Jr., of Boston, are to be among the speakers.

Full particulars to-morrow.

BOARD OF ALDERMEN.

We stated in the Daily Chronicle of Friday, July 21, that "the usual votes in regard to collecting highway taxes and and allowing discounts on taxes paid within certain days, were passed."

To this the Messenger adds the following memoranda.

The Aldermen agreed in executive session, we understand, to sign the warrants necessary to allow the Collector to collect taxes—the majority acknowledging him as collector by virtue of his election last year. We understand the Mayor, by legal advisement, has refused to sign the warrant as agreed upon by the majority of the Aldermen, and on Monday issued a call for a special meeting that evening to so amend it that the taxes might be legally collected under it. None of the factious members obeyed the summons, however, and no quorum was present.

The present prospect is that no taxes can be legally collected, and of course no bills paid. In the meantime every interest of the city is suffering. The Chairman of the School Dist. No. 1, by direction of the Committee has borrowed money to pay the School Teachers of that District; and being a member of the High School Committee has made an indirect advance on that account.

We have heard the suggestion, that if this obstinate resistance is persisted in, it will be found necessary to close the schools for want of funds,—to cut off the supplies from the Alms House and out door purposes,—to dismiss the City Watch,—and put out the lights.

SAGAMORE HOUSE.—This new stopping place for summer travellers is one of the most pleasantly situated. A trip thence by land or water, is one of the most attractive in this vicinity. The House is handsome, commodious and well fitted; and the proprietor, Capt. Clark, makes his own guarantee in our advertising columns this morning, as to its arrangements, terms, &c.

U. S. SHIP PORTSMOUTH.—A correspondent of the New York Herald, writing on board the United States Ship Portsmouth, off Acapulco, June 26, 1854, says the ship was to proceed to Callao, and that "it is now rumored that on her arrival home she will proceed to Portsmouth, New Hampshire, the birth place of this noble ship."

CAUSE AND EFFECT.—The Massachusetts Life Boat, which sails into our premises once in a while, says:

"For a moral community to license the sale of intoxicating drinks, is precisely equivalent in principle to licensing thieves, burglars, murderers, pirates, &c."

Now we had much rather "take a drink" than to meet a thief, burglar, or murderer.—*Boston Post.*

Very likely this is true; but suppose somebody else, not the editor of the Post, had drank himself drunken and frantic, and rushed forth armed as some such men have,—how would the editor like to meet *him?*

Again, not only does such a madman murder in his cups,—sometimes he kills himself. A man in this city, in a fit of delirium tremens, about ten days ago, cut his throat and was in intent a suicide, though by surgical skill and a kind providence he still lives.

On Wednesday last, Benjamin Wallace, of Townsend, was committed to the House of Correction, at Cambridge, on a charge of being a common drunkard. He was placed in a cell with two other prisoners, and in the morning he was found hanging by the neck from the grating of the window. Wallace was 52 years of age and leaves a wife and five children.

NEW YORK, July 26.—Nathan Kingsland of Rockville, Conn., has accepted the post of General Superintendent of the exhibition.—The medals awarded by the Juries last autumn, which have for some time been in course of preparation, are now nearly completed, and will be distributed to the rightful owners on Thursday, September 1st.

Private letters from well informed sources at Washington express strong doubt as to any further purchase of the public debt for the present.

CANINE SAGACITY.—A friend of ours owns a fine, intelligent dog, that he has muzzled in accordance with the regulations of the city.—As the dog stays in the house, during the night, the nasal protector is removed. A few mornings since, the animal made demonstrations signifying his desire to 'go out,' when our friend remarked to him in a familiar manner, 'you can't do it, sir, until you have your muzzle on;' whereupon the dog without further word or sign from any one, went to the place where the muzzle was deposited, brought it to his master, and very significantly raised his nose for the operation of its adjustment.—This is what we call a good specimen of canine sagacity.—*New Bedford Standard.*

OLIVES by measure, for sale by jy29 LA FAYETTE LAIGHTON.

Sagamore House, in Rye.

FROST'S POINT.

THIS is an entirely new House, situated about four miles from the Portsmouth Depots. There is easy access to it by land or water. It is located on a point of land nearly surrounded by water, and seaward presents a finer view of the ocean, Isles of Shoals, &c, than can be obtained from any other house in Rye. An excellent view of Portsmouth and the Piscataqua River is also had from the top of the house. The location of the Sagamore combines the advantages of quiet retirement in a beautiful country, with convenience of access and all the facilities enjoyed at other Beach Houses. The opportunities for Bathing and fishing are unsurpassed. Boats are always in readiness for the accommodation of visitors. A Pilot Boat touches regularly at the Point, on her daily trips to the Shoals.

The Sagamore House was newly furnished throughout, this Spring, in the best manner. The Ladies' Parlor is fifty feet in length, and the Dining Room of the same proportions. The Sleeping Rooms are capacious and airy, and the building thoroughly ventilated.

An experienced man has charge of the house, and every facility provided, and no pains spared for the accommodation of all visitors who may favor us with a call.

The Tables will be provided with the best the market affords, for in this respect the proprietor wishes it distinctly understood that he will not be excelled by any other House in Rye or on the seashore.

TERMS.—For permanent boarders $1.00 per day. Transient visitors as cheap as elsewhere.

Carriages will be at the Portsmouth Depots on the arrival of every train of cars to convey passengers to the Sagamore House.

We ask ladies and gentlemen to give us a call and we will satisfy them that we will do all we promise.

THOMAS CLARK, Proprietor.
Rye, July 27. 2w

Pauline Chart.

J. F. SHORES, Jr. No. 1 Congress Block, has for sale the PAULINE CHART—by J. W. Bonham. This chart comprises a map of the "Countries adjacent to the Mediterranean, illustrating the Acts of the Apostles."

Also, arranged according to time, an account of the principal occurrances in the Life of St. Paul, as follows: First Missionary Tour; Second Missionary Tour; Third Missionary Tour and Travels while a Roman Prisoner. Each occurrence is given with the date of the Place, its Locality and the Reference to the Chapter and verse.

Sunday School Teachers and Pupils will find this Chart a very great assistance in studying the Life and Travels of St. Paul, and it is highly recommended by clergymen who have examined it. jy21

HARPER'S

Gazetteer of the World.

THIS work has been undertaken to supply a want which is daily becoming more pressing. The Censuses of the United States, of Canada British America, of Mexico, of Great Britain, and of the Continental States of Europe, are all of recent date; and of these the most important have been laboriously consulted, and their information arranged and classified in the best manner. The editor has had it constantly in view to present the greatest amount of useful matter in the smallest possible space; and confidently hopes that the work will fully meet the wants of the times, and that the general reader, the student and the artisan will find in it all the information adapted to their several requirements, brought down as nearly as possible to the present day, in a form more convenient than in any other work of similar character.

Harper's Gazetteer of The World is to be completed in TEN NUMBERS at 50 cents each; and will comprise about 1800 royal octavo pages, with seven new and accurate Maps.

☞ No. 1 can be seen, and subscriptions received, at the Bookstore of jy26 JOSEPH H. FOSTER.

The Motto of every true American, "The Extinction of Popery."

A BOOK FOR AMERICANS.

The Great Red Dragon;

OR THE MASTER-KEY TO POPERY.

By Anthony Gavin, formerly one of the Roman Catholic Priests of Saragossa, Spain. Boston; Published by Samuel Jones, No. 86 Washington street, 1854.

COMPRISING a complete history of Popery; giving a full account of all the customs of the Priests and Friars, and the Rites and Ceremonies of the Popish religion; to which is added an account of the Inquisition at Goa; the Inquisition at Macerate; a Preservative against Popery; a Summary of the Roman Catholic Faith; and a number of authenticated Damnations and Excommunications proclaimed by the Pope at sundry times against well known European personages.

Also a detailed account of the Roman Catholic Auricular Confession, comprising a number of private confessions of young women, and of Priests at the point of death; the deplorable practice of the Priests in selling permission to commit crimes, or Indulgences of the most awful and indelicate nature; to which is appended a List of Prices required for each sin; Extirpation of Heretics, and Notes giving a statement of the Power and Prospects of the Papal Church in the United States. PRICE $1.25.

Those wishing copies of the above work will please leave their name at the Store of JOSEPH P. MORSE, Congress street, and they will be supplied at an early day by the exclusive Agent for Portsmouth, who is now in the city.

EXTRA GRAHAM FLOUR just received, and for sale by LA FAYETTE LAIGHTON.

CONGRESS.

TUESDAY, July 25.—

SENATE.—Mr. Stuart of Michigan, of the Committee on Commerce, on the River and Harbor bill with the amendments, gave notice that he would call it up when the Civil and Diplomatic Appropriation bill was disposed of.

Mr. Mallory of Florida offered a resolution referring the question as to whether Mr. Williams of New Hampshire has a right to retain his seat as Senator from New Hampshire—to the Judiciary Committee.—Agreed to.

After some other proceedings, the Civil and Diplomatic bill was taken up.

The amendment to reimburse Mr. Peabody and others, who paid $26,000 for fitting up the American department in the Crystal Palace in London, was debated and agreed to.

The Senate insisted on the amendment to the Indian Appropriation bill, and asked for a committee of Conference.

Mr. Badger moved the following sections:—That the President of the United States be and he is hereby authorized to appoint or employ in his official household the following officers, to wit;—1 Secretary at a salary of $1,500, who shall take charge of such official papers as shall be confided to him by the direction of the President; 1 clerk at a yearly salary of $1,600; 1 steward at a yearly salary of $1000, who shall be under the direction of the President, have charge of and be responsible for the plate and furniture of the President's mansion, and who shall discharge such other duties as the president may assign him; 1 Messenger at a yearly salary of $900; 1 Assistant at a yearly salary of $750; and for the payment of the compensation of said officers during the present fiscal year the sum of $6750, or so much thereof as may be necessary, is hereby appropriated

Sec. 12. That a yearly appropriation be made for the purchase of stationary, binding public documents and other contingent expenses of the Executive office, to be expended by the private Secretary, under the direction of the President, and for that purpose. During the present fiscal year $650 are appropriated out of any money in the Treasury not otherwise appropriated.

Messrs. Jones and Mason opposed the amendment, and Messrs. Badger, Pearce and Clayton supported it. It was agreed to—31 to 16.

The amendment appropriating $300,000 to pay the expenses of the government of California, while waiting to be admitted, was debated and rejected.

Mr. Hamlin moved an amendment, appropriating $10,000 for life boats and for rendering assistance to shipwrecked persons on the coast of the United States, to be expended by the Massachusetts Humane Society, under the direction of the Secretary of the Treasury.

Mr. Weller moved to strike out the Massachusetts Humane Society.

Mr. Clayton supported this motion which was lost—yeas 18, nays 26.

Mr. Weller moved to increase the sum to $20,000.

Mr. Hamlin stated that the bill contained another appropriation for a like sum, and the Light House bill contained $20,000 for a similar purpose, making $40,000 in all.

Mr. Weller withdrew his motion and the amendment was agreed to.

The Chairman presented the report of the regents of the Smithsonian Institute. Ordered to be printed. Executive session adjourned.

HOUSE. Message received from the Senate announcing the passage of the Homestead bill.

Mr. Dawson of Pennsylvania gave notice that he would ask to have it taken up and passed tomorrow.

A motion was made to reconsider the vote on the Fortification bill. Laid on the table—77 to 70.

The House then took up the bill making provisions for the postal service in California, Oregon, &c., and concurred in the Senate amendment authorizing special letter carriers to charge 25 instead of 50 cents for the conveyance of single packages.

The Committee on Commerce were directed to inquire into the expediency of prohibiting the introduction into any port of the United States, of blind, insane, or otherwise disabled persons.

The House then went into committee on the navy appropriation bill.

Mr. Bocock of Virginia urged various naval reforms, including increased pay, a larger force, and a retired list. He said he should move an amendment increasing the number of sailors from 7500 to 10,000.

Mr. Phelps of Missouri replied, opposing the establishment of a Civil list. He offered an amendment adding over $300,000, to enable the Secretary of the Navy to pay higher wages to seamen if necessary. Adopted.

Gerrit Smith of New York moved an amendment that no intoxicating liquors shall be provided as a beverage; and urged the great benefits that would result from such a course.

Mr. Stanton of Tennessee moved to amend by adding "And no officer shall be allowed to use intoxicating liquors except as a medicine." He thought the officers and men should be placed on the same footing in this respect.

Mr. Smith's amendment thus modified was adopted, 71 against 52.

Mr. Phelps offered an amendment, which was adopted, appropriating $370,000 to pay the expenses of the Japan expedition—without concluding, the committee rose, and the House adjourned.

PORTSMOUTH WHARF COMPANY.

THE grantees of the Act incorporating the PORTSMOUTH WHARF COMPANY will hold their first meeting at the office of Alfred W. Haven, Esquire, in Portsmouth on Saturday the twenty ninth day of July, A. D. 1854, at two o'clock in the afternoon, at which time and place they will attend to the following business, to wit,

To see if they will adopt the act incorporating said company.

To choose Directors, Clerk, Treasurer and such other agents and officers as may be thought necessary at said meeting.

To fix and limit the capital Stock of said company and divide the same into shares.

JAMES LARRABEE, No. 5 Pleasant street, has just received a NEW STOCK of
SADDLERY GOODS,
Carefully selected in Boston, for his customers, to which he would invite the attention of those in want of
RIDING SADDLES AND BRIDLES,
Fancy Driving Bridles, Horse Nets, Whips, or any other article in this line for use or ornament.

He manufactures to order, as heretofore, every description and quality of
HARNESSES,
From the lightest Trotting Rig to the heaviest Truck or Team Harness; and guarantees the stock and workmanship of Harnesses from this establishment to be equal to any manufactured for a similar price.

TRIMMING of new or old Carriages, in any desired style, carefully and neatly executed.

TRUNKS made to order—and any business in his line promptly attended to. Those in want will do well to call at

No. 5 Pleasant street, near Market Square,
where they will find all articles at the lowest prices for CASH.
Portsmouth, June 26.

Repairs on Vessels.

HAVING taken store No. 5 Commercial Wharf, from 10 Water street, will attend to repairs on vessels, in his line, such as Carpentering, Coppering and Caulking, on marine railway or beach. All orders promptly attended to. [3mje7*] S. B. LORD.

Garden Engines.

JUST received at "the sign of the Big Coffee Pot" a full supply of Garden or Fire Engines, which are respectfully commended by the subscriber to the notice of the public. Wherever these Engines have been introduced they have invariably given entire satisfaction. They are unsurpassed for power, capacity or usefulness. From the size of the air chamber sufficient power is obtained to enable one man to throw a steady stream of water to the height of fifty feet perpendicularly, thereby rendering it a desirable article as a PROTECTION AGAINST FIRE,

And for washing windows of second and third stories of buildings, carriages, &c. With a newly invented water diffuser as a Garden Engine it defies competition. The diffuser is a perfect and simple article, and its superiority over the common rose sprinkler is that it will throw three times the quantity of water a much greater distance and spread it perfectly even, with less power applied. An Engine with a diffuser of this description, used in orchards and gardens to throw soap suds on the young trees, will destroy many kinds of vermin liable to injure the fruit and be an invaluable addition to the implements of the Nurseryman and Horticulturist.

MEXICAN MUSTANG LINIMENT—
Every land has hailed with
Xtacy this preparation whose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its tortures, have yielded to its
Magical influence; cancers, contorted joints,
Ulcerated and swollen limbs that have
Suffered for years under the weight of disease,
Turn by its application to suppleness and health.
A remedy of such general usefulness that can
Restore newness of Action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.
Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over diseases,
No matter of how long standing—sold at
The agents in all parts of the Union.

The Greatest Medical Discovery of the Age.

MR. KENNEDY, of Roxbury, has discovered in one of our common Pasture Weeds a remedy that cures Every Kind of Humor, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of crofula.

A benefit is always experienced from the first bottle and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing on the pastures and along old stone walls, should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to go out. There is no if's and ands, hums and ha's about its suiting some cases, but not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know the effects of it in every case, it has already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old; to old people of sixty. I have seen poor, puny, wormy looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some have taken it who have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings; but you must not be alarmed; they will disappear in from four days to a week. There is never a bad result from it; on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

Nothing in the annals of Patent Medicines has ever been received by the public with so much favor as this simple preparation. It is now composed of nine different herbs. In May, 1852, when I commenced making a business of it, I sold about two bottles per day. In June, 1853, I sold 4320 bottles. In October, 1853, I sold 6120 bottles. I hope you will call that doing well; I do.

In my own practice, I confine it strictly to humors; but there are some who are so enthusiastic in its favor they think what cured them will cure any thing and any body; they accordingly recommend it for every variety of disease. In this way a great many virtues of it have been found that I never would suspect.

Cases of Dyspepsia, of many years standing, that without every known remedy, have been permanently cured.

I know one man to gain 17 lbs. by taking three bottles; another 11 lbs.; another 10 lbs.; and another 7 lbs.—the venerable master Robinson of Boston.

In diseases of the Liver it is a specific. I know several with yellow skin and yellow eyes, the body emaciated and the mind melancholy, get fat and cheerful by a few bottles.

I know several cases of Dropsy, and one particularly bad. A lady, aged 79, was unable to leave her house for the last twelve years, was so much relieved (she was reduced in circumference thirty-four inches,) as to visit her friends in several neighboring towns

Another had the Dropsy in her left leg, and was unable to walk for ten years, sometimes swelling to an enormous size; at last bursted, making a bad wound which could not heal; by taking three bottles and using two boxes of ointment, she is now quite well. Why it should make some fat and others lean, I cannot tell, but so it is.

I know of several cases of Kidney complaints cured by it. If the columns of a newspaper was a proper medium, I could tell of cases of this most distressing of all diseases that would make your heart bleed, that were permanently cured by it.

It has been lately found to be a sure cure for Fashama fever. In one case the first spoonful put off the fit two hours. One bottle cured him. Another came home to die, and was induced by his brother to try it. Three bottles cured him.

It likewise gives great relief in Asthma. A lady in Lawrence was unable to lie in bed for a number of years; she can now lie without the least inconvenience.

In Lady in Weymouth lost the use of her left side by the Erysipelas. On the second bottle she broke out in one mass of humor from head to foot. In a few days she was well.

It has lately been found to be equally good for humor outside as inside, (taking it inwardly in the meantime) for Erysipelas, Salt Rheum, Blotches on the Face, or any eruption of the skin whatever; only where the flesh is very sore you must dilute it with water.

When made weak enough it is the best eye-wash for weak and watery eyes that I ever saw.

Others use it to cleanse the dandruff out of the hair and strengthen its roots, which it certainly does, and to crown all, it made the hair grow on bald heads, which, if I had not seen with my own eyes, I would not believe from you or anybody else.

As regards dieting, I never came across the first person that ever got any benefit from it. On the contrary, numbers came to death's door by it, as it gives the humors the upper hand. My medicine requires the most nourishing food you can get. It will soon give you an appetite.

Do not for a moment suppose that I warrant a cure of all those diseases, in every case. I merely tell you what it has done, and what it will do the same for you. I do not warrant a cure in any disease but humors, *where it never fails.* For further particulars see the circular around each bottle.

No change of diet ever necessary. Eat the best you can get, and enough of it.

I have an herb, simmered in olive oil, scatters Scrofulous swellings of the neck and under the ears. Price fifty cents per box.

DIRECTIONS FOR USE. Adults, one table spoonful per day; children of eight years, dessert spoonful; from five to eight, tea spoonfuls. As no direction can be applicable to all constitutions, take enough to operate on the bowels twice a day.

Manufactured and for sale by DONALD KENNEDY, 120 Warren street, Roxbury.

For sale by E. H. ROLLINS, Concord, N. H.

☞ Dealers wishing the Agency in New Hampshire, will please address E. H. ROLLINS, Concord, who will supply the trade at the manufacturer's prices.

Swaim's Celebrated Panacea,

FOR THE CURE OF
INCIPIENT CONSUMPTION,
Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by those celebrated physicians and other eminent persons. Among others—Dr. W. Gibson, M.D., Prof. of Surgery, Pa. University. Valentine Mott, M.D., Prof. of Surgery, N. Y. " W. P. Dewees, M.D., Prof. of Mid., Pa. University. N. Chapman, M.D., Prof. of Physic, Pa. University. T. Parke, M.D., Pres't College of Physicians, Phila. Dr. Del Valle, Prof. of Medicine, Havana. Jose Eourenco de Luz, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spaine. J. Chisholm, Member Royal Col. Surg., London. Sir Thomas Pearson, Mg. Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA."

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been invented for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

General Agents for the United States,
SCHIEFFELIN BROTHERS & CO.,
170 Williams St., cor. of Beekman, New York.

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Mosquito Bites, Pains in the Limbs, Chest, Back, etc.

If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.

It is an English Remedy, and was used by William IV. late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Liniment, but considers it warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's Office, 240 Green

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc. which street, New York.

For Sale.

HOUSE on Christian Shore, suitable for two small families. If applied for immediately will be sold low. Apply to
April 17. E. S. WENDELL.

HOUSES FOR SALE.

THE DWELLING HOUSE, No. 9 School street. This is a well built house, two (high) stories, in good repair, and is convenient for one family or two families, or for a large Boarding House. It contains nine or more rooms and two sculleries, and has an excellent cellar under the whole house. The situation is central, being about equi-distant from the markets, factories and railroads. Connected with this house is a building which has been and may be occupied both as a barn and a work-shop. If not sold soon, a part or the whole of the premises will be let.

The DWELLING HOUSE No. 6 Green street. This house is fitted for two tenements; it is well built, was thoroughly painted and put in good order the last season, and is well calculated for two families, (having about 6 rooms each) and may be considered a good location for persons employed at the north end. It is centrally located between the different ship-yards in that section of the city. each tenement will be sold separately, if desired.

The DWELLING HOUSE No. 7 Liberty street, corner of Charles street. This house was formerly owned and occupied by the late Peter M. Lowd and is in good order. Attached to it is a lot of land large enough for a Stable or for another dwelling house. It would make a good place for the residence of a person employed at the shipyards across the river, or at the Navy Yard.

The DWELLING HOUSE No. 47 Bow street.—This house has been built but a few years, is well finished off, and is very convenient. In the rear is quite a large garden spot. This would be a desirable place for a person employed at the shipyards, or at the Navy Yard nearly opposite.

Also, for sale, a BUILDING LOT, on Mount Vernon street, (opposite No. 3,) with a small building thereon, which can be finished off into a Dwelling house.

All of the above property will be sold on liberal terms, if applied for soon. For further particulars apply to JOSEPH M. EDMONDS,
Feb. 27. No. 9 Islington street.

TO LET—The STORE on the corner of Vaughan and Deer streets. It was occupied as the first Union Store in this city, and is considered as a good stand for business. It is within a few rods of the Boston and Concord Railroad Depots. Possession can be had immediately.

FOR SALE—The HOUSE in the rear of the above, on Vaughan street—a convenient house for two families, and has been so occupied for about six years, by the same tenants. It rents for $160. For information, terms, &c., call on JOSEPH L. LOCKE, on the premises, or JOSEPH M. EDMONDS, 9 Islington st. m29

House Lots.

MORNING CHRONICLE.

BY MILLERS & GRAY. PORTSMOUTH, N. H., FRIDAY, JULY 28, 1854. VOLUME 4. NO. 151.

THE DAILY MORNING CHRONICLE

is published by

FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER,

At No. 4 Exchange Buildings,

Pleasant Street, ... PORTSMOUTH, N. H.

TERMS $4 a year, or $3 if paid strictly in advance.

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING.—For a Square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

10,000 *Bottles Sold since the First of January.*

DR. ORDWAY'S

HUMOR DISCOVERY,

AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattlesnake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head.
One to three bottles will cure Nursing Sore Mouth.
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.

Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all-gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA.

A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS,

It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.

One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,

It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.

☞ **Price $1.00.** ☜

HE HAS ALSO A HUMOR SALVE,

Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.

PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.

This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicine yet discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.

PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.

This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.

PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

ORDWAY & WADLEIGH,

LAWRENCE, MASS.,

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar.—Assignments recorded at Washington.

R. H. EDDY,

Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them as early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

"PATENT OFFICE, ———.

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,

Yours, &c. THOMAS EWBANK,

Commissioner of Patents."

Boston, Dec. 7, 1853. eodly

Morning Chronicle.

FRIDAY, JULY 28, 1854.

GLORIOUS VICTORY.

The honor of the American Flag is sustained. San Juan is bombarded and burnt to ashes. Mr. Borland's insult is avenged; and the measure of our country's glory runs over.

We have been trying for a day or two, to remember something about the insult, and the occasion of it; and have asked of others the aid of their memories—almost in vain. But here we have a sketch of it, from the Boston Traveller.

In May last, a certain Capt. Smith, an American, murdered, or shot, a native of Nicaragua, and fleeing from justice, took refuge under the wing of Mr. Borland, who happened to be at San Juan on his way home.—The authorities of San Juan demanded that Capt. Smith should be given up for trial; but Mr. Borland volunteered to protect him from arrest, on the ground, if we remember rightly—for, as we have said, no other than an ex-parte, unofficial account of the transaction has ever been given to the public—that the government at San Juan was no government at all, or not a government which could properly be entrusted with the disposal of such a case; and during a scuffle which ensued, Mr. Borland was hit—but not hurt—by some unlawful and undiplomatic Nicaraguan missile, against the peace and dignity of the United States, and the honor of one of her ministers plenipo. To obtain due redress for this national indignity and personal insult, our government sent down the Cyane, with instructions to Capt. Hollins to demand such an apology as should heal Mr. Borland's wounded honor and retrieve the national insult. The Cyane went, as it appears; and the apology was demanded and refused—whereupon Capt. Hollins bombarded the town.

This bombardment took place on the 13th inst. The N. Y. Tribune describes the town thus:

Greytown consisted of about eighty houses, nearly all of them built of wood, and by far the greater proportion of them constructed in the United States and taken there on shipboard. One of these—Lyon's hotel—cost $15,000. Not more than one fourth of the houses in the new part of the town, which has been built since 1850, were occupied. They have been occupied, but were deserted from business considerations some time previous to this affair. The population of Greytown consisted of about 500 persons altogether, of which number ten or twelve were from the United States, about twenty-five were Englishmen, and twelve Frenchmen and Germans. The remainder of the population were Jamaica negroes and natives. The Americans, English, French and Dutch were engaged in hotel keeping and trade. The houses occupied by the natives and negroes were principally frame buildings with roofs of thatched palm leaf.

The inhabitants of Greytown, including all of the French and natives, together with a few English and Americans, left the place during the night and morning preceding its destruction. They all encamped together on the shore, in the woods about a mile distant. Not anticipating the entire demolition of the town by bomb shells and torches, they took but little of their effects with them. All the property left was destroyed. Consequently the houseless inhabitants were in great suffering for the want of food and of clothing, and protection from the weather, when our informant left. They had stretched up sheets for tents, and many were obliged to sleep in the open air, without the least shelter, and were half famished for the want of food. A brig laden with provisions, which had just arrived as the bombardment commenced, has probably supplied them."

The Tribune has also the following additional particulars of the bombardment, gathered from residents of the place and passengers by the Prometheus:

The day before the bombardment Capt. Hollins took possession of the guns which were for the protection of the town, and took them to Punta Arenas and placed them in the keeping of the agent of the Transit Co.

The burning and pillaging party were on shore nearly half the day, and passed the time in great glee. Many of them were so much intoxicated that it was not an easy matter to get them on board again.

A number of the residents of Greytown came to New York on board the Prometheus, being provided with free passages by the agent.

Two persons were said to be missing, and there were apprehensions that they had been burned in the conflagration.

We have never seen any account of these matters, except from our own people or papers. If there is another side to the story we would like to see it. Until we do, the military and naval operation must be set down as a glorious exhibition of American prowess, and a brilliant display of the American Eagle's talons, by which he will frighten away all the dirty birds that nestle about the Isthmus and peck at any of his young ones.

The New York Herald of Wednesday gives a long history of the political existence of Greytown, which closes as follows:

It will be pretended by those who are implicated in recent transactions in that quarter, that the place was made up of pirates, negroes, and Englishmen, whereas the fact is, that nine tenths of the property and interests which existed in San Juan belonged to Americans.

The bombardment and destruction of San Juan was, therefore, the bombardment and destruction of a *de facto* American town. Nor is this all. A majority of the houses and property in the place, not belonging to Americans, belonged to the people of Nicaragua, to whom we profess friendship, and not to Englishmen, Mosquitos, or Jamaica negroes.—Had the gallant Hollins come into the North river, and bombarded and burnt Hoboken, he could not have damaged his own countrymen more effectually. Those who instructed him—the administration—could not have struck a more deadly blow at American influence or American enterprise in that quarter of the world. Excepting the natural feeling of irritation, caused by the disregard of the interests of a few of their own countrymen, we imagine the sardonic joy of the Englishmen on board the British war schooner Bermuda, in witnessing the extermination of the Americans by their own countrymen.

THREE DAYS LATER FROM EUROPE.

ARRIVAL OF STEAMER AFRICA.

NEW YORK, July 27.—The steamship Africa, Capt. Harrison, from Liverpool 15th inst., arrived at this port this morning at 9 1-2 o'clock.

Cotton had further declined, and Breadstuffs were dull and rather lower.

It is now confirmed that the Russians have received counter orders, and will not quit Wallachia, and the Austrians have for the present entirely relinquished their intentions to peaceably occupy the principalities.

It is believed that all the smaller German States will adhere to the Austro-Prussian Convention.

The feeling in England with respect to these new complications is decidedly uneasy.

There has been considerable severe fighting on the Danube.

The Turks under the command of Omar Pacha personally, after severe fighting have captured the Danubian Islands, and the city of Giurgievo, which they now occupy. Details not at hand.

It is clear that the Turks have assumed offensive measures, and with the reserve of the Anglo French, the first divisions of whom are now at Rutschasc, will probably risk a pitched battle.

Gatschakoff with 30,000 men is advancing by forced marches to dispossess the Turks of Giurgievo.

The Black Sea fleet was last seen proceeding from Odessa, in the direction of Sebastopol.

Sir Charles Napier's fleet, with cholera on board, had gone to anchor in Bomersund Bay.

Redscid Pasha has resumed the Turkish ministry of Foreign Affairs.

The ex-Ministers of Greece are indicted for malversion of the public money to foster the recent insurrection.

The Emperor Napoleon is witnessing the embarkation of the French army at Bologne and Calais, for the Baltic.

News from Spain is very imperfect. The Insurgents however, seem to maintain themselves under Generals Serrana, O'Donnel and Dolace. They number 5000, and are going towards Andalusia. Some movements favoring them have occurred in Valencia.

NEW HAMPSHIRE U. S. SENATOR.—The preamble offered in the Senate, on Tuesday, by Mr. Mallory of Florida, sets forth that "as Mr. Williams was appointed by the Governor of New Hampshire, to fill the vacancy in the Senate, caused by the death of Mr. Atherton, since when the Legislature have met and adjourned without an election, and as *New Hampshire claims her right to representation by Mr. Williams*, therefore be it resolved that the subject be referred to the Judiciary committee." It was referred accordingly. This looks as though there was some purpose of reversing the decision of the Senate in the Vermont case. The Senate then decided—*not* that a Senator appointed by the State Executive to fill the vacancy *is* to hold his appointment *until* a successor is chosen by the Legislature—but that the term of his appointment ceases with the adjournment of the Legislature, upon whom it devolves to fill the vacancy, but which fails to fill it. Acting on the precedent established in this case, Mr. Williams withdrew from the Senate as soon as informed of the adjournment of the Legislature. It is proposed, now, as we understand the matter, to re-instate him.—*Boston Chronicle.*

RIOT AT RONDOUT.—A serious riot occurred at Rondout, N. Y., Sunday evening, where a number of Irish were collected at a rum hole. A constable went in to quiet the noise, when he was attacked and compelled to flee for his life. He was followed by an Irishman armed with a knife. The constable being unable to escape drew a revolver and shot the Irishman dead. Several hundred Irishmen speedily collected and threatened revenge. The military was called out and restored order.

NEW YORK, July 26.—A serious affray took place last evening in Centre street between some 200 Germans belonging to the society of Turners, and a large number of Irish. The combatants were armed with cudgels, knives, &c., and fought desperately for some twenty minutes without any fatal result, when the police succeeded in arresting ten or twelve of the leaders and dispersed the mob. The Germans were the aggressors, and came out of the fight second best.

MISERABLE DISHONESTY.—Alexander Kyle, the Harlem Railroad rogue, has been arrested; one of the instantes of his dishonesty which has come to light is this: Mrs. George L. Schuyler had accumulated $500 from her own income, for investment, which was handed to Kyle, to purchase Harlem Railroad shares; he put the money into his pocket, and sent her $1,25 in money, with a spurious certificate for 24 shares, charged at $47,50, and 1-4 brokerage.

FATAL.—At St. Johnsbury, Vt., on Monday last, Mr. Levi Brigham was attacked by a ferocious stallion, and so severely injured that he died shortly after. His brother was present, but at the moment of the attack happened to be looking another way. Mr. B.'s own account of the transaction was, that the horse reared, struck him with his fore feet, which knocked him down, and then seized him by the back of the neck and shoulders.—His neck was dislocated, but the spinal marrow was not broken, so that he retained his consciousness till death, though his entire body was destitute alike of sensation and the power of motion. He lived about an hour and a half.

The Worcester Transcript says that two places have been discovered in that city, where the Know Nothings hold regular meetings, viz, the Common Council chamber and the Mayor and Aldermen's room.

LOCAL.

CITY AFFAIRS.

In the Board of Aldermen, on Thursday evening, a petition was received from John Dame and others, stating that they had organized a military company of 60 men, and required a stand of arms—which were granted.

A communication was received from the committee asking for means to pay teachers in School Dist. No. 2.—Laid on the table.

The committee on Streets, &c. report that Russell street be repaired as asked in the petition—laid on the table.

The same committee report that the petitioners concerning Jaffrey's Court have leave to withdraw; and that Vaughan street be repaired, as proposed—accepted and adopted.

☞ The members of the Mercantile Library Association will remember that the special order is to be disposed of this evening; and other matters are to be presented. It is hoped that all will be present.

☞ Highland Cottage, at Stratham, is now one of the most popular resorts in our vicinity, and those who visit the place once, will not fail to do so a second time. The idea of connecting a beautiful little cottage where refreshments and rest can be had, with a Nursery, is original, we think, with Mr. Diman; and judging from its success so far, the public have pronounced it a capital arrangement. We had the pleasure of taking tea at this Cottage, on Wednesday evening, with a table full of company from Portsmouth and Boston, and it is seldom that we have enjoyed ourselves so much in so short a time, as we did on that occasion.

THE "AMERICAN SENTINEL," is a Native American paper published in Newburyport, to be issued every other Thursday, and the first number of which appeared on the 20th.—There is no reason why the peculiar principles of the "Know Nothings" should not be fully and freely discussed, and perhaps the best way is to have an independent organ for the purpose. The editor of the Sentinel is a gentleman of ability, and experience in editorial life, and will no doubt make an interesting paper. The subscription price is 50 cents for three months. Communications should be addressed "Editor of the Sentinel, Newburyport Post Office."—*Saturday Union.*

NARROW ESCAPE.—As one of the brakemen on the Tuesday evening train of cars from Portsmouth to Portland, was brakeing up, the wheel which governs the brake broke, and precipitated him between the cars to the ground; about one half the train passed over him, but wonderful as it may appear, he was not injured in the least.—*Eastern Argus.*

FIRST OF AUGUST!

GRAND CELEBRATION

AT

ELIOT!

THE Friends of Freedom will celebrate the Anniversary of the *Emancipation of 800,000 Slaves*, In the British West India Islands, by a

MASS MEETING

in the beautiful *Grove near Fernald's Crossing, in Eliot, Me.* On the line of the Portsmouth, Saco & Portland Railroad,

ON TUESDAY NEXT, AUGUST FIRST,

Arrangements have been made with the P. S. & P. Railroad, to convey visitors to the gathering at half the usual fare. (This will be, to visitors from Portsmouth, 10 cents each way. Cars will leave Portsmouth at half-past 9 o'clock, A.M. and return at about 5 P.M. Tickets for the Excursion may be had in Portsmouth of J. P. Morse, S. Gilbert or James Nowell. It is desirable that all should purchase on Monday.)

SETH WEBB, Jr. Esq. of Boston; Hon. SAMUEL FESSENDEN, of Portland; Rev. A.P. WILLEY, Editor of Portland Inquirer; and Rev. WM. H. BREWSTER, of Lowell; are confidently expected to address the meeting, with other able speakers from abroad, including Clergymen from Portsmouth.

Rev. J. HALL, of Eliot, Chairman of the Day.
Rev. WM. C. CLARK, of Portsmouth, Chaplain.

BOND'S CORNET BAND

Will lend the charm of their music to the occasion throughout the day.

SINGING, good and appropriate, will be furnished by a Company of ladies and gentlemen from Portsmouth.

☞ The Procession will form at 9 o'clock, at the Wesleyan Chapel in South Eliot; and led by Bond's Band, will march to the Grove.

A FREE COLLATION,

On the Picnic plan, will be served up; and the character of the people of Eliot and vicinity, is a sufficient guarantee for a good Dinner, especially if the crowd of people from the neighboring towns do not forget to take their baskets along with them. Our friends in Eliot are liberal, but it should be remembered that they are few—and the feast should come from the contributions of the many.

☞ Should the day be favorable, the Celebration cannot fail to attract a great crowd and be highly agreeable.

☞ The Daughters and Sons of Freedom will hold their Quarterly Meeting at the Wesleyan Chapel, South Eliot, on Monday afternoon, July 31, at 2 o'clock.

CONCERT.

Bond's Cornet Band will give one of their popular Instrumental Concerts, at the South Eliot Wesleyan Chapel, on MONDAY Evening, July 31st. Tickets 25 cents. Doors open at 7, Concert commence at 8.

PURE LIQUORS.—As a proof of the extensive adulteration of liquors in this country, it is stated that more port wine is drank in the United States in one year, than passes through the Custom House in ten; that more champagne is consumed in America alone than the whole champagne district produces; that cogniac brandy costs four times as much in France where it is made, as it is retailed for in our grogshops; and that the failure of the whole grape crop in Madeira produced no apparent diminution in the quantity, nor increase in the price of the wine.

STEAMER ADMIRAL LOST.—A telegraphic despatch was received in Boston on Thursday, stating that the steamer Admiral, Capt. Wood, which left that port on Tuesday for Eastport and St. John, N.B., via Portland, was lost on Wednesday, about 3 miles west of Quaddy light. The passengers and baggage were landed in safety.

The India mail is telegraphed—Calcutta, June 1st, Bombay 7th. Trade in India is dull. The steamer brings no China mail.

Sagamore House, in Rye.

FROST'S POINT.

THIS is an entirely new House, situated about four miles from the Portsmouth Depots. There is easy access to it by land or water. It is located on a point of land nearly surrounded by water, and seaward presents a finer view of the ocean, Isles of Shoals, &c, than can be obtained from any other house in Rye. An excellent view of Portsmouth and the Piscataqua River is also had from the top of the house. The location of the Sagamore combines the advantages of quiet retirement in a beautiful country, with convenience of access and all the facilities enjoyed at other Beach Houses. The opportunities for Bathing and fishing are unsurpassed. Boats are always in readiness for the accommodation of visitors. A Pilot Boat touches regularly at the Point, on her daily trips to the Shoals.

The Sagamore House was newly furnished throughout, this Spring, in the best manner. The Ladies' Parlor is fifty feet in length, and the Dining Room of the same proportions. The Sleeping Rooms are capacious and airy, and the building thoroughly ventilated.

An experienced man has charge of the house, and every facility provided, and no pains spared for the accommodation of all visitors who may favor us with a call.

The Tables will be provided with the best the market affords, for in this respect the proprietor wishes it distinctly understood that he will not be excelled by any other House in Rye or on the seashore.

TERMS.—For permanent boarders $1.00 per day. Transient visitors as cheap as elsewhere.

Carriages will be at the Portsmouth Depots on the arrival of every train of cars to convey passengers to the Sagamore House.

We ask ladies and gentlemen to give us a call, and we will satisfy them that we will do all we promise.

THOMAS CLARK, Proprietor.
Rye, July 27. 2w

Pauline Chart.

F. SHORES, JR. No. 1 Congress Block, has for sale the PAULINE CHART—by J. W. Bonham. This chart comprises a map of the "Countries adjacent to the Mediterranean, illustrating the Acts of the Apostles."

Also, arranged according to time, an account of the principal occurrances in the Life of St. Paul, as follows: First Missionary Tour; Second Missionary Tour; Third Missionary Tour and Travels while a Roman Prisoner. Each occurrence is given with the name of the Place, its Locality and the Reference to the Chapter and verse.

Sunday School Teachers and Pupils will find this Chart a very great assistance in studying the Life and Travels of St. Paul, and it is highly recommended by clergymen who have examined it. jy27s

HARPER'S

Gazetteer of the World.

THIS work has been undertaken to supply a want which is daily becoming more pressing. The Censuses of the United States, of Canada and British America, of Mexico, of Great Britain, and of the Continental States of Europe, are all of recent date; and of these the most important have been laboriusly consulted, and their information arranged and classified in the best manner. The editor has had it constantly in view to present the greatest amount of useful matter in the smallest possible space; and confidently hopes that the work will fully meet the wants of the times, and that the general reader, the student and the artisan will find in it all the information adapted to their several requirements, brought down as nearly as possible to the present day, in a form more convenient than in any other work of similar character.

Harper's Gazetteer of The World is to be completed in TEN NUMBERS at 50 cents each; and will comprise about 1800 royal octavo pages, with seven new and accurate Maps.

☞ No. 1 can be seen, and subscriptions received, at the Bookstore of

CONGRESS.

WEDNESDAY, July 26.

SENATE.—The numerous private bills passed by the House on Saturday and Monday were severally read twice and refered. A few of them passed.

The Civil and Diplomatic bill was then taken up, Mr. Hamlin's Custom House and Marine Hospital amendment pending.

Mr. Adams of Mississippi moved the proviso that no money appropriated by the act shall be expended at any place where the customs do not exceed the expense of collection.

Mr. Brodhead of Pennsylvania moved to add several sections authorizing the Secretary of the Interior to provide temporary accommodations for the court at Boston, and authorizing the President to select suitable sites in Boston, New Yo.k, Philadelphia and Baltimore for court houses and post offices, and to communicate the plans and sections for such sites and buildings to Congress at the next session.

Other Senators proposed various other places.

After a long debate the amendment was rejected—19 to 24.

Mr. Hamlin's amendment offered yesterday, for a custom house, marine hospital, &c., was adopted—31 to 16. $50,000 was added for completing the marine hospital at Portland, Me.

Mr. Mason of Virginia moved to increase the salaries of the Ministers to France and England to $15,000 per year, each. Rejected—21 to 25.

Mr. Bell moved to increase the salaries of the Justices of the Supreme Courts, the Chief Justice to $7000, and the associates to $6000 each. Adopted—29 to 16.

Several other amendments were acted upon, when at half-past four, the Senate adjourned.

HOUSE.—Mr. Letcher asked leave to introduce a bill to repeal the act of last June, granting lands to Minnesota for railroad purposes; but the House refused to suspend the rules, by 100 to 60.

The House went into Committee on the Navy Appropriation Bill.

Mr. Sollers gave notice that when the bills for the reorganization of the Army and Navy came up he would urge the introduction of the principle throughout that no foreigner should serve in any capacity in the Army or Navy.

After various immaterial amendments, the Navy Appropriation Bill was reported to the House, the amendment excluding liquors from officers and men being concured in—yeas 84, nays 65.

Mr. Giddings moved to reconsider the vote, and lay that motion on the table. Negatived —79 to 81. The vote was then reconsidered yeas 82, nays 76.

The question was again recurred to on agreeing to the grog amendment, and after considerable noise and confusion, the amendment was rejected—yeas 80, nays 80.—The Speaker gave his casting vote in the negative.

Among the amendments adopted was one appropriating $10,000 to enable the Secretary of the Navy to test any improvements in steam boilers or other machinery which, in his opinion, may be of benefit to the public service in the construction of national vessels.

The bill was passed.

Mr. Singleton asked leave to offer a resolution requesting the President of the United States, as far as his judgment may be compatible with the public interests, to communicate to the House whether the progress of the negotiation with Spain has removed the necessity for a provisional act by Congress, as indicated in his message of the 15th of March, or whether he still thinks it desirable that measures be taken to enable the Executive to protect and secure the national rights, honor and interest.

The House refused to suspend the rules to enable him to introduce the resolution—50 against 106.

The Senate bill regulating the pay and increasing the efficiency of the Army, was taken up.

Mr. Faulkner explained the provisions of the bill.

Mr. Grow opposed increasing the pay of the higher grades of the service.

Without concluding the subject, the House adjourned.

THURSDAY, July 27.

SENATE.—Mr. Adams moved to take up the bill granting a pension to the widow of Batchelder. Withdrawn at the request of Mr. Hunter.

The Civil and Diplomatic bill was taken up. An amendment authorizing negotiations for the purchase of the Hudson Bay Fur Co.'s rights in Washington Territory was agreed to.

The vote rejecting the increase of pay to the Ministers to France and England was reconsidered.

HOUSE.—Mr. Barksdale asked unanimous consent to offer a resolution placing $10,000,000 at the disposal of the President during the recess, if necessary to carry out any measures which the state of our relations with Spain may render expedient. Several objections were made, and the resolution was not admitted.

Mr. Chandler made an ineffectual effort to call for information as to the Greytown affair.

The House resumed the consideration of the bill increasing the pay and promoting the efficiency of the army.

A SINGULAR CASE.—The Brattleboro' Eagle has an account of an interesting criminal case, which has just been settled in Orleans county, Vt. Seven or eight years since, a woman named Hannah Parker was arrested, tried and found guilty, of the murder of her infant. The proof of her guilt was conclusive, but upon her trial some exceptions were reserved for the consideration of the Supreme Court, and she was remanded to jail to await their action. In the Supreme Court the case was continued from term to term for six or seven years, she in the meanwhile making the jail her head quarters, but having a very wide range of jail yard. The Supreme Court at the last session reversed the former judgment, and she was again brought up for trial. The same witnesses were called at this trial as at the former, but, singular to relate, *the facts had faded entirely from their memories.* Even the witness to whom her confession was made, was unable to testify *positively* that she admitted her guilt. Of course "a reasonable doubt" was raised in the minds of the jury, and she was acquitted.

Portsmouth, June 28.

Repairs on Vessels.

HAVING taken store No. 5 Commercial Wharf, from 10 Water street, will attend to repairs on vessels, in his line, such as Carpentering, Coppering and Caulking, on marine railway or beach. All orders promptly attended to. [3mje7*] S. B. LORD.

Garden Engines.

JUST received at "the sign of the Big Coffee Pot" a full supply of Garden or Fire Engines, which are respectfully commended by the subscriber to the notice of the public. Wherever these Engines have been introduced they have invariably given entire satisfaction. They are unsurpassed for power, capacity or usefulness. From the size of the air chamber sufficient power is obtained to enable one man to throw a steady stream of water to the height of fifty feet perpendicularly, thereby rendering it a desirable article as a PROTECTION AGAINST FIRE,
And for washing windows of second and third stories of buildings, carriages, &c. With a newly invented water diffuser as a Garden Engine it defies competition. The diffuser is a perfect and simple article, and its superiority over the common rose sprinkler is that it will throw three times the quantity of water a much greater distance and spread it perfectly even, with less power applied. An Engine with a diffuser of this description, used in orchards and gardens to throw soap suds on the young trees, will destroy many kinds of vermin liable to injure the fruit and be an invaluable addition to the implements of the Nurseryman and Horticulturist.
Jy8 J. E. CHAPMAN, 18 Daniel st.

MEXICAN MUSTANG LINIMENT—

Every land has hailed with
Xtacy this preparation whose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its tortures, have yielded to its
Magical influence; cancers, contorted joints,
Ulcerated and swollen limbs that have
Suffered for years under the weight of disease,
Turn by its application to suppleness and health.
A remedy of such general usefulness that can
Restore newness of Action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.

Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over diseases.
No matter of how long standing—sold at
The agents in all parts of the Union.

The Greatest Medical Discovery of the Age.

MR. KENNEDY, of Roxbury, has discovered in one of our common Pasture Weeds a remedy that cures Every Kind of Humor, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of crofula.

A benefit is always experienced from the first bottle and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that such a common weed growing on the pastures and along old stone walls should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. There is no if's and ands, hums and ha's about its suiting some cases, but not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old; to old people of sixty. I have seen poor, puny, wormy looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some have taken it who have been costive for years, and it has been beneficted by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings; but you must not be alarmed; they will disappear in from four days to a week. They never had result from it; on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

Nothing in the annals of Patent Medicines has ever been received by the public with so much favor as this simple preparation. It is now composed of nine different herbs. In May, 1852, when I commenced making a business of it, I sold about two bottles per day. In June, 1853, I sold 4320 bottles. In October, 1853, I sold 6120 bottles. I hope you will call that doing well; I do.

In my own practice, I confine it strictly to humors; but there are some who are so enthusiastic in its favor they think what cures them will cure any thing and any body; they accordingly recommend it for every variety of disease. In this way a great many virtues of it have been found that I never would suspect.

Cases of Dyspepsia, of many years standing, that withstood every known remedy, have been permanently cured.

I know one man to gain 17 lbs. by taking three bottles; another 11 lbs.; another 16 lbs.; and another 7 lbs—the venerable master Robinson of Boston.

In diseases of the Liver it is a specific. I know several with yellow skin and yellow eyes, the body emaciated and the mind melancholy, get fat and cheerful by a few bottles.

I know several cases of Dropsy, and one particularly bad. A lady, aged 79, was unable to leave her house for the last twelve years, was so much relieved (she was confined in directness three thirty-four inches,) as to visit her friends in several neighboring towns

Another had the Dropsy in her left leg, and was unable to walk for ten years, sometimes swelling to an enormous size; at last it burst, making a bad wound which could not be healed; by taking three bottles and using two boxes of ointment, she is now quite well. Why it should make some fat and others lean, I cannot tell, but so it is.

I know of several cases of Kidney complaints cured by it. In the columns of a newspaper was a proper medium, I could tell of cases of this most distressing of all diseases that would make your heart bleed, that were permanently cured by it.

It has been lately found to be a sure cure for Panama fever. In one case the first spoonful put off the fit two hours. One bottle cured him. Another came home to die, and was induced by his brother to try it. Three bottles cured him.

It likewise gives great relief in the Asthma. A lady in Lawrence was unable to lie in bed for a number of years; she can now lie without the least inconvenience.

Mrs. Mary Weymouth lost the use of her left side by the Erysipelas. On the second bottle, she broke out in one mass of humor from head to foot. In a few days she was well.

It has lately been found to be equally good for humor outside and inside, (taking it inwardly in the meantime,) for Erysipelas, Salt Rheum, Pimples on the Face, or any eruption of the skin whatever; only where the flesh is very sore you must dilute it with water.

When made weak enough it is the best eye-wash for weak and watery eyes that I ever saw.

Others use it to cleanse the dandruff out of the hair and strengthen its roots, which it certainly does, and to crown all, it made the hair grow on bald heads, which, if I had not seen with my own eyes, I would not believe from you or anybody else.

As regards dieting, I never came across the first person that ever got any benefit from it. On the contrary, numbers came to death's door by it, as it gives the humors the upper hand. My medicine requires the most nourishing food you can get. It will soon give you an appetite.

No one for a moment suppose that I warrant a cure of all these diseases, in every case. I merely tell you what it has done, hoping it will do the same for you. I do not warrant a cure in any disease but humors, *where it never fails.* For further particulars see the circular around each bottle.

No change of diet ever necessary. Eat the best you can get, and enough of it.

I have an herb, simmered in olive oil, scatters Scrofulous swellings of the neck and under the ears. Price fifty cents per box.

DIRECTIONS FOR USE. Adults, one table spoonful per day; children of eight years, dessert spoonful; from five to eight, tea spoonfuls. As no direction can be applicable to all constitutions, take enough to operate on the bowels twice a day.

Manufactured and for sale by DONALD KENNEDY, 120 Warren street, Roxbury.

For sale by E. H. ROLLINS, Concord, N. H.

☞ Dealers wishing the Agency in New Hampshire, will please address E. H. ROLLINS, Concord, who will supply the trade at the manufacturer's prices.

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by

W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y.
W. P. Dewees, M.D., Prof. of Mid. Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
I. Parke, M.D., Pres't College of Physicians, Phila.
Dr. Del Vallo, Prof. of Medicine, Havana.
Jose Lourenco de Luz, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spain.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c., &c.

Also, also, the wonderful cures effected by Swaim's Panacea, speak for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD TENTH, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

General Agents for the United States,

SCHIEFFELIN BROTHERS & CO.,

170 Williams St., cor. of Beekman, New York.

je1 6m

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Cramp, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Chest, Back, etc.

If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.

It is an English Remedy, and was used by William IV. late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is equal.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Liniment, but considers warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's Office, 240 Green Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted stronger and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc.

For Sale.

HOUSE on Christian Shore, suitable for two small families. If applied for immediately will be sold low. Apply to

April 17. E. S. WENDELL.

HOUSES FOR SALE.

THE DWELLING HOUSE, No. 9 School street. This is a well built house, two (high) stories, in good repair, and is convenient for one family or two families, or for a large Boarding House. It contains nine or more rooms and two sculleries, and has an excellent cellar under the whole house. The situation is central, being about equi-distant from the markets, factories and railroads. Connected with this house is a building which has been and may be occupied both as a barn and a work-shop. If not sold soon, a part or the whole of the premises will be let.

The DWELLING HOUSE No. 6 Green street. This house is fitted for two tenements; it is well built, was thoroughly painted and put in good order the last season, and is well calculated for two families, (having about 6 rooms each) and may be considered a good location for persons employed at the north end. It is centrally located between the different ship-yards in that section of the city. each tenement will be sold separately, if desired.

The DWELLING HOUSE No. 7 Liberty street, corner of Charles street. This house was formerly owned and occupied by the late Peter M. Lowd and is in good order. Attached to it is a lot of land large enough for a Stable or for another dwelling house. It would make a good place for the residence of a person employed at the shipyards across the river, or at the Navy Yard.

The DWELLING HOUSE No. 47 Bow street.—This house has been built but a few years, is well finished off, and is very convenient. In the rear is quite a large garden spot. This would be a desirable place for a person employed at the shipyards, or at the Navy Yard nearly opposite.

Also, for sale, a BUILDING LOT, on Mount Vernon street, (opposite No. 2,) with a small building thereon, which can be finished off into a Dwelling house.

All of the above property will be sold on liberal terms, if applied for soon. For further particulars apply to JOSEPH M. EDMONDS,

Feb. 27. No. 9 Islington street.

TO LET—The STORE on the corner of Vaughan and Deer streets. It was occupied as the first Union Store in thiscity, and is considered as a good stand for business. It is within a few rods of the Boston and Concord Railroad Depots. Possession can be had immediately.

FOR SALE—The HOUSE in the rear of the above, on Vaughan street—a convenient house for two families, and has been occupied for about six years, by the same tenants. It rents for $160. For information, terms, &c., call on JOSEPH L. LOCKE, on the premises, or JOSEPH M. EDMONDS, 9 Islington st. m29

House Lots.

MORNING CHRONICLE.

BY MILLERS & GRAY. PORTSMOUTH, N. H., SATURDAY, JULY 29, 1854. VOLUME 4. NO. 152.

THE DAILY MORNING CHRONICLE

is published by
FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER,
At No. 4 Exchange Buildings,
Pleasant Street,.....PORTSMOUTH, N. H.

TERMS $4 a year, or $3 if paid strictly in advance.

The Weekly Chronicle,
A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING.—For a Square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

10,000 *Bottles Sold since the First of January.*

DR. ORDWAY'S HUMOR DISCOVERY,
AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. KELLER, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,
LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr. Keller by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattles ake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head.
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.
Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA.
A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS.
It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.
One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,
It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him. and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.
☞ **Price $1.00.** ☜

HE HAS ALSO A HUMOR SALVE,
Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.
PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.
This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints tending to Consumption.

No medicine yet discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.
PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.
This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.
PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

PATENTS.
American and Foreign Office.
AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 70 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ———

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent I am acquainted with. I am, very respectfully,
Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Fire & Marine—Metropolitan, No. 14 State street, Boston,	"	426,763.

Morning Chronicle.

SATURDAY, JULY 29, 1854.

BURNING OF GREYTOWN.

Some of the papers seem disposed to deprive Capt. Hollins of some of the leaves of the laurels he gathered in the brilliant bombardment of the city of Greytown; and also to deprive the national administration of the honor accruing from this transaction.

The Newburyport Herald remarks:

The administration we hope have other and better reasons than are apparent upon the face of the matter, for the wholesale destruction of property at this place, and the burning of the dwellings of the inhabitants.

The New York Journal of Commerce, says,

We understand that a considerable quantity of goods sent by our merchants to New Grada, were left at San Juan for greater safety while the revolution in New Grenada should be in progress. They are doubtless destroyed, together with perhaps an equal amount of English and French property. Its destruction by a government vessel of the United States, will of course give rise to a reclamation.

The New York Herald characterizes the "bombardment and burning of the village as a stupid farce," and asks:

"What honor, or glory, or indemnity could possibly be gained by burning the mud and palm leafed huts of the poor natives? And what sort of satisfaction against the British protectorate could possibly be secured by the destruction of the houses and other property of American citizens, who constitute the men of business and the principal property owners of the place.

"But we have a graver objection to enter against this thing than its wanton barbarity, or its inconsistency, or its stupidity, or its worse than useless results. The President of the United States, in this affair, is liable to the charge of an act of war against a friendly power, for which he has no more authority than the fillibusters against whom he has so recently fulminated his proclamation. Congress alone has power to make war in behalf of the United States. When the Executive usurps the power he invades the exclusive jurisdiction of Congress, and violates his oath to support the federal constitution."

Per contra, the Boston Times comes to the rescue, and says—

It is not the mere act of destroying this town,—defenceless though it was, and insulting and insolent in its own weakness—that the public will have cause of congratulation. It is the first gun in vindication of American rights in territory contiguous to our own. It is the first thunder that will end in dispelling the clouds that have hovered around the Nicaraguan and non-intervention questions for years—and the oftener that thunder is heard, the clearer will be the skies above the American flag, in all seas and climes.

We trust the policy indicated by this act of Commander Hollins will be followed up in all similar cases. It is the policy which *must* be pursued, when all peaceful efforts for redress have failed, or the American flag will become a byword and reproach. The affair of Capt. Gibson and Holland is a case in point, and the government could not follow up the demonstration at Greytown in a more proper manner than by sending a fleet and demolishing the Hague, unless our demands upon the government of Holland be complied with. Fire away.

Three cheers for Capt. Hollins's victory!—Nine cheers for the administration!—Twenty-seven cheers for the Boston Times!

Only one thing remains to be done, in regard to our Greytown victory, and then we can rest upon our laurels. That is, we have to foot the bills. We went to war with Greytown as we did with Mexico, to wipe off dishonor, and to obtain indemnity for the past and security for the future. We have got the victory and the honor, in the Greytown case; and long before we get through paying Mexican indemnities, we shall begin to pay Greytown claims, which those of our own citizens, and others, who lost property there, will certainly prefer, and in many cases will obtain.

We are thankful that no lives were lost; and on the whole we think the Greytowners were a wise people, not to contend against odds so fearful, especially when they can get paid for their loss of property.

By the way, it occurs to us that bombarding the Hague would be quite a different affair from burning Greytown; and might prove quite a serious job for our Navy.

STEAMER ADMIRAL, from Boston for St. John, which was lost near Quoddy Light, 26th July, had on board 350 passengers, all of whom, with the crew and baggage, were safely landed.

She had a full cargo of freight valued at about $100,000. Among her cargo were $40,000 worth of bonded goods received by the last Cunard steamer and destined for St. John. They were probably insured in England. The Admiral was owned by the Eastern Steamboat Company—and there was no insurance on her except such as the stockholders may have on their respective shares.

POISONER FLED.—The Syracuse Republican states that a Mrs. Ellen Urbon died in that city on the 18th inst., from the effects of poison supposed to have been administered by her husband in a glass of lemonade. A post mortem examination disclosed the effects of poison. Urbon was a German Professor of Music; he is about six feet in height, 35 or 40 years of age, has light complexion, hazel eyes, brown hair and a high forehead, rather bald. It is supposed that he has fled to Europe.

ENGLISH ALE.

We sometimes see liquors of various sorts advertised, "pure as imported." No doubt this is sometimes true, and said in good faith. But the question recurs, How *pure are* foreign liquors? The following item from the Boston Traveller may help to answer the question.

"In England, lately, a brewer named Henry Woodhall was charged with adulterating his beer. It appeared, upon examination, that a quarter of a pound of what is called grains of paradise had been brewed with one hundred gallons of ale. The magistrate, in passing sentence, remarked in strong terms upon the injurious and pernicious nature of the practice, and regretted that he had not the power to imprison as well as fine, as the intoxication caused by the infusion of this noxious drug made its recipients mad, and was the origin of many of the brutal assaults which now so frequently occur. The accused was fined $250."

A correspondent of the Concord Capital Reporter, recommends the above item to the consideration of the friends of order, to beer drinkers, tax payers and others, and asks—"Is it not to be regretted that there should be, or seem to be, any *constitutional difficulties* in the way of exercising a proper control over such a pernicious beverage. *Perhaps* our American cheap ale isn't adulterated like the English article above mentioned. (?)"

In consideration of the uselessness of intoxicating drinks when pure;—and the terrible dangers of the impure and drugged,—how much more comfortable as well as safe is he who lets all such trash alone, than he who quaffs he knows not what, of folly, madness, or death, perhaps!

A BLACK RASCAL.—One Wm. Townsend, a man of color, has been arrested and is now in Boston jail, on a charge of stealing money. With him, in the crime and in the prison, is another man of similar color, calling himself William Williams, who pretended to be a fugitive slave from Charleston, S. C. The Boston Herald says that this supposed fugitive had been some days in the care of leading abolitionists, and adds:

Quite a sum of money had been raised to help him on his way towards the North Star, and it was proposed to send him to St. John, New Brunswick.

A report soon circulated that a fugitive was arrested, and the Mayor and some of the Aldermen were consulted in the matter. By some it was proposed to let him leave town before the "slave-catchers" and "bloodhounds" got upon his track, but it was finally deemed expedient to subject him to a rigid examination first. After a severe questioning he broke down, and said he was no fugitive at all—that his real name was George Smith, that he belonged at Syracuse, N. Y., and knew all about the Jerry rescue there. About this time, those who had been arguing so loudly for his discharge lost all sympathy for him, and declared that he might be dragged off by Boston officers, Southern masters, or the ——— himself, without their interference.

Sensible men, these fanatics, after all.—They were not willing to "send back into slavery the servant who had escaped from his master." But if a free man had sold himself to the Prince of Darkness as a thief, and to the Father of lies as a falsifier, they would not interfere with the bargain. Why should they? White men often do so: why should not black men have the same privilege?

IMPORTANT LAW INTELLIGENCE.—Hon. B. R. Curtis, Associate Justice of the U. S. Supreme Court, has just issued his first volume of "Reports and Cases argued and determined in the Circuit Court of the U. S. for the First District." 1851–1853. The copious learning and elaborate care exhibited in this volume fully justify President Fillmore in selecting Mr. Curtis as a successor to the world renowned Story and the highly-gifted Woodbury. Two cases are recorded which our legal readers will be interested in. In United States *vs.* Robert Morris—a case arising out of the rescue of Shadrach—Judge Curtis ruled that juries *are not* judges of law as well as of fact, but that they must be instructed in the law by the Court, and that "they are bound to consider that they are told truly." In United States *vs.* James McGlen, he ruled that "if a person suffering under *delirium tremens*, is so far insane as not to know the nature of his act, &c., he is not punishable; but if a person, while sane and responsible, makes himself intoxicated, and, while intoxicated, commits murder by reason of insanity, which was one of the consequences of intoxication, and one of the attendants on that state, he is responsible."—*Lowell Journal.*

We are not sure that we understand the last *instruction*: but if we do, we should certainly feel bound by it if on a jury. As *we* understand it, one part contradicts the other, leaving the juror to exercise his own discretion.

STRIKE OF ENGINE DRIVERS.—The Chicago Journal states that a strike occurred last week on the New Albany and Salem road. The engineers refused to run any trains and threatened violence to others who should attempt to do so. On nearly three hundred miles, from Lake Michigan to the Ohio river, the business of the entire road was stopped. The occasion of the strike was a requirement of the company that the engineers should sign a bond exculpating the company from all accidents which might befall them while running trains.

The Pensacola, Fla., Democrat, contains the following singular notice: "If there be in our neighborhood an orphan boy, white or colored, about 14 or 15 years of age, who can read and write, and who wishes to learn the printing business, let him apply at this office, go to work, stick to it, and we will turn him out a man with business habits."

LOCAL.

OBSTACLES REMOVED.—We received our new tax bills on Friday, whereby we know that the wheels of our City Governments have had a drop or two of oil applied to their axle by some authority or other.

On enquiry we learn, that the warrant for collecting the taxes was so ingeniously amended by a professional gentleman, that the consciences of the contestants were satisfied to issue the same; and that the usual bonds are given.

Thus the machine is again in motion—and if the constitutional and legal hoops can but hold the cracked wheel together till the snow comes, we trust our city government will slide through the year without further stoppages, and with as little friction as could be expected.

The difficulty was removed by inserting the words "or any other election," in close connexion with the choice of Collector in 1853. This change, covering the present year, removed the objection.

The Journal says:

The election of Street Commissioner is also disavowed by the factious majority of the board, as well as the election of Surveyors; but they have assented that the Mayor may employ the new incumbents in their respective offices, and allow them to approve bills, &c., which shall receive the sanction of the board.

DANCING AND WALTZING.—The Summer Term of Mr. Lamprey's Dancing and Waltzing Academy, closed with a public exhibition, on Wednesday afternoon last. The school, which well filled Rechab Hall, appeared well. Waltz Quadrilles and Waltzes, Polkas and Polka Quadrilles, Schottische, Eletezka, (a new and beautiful dance;) Highland Fling in costume, by four Misses; Hornpipe, by two Misses; and other dances, were performed to the satisfaction and gratification of parents and other spectators. Excellent music was furnished by Messrs. Lamprey, Haines and Parkinson.

A CURIOUS SUIT.—William Reed, master of the ship "Queen of the Pacific," was taken before Commissioner Merwin, of Boston, on Saturday, on a charge of withholding "suitable food and nourishment—from malice, hatred and revenge"—from one of the crew, called Akbur, from the first of March, 1854, to the first of April, 1854. The complainant is a Hindoo, and in the charge which he makes out against the Captain he is to be supported by the testimony of thirty of his shipmates, who are also Hindoos. The Captain had on board an abundance of animal and other food, such as is used by English and American seamen, which he offered to his crew, but this the Hindoos would not eat, and because Capt. Reed would not supply them with beans, rice and fish, which was impossible, they allege the withholding of suitable food. The complainant and the witnesses in the case are now in jail, where they subsist on rice and fish; but reject that when cooked by Christians. They are curious specimens of the human race, and are subjects of the most miserable superstitions.—*Courier.*

WELL SAID.—The Worcester Transcript says—"Any person can see by a little observation that the feeling of the better portion and more enlightened of the Americans is not against foreigners becoming Natives, but against foreigners and foreign influences attempting to control the country, and the interests of those who are Natives or really desire to become Americanized, to foreign or sectarian measures."

The Manchester Democrat says reports of the riot in that place on the Fourth of July have been greatly exaggerated. The "Know Nothings" had nothing to do with it; it was only a row between the boys of "Young America" and "Young Ireland," and the damage done both to the church and to the furniture of the Irish houses was not far from $1,000.

The Boston Atlas gives the account of sales recently received of three parcels of goods shipped from Boston to Melbourne. The first is a lot of 25 hhds. Bacon sides, which cost in Boston $280. The net proceeds of sales, after deducting freight and charges amounting to nearly $1500, was £12 18s, about $60.

The second was 789 bushels barley, cost in Beston $849—sold for £186 11s—charges (including £178 10s freight) £388 13s, leaving the shipper a total loss and bringing him in debt $1000 besides.

The third is 1548 bushels oats, invoice cost in Boston $1307—proceeds of sales £345 2s—charges (including £373 freight) £686 6s.—This involves the loss of the whole invoice and $1500 besides.

The Troy Whig of Friday publishes the following paragraph:

"We regret sincerely to learn that Judge Bronson has met with a heavy loss—no less than nearly his entire fortune—by the failure of the Empire Stone Dressing Co. At his time of life, to have the earnings of so many years swept away, is a case of hardship that will occasion universal regret."

The wife of Julius Lytance, of Davenport, Iowa, lately obtained a divorce, because the affectionate Julius had "worn out a new horsewhip on her back, driven her out of his house, beat her, and threatened to shoot her with a pistol." He has been married several times, and now wants to take another wife, but the ministers refuse to perform the ceremony.

Private telegraphic dispatches have been received announcing the failure of John Tucker, President of the Reading Railroad Co.—Liabilities are very large.

A fight for $100 came off in N. York with a butcher, named Pool, and Morrissey; the latter was most unmercifully whipped.

☞ We are requested to state that there will be services at the Pleasant Street Church to-morrow.

OUTRAGES AT CHARLESTON.—We learn by Charleston papers that the most atrocious means are used in that city to obtain crews for vessels. Laborers are decoyed on board the vessels under various pretences, and when once there, they are kept by intimidation.—From a case recently examined before the courts, it appears that a sailor's boarding house keeper cajoled a man on board a vessel under the pretence of fetching a seaman's chest. When the victim had got on board, the boat containing the landlord pushed off for the shore. The man then attempted to escape with a boat belonging to the vessel, but was shot down by the mate, and at last accounts was lying in a precarious condition. The Charleston Courier, from which we gather these facts, adds:

"During the investigation, we understand that circumstances came to light revealing an atrocious system of kidnapping not surpassed in any seaport. For instance, a laboring man, not long since, while walking on the Bay, was offered $5 to assist in taking a drunken man on board a vessel in the stream. When the boat approached the ship the man who was supposed to be drunk rose, and with the assistance of his companion placed the laborer on board, and he was taken against his will on a voyage to Europe."

There are compensations to almost everything in life. A correspondent of the New York Mirror, describing a splendid estate on the Hudson, says:—"It cost Mr. —— about $80,000, and he has erected a stately mansion, costing over $50,000 more. He is at present in Europe, with his wife—both being in ill health. He has no children."

HALF A CENTURY IN BED.—The New York Observer states that Susan Pierson, of Bridgehampton, Long Island, died at the advanced age of seventy-two years, during fifty-two of which she had not set her foot upon the floor. During that period the extent of her travels, with the exception of a year spent in a neighbor's house, was from one corner of a room to another, in the arms of some strong man. This change was always attended by a loss of voice, from which she did not recover until a night's repose. The best medical skill was unable to restore her health, or even enable her to sit up in bed.

Death of Thorndike Rand.—We learn that this individual, who it will be recollected was detected in embezzling the funds of the Suffolk Bank, some three years since, and who contrived to elude pursuit and escape, died recently in Surinam. His effects have been received by his relatives in Boston.—*Journal.*

Mrs. James Wilson, who recently died at Steubenville, Ohio, left all her property, valued at two hundred and fourteen thousand dollars, to the Missionaries. Her relatives contested the will; and it has just been decided that she was insane, and they will get her money.

John Wentworth, member of Congress from Illinois, says:—Washington, with all its beauty, is a heartless, wicked place. It is one great gambling den, where the stakes are offices, and the players legislators; everybody says that everybody are rascals and knaves, and everybody acts as if he believed what everybody says was true.

FIRST OF AUGUST!

GRAND CELEBRATION

AT

ELIOT!

THE Friends of Freedom will celebrate the Anniversary of the

Emancipation of 800,000 *Slaves*,

In the British West India Islands, by a

MASS MEETING

in the beautiful

Grove near Fernald's Crossing, in Eliot, Me.

On the line of the Portsmouth, Saco & Portland Railroad,

ON TUESDAY NEXT, AUGUST FIRST.

Arrangements have been made with the P. S. & P. Railroad, to convey visitors to the gathering at half the usual fare. (This will be, to visitors from Portsmouth, 10 cents each way. Cars will leave Portsmouth at half-past 9 o'clock, A.M. and return at about 5 P.M. Tickets for the Excursion may be had in Portsmouth of J. P. Morse, S. Gilbert or James Nowell. It is desirable that all should purchase on Monday.)

SETH WEBB, Jn. Esq. of Boston; Hon. SAMUEL FESSENDEN, of Portland; Rev. A. P. WILLEY, Editor of Portland Inquirer; and Rev. WM. H. BREWSTER, of Lowell; are confidently expected to address the meeting, with other able speakers from abroad, including Clergymen from Portsmouth.

Rev. J. HALL, of Eliot, Chairman of the Day.
Rev. WM. C. CLARK, of Portsmouth, Chaplain.

BOND'S CORNET BAND

Will lend the charm of their music to the occasion throughout the day.

SINGING, good and appropriate, will be furnished by a Company of ladies and gentlemen from Portsmouth.

☞ The Procession will form at 9 o'clock, at the Wesleyan Chapel in South Eliot; and led by Bond's Band, will march to the Grove.

A FREE COLLATION,

On the Picnic plan, will be served up; and the character of the people of Eliot and vicinity, is a sufficient guaranty for a good Dinner, especially if the crowd of people from the neighboring towns do not forget to take their baskets along with them. Our friends in Eliot are liberal, but it should be remembered that they are few—and the feast should come from the contributions of the many.

☞ Should the day be favorable, the Celebration cannot fail to attract a great crowd and be highly agreeable.

☞ The Daughters and Sons of Freedom will hold their Quarterly Meeting at the Wesleyan Chapel, South Eliot, on Monday afternoon, July 31, at 2 o'clock.

CONCERT.

Bond's Cornet Band will give one of their popular Instrumental Concerts, at the South Eliot Wesleyan Chapel, on MONDAY Evening, July 31st. Tickets 25 cents. Doors open at 7, Concert commence at 8.

PORTSMOUTH WHARF COMPANY.

THE grantees of the Act incorporating the PORTSMOUTH WHARF COMPANY will hold their first meeting at the office of Alfred W. Haven, Esquire, in Portsmouth on Saturday the twenty ninth day of July, A. D. 1854, at two o'clock in the afternoon, at which time and place they will attend to the following business, to wit,

To see if they will adopt the act incorporating said company.

To choose Directors, Clerk, Treasurer and such other agents and officers as may be thought necessary at said meeting.

To fix and subscribe the capital Stock of said company and divide the same into shares.

To admit associates, make by-laws and to do any other business which may come before said meeting.

PORTSMOUTH, July 17, 1854.

JOS. HARVEY,
WM. MARTIN,
A. W. HAVEN,

Grantees authorised to call the first meeting of said company. jy18

jy25 W. J. LAIGHTON'S.

CONGRESS.

WASHINGTON, July 27.

SENATE.—The civil and diplomatic bill being under discussion, Mr. Brodhead moved to increase the salaries of the Ministers to Spain and Russia to $12,000 each. Lost.

Mr. Mason's amendment was adopted in the following form: "Provided that the salaries of Ministers to Great Britain and France shall hereafter be at the rate of $15,000 per annum each, and that hereafter outfits to the Ministers of Great Britain and France shall not be allowed."

Mr. Bayard moved an appropriation of $300,000 for the extension of the Post Office building in Washington. Rejected—yeas 16, nays 25.

Mr. Pearce made a report from the committee on conference on the disagreeing votes to the Indian Appropriation bill, which was agreed to, and the bill is now passed.

The Naval Appropriation bill was received from the House, read twice, and was referred.

Numerous amendments increasing the salaries of officials were acted upon. Some agreed to, others negatived.

Mr. Douglass moved amendments appropriating $25,000 for public buildings, and $5000 for a library in Nebraska, and the like sum for the same purpose in Kansas, and repealing so much of the Nebraska and Kansas act as put the seat of government of the latter at Fort Leavenworth.

Mr. Shields moved an amendment appropriating $10,000 for constructing as an experiment an atmospheric telegraph according to Mr. Richardson's plan, between the President's house and the Capitol. Lost—yeas 18, nays 20.

A large number of amendments were voted down, and finally at 7 o'clock the bill passed. Adjourned.

HOUSE.—The report of the conference committee on disagreeing votes on the Indian Appropriation bill, was adopted.

The House resumed the consideration of the bill increasing the pay and promoting the efficiency of the army.

After considerable debate the clause increasing the pay of commission officers was stricken out, and, without concluding the subject, the House adjourned.

FRIDAY, July 28.

The Senate agreed to a resolution calling for information about the burning of Greytown: and refused, 19 to 32, to take up a bill incorporating the Texan Navy (i. e. the officers) into ours.

The Senate then, after debate, took up the River and Harbor bill. 35 to 14. Among the latter we notice Mr. Williams.

WASHINGTON, July 28.—In the recent destruction of Greytown, Commander Hollins did no more nor less than he was instructed to do by the Government. It is known that Mr. Marcy was reluctant to order such extreme measures, but his scruples were overcome by Mr. Borland, aided, it is said, by some of the officers of the Transit Company. The instructions to Capt. Hollins were first to demand an apology from the town and payment of $24,000 indemnification for the destruction of a shed in 1853 at Punta Arenas, belonging to the Transit Company. If these demands were complied with, he was next to demand the surrender of the parties who insulted Mr. Borland in order that they might be personally punished for that offence; but if the authorities and people of Greytown should absolutely refuse these satisfactions to Mr. Borland and the Transit Company, then Capt. Hollins was to open his batteries and lay the place in ruins. Previous to this, however, he was to take every precaution to avoid bloodshed by the bombardment. The burning was not explicitly ordered, but was left in his discretion to be done, if necessary to the destruction of the place.

NEW YORK, July 28.—At a meeting of American citizens, sufferers by the late bombardment and destruction of Greytown, held at the Irving House, last evening, a petition to Congress for indemnification was adopted, and a business Committee consisting of Albert Horn, C. Durand, and Wm. B. Gerring of New York, was appointed.

WASHINGTON, July 28.—A classification of the votes upon the liquor question in the House, shows the following results:—Total yeas from Free States for the reform, 72; total nays from the Free States against the reform, 26. Total nays from Slave States against the reform, 64; total yeas, 18. The vote being thus equal, Speaker Boyd gave his casting vote "No," and killed temperance reform in the Navy stone dead. Seventy-three members were absent from their seats, or dodged.

BUFFALO, July 27.—The funeral of Miss Fillmore took place this morning; it was attended by a large concourse of the leading citizens.

The deaths at the Poor House, yesterday, were reported at 17.

The deaths by cholera at the suspension bridge, yesterday, were seven, all on the Canadian side.

SPRINGFIELD, July 28.—A dwelling house belonging to A. Bullen, and occupied by two Irish families, near the junction depot at Chicopee, was burned about 1 o'clock this morning, and four girls—two named Canty, aged 9 and 21, one named Coughlin, aged 25, and the fourth, named Collins, aged 8—were burned to death.

The bodies have been recovered, in a shockingly burned and crisped state, and the head of one of the girls was not to be found at all.

A young man named Patrick Boland was badly burned in rescuing his mother from the flames. The fire was first discovered issuing from the room occupied by the victims. The house was valued at $1300, and was insured for $600.

A young man of Bayonne has just invented a mode of electric telegraph, by which the despatch is printed in ordinary letters or conventional signs, by the telegraph itself, at the point of departure, at the end, and at several intermediate stations simultaneously.

There are two sorts of people whose statements should be taken with caution: lovers, when speaking of the objects of their affections, and grandmas, when speaking of their grandchildren.

HARPER'S

Gazetteer of the World.

THIS work has been undertaken to supply a want which is daily becoming more pressing. The Censuses of the United States, of Canada and British America, of Mexico, of Great Britain, and of the Continental States of Europe, are all of recent date; and of these the most important have been laboriously consulted, and their information arranged and classified in the best manner. The editor has had it constantly in view to present the greatest amount of useful matter in the smallest possible space; and confidently hopes that the work will fully meet the wants of the times, and that the general reader, the student and the artisan will find in it all the information adapted to their several requirements, brought down as nearly as possible to the present day, in a form more convenient than in any other work of similar character.

Harper's Gazetteer of The World is to be completed in TEN NUMBERS at 50 cents each; and will comprise about 1800 royal octavo pages, with seven new and accurate Maps.

☞ No. 1 can be seen, and subscriptions received, at the Bookstore of

jy26 JOSEPH H. FOSTER.

Pauline Chart.

J. F. SHORES, Jr. No. 1 Congress Block, has for sale the PAULINE CHART—by J. W. Bonham. This chart comprises a map of the "Countries adjacent to the Mediterranean, illustrating the Acts of the Apostles."

Also, arranged according to time, an account of the principal occurrances in the Life of St. Paul, as follows: First Missionary Tour; Second Missionary Tour; Third Missionary Tour and Travels while a Roman Prisoner. Each occurrence is given with the name of the Place, its Locality and the Reference to the Chapter and verse.

Sunday School Teachers and Pupils will find this Chart a very great assistance in studying the Life and Travels of St. Paul, and it is highly recommended by clergymen who have examined it. jy27:3

Sagamore House, in Rye.

FROST'S POINT.

THIS is an entirely new House, situated about four miles from the Portsmouth Depots. There is easy access to it by land or water. It is located on a point of land nearly surrounded by water, and seaward presents a finer view of the ocean, Isles of Shoals, &c, than can be obtained from any other house in Rye. An excellent view of Portsmouth and the Piscataqua River is also had from the top of the house. The location of the Sagamore combines the advantages of quiet retirement in a beautiful country, with convenience of access and all the facilities enjoyed at other Beach Houses. The opportunities for Bathing and fishing are unsurpassed. Boats are always in readiness for the accommodation of visitors. A Pilot Boat touches regularly at the Point, on her daily trips to the Shoals.

The Sagamore House was newly furnished throughout, this Spring, in the best manner. The Ladies' Parlor is fifty feet in length, and the Dining Room of the same proportions. The Sleeping Rooms are capacious and airy, and the building thoroughly ventilated.

An experienced man has charge of the house, and every facility provided, and no pains spared for the accommodation of all visitors who may favor us with a call.

The Tables will be provided with the best the market affords, for in this respect the proprietor wishes it distinctly understood that he will not be excelled by any other House in Rye or on the seashore.

TERMS.—For permanent boarders $1.00 per day. Transient visitors as cheap as elsewhere.

Carriages will be at the Portsmouth Depots on the arrival of every train of cars to convey passengers to the Sagamore House.

We ask ladies and gentlemen to give us a call and we will satisfy them that we will do all we promise.

THOMAS CLARK, Proprietor.

Rye, July 27. 2w

Hacking Notice.

FARE TWENTY-FIVE CENTS.

THE SUBSCRIBERS, including all the proprietors of Hacks in Portsmouth, would respectfully inform the public, that after another trial of 12½ cent rates for Hacking, they find it impossible to work at that price, with hay and grain at the present high rates, and have therefore agreed that the charge for conveyance of passengers within the compact part of the city, shall be 25 cents, from and after this date.

J. W. STOCKING, Piscataqua House.
W. H. DENNETT, 2d, Vaughan street.
ISRAEL MARDEN, City Hotel.
C. H. SIDES & CO. State street.
W. D. PERKINS, Franklin House.

PORTSMOUTH, N. H., July 14, 1854.

Farm for Sale.

THE subscriber offers for sale his FARM in Portsmouth, formerly known as the Wentworth place, and more recently as the Wm. Sheafe farm, containing about 52 acres, suitably divided into pasture, mowing and tillage land, with a dwelling house and other buildings. On the farm is a good orchard of grafted fruit.

For further particulars apply to

jy18 STEPHEN A. BENNETT.

Also a good selection of Chewing and Smoking TOBACCO, Fancy Pipes, &c., for sale at Wholesale and Retail, at No. 4 Congress Block, Congress street.

jel6 GEORGE A. DAVIS.

DYSENTERY, CHOLERA MORBUS

AND

DIARRHŒA ELIXIR,

PREPARED BY WM. R. PRESTON,

Druggist, Congress Block, Congress street.

AT this season of the year, when the above diseases are so prevalent, and in our larger cities, sweeping off a great portion of the population, it becomes every one to keep in his family a remedy that will immediately arrest its course and give certain relief. This is no quack nostrum; it has been used the present season by one of the first Physicians in New York, and in thirty cases out thirty-two of confirmed cholera, that came under his treatment, he was successful in the employment of the above remedy.

PRICE 50 CENTS A BOTTLE.

Sold by

jy21 1mJM WM. R. PRESTON, Apothecary.

BEWARE OF COUNTERFEITS!!

THE CELEBRITY OF

DR. S. O. RICHARDSON'S

Sherry Wine Bitters

HAS induced several persons, who do not possess the least medical knowledge, to assume the title of Doctor, and put before the public an article in imitation of my Medicine, which they call Sherry Wine Bitters, and attempt to palm them off under the pretence that I have retired from business, and also that they manufacture an improved article of the same name.

I would say to those in search of health, to be sure that you obtain the REAL article, which may be known by the Fac Simile of my signature upon the outside wrapper, covering each bottle, and also by the copyright border of the same covering.

Sold wholesale and retail at my office, No. 51 Hanover street, Boston, and by all dealers in Medicine in every city, town and village throughout the New England States.

N. B.—OTIS MORTON, Jr., is my sold Travelling Agent for the N. E. States. je23 3m2aw*

No. 5 Pleasant street, near Market Square,

where they will find all articles at the lowest prices for cash.

Portsmouth, June 26.

Garden Engines.

JUST received at "the sign of the Big Coffee Pot" a full supply of Garden or Fire Engines, which are respectfully commended by the subscriber to the notice of the public. Wherever these Engines have been introduced they have invariably given entire satisfaction. They are unsurpassed for power, capacity or usefulness. From the size of the air chamber sufficient power is obtained to enable one man to throw a steady stream of water to the height of fifty feet perpendicularly, thereby rendering it a desirable article as a

PROTECTION AGAINST FIRE,

And for washing windows of second and third stories of buildings, carriages, &c. With a newly invented water diffuser as a Garden Engine it defies competition. The diffuser is a perfect and simple article, and its superiority over the common rose sprinkler is that it will throw three times the quantity of water a much greater distance and spread it perfectly even, with less power applied. An Engine with a diffuser of this description, used in orchards and gardens to throw soap suds on the young trees, will destroy many kinds of vermin liable to injure the fruit and be an invaluable addition to the implements of the Nurseryman and Horticulturist.

MEXICAN MUSTANG LINIMENT—

Every land has balled with
Xtacy this preparation whose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its tortures, have yielded to its

Magical influence; cancers, contorted joints,
Ulcerated and swollen limbs that have
Suffered for years under the weight of disease,
Turn by its application to suppleness and health.
A remedy of such general usefulness that can
Restore soreness of action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.

Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over disease,
No matter of how long standing—sold at
The agents in all parts of the Union.

The Greatest Medical Discovery of the Age.

MR. KENNEDY, of Roxbury, was discovered in one of our common Pasture Weeds a remedy that cures Every Kind of Humor, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, and that a common weed growing on the pastures and along old stone walls, should cleanse every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. There is no if's and ands, hums and ha's about its suiting some cases, but not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old; to old people of 80 years. I have seen poor, puny, wormy looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in cases of severe dizziness. Some have taken it who have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings; but you must not be alarmed; they will disappear in from four days to a week. There is never a bad result from it; on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

Nothing in the annals of Patent Medicines has ever been received by the public with so much favor as this simple preparation. It is now composed of nine different herbs. In May, 1852, when I commenced making a business out of it, I sold about two bottles per day. In June, 1853, I sold 4320 bottles. In October, 1853, I sold 6120 bottles. I hope you will call that doing well; I do.

In my own practice, I confine it strictly to humors; but there are some who make so enthusiastic in its favor they think what cured them will cure any thing and any body; they accordingly recommend it for every variety of disease. In this way a great many virtues of it have been found that I never would suspect.

Cases of Dyspepsia, of many years standing, that withstood every known remedy, have been permanently cured.

I know one man to gain 17 lbs. by taking three bottles; another 11 lbs.; another 16 lbs.; and another 7 lbs.—the venerable master Robinson of Boston.

In diseases of the Liver it is a specific. I know several with yellow skin and yellow eye, the body emaciated and the mind melancholy, get fat and cheerful by a few bottles.

I know several cases of Dropsy, and one particularly bad. A lady, aged 79, was unable to leave her house for the last twelve years, and was so much relieved (she was reduced in circumference thirty-four inches,) as to visit her friends in several neighboring towns.

Another had the Dropsy in her left leg, and was unable to walk for ten years, the enormous swelling to an enormous size; at last bursted, making a bad wound which could not be healed; by taking three bottles and using two boxes of ointment, she is now quite well. Why it should make some fat and others lean, I cannot tell, but so it is.

I know of several cases of Kidney complaints cured by it. It the columns of a newspaper was a proper medium, I could tell of cases of this most distressing of all diseases that would make your heart bleed, that were permanently cured by it.

It has been lately found to be a sure cure for Panama fever. In one case the first spoonful put off the fit two hours. One bottle cured him. Another came home to Boston and was induced by his friends to try it. Three bottles cured him.

It likewise gives great relief in the Asthma. A lady in Lawrence was unable to lie in bed for a number of years; she can now lie without the least inconvenience.

A lady in Weymouth lost the use of her left side by the Erysipelas. On the second bottle, she broke out in one mass of humor from head to foot. In a few days she was well.

It has lately been found to be equally good for humor outside as inside, (taking it inwardly in the meantime,) for Erysipelas, Salt Rheum, Pimples on the Face, or any eruption of the skin whatever; only where the flesh is very sore you must dilute it with water.

When made weak enough it is the best eye-wash for weak and watery eyes that I ever saw.

Others use it to cleanse the dandruff out of the hair and strengthen its roots, which it certainly does; and to cause a new growth of hair grow on bald heads, which, if I had not seen with my own eyes, I would not believe from you or anybody else.

As regards dieting, I never came across the first person that ever got any benefit from it. On the contrary, numbers came to death's door by it, as it gives the humors the upper hand. My medicine requires the most nourishing food you can get. It will soon give you an appetite.

Do not for a moment suppose that I warrant a cure of all those diseases, in every case. I merely tell you what it has done, hoping it will do the same for you. I do not warrant a cure in any disease but humors, scurvy never fails. For further particulars see the circular around each bottle.

No change of diet ever necessary. Eat the best you can get, and enough of it.

I have an herb, simmered in olive oil, scatters Scrofulous swellings of the neck and under the ears. Price fifty cents per box.

DIRECTIONS FOR USE. Adults, one table spoonful per day; children of eight years, dessert spoonful; from five to eight, tea spoonfuls. As no direction can be applicable to all constitutions, take enough to operate on the bowels once a day.

Manufactured and for sale by DONALD KENNEDY, 120 Warren street, Roxbury.

For sale by E. H. ROLLINS, Concord, N. H.

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swellings, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by

W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y.
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
T. Parke, M.D., Pres't College of Physicians, Phila.
Dr. Del Vallo, Prof. of Medicine, Havana.
Jose Eourceo de Luz, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spain.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have been for many years remade it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a superb steel engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swain, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, twenty doors below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person calling a *somewhat* similar name, well calculated to deceive.

General Agents for the United States,

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENTIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Chest, Back, etc.

If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.

It is an English Remedy, and was used by William IV. late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $50 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Liniment, but considers warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's Office, 240 Green

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc.

wich street, New York.

Ocean House,

ISLES OF SHOALS.

THE subscribers respectfully inform their friends and the public that they have taken the well known House on SMUTTY NOSE, where they will be pleased to entertain all who may favor them with their patronage. Every attention will be given to make their sojourn with them pleasant during the hot months.

The Yacht SPY, Capt GOODWIN, will run daily to the Islands from Pier Wharf, Portsmouth, at 10 o'clock, A. M., or on arrival of cars from Boston and Concord. LEMUEL L. CASWELL,

je22 2mo EDWARD S. FOSS.

Appledore House,

ISLES OF SHOALS.

STEAM having died out in Portsmouth, the subscriber has the pleasure to announce to his old friends and to the public, that he has chartered the beautiful YACHT SPY, of 40 tons burden, and has had the good fortune to secure the services of Capt. JAMES W. GOODWIN, the well known pilot, as master. His skill, carefulness and attention will insure the travelling public a more safe, expeditious, comfortable and pleasant transit to and from the Islands, than has hitherto been attained.

She will leave PIER WHARF, foot of State Street, Portsmouth, every day (Sundays excepted) immediately after the arrival of the trains from Boston and Concord, and return in season for the evening trains.

Many alterations and improvements have been made in the establishment to make it more convenient and comfortable.

An abundant supply of Ice has been carefully laid in, and the facilities for fishing perfected.

To the invalid, the weary and the active pleasure seeker, this location presents attractions not equaled in New England.

jel7o THOMAS B. LAIGHTON.

Gerrish House,

KITTERY POINT, MAINE.

THIS Establishment having been put in perfect order, will open for visitors on the 15th of June. Every attention will be given to make this House one of the most pleasant Summer resorts. Kittery Point is celebrated for its conveniences for bathing, fishing and sailing. Arrangements have been made to afford every facility for guests to enjoy the above amusements. The Post Office is within three minutes' walk of the House. A coach runs regularly twice a day to and from the Point, via the U. S. Navy Yard, arriving at and leaving the City of Portsmouth, three miles distant, on the arrival and departure of the cars. For further particulars address the proprietor, at Kittery Point, Me.

For Sale.

HOUSE on Christian Shore, suitable for two small families. If applied for immediately will be sold low. Apply to

April 17. E. S. WENDELL.

HOUSES FOR SALE.

THE DWELLING HOUSE, No. 9 School street. This is a well built house, two (high) stories, in good repair, and is convenient for one family or two families, or for a large Boarding House. It contains nine or more rooms and two scullieries, and has an excellent cellar under the whole house. The situation is central, being about equal-distant from the markets, factories and railroads. Connected with this house is a building which has been and may be occupied both as a barn and a work-shop. If not sold soon, a part or the whole of the premises will be let.

The DWELLING HOUSE No. 6 Green street. This house is fitted for two tenements; it is well built, was thoroughly painted and put in good order the last season, and is well calculated for two families, (having about 6 rooms each) and may be considered a good location for persons employed at the north end. It is centrally located between the different ship-yards in that section of the city, each tenement will be sold separately, if desired.

The DWELLING HOUSE No. 7 Liberty street, corner of Charles street. This house was formerly owned and occupied by the late Peter M. Lowd and is in good order. Attached to it is a lot of land large enough for a Stable or for another dwelling house. It would make a good place for the residence of a person employed at the shipyards across the river, or at the Navy Yard.

The DWELLING HOUSE No. 47 Bow street.—This house has been built, but a few years, is well finished off, and is very convenient. In the rear is quite a large garden spot. This would be a desirable place for a person employed at the shipyards, or at the Navy Yard nearly opposite.

Also, for sale, a BUILDING LOT, on Mount Vernon street, (opposite No. 2,) with a small building thereon, which can be finished off into a Dwelling house.

All of the above property will be sold on liberal terms, if applied for soon. For further particulars apply to JOSEPH M. EDMONDS,

Feb. 27. No. 9 Islington street.

TO LET—The STORE on the corner of Vaughan and Deer streets. It was occupied as the first Union Store in this city, and is considered as a good stand for business. It is within a few rods of the Boston and Concord Railroad Depots. Possession can be had immediately.

FOR SALE—The HOUSE in the rear of the above, on Vaughan street—a convenient house for two families, and has been so occupied for about six years, by the same tenants. It rents for $150. For information, terms, &c., call on JOSEPH L. LOCKE, on the premises, or JOSEPH M. EDMONDS, 9 Islington st. m29

jy4 J. H. THACHER, Apothecary.

MORNING CHRONICLE.

BY MILLERS & GRAY. PORTSMOUTH, N. H., MONDAY, JULY 31, 1854. VOLUME 4. NO. 153.

THE DAILY MORNING CHRONICLE

is published by
FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER,
At No. 4 Exchange Buildings,
Pleasant Street,.....PORTSMOUTH, N. H.
TERMS $4 a year, or $3 if paid strictly in advance.

The Weekly Chronicle,
A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING.—For a Square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

MUSICAL CRITICISM.

Our readers will recollect the illustrious John Phœnix of the San Diego Herald—him who turned the sheet into a Whig Journal in the absence of the editor, and had *such* a fight with "the Judge" on his return. Well, Phœnix retired shortly after that immortal contest, and took unto himself a wife. But the Herald now has a valued correspondent over the title of Dr. S. S. Squizzins—who is supposed to be as nearly related to Phœnix as he can be. The Doctor was at Santa Cruz at the latest dates, where he had been to see Madame Thillon in the play of the Crown Diamonds. He claims credit as a musical critic on the ground that his grandfather was a *drummer in the Revolution.* Thus he goes on in the perfect style of modern criticism:

The *overture* was fairly executed. I was particularly pleased with the *drums. Drums* excelled—he was spirited, effective, *allegro.*—The *duo* between the 1st drum and Loder's fiddle was excellent, although I thought that the symphony performed by the latter's shoulders was rather *bizarre,* I might say, perhaps, *brusque, outre.* I regretted much to observe an apparent lack of confidence, a feebleness and wavering of expression on the part of the *fife* in those places on the score where he was obliged to go from *flat E to sharp X.* This at times jarred painfully on the practised ear, and sadly marred some of Auber's grandest points. Why was this? As regards the *Trombone,* he was truly grand. In the concerted piece of Y clef, the unison of trombone and *French Horn* was unique, and when the *hautboy* joined in at the end of the second stave the effect was electrical, and the audience was completely carried away! The most hypercritical musician could not say one word against the execution and finish of the *Grand March.* It was admirable, superb: from the *minor tonic at A,* to the *cadenza* movement in the middle, down to the *da capo* crash at the *finale,* it was performed *a merveil,* and among the audience the effect produced on the female portion, was evident by the great flutter of lace and muslin, a gentle contact of white kids, and an increased presence of musk and jockey club in the atmosphere.

A short silence was allowed for the 'overcome' to recover themselves, and then the green baize curtain rose on the first scene of Scribe's favorite opera.

The first act was well put upon the stage, we speak theatrically, not operatically. The Cave of the Comers for scenic effect, was well got up, the rocks were intensely rocky, and the green the most verdant of verdure; but we must seriously object to the *bell,* suspended on a pole in the cave,—the tone of that bell was in bad taste, very bad taste indeed. It smacked too strongly of the hotel or steamboat dinner bell. It only shows you upon what trifles *effect* sometimes depends. It is very easy to obtain a bell with a 'knell' to it, or a 'toll,'—but this had neither;—it had an ordinary every day ring, and nothing else—

'All gentlemen that have not paid their fare, will please step to the captain's office and settle!'

Bad taste—plebeian taste!

The first song, 'I am queen of these fair mountains,' pleased us much, and but for the brilliant polish of Don Henrique's big boots, which distracted the attention from the minor points, the air would have been the *chef d'œuvre* of the evening.

The buffalo chorus—

'Oh clang! clang!
Oh clam! bang!
Oh dum! dam!
Oh ram! dam!'

was fair;—we cannot accord it that indiscriminate praise given it by many. Our objections are founded principally upon a *slurring* of the *minor frets*—an undue developement of the *crescendo* passages in *fifths* and *sevenths,* a ponderous movement in *B sharp,* and a general and almost criminal indifference to the author's evident intention, the *harmonic unison* of the lower *leger* lines in the *piano-dolce* chords above the *anti-scorbutic scale!*

The *notturna,* by Diana and Henrique in the second act, although *expressive* lacked *expression.* Spottleini and Bimbi would have done it better justice. The effect of the *cavatina, 'I'll asunder,'* by Catarina, was somewhat marred by the crunching of peanuts in the pit by the reporter of the Evening Journal. I have seen the third act rendered so much better in the principal theatres of Patagonia and Japan, that I could recognize no beauties in it as given at the Metropolitan.

HOUSE SCALES—Three sizes suitable for family use—for sale by E. A. STEVENS.

Morning Chronicle.

MONDAY, JULY 31, 1854.

TERRIBLE RETRIBUTION.

STORY OF A FAITHFUL DOG.

About fifty years ago, in the western part of the State of New York, lived a lonely widow, named Mozher. Her husband had been dead many years; her only daughter was grown up and married, living at the distance of a mile or two from the family mansion. And thus the old lady lived alone in her house by day and by night. Yet in her conscious innocency and trust in Providence she felt safe and cheerful; did her work quietly during the daylight, and at eventide lay down and slept sweetly.

One morning, however, she awoke with an extraordinary and unwonted gloom upon her mind, which was impressed with the apprehension that something strange was about to happen to her or hers. So full was she of this thought, that she could not stay at home that day, but must go abroad to give vent to it, by unbosoming herself to her friends, especially to her daughter. With her she spent the greater part of the day; and to her she several times repeated the recital of her apprehensions. The daughter as often repeated her assurances that the good mother had never done injury to any person, and added, I cannot think any one would hurt you, for you have not an enemy in the world. As the day was declining, Mrs. Mozher sought her home, but expressed the same feeling, as she left her daughter's house. On the way home she called on a neighbor, who lived in the last house before she reached her own. Here she again made known her continued apprehensions, which had nearly ripened into fear, and from the lady of the mansion received answers similar to those of her daughter:—You have harmed no one in your whole lifetime—surely no one will disturb or molest you: go home in quiet, and Rover shall go with you. Here Rover! (said she to a stout watchdog that lay on the floor,) here Rover! go home with Mrs. Mozher and take care of her! Rover did as he was told: the widow went home, milked her cows, took care of every thing out of doors, and went to bed as usual. Rover had not left her for an instant. When she was fairly in bed, he laid himself down on the outside of the bed; and as the widow relied on his fidelity, and perhaps chid herself for needless fear, she fell asleep. Some time in the night she awoke, being startled, probably, by a slight noise outside the house. It was so slight, however, that she was not aware of being startled at all; but heard, as soon as she awoke, a sound like the raising of a window near her bed, which was in a room on the ground floor. The dog neither barked nor moved. Next there was another sound, as if some one was in the room and stepped cautiously on the floor. The woman saw nothing; but now for the first time felt the dog move, as he made a violent spring from the bed; and at the same instant something fell on the floor, sounding like the fall of a heavy log. Then followed other noises like the pawing of the dog's feet; but soon all was still again, and the dog resumed his place on the bed, without having barked or growled at all. This time the widow did not go to sleep immediately—but lay awake wondering, yet not deeming it best to get up. But at last she dropped asleep; and when she awoke the sun was shining. She hastily stepped out of bed—and there lay the body of a man extended on the floor, dead, with a large knife in his hand, which had been uplifted to take her life, and which was even now extended. The dog had seized him by the throat with the grasp of death; and neither man nor dog could utter a sound till all was over. The man was the widow's son-in-law, the husband of her only daughter. He coveted her little store of wealth, her house, her cattle and her land. And instigated by this sordid impatience, he could not wait for the decay of nature to give her property to him and his, as the only heirs apparent—but made this stealthy visit to do a deed of darkness in the gloom of night. A fearful retribution waited for him. The widow's apprehensions, communicated to her mind and impressed upon her nerves by what unseen power we know not—the sympathy of the other woman who loaned her dog—and the silent but certain watch of the dog himself—formed a chain of events which brought the murderer's blood upon his own head, and which are difficult to be explained without reference to that providence or overruling power which numbers the hairs of our heads, watches the sparrow's fall, and "shapes our ends, rough hew them as we will."

This is one of Uncle Toby's stories; and is derived, as to all its facts, from a most respectable Quaker family, whose veracity he cannot doubt.

THE DELIA WEBSTER AFFAIR.—Craig, the persecutor of Miss Webster, has been shot in the back, by a man named Randall, who was a laborer on Miss Webster's estate in Kentucky.

LOCAL.

DAILY MORNING CHRONICLE.

With the present issue closes the fourth Volume and the second year of the publication of the Daily Morning Chronicle. It is customary with the editorial fraternity, to say a word of themselves on such occasions; and perhaps it may not be idle in us now to take a brief survey of the past in our (that is the Chronicle's) history, of our present condition and future prospects.

On the 11th of June, 1852, the present publishers of the Chronicle announced that they would, on the first of August following, commence the publication of such a paper as this is and has been. This was the first the public knew of the Chronicle; but it was no impulsive movement which brought it out—it was the plan and study of years. During two or three years in which one of the publishers of this paper was employed in the office of the Newburyport Herald—the able and industrious editor of that popular paper often expressed surprise that Portsmouth should be without the convenience and luxury of a daily paper. He thought it must be that the editors and printers here were afraid of hard work—for all who have had experience in the line, know that a berth in any department of a daily paper, is no sinecure.

The representations made to the apprentice were not forgotten; and when the boy grew to be a man, he determined to carry out the idea he had long cherished almost in secret. After being disappointed in two projects talked of and agreed upon, to further the plan—one in connection with the junior of the Journal, and the other with our neighbor of the Gazette—the present firm was formed, and by it the Chronicle. It is not probable, however, that a Daily of *any* party preferences would have been sustained. Three attempts have been made to establish party dailies here—two by the Journal and one by the Gazette. Such a paper, in a city not large, needs the patronage of men of all parties, which no party paper can get.

In looking back through the two years, during which we have served and been served by our patrons, we have reason to congratulate ourselves. We commenced with full advertising columns, which have never thinned out, but been steadily packed closer. We began with a fair list of subscribers, which has steadily grown to quite a large one—including, we are pleased to be able to say, nineteen-twentieths of the original subscribers.—And while our patrons are of all classes, and religious and political opinions, we hope to satisfy each by being *fair* with all. While we are ever ready to battle "for the faith that is in us," we hope to be able to render a "reason" for that faith.

In conclusion, we would return thanks to those friends who have deemed our efforts worthy of encouragement—hoping that we may merit and continue to receive their support. Thus much for the close of Volume four.

BLACK LIST.—The Newport Argus has commenced the publication of a black list of its delinquent subscribers. The first victim owes a subscription to that paper of sixteen years. We are not sure but that this method of publishing the names of delinquents of several years' standing who *refuse* to pay their dues, is a good one. But we shall certainly hereafter publish the names of all persons who refuse to take their papers from the post office, without settling their accounts.—*N. H. Gaz.*

Any person who takes and reads a newspaper, without intending to pay for it, certainly deserves to be "posted;" but that don't pay the printer for sixteen years' news, nor for four. The better way, especially with a scattered list, is to receive pay in advance, and notify subscribers when payments are run out. The veteran publisher of the Worcester Spy, Mr. Earle, told us, when we were about starting the Chronicle, that he had found of great advantage to himself if not to others, the adoption of an invariable rule to cut off from his list-book the name of every person who would not settle at least once a year. We have had but little trouble in settling our accounts semi-annually—thanks to our patrons and our discounting advance terms. There is however, *one* name (and but one) on our subscription ledger, against which there is no credit for the two years he has received the Daily Chronicle. This is such an anomaly, that we shall be tempted to give him the benefit of our circulation, if the account is not settled immediately.

STEAM ON THE PISCATAQUA.—The Gazette states that "arrangements have been made to transfer the steamer Merrimack from Newburyport to the Piscataqua this season, provided a suitable quality of coal can be obtained here. She is said to be a very good river boat, and has made frequent excursions to Shoals, Hampton Beach and other places along the coast. The Merrimack will run daily between this city and Dover, and make occasional excursions to the Shoals. Moses Warren, the well-known pilot will be connected with her." The Gazette adds:

A good steamboat between Portsmouth, Dover, and the Shoals would do a fair business during the warm season, especially while railroad connections between Dover and Portsmouth are as bad as at present. Even the slow packets between these places carry a great many passengers. The scenery upon the Piscataqua will compare favorably with that of any New England river, and there is an excellent half-way house at Dover Point, kept by John Hanson, in the very pleasantest location.

The steamer Grace Darling, now on the Merrimack river, was run to good advantage for her owners, the railroads and our city generally, last season. It was found, however, that we need a larger and more powerful steamboat, than we have had for some years past, and the Grace Darling was accordingly sold as unfit for service in towing, &c. An attempt was made by her proprietors, this season, to raise a company to buy a suitable boat for river and sea use, but the project failed through the lack of public spirit on the part of some who should have assisted in the enterprise. What we want is a good sized propeller, with power sufficient to tow the largest ships; with good management such a boat would pay a good interest.

CELEBRATION AT ELIOT.—Extensive and complete arrangements have been made for a grand time at Eliot, to-morrow. The celebration was designed by the Sons and Daughters of Freedom in Maine—where the Order, which is similar to organizations of like name in the temperance movement, originated. By the announcements officially made by the committee, it will be seen that attraction enough is offered to secure a crowd. While there will be many there who truly sympathize with and rejoice in the event to be celebrated, there can be none who reasonably regret it. This will be one of the cheapest of all excursions;—music free—Bond's Band; dinner free—collation in the beautiful grove; fare almost nothing—10 cents each way. See advertisement.

YOUNG AMERICA.—The Boys' Company which has appeared in our streets several times recently, had a grand parade, with drum and fife, on Saturday afternoon. They numbered about thirty muskets, (all but the *guns*,) and made a respectable appearance. After some hours' marching, they dined at the Piscataqua house, the old military head-quarters.

THE PORTSMOUTH MUSICAL UNION meets this evening at a quarter before 8 o'clock.

"That young man to whom 'the world owes a living,' has just been turned out of doors—his landlady not being willing to take the indebtedness of the world on her shoulders."

Good—just as he deserves. These fellows who are continually finding a ready excuse for shiftlessness or laziness, in the idea that "the world owes them a living," should always be served in this way. The men to whom the world *is* really indebted—who have actually done more for the benefit of mankind than "inspiration of opportunity" demands, are the last ones to claim that a living is due them without any exertion on their part.—True merit is always modest, or at any rate not boastful.

MARRIAGE LAWS.—Our legislature, at their last session, passed a new law regulating marriages and publishments. The principal change is, that the publishment of intention to marry, which used to occupy three public meeting days, need not occupy five minutes. The process is this, in short metre: You, the happy bridegroom, will go to the town clerk; notify him; he fills a certificate. You pay him fifty cents: he gives you the document: you enclose a gold $1, or a V, and give it to the minister, as you and the bride stand before him. The parson says you are married—and so you are. Thus this business, like trials before the slave Commissioner, is done "in a summary manner."

DESTRUCTIVE FIRE IN LOWELL.—The Lowell News has an account of a very destructive fire in that city on Friday afternoon, which burned about twenty buildings, injured several persons badly, turned a number of families out of their houses and destroyed $200,000 worth of property.

It is certain that a little girl, five or six years of age, were burned in one of the buildings, and it is currently reported that a young lady and a little boy were burned in the Railroad House. A man was severely if not fatally injured, by being struck in the neck by the hook of a ladder, which tore open the veins and arteries. The fire will be severely felt by many factory girls, who have lost all their clothes, money, &c., in the buildings that were burned, as well as families, whose furniture was so unceremoniously strewed about the streets.

COMFORT OF RAILROAD PASSENGERS.—We earnestly hope that the stock will go down still lower, of every railroad whose managers have not the humanity to place the cheap luxury of a keg of water in each of its cars.—If the wailing of babies for "a brink of water," which monotonously sounds through some trains, could be heard in Wall street, we know that the tender hearted men who congregate there would hasten to sell out of any concern which so trifled with the necessities of children, the comfort of parents and the peace of bachelors, without any regard to possible dividends. This is a dry and dusty world. Let those who drive us up and down the land and break our bones for us, keep our poor clay moist while they can so cheaply.—*N. Y. Times.*

WASHINGTON, July 29.—The Senate committee on Foreign Affairs now expect to get up the reciprocity treaty on Monday, and are sanguine of its ratification.

M. Stoeckel, the Russian Charge, had made his proposition for the sale of Sitka to the United States.

MURDER BY A SLAVE.—A negro man, slave to a Mr. Calaway, in Little Creek, Hundred, near Laurlel, Del., had been sold and on Thursday of last week three men attempted to take him for the purpose of delivering him to his new owner. The negro resisted, and stabbed all three of the white men—killing one instantly, and the others are not expected to survive. Their names are William Collins, who was killed, William H. Anderson, and Elijah Hearn. The negro made hs escape.

DOCTOR YOURSELF!

THE POCKET ÆSCULAPIUS:

OR, EVERY ONE HIS OWN PHYSICIAN.

THE FORTIETH Edition, with One Hundred Engravings, showing Diseases and Malformations of the Human System in every shape and form. To which is added a Treatise on the Diseases of Females, being of the highest importance to married people, or those contemplating marriage.

BY WILLIAM YOUNG, M. D.

Let no father be ashamed to present a copy of the Æsculapius to his child. It may save him from an early grave. Let no young man or woman enter into the secret obligations of married life with out reading the POCKET ÆSCULAPIUS. Let no one suffering from a hacknied Cough, Pain in the Side, restless nights, nervous feelings, and the whole train of Dyspeptic sensations, and given up by their Physician, be another moment without consulting the Æsculapius. Have the married, or those about to be married any impediment, read this truly useful book, as it has been the means of saving thousands of unfortunate creatures from the very jaws of death.

☞ Any person sending TWENTY-FIVE cents enclosed in a letter, will receive one copy of this work by mail, or five copies will be sent for one dollar. Address, (post paid,)

DR. WM. YOUNG,

1yjy29W No. 152 Spruce st., Philadelphia.

FIRST OF AUGUST!

GRAND CELEBRATION

AT

ELIOT!

THE Friends of Freedom will celebrate the Anniversary of the *Emancipation of 800,000 Slaves,* In the British West India Islands, by a

MASS MEETING

in the beautiful

Grove near Fernald's Crossing, in Eliot, Me.

On the line of the Portsmouth, Saco & Portland Railroad.

ON TUESDAY NEXT, AUGUST FIRST,

Arrangements have been made with the P. S. & P. Railroad, to convey visitors to the gathering at half the usual fare. (This will be, to visitors from Portsmouth, 10 cents each way. Cars will leave Portsmouth at half-past 9 o'clock, A.M. and return at about 5 P.M. Tickets for the Excursion may be had in Portsmouth of J. P. Morse, S. Gilbert or James Nowell. It is desirable that all should purchase on Monday.)

SETH WEBB, Jr. Esq. of Boston; Hon. SAMUEL FESSENDEN, of Portland; Rev. A.P. WILLEY, Editor of Portland Inquirer; and Rev. WM. H. BREWSTER, of Lowell; are confidently expected to address the meeting, with other able speakers from abroad, including Clergymen from Portsmouth.

Rev. J. HALL, of Eliot, Chairman of the Day.

Rev. WM. C. CLARK, of Portsmouth, Chaplain.

BOND'S CORNET BAND

Will lend the charm of their music to the occasion throughout the day.

SINGING, good and appropriate, will be furnished by a Company of ladies and gentlemen from Portsmouth.

☞ The Procession will form at 9 o'clock, at the Wesleyan Chapel in South Eliot; and led by Bond's Band, will march to the Grove.

A FREE COLLATION,

On the Picnic plan, will be served up; and the character of the people of Eliot and vicinity, is a sufficient guaranty for a good Dinner, especially if the crowd of people from the neighboring towns do not forget to take their baskets along with them. Our friends in Eliot are liberal, but it should be remembered that they are few—and the feast should come from the contributions of the many.

☞ Should the day be favorable, the Celebration cannot fail to attract a great crowd and be highly agreeable.

☞ The Daughters and Sons of Freedom will hold their Quarterly Meeting at the Wesleyan Chapel, South Eliot, on Monday afternoon, July 31, at 2 o'clock.

CONCERT.

Bond's Cornet Band will give one of their popular Instrumental Concerts, at the South Eliot Wesleyan Chapel, on MONDAY Evening, July 31st. Tickets 25 cents. Doors open at 7, Concert commence at 8.

HOUSE SCALES—Three sizes suitable for family use—for sale by E. A. STEVENS.

CONGRESS.

FRIDAY, July 28.

SENATE.—The Post Office bill was received from the House, it contained over 1000 manuscript pages of the Daily Globe; every Post Office route was contained in it which had been asked for; it was necessary to pass it now as it would require several days to have it enrolled. The bill was read by its title three times and passed.

The River and Harbor bill being up, all the amendments of the Committee were adopted but one. Those adopted are unimportant and do not increase the appropriations. An amendment giving the Secretary of War certain discretionary power in carrying out the object of the bill, was debated at length, but without definite action upon it,

The Senate at half past four o'clock adjourned.

HOUSE.—Mr. Washburn, of Ill., said the special Committee of which he was chairman had nearly completed the investigation of the first branch of the subject referred to them, viz: the recent unauthorized alteration of the Minnesota Land bill. The second branch relating to an interpolation of a bill before the House to pay persons employed by Congress, involves a matter of delicacy so as to render it proper for him to ask leave to be excused from serving on that Committee.—The House then passed without reading the general Post Route bill.

Mr. Faulkner, of Va., a member of the Committee on Military affairs, caused to be read a communication from the Secretary of War, addressed to him yesterday, covering a letter from Gov. Stevens, in which the latter states he has received information from the acting Governor of Washington territory to effect that the Fort Sampson Indians, a numerous and warlike race, have recently made attacks on the Frontier Settlements of the Territory, and killed some four or five settlers. It was rumored that chief Justice Landers was among the missing. The Secretary of War says he is unable to increase the force there, and therefore appeals to Congress in this pressing emergency.

Mr. Chandler, of Pa., asked leave to submit a resolution requesting the President of the United States to furnish any official information which he may have received of the burning of Greytown by Captain Hollins; and requesting copies of the instructions given to Captain Hollins.

The rules were suspended, 122 against 35. Mr. Eliot of Mass., asked leave to introduce a bill to repeal the fugitive slave law of 1850. He wished to make a statement—Cries of order, order. Mr. Sollers of Md.: We understand the subject very well. Objection was made. Mr. Eliot then moved for a suspension of the rules. Disagreed to, 45 to 120.

Mr. Faulkner, of Va., introduced a bill increasing the pay of the rank and file of the army, to eleven dollars per month for infantry and twelve dollars for dragoons; to encourage enlistment. Passed. The House, in committee, considered 54 private bills and passed them.

The general appropriation bill was received from the Senate with amendments. Mr. Houston said the amendments appropriate $5,000,000 additional. It was ordered to be printed to let all see what they are.

On motion, the Committee on Ways and Means, the Committee on Enrolled Bills, and the Committee to investigate facts connected with the unauthorized alteration of the Minnesota bill, severally obtained permission to absent themselves during the session of the House. Adjourned.

NEW YORK, July 29.—The Wm. J. Peck, which sailed from this city some months since, has been seized on the coast of Africa for participating in the slave trade.

The Princeton, now at the Brooklyn navy yard, it is said has not been condemned, but will be sent to sea again at an early day.

Elizabeth Bushnell, the supposed Shakeress swindler, who acquired so much notoriety at Barnum's Hotel, in Baltimore, and hailing from New Lebanon, was arrested at the Merchant's Hotel in Courtlandt street, yesterday, and committed to the Tombs to await a requisition for her return to Maryland.

BOY DROWNED.—A bright little boy, only three years old, named Tristram Franklin, son of Wilson Curtis, of Biddeford, was drowned in a pool of water, back of the "Heights," on Tuesday last. The hole in which he was drowned was made by the quarrying of granite. Mr. Curtis' son was with another lad aged 10 years, who gave the alarm—but not in season to save the life of the boy. He was taken out in about ten minutes; but life was extinct.

ACCIDENTS.—A little girl, named Mary A. Haney, about 11 or 12 years old, and employed in No. 1, Pepperell Mills, fell through the space between the winding stairs, six stories, to the basement floor of the Mill, on Tuesday last. She attempted to slide down the railing, fell off, and fell through as stated above, hitting on the railing as she descended each story.—She was badly injured.—*Biddeford Union.*

THE LEMMON CASE.—In the Supreme Court, New York, some time since, an order was made that Mr. Lemmon should file security for costs in his slave case, or that his appeal be dismissed. His counsel on Thursday served upon the respondent's counsel, Mr. Culver, a bond executed by Gov. Johnson, of Va., to which Mr. Culver objects on the ground that the Governor has never been authorized to execute the bond, nor had the State, and that neither the Governor nor the State swear that they are worth the amount of $250 required to be secured. Mr. Culver gives numerous reasons for refusing the bond, and among others the following: That as the Governor and the State claim affinity with a section and party which repudiates compacts based only on moral and equitable considerations, it is to be presumed they would repudiate in this case the Virginia Governor's bonds for securing costs.

BLOWED HIMSELF UP.—On the 25th inst., in Nashville, Dr. Jaynes blew himself and house up by putting a keg of powder under it. Four buildings were burned in consequence, and the loss is considerable. He was supposed to be insane.

HARPER'S

Gazetteer of the World.

THIS work has been undertaken to supply a want which is daily becoming more pressing. The Censuses of the United States, of Canada and British America, of Mexico, of Great Britain, and of the Continental States of Europe, are all of recent date; and of the other most important have been laboriously consulted, and their information arranged and classified in the best manner. The editor has had it constantly in view to present the greatest amount of useful matter in the smallest possible space; and confidently hopes that the work will fully meet the wants of the times, and that the general reader, the student and the artisan will find in it all the information adapted to their several requirements, brought down as nearly as possible to the present day, in a form more convenient than in any other work of similar character.

Harper's Gazetteer of The World is to be completed in TEN NUMBERS at 50 cents each; and will comprise about 1800 royal octavo pages, with seven new and accurate Maps.

☞ No. 1 can be seen, and subscriptions received, at the Bookstore of

jy26 JOSEPH H. FOSTER.

Paulin e Chart.

J. F. SHORES, Jr. No. 1 Congress Block, has for sale the PAULINE CHART—by J. W. Bonham. This chart comprises a map of the "Countries adjacent to the Mediterranean, illustrating the Acts of the Apostles."

Also, arranged according to time, an account of the principal occurrences in the Life of St. Paul, as follows: First Missionary Tour; Second Missionary Tour; Third Missionary Tour and Travels while a Roman Prisoner. Each occurrence is given with the name of the Place, its Locality and the Reference to the Chapter and verse.

Sunday School Teachers and Pupils will find this Chart a very great assistance in studying the Life and Travels of St. Paul, and it is highly recommended by clergymen who have examined it.

Dentistry.

FRANK FULLER, DENTIST,

CALLS the attention of Citizens and Strangers to his extensive and complete

DENTAL ESTABLISHMENT,

No. 60 Congress Street,

PORTSMOUTH, N. H.

The establishment has been recently thoroughly refitted and enlarged, and the facilities for the performance of every operation in

Surgical or Mechanical Dentistry,

materially increased.

The services of a skilful and competent Assistant,

DR. JULIUS GUITMAN, OF GERMANY,

For some years past in the employ of Dr. Hitchcock, of Boston—have been secured, and persons desiring DENTAL OPERATIONS will be attended to with less delay than formerly.

☞ Every operation performed at this Establishment is warranted as satisfactory, elegant and serviceable as can be produced in Boston or elsewhere.

☞ Office open day and evening.

Sagamore House, in Rye.

FROST'S POINT.

THIS is an entirely new House, situated about four miles from the Portsmouth Depots. There is easy access to it by land or water. It is located on a point of land nearly surrounded by water, and seaward presents a finer view of the ocean, Isles of Shoals, &c, than can be obtained from any other house in Rye. An excellent view of Portsmouth and the Piscataqua River is also had from the top of the house. The location of the Sagamore combines the advantages of quiet retirement in a beautiful country, with convenience of access and all the facilities enjoyed at other Beach Houses. The opportunities for Bathing and fishing are unsurpassed. Boats are always in readiness for the accommodation of visitors. A Pilot Boat touches regularly at the Point, on her daily trips to the Shoals.

The Sagamore House was newly furnished throughout, this Spring, in the best manner. The Ladies' Parlor is fifty feet in length, and the Dining Room of the same proportions. The Sleeping Rooms are capacious and airy, and the building thoroughly ventilated.

An experienced man has charge of the house, and every facility provided, and no pains spared for the accommodation of all visitors who may favor us with a call.

The Tables will be provided with the best the market affords, for in this respect the proprietor wishes it distinctly understood that he will not be excelled by any other House in Rye or on the seashore.

TERMS.—For permanent boarders $1.00 per day. Transient visitors as cheap as elsewhere.

Carriages will be at the Portsmouth Depots on the arrival of every train of cars to convey passengers to the Sagamore House.

We ask ladies and gentlemen to give us a call and we will satisfy them that we will do all we promise.

THOMAS CLARK, Proprietor.

Rye, July 27. 2w

Hacking Notice.

FARE TWENTY-FIVE CENTS.

THE SUBSCRIBERS, including all the proprietors of Hacks in Portsmouth, would respectfully inform the public, that after another trial of 12½ cent rates for Hacking, they find it impossible to work at that price, with hay and grain at the present high rates, and have therefore agreed that the charge for conveyance of passengers within the compact part of the city, shall be 25 cents, from and after this date.

J. W. STOCKING, Piscataqua House.

Also a good selection of Chewing and Smoking TOBACCO, Fancy Pipes, &c., for sale at Wholesale and Retail, at No. 4 Congress Block, Congress street.

je16 GEORGE A. DAVIS.

DYSENTERY, CHOLERA MORBUS

AND

DIARRHŒA ELIXIR,

PREPARED BY WM. R. PRESTON,

Druggist, Congress Block, Congress street.

AT this season of the year, when the above diseases are so prevalent, and in our larger cities, sweeping off a great portion of the population, it becomes every one to keep in his family a remedy that will immediately arrest its course and give certain relief. This is no quack nostrum; it has been used the present season by one of the first Physicians in New York, and in thirty cases out thirty-two of confirmed cholera, that came under his treatment, he was successful in the employment of the above remedy.

PRICE 50 CENTS A BOTTLE.

Sold by

No. 5 Pleasant street, near Market Square,

where they will find all articles at the lowest prices for cash.

Portsmouth, June 26.

Garden Engines.

JUST received at "the sign of the Big Coffee Pot" a full supply of Garden or Fire Engines, which are respectfully commended by the subscriber to the notice of the public. Wherever these Engines have been introduced they have invariably given entire satisfaction. They are unsurpassed for power, capacity or usefulness. From the size of the air chamber sufficient power is obtained to enable one man to throw a steady stream of water to the height of fifty feet perpendicularly, thereby rendering it a desirable article as a

PROTECTION AGAINST FIRE,

And for washing windows of second and third stories of buildings, carriages, &c. With a newly invented water diffuser as a Garden Engine it defies competition. The diffuser is a perfect and simple article, and its superiority over the common rose sprinkler is that it will throw three times the quantity of water a much greater distance and spread it perfectly even, with less power applied. An Engine with a diffuser of this description, used in orchards and gardens to throw soap suds on the young trees, will destroy many kinds of vermin liable to injure the fruit and be an invaluable addition to the implements of the Nurseryman and Horticulturist.

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 76 state Street, opp. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar.—Assignments recorded at Washington.

R. H. EDDY,

Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

"PATENT OFFICE, ——

"R. H. EDDY, Esq., Boston, Mass.

"SIR—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,

Yours, &c. THOMAS EWBANK,

Boston, Dec. 7, 1853. Commissioner of Patents." eodly

LITERARY HIDE-AND-SEEK PLAYING.—The New York Evening Post points out that Bentley's Miscellany reprinted from Putnam's Monthly, Longfellow's poem "The Two Angels," giving it as original. The Living Age on this side the water, copied the poem from Bentley, crediting it to that journal.

A similar circumstance happened about a year ago, when Eliza Cook's Journal copied a story from Putnam's Monthly, and Harper's Magazine took it from Eliza Cook: but in this case Harper did not give credit, but published the story as if original.

The Evening Post truly remarks:

To suppress the origin of any article is to suppress one of its most interesting features; and the journals or magazines that indulge in the practice of that species of piracy cheat themselves and their readers at the same time.

LEATHER BELTS,

Manufactured from the best Oak Leather

THOROUGHLY STRETCHED by powerful Machinery, cemented and rivited,—and are warranted to RUN STRAIGHT on the Pullies.—A full supply constantly on hand.

Double or single BELTS, of any width, made to order and warranted.

jy25 3taw2m BOSTON.

MEXICAN MUSTANG LINIMENT—

Every land has hailed with
Xtacy this preparation whose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its tortures, have yielded to its
Magical influence; cancers, contorted joints,
Ulcerated and swollen limbs that have
Suffered for years under the weight of disease,
Throw by its application to suppleness and health.
A remedy of such general usefulness that can
Restore newness of Action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.

Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over diseases,
No matter how long standing—sold at
The agents in all parts of the Union.

A. G. BRAGG & CO., Proprietors, 304 Broad way, New York. D. TAYLOR, JR., General Agent Boston. d6 2awlw

10,000 *Bottles Sold since the First of January.*

DR. ORDWAY'S
HUMOR DISCOVERY,
AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattles ake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 2 to 5 bottles will cure it.
If you have Scrofula, 5 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.

Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all-gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA.

A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS,

It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.

One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,

It is spoken of in the highest terms. A young man was sick so much that he was obliged to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivalled; sometimes where the system is much impaired it will cause disagreeable feelings at first, but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.

☞ Price $1.00. ☜

HE HAS ALSO A HUMOR SALVE,

Unsurpassed for external humours, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.

PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.

This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicine yet discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.

PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.

This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.

PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

Swaim's Celebrated Panacea,
FOR THE CURE OF
INCIPIENT CONSUMPTION,
Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by
W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y.
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
T. Parke, M.D., Prof. College of Physicians, Phila.
Dr. Del Vallo, Prof. of Medicine, Havana.
Jose Eourenco de Luz, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spaine.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c. &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints), or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA."

and having the signature of Jas. Swaim stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) concerning the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

170 Williams St., cor. of Beekman, New York.
jel 6m

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Chest, &c.

If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.

It is an English Remedy, and was used by William IV. late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Liniment, but considers warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's office, 241 Green

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc.

Office, Green street, New York.

Marble Chimney Pieces.

THE PENRHYN MARBLE is a new and beautiful article, manufactured of Stone imported from England, which is considered an imitation of the richest and most expensive Spanish, Galway, Egyptian, Tyronese, Lisbon, Sienna and other rare and desirable kinds of Marble—the imitation being so perfect as to challenge detection without the closest scrutiny. In style of finish these Chimney Pieces stand unequalled; being very highly polished—retaining their beauty much longer than common marble, and are not injured by oil, smoke, coal gas or acids. They have been extensively introduced into public and private buildings, giving perfect satisfaction to those who have used them. The best of references can be given, showing their adaptedness for general use, the subscriber having furnished some of the best dwelling houses in the city with them during the last two years.

While excelling all others in beauty of finish and appearance, they are sold much cheaper than any thing of the kind in the market. The subscriber has now in Store a complete assortment of the above named desirable Goods, to which he invites the attention of all interested.

je21 G. N. CARLETON, 15 Daniel st.

For Summer Riding.

C. H. SIDES & CO., having fully re-furnished their Stable with the best of Horses, and Carriages of the latest and most approved styles, for the summer travels, would respectfully invite a call from those about enjoying themselves by riding. The best and safest teams furnished, for any purpose, at reasonable rates.

HACKING in all its departments, attended to with prompt attention. Their splendid new Hack, the most beautiful carriage ever brought into Portsmouth, will run for public accommodation as heretofore.

Stable on State street, nearly opposite the Rockingham House. m31

Ocean House,
ISLES OF SHOALS.

THE subscribers respectfully inform their friends and the public that they have taken the well known House on SMUTTY NOSE, where they will be pleased to entertain all who may favor them with their patronage. Every attention will be given to make their sojourn with them pleasant during the hot months.

The Yacht SPY, Capt GOODWIN, will run daily to the Islands from Pier Wharf, Portsmouth, at 10 o'clock, A. M., or on arrival of cars from Boston and Concord. LEMUEL L. CASWELL,
je22 2mo EDWARD S. FOSS.

Appledore House,
ISLES OF SHOALS.

STEAM having fitted out in Portsmouth, the subscriber has the pleasure to announce to his old friends and the public, that he has chartered the beautiful YACHT SPY, of 40 tons burden, and has had the good fortune to secure the services of Capt. JAMES W. GOODWIN, the well known pilot, as master. His skill, carefulness and attention will secure to the travelling public a more safe, expeditious, comfortable and pleasant transit to and from the Islands, than has hitherto been attained.

She will leave PIER WHARF, foot of State Street, Portsmouth, every day (Sundays excepted) immediately on the arrival of the trains from Boston and Concord, and return in season for the evening trains.

Many alterations and improvements have been made in the establishment to make it more convenient and comfortable.

An abundant supply of Ice has been carefully laid in, and the facilities for fishing perfected.

To the invalid, the weary and the active pleasure-seeker, this location presents attractions not equaled in New England.

Je17o THOMAS B. LAIGHTON.

Gerrish House,
KITTERY POINT, MAINE.

THIS Establishment having been put in perfect order, will open for visitors on the 15th of June. Every attention will be given to make this House one of the most pleasant Summer resorts. Kittery Point is celebrated for its conveniences for bathing, fishing and sailing. Arrangements have been made to afford every facility for guests to enjoy the above amusements. The Post Office is within three minutes' walk of the House. A coach runs regularly twice a day to and from the Point, via the U. S. Navy Yard, arriving at and leaving the City of Portsmouth, three miles distant, on the arrival and departure of the cars. For further particulars address the proprietor, at Kittery Point, Me.

For Sale.

HOUSE on Christian Shore, suitable for two small families. If applied for immediately will be sold low. Apply to

April 17. E. S. WENDELL.

HOUSES FOR SALE.

THE DWELLING HOUSE, No. 9 School street. This is a well built house, two (high) stories, in good repair, and is convenient for one family or two families, or for a large Boarding House. It contains nine or more rooms and two sculleries, and has an excellent cellar under the whole house. The situation is central, being about equi-distant from the markets, factories and railroads. Connected with this house is a building which has been and may be occupied both as a barn and a work-shop. If not sold soon, a part or the whole of the premises will be let.

The DWELLING HOUSE No. 6 Green street. This house is fitted for two tenements; it is well built, was thoroughly painted and put in good order the last season, and is well calculated for two families, (having about 6 rooms each) and may be considered a good location for persons employed at the north end. It is centrally located between the different ship-yards in that section of the city, each tenement will be sold separately, if desired.

The DWELLING HOUSE No. 7 Liberty street, corner of Charles street. This house was formerly owned and occupied by the late Peter M. Lowd and is in good order. Attached to it is a lot of land large enough for a Stable or for another dwelling house. It would make a good place for the residence of a person employed at the shipyards across the river, or at the New Yard.

The DWELLING HOUSE No. 47 Bow street.—This house has been built but a few years, is well finished off, and is very convenient. In the rear is quite a large garden spot. This would be a desirable place for a person employed at the shipyards, or at the Navy Yard nearly opposite.

Also, for sale, a BUILDING LOT, on Mount Vernon street, (opposite No. 2,) with a small building thereon, which can be finished off into a Dwelling house.

All of the above property will be sold on liberal terms, if applied for soon. For further particulars apply to JOSEPH M. EDMONDS,
Feb. 27. No. 9 Islington street.

TO LET—The STORE on the corner of Vaughan and Deer streets. It was occupied as the first Union Store in this city, and is considered as a good stand for business. It is within a few rods of the Boston and Concord Railroad Depots. Possession can be had immediately.

FOR SALE—The HOUSE in the rear of the above, on Vaughan street—a convenient house for two families, and has been so occupied for about six years, by the same tenants. It rents for $160. For information, terms, &c., call on JOSEPH L. LOCKE, on the premises, or JOSEPH M. EDMONDS, 9 Islington st. m29

MORNING CHRONICLE.

BY MILLERS & GRAY. PORTSMOUTH, N. H., TUESDAY, AUGUST 1, 1854. VOLUME 5. NO. 1.

THE DAILY MORNING CHRONICLE

is published by
FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER,
At No. 4 Exchange Buildings,
Pleasant Street,.....PORTSMOUTH, N. H.

TERMS $4 a year, or $3 if paid strictly in advance.

The Weekly Chronicle,
A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING.—For a Square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

Mr. Levassor, an actor of the Palais Royal, and the most successful comic singer of Paris, is worth 300,000 francs, and makes about 60,000 a year. For parlor concerts, he has long been an unfailing resource. He sings three songs, towards midnight, for $100, or 25 louis.

At a benevolent concert last winter, in the environs, where he was the only performer of note, the yield was so so considerable that the cure felt bound to acknowledge, otherwise than by words, the service of the actor. He took five louis d'or out of his own purse, enclosed them in a white sugar egg—this was at Easter—and sent them to Levassor. He received the next day the following reply:

My Dear Cure—You could not have sent me a more acceptable present. But you forgot, if you ever knew, that I only eat the white of egg; the yellow I never touch. Be good enough to add, therefore, the yellow-boys herewith, to the proceed of our concert. LEVASSOR.—*Cor. N. Y. Times.*

CAROLINA MONUMENTS.—There are at present two public statues in South Carolina. One of Lord Chatham in King street, in Charleston, lost one arm in the siege of the city. The other, of Mr. Calhoun, by Powers, left the arm which held the scroll marked "Constitution" at the bottom of the sea, off Fire Island, where the statue was sunk in the sad wreck of the Elizabeth.

Nothing daunted by this typical intimation that the State policy is a little peculiar and onesided, the Carolinians have tried again; and it is now announced that—

"The Calhoun Monument will consist of a bronzed statue of the distinguished statesman resting upon a marble catacomb twenty feet square, by sixteen feet high, the catacomb itself being placed upon a base forty feet square.

The conception is not unworthy of the eccentric State which will carry it out. A "catacomb is a tomb under ground. It is an "abstraction" worthy of South Carolina to build an underground tomb above the surface. —*Daily Advertiser.*

WISCONSIN AND THE FUGITIVE SLAVE LAW.—In the Supreme Court of Wisconsin, on Wednesday, July 19, Chief Justice Edward V. Whiton delivered the opinion of the Supreme Court of the State, in the case of Mr. Booth of Milwaukie, who was arrested for aiding in the escape of a slave from his capturers, and upon which Judge Smith of Wisconsin had previously dismissed Booth when brought before him on a writ of habeas corpus, on the general ground that the Fugitive Slave law was unconstitutional. Judge Whiton reviewed the case at length, and winds up by stating that the Court, when runaway slave cases are brought before them, are obliged to conclude that the alleged fugitive from labor is taken back to the State from which he is said to have escaped, not as a person merely charged with being a slave, but as a person who has been proved and adjudged to be a slave, and, as the Court believes, without due process of law—without having his rights passed upon and determined by a jury of his peers. The Court decided that it was essential that the fugitive's right should be maintained by all courts and all tribunals, and affirmed the order made by Judge Smith to discharge Booth.

Judge A. G. Miller, of the U. S. District Court, followed the decision of the Wisconsin court by issuing a third warrant for the arrest of Mr. Booth, and refusing the bail which had been accepted as sufficient by the Supreme Court of the State. Mr. Booth went to jail to try the result of another writ of habeas corpus from the Wisconsin court. A correspondent of the New York Evening Post, writing from Milwaukie, July 20, says:

Judge Paine, Mr. Booth's counsel, has just started for Madison for another writ of habeas corpus, which the Supreme Court are obliged to grant from their decision of yesterday—in fact, their decision yesterday was a discharge on the same writ. This writ the U. S. Marshall will undoubtedly refuse to obey, which will of course result in the arrest of the Marshall by the Supreme Court, and a grand collision between the State and United States authorities.

Eighty-one people of Braintree, Mass., having written to the Tribune to expose Perham, by whom they had been swindled into the purchase of tickets in his gift enterprise, the Tribune declines the job, and suggests that the authorities of Braintree should take measures for the safety of the place, for a town with eighty-one such fools in it, must be in imminent danger of a catastrophe of some sort.

Morning Chronicle.

TUESDAY, AUGUST 1, 1854.

OUR ANNIVERSARY.

This morning's paper is number one of the fifth volume of the Daily Chronicle. Two years of its issue being completed, with no diminution of the public interest or favor, but rather with a gradual increase of both, so far as we are informed—we have abundant occasion for gratitude for the past, and courage and hope for the future.

We have no new promises to offer; no new principles to proclaim. As early and as fair a view of passing events as we can compile or abridge, belongs to our readers each morning. Fullness of detail is impossible in a little daily; and absolute accuracy is impossible in any daily. We give, and mean to give the news as we find it, at short notice and frequently in short metre; correcting and completing as we can.

As to opinions: while we have often expressed our own with entire freedom, we have never desired any body to subscribe to them, except on conviction of their truth; and we always aim to give the opinions of others in their own words, or if recast, to give them so shaped that their owners would not disclaim them.

Besides the soberer and weighter matters, we have found room hitherto in our small sheet for touches of humor, satire, sport and pastime; always welcome to some classes of readers,—we are not aware, that within the bounds where we have kept them, they are of offensive to any.

Such as the Chronicle has been—such, and as much better as we can make it, shall it be. Our readers thus far, have been patient and pleasant: we hope to give them no good cause to be otherwise.

WASHINGTON MORALS.—The celebrated representative in Congress from one of the most drunken districts in New York City, is said by a correspondent of the Times, to be almost constantly inebriated, so much so that his condition is clearly apparent to any one who sees him.

This individual was in his seat on Saturday, even more inebriated than usual. His continual interruptions and objections so retarded the business of the House, that one of his colleagues asked whether it was right that the proceedings should be so delayed by the objections of one who was beside himself; and the Chair, (Mr. Hendricks,) finally refused to recognize him; whereupon he started from his seat, cursing the Chairman publicly before the House, and staggering up towards the desk, as if with the purpose of assaulting Mr. Hendricks. Col. Orr, of South Carolina, interfered, and rather forcibly led Mike Walsh out of the hall, and adopted measures to keep him where he would do himself and the House the least injury."

He may be the worst drunkard in Congress, but he is by no means the only one who has been elevated to that high position. There may be a goodly number of temperance men in Washington City; but there is no reason to believe they abound among the public officers or servants congregated there.

A temperance reform was attempted in the Navy Ration, attached to the Navy Appropriation Bill.

A classification of the votes upon the liquor question in the House, shows the following result: — Total yeas from free States for the reform 72; total nays from free States against the reform 26; total nays from slave States against the reform 64; total yeas 18. The vote being thus equal. Speaker Boyd gave his casting vote "No," and killed temperance reform in the Navy stone dead. Seventy-three members were absent from their seats or dodged.

This vote is by no means discouraging. If so many vote for temperance now, when the members are as at present, how easily that measure may be carried, when a few more temperate men get into Congress, as certainly they will.

PUTNAM'S MONTHLY FOR JULY, 1854, from Fetridge & Co. Boston, and J. F. Shores of this city, is on our table; containing Confucius and Stage Coach Stories, both capital articles; also, the Smithsonian Institute, the Lightning-rod Man, Israel Potter, Spiritual Materialism, To Lyra, Wood Notes, West Point and Cadet Life, Ethiopian Nights Entertainments, Editorial Notes.

For a frontispiece, the No. has Bayard Taylor in a Turkish dress.

TEMPERANCE IN NEW HAMPSHIRE.—The Concord Phœnix of July 29th, remarks:—

We can now look back upon the labors and efforts of the past year, and their results in the action of the Legislature and see that they have not been in vain. The cause of Temperance has gained strength, and the victory is nearly obtained. One more struggle and we conquer. So far as the Maine Law is concerned we shall succeed next June. And New Hampshire will be redeemed from the liquor traffic. Of this we feel confident. But it will require effort.

Strakosch, the pianist, arrived in San Francisco, July 1. He was compelled to leave Ole Bull on the Isthmus, looking for his violins, bows, diamonds and money, which he entrusted to the care of some one to bring her.

GAS HOUSE DESTROYED.

Another of those terrible crashes, so common in New York City, took place on Saturday afternoon, July 29, when the new buildings of the Manhattan gas works, foot of East 14th street, which were partially covered with an iron roof, fell, burying a large number of men under the ruins. About one hundred men, it is supposed, were at work on the premises.—The exaggerated reports circulated last evening, relative to the disaster, created the most intense excitement throughout the city, and the fact that only three or four persons were actually killed, and 15 or 20 more or less injured, was regarded as almost incredible, considering the nature and suddenness of the accident, and the large number of persons employed about the demolished works. It appears that the gas company were erecting three immense buildings to connect with their extensive gas works, occupying some twenty-five lots of ground, at the foot of 14th street, East River. The foundation was commenced last fall, and the buildings were in rapid progress of completion. They covered 245 feet deep, and 186 feet front, and were 26 feet in height, and probably cost about $30,000. The walls were of brick, about sixteen inches thick, and apparently built in a substantial manner. They were divided by brick partitions of equal thickness, and supported upon trellis work. Iron roofs of slight make but great extent were in progress of being slated from the side resting on 15th street. The support of these roofs were two arches starting from the centre of the building to the sides of the yard, and six rows of massive iron columns. There is much diversity of opinion as to the immediate cause of the accident. It is, however, presumed that the walls had been shaken by the sudden gust of wind of Wednesday night, and perhaps cracked by the vibration of the roof induced by electric influence. The iron skeleton of the roofing lay on the ground after the accident in the same shape as when it rested on the walls, and to this circumstance may be attributed the escape of so many persons, for as the iron bars were not broken they sat on the ground in the shape of large cages, from under which a man might readily walk. The accident occurred at half-past two o'clock. P. M., and they who were on the spot say the noise was like the hissing of steam, or the explosion of a boiler. The position of the [illegible] clearly indicate that the building [illegible], which circumstance goes far to prove that some flaw of the iron braces or supporters was the cause of the disaster.

Four men were killed on the spot, and about 20 wounded; two or three of these are reported to have died since, and others are very badly injured.

LOST BOY.—Quite an excitement was created in Concord, N. H., on Saturday evening, July 22, by the loss of a boy eight years old, named Waldo Crockett, who had gone to a hill a little out of the city, to fly a kite. The city Crier and Marshal exerted themselves in vain to find him; and finally the Mayor ordered the bells rung, and stated the case to the citizens. A general search was commenced by torch lights, amid violent thunder showers. About one o'clock at night, the lad was found asleep under a fence at the roadside, thoroughly drenched; and Gov. Baker, who was among the searchers, wrapped him in his coat and conveyed him to his mother. The signal bell agreed upon was rung, and all retired to their homes.

A FAIR FUGITIVE.—The editor of the *Vermont Tribune* gives an account of a fugitive slave who has just been passed through Vermont to Canada.—He says:

She is 20 years of age, tall, well-formed and of far more than ordinary intelligence, able to read fluently, a member of the Methodist church, and a daughter of her *master!* she was running away from her own father, Ruffin Gilchrist, of Easton, Me., because *he had sold her* to a South Carolinian for $1100. Charlotte, the fugitive, ran away, lay secreted in the woods eighteen days, found a friend in Baltimore, who sent her to a Quaker in Philadelphia by a mode we dare not tell lest it should involve him in trouble.—Her long exposure and dreadful journey to Philadelphia brought on a fever, from the effects of which she had not recovered when here at St. Albans. From Philadelphia to Boston by sea, thence to Maine, and then to avoid some bloodhounds who were on her track, she turned her steps this way, avoiding her pursuers with consummate address, finding excellent friends all the way, and good accommodations on the U. R. R. With the money given her here, she went on her hurried way to the only land where she could breathe freely.

A good deal of talk and discussion is carried on in the English papers, about drinking in the Crystal Palace. The feeling is very decidedly against the directors for allowing liquors to be sold there.

A very proper feeling, too. There ought to be a like feeling against selling liquors in our Capitol at Washington.

THE RACER LECOMTE.—The N. Y. Spirit of the Times says that O. P. Hare, Esq., of Newmarket, Va., offered $12,500 to the owner of Lecomte for that splendid four mile racer, who made the fastest time ever made in the Union—but it was refused.

THE AMENDED HOMESTEAD BILL.—The Washington Star says:—It is not to be doubted that this measure will be most vigorously opposed in the House. We have already heard enough to satisfy us that a considerable force have made up their minds, if possible, to prevent its enactment, even if it may be necessary to defeat the general appropriation bills in so doing. We have no idea, however, that any such result can be brought about.

The wheat crop has been gathered in Ohio and Virginia. In the former, the crop has been much better than anticipated, the fly having done much less injury than was supposed. In Virginia the yield is more than an average in quantity and quality.

LOCAL.

NEW VOLUME.—The commencement of a volume is a good time for those who wish to preserve their paper, to begin their subscriptions and files. Subscribers will please bear in mind our terms—$4 per year for the Daily, or $3 strictly in advance; Weekly, $1 per year, in advance. Subscriptions to either may commence at any time.

WATERING PLACES.—From Newspaper accounts, it appears that the fashionable summer resorts have been but little patronized this summer, thus far. This may be accounted for by the precarious state of business relations in our large cities, and also by the prevalence of cholera in various parts of the country. Most of the houses in this vicinity are now full, and doing a good business.

Jenness's Ocean House, presents a scene of magnificent splendor; while Philbrick's Atlantic House offers a bright galaxy of beauty which cannot be excelled at any watering place on the coast. This Atlantic House combines two features which are seldom found together. While on the one hand is the broad ocean—its bosom heaving and falling, and rolling its waters—here upon the smooth sand, and there upon the scraggy rocks, with its constant, ceaseless roar;—on the other hand is to be found the deep shade of the forest, where the wanderer is fully protected from the burning rays of the noonday sun. This combination of country and sea shore, together with the affable courtesy of the landlord, have rendered this house, as it should be, one of the most popular resorts on the whole line of the coast.

UPSET.—A party of Irishmen were upset in the river, off the beacon, on Sunday. The sheet was belayed, and the sail being struck by a flaw of wind, the boat capsized, from a want of knowledge of the management of boats. The whole party were picked up by boats, which went to their assistance.

FIRST OF AUGUST.—No more honorable act was ever done by the British Parliament, than passing the Emancipation Act, whereby the slaves in all the British West Indies, found themselves transformed into freemen. Truly it was but a simple act of justice; but then, only a few men, and a very few governments if any, are honorable enough to be always honest or just. We prize the act for its goodness and not less for its rarity.

The example is not lost on this country, sad as some modern acts may seem. It has a moral force that no one can gainsay nor successfully resist. Many attempts have been made to lie it down in one way or the other, but there it stands, in sight of our own coast, a monument to freedom, more lasting and more valuable than the most costly and dangerous piles of stone-masonry that man has ever heaped up.

The first of August in the British West Indies, is nearly the same thing to the people there, as is the fourth of July with us. Ours is the birth day of the Nation—theirs the birth day of Man.

☞ Cars leave the Eastern Railroad depot at half-past nine o'clock this morning, for the Eliot Celebration. See adv.

PRINTING PAPER.—We have been troubled much, within the past year, to procure such stock as we like to print on. For a few months we have been obliged to print our Weekly on paper of an inferior quality, and scant in weight—though costing the same as a nice article. We have now received for the Weekly, a good supply of the same fine paper on which we have for three or four months printed the Daily Chronicle, and shall now be once more able to issue our Weekly in a style which will better suit our readers and ourselves. The price of our paper stock has increased just *twenty-five per cent.* since the first issue of the Daily Chronicle. We are now supplied, to order, by Messrs. Grant, Daniell, & Co., warehouse 28 Union street, Boston.

COMPOSITION ROLLERS.—The rollers used for inking printers' types—which took the place of the old sheepskin and wool balls—are made of well-boiled glue and sugar-house molasses. We see several papers are commending the rollers manufactured by Mr. J. Holmes, 23 Water street, Boston. We have used his rollers for two years, and find them to be of excellent quality in all respects.

GREAT FALLS MANUFACTURING CO.—The annual meeting of this corporation was held at their counting room on Wednesday. A semi-annual dividend of 4 per cent. was declared. The affairs of the company are said to be in a prosperous condition.—*Great Falls Journal.*

STEAMBOAT COMMUNICATION BETWEEN BOSTON AND SACO.—At a meeting of some of the citizens of Saco and Biddeford, recently, eight gentlemen from the two towns were chosen a committee to make all necessary inquiries relative to the feasibility of running a steamboat between those places and Boston. There is a strong interest in the matter, and, if the committee should report favorably, the project will undoubtedly be carried out.—*Boston Courier.*

DOCTOR YOURSELF!

THE POCKET ÆSCULAPIUS:

OR, EVERY ONE HIS OWN PHYSICIAN.

THE FORTIETH Edition, with One Hundred Engravings, showing Diseases and Malformations of the Human System in every shape and form. To which is added a Treatise on the Diseases of Females, being of the highest importance to married people, or those contemplating marriage.

BY WILLIAM YOUNG, M. D.

Let no father be ashamed to present a copy of the Æsculapius to his child. It may save him from an early grave. Let no young man or woman enter into the secret obligations of married life without reading the POCKET ÆSCULAPIUS. Let no one suffering from a hacknied Cough, Pain in the Side, restless nights, nervous feelings, and the whole train of Dyspeptic sensations, and given up by their Physician, be another moment without consulting the Æsculapius. Have the married, or those about to be married any impediment, read this truly useful book, as it has been the means of saving thousands of unfortunate creatures from the very jaws of death.

☞ Any person sending TWENTY-FIVE cents enclosed in a letter, will receive one copy of this work by mail, or five copies will be sent for one dollar. Address, (post paid,)

DR. WM. YOUNG,

1yjy29W No. 152 Spruce st., Philadelphia.

THIS DAY.

FIRST OF AUGUST!

GRAND CELEBRATION

AT

ELIOT!

THE Friends of Freedom will celebrate the Anniversary of the

Emancipation of 800,000 *Slaves,*

In the British West India Islands, by a

MASS MEETING

in the beautiful

Grove near Fernald's Crossing, in Eliot, Me.

On the line of the Portsmouth, Saco & Portland Railroad,

ON TUESDAY NEXT, AUGUST FIRST,

Arrangements have been made with the P. S. & P. Railroad, to convey visitors to the gathering at half the usual fare. (This will be, to visitors from Portsmouth, 10 cents each way. Cars will leave Portsmouth at half-past 9 o'clock, A. M. and return at about 5 P. M. Tickets for the Excursion may be had in Portsmouth of J. P. Morse, S. Gilbert or James Nowell. It is desirable that all should purchase on Monday.)

SETH WEBB, Jr. Esq. of Boston; Hon. SAMUEL FESSENDEN, of Portland; Rev. A. P. WILLEY, Editor of Portland Inquirer; and Rev. WM. H. BREWSTER, of Lowell; are confidently expected to address the meeting, with other able speakers from abroad, including Clergymen from Portsmouth.

Rev. J. HALL, of Eliot, Chairman of the Day.

Rev. WM. C. CLARK, of Portsmouth, Chaplain.

BOND'S CORNET BAND

Will lend the charm of their music to the occasion throughout the day.

SINGING, good and appropriate, will be furnished by a Company of ladies and gentlemen from Portsmouth.

☞ The Procession will form at 9 o'clock, at the Wesleyan Chapel in South Eliot; and led by Bond's Band, will march to the Grove.

A FREE COLLATION,

On the Picnic plan, will be served up; and the character of the people of Eliot and vicinity, is a sufficient guarantee for a good Dinner, especially if the crowd of people from the neighboring towns do not forget to take their baskets along with them. Our friends in Eliot are liberal, but it should be remembered that they are few—and the feast should come from the contributions of the many.

☞ Should the day be favorable, the Celebration cannot fail to attract a great crowd and be highly agreeable.

☞ The Daughters and Sons of Freedom will hold their Quarterly Meeting at the Wesleyan Chapel, South Eliot, on Monday afternoon, July 31, at 2 o'clock.

CONCERT.

Bond's Cornet Band will give one of their popular Instrumental Concerts, at the South Eliot Wesleyan Chapel, on MONDAY Evening, July 31st. Tickets 25 cents. Doors open at 7, Concert commence at 8.

LOST—In Pleasant or Court street, about a week ago, a pair of gold bowed SPECTACLES. The finder will be suitably rewarded on leaving them at this office. jy28

FOUR DAYS LATER.

ARRIVAL OF THE STEAMER ALPS.

The steamship Alps, from Liverpool, July 19, arrived at Boston on Monday, at 12 M., with 4 days later news.

At London, on the 18th, consols were quoted at 91 7-8 a 92, which is a slight advance.

The sales of cotton at Liverpool, on the 18th, were 6000 bales, without change of price. The breadstuff market was still declining.

At the Paris Bourse, on the 18th, 3 per cents were selling as 70.45, being a decline of 1 per cent. in twenty-four hours.

There had been a fall in the funds at Vienna.

A Vienna date of July 17, gives a rumor of the death of Prince Paskiewitsch.

Three hundred persons had been arrested at St. Petersburg, in apprehension of an outbreak. The police told them that no positive accusation could be made against them, but that political opinions had rendered their imprisonment a matter of necessity.

From Widken, July 12, we learn that the Turkish troops had crossed the Danube at several points.

KHIVA, June 1.—The Russians have built water works for the supply of their troops.

BUCHAREST, July 14.—In consequence of a dispute between the Czar and his heir the latter will not join the army.

The difference is said to be owing to the opposite way in which each proposes to carry on the war on the Danube.

Omar Pasha is said by the Presse to state his loss at Guirgevo on the 7th and 8th at 1700. The Russians at Fraterchti are 70,000 with artillery, and continually being reinforced.

The allies were in full march for the Danube, on the 8th; only French troops had reached Rustchuck. The English were at Embeler — a little place midway between Schumla and Rustchuck.

SAN SEBASTIAN, July 7.—Two battallions of the Bourbon regiment, quartered here, have pronounced in the sense of O'Donnell's proclamation.

The commander-general, the colonel, and principal officers of the place, have been arrested.

The artillery joined the movement. Population quiet.

CONGRESS.

SATURDAY, July 29.

SENATE.—Mr. Toucey explained the bill authorizing temporary accommodations for United States courts in Boston, and directing contracts to be made for sites and proper buildings in Boston, New York, Philadelphia and Baltimore, for courts and post-offices.—This was the bill as it was returned from the House. The Committee on the Judiciary recommended that the Senate agree to the House amendment, that all contracts for sites and buildings be made conditional upon appropriations at the next session to carry them out. The bill was passed as amended, and again sent to the House.

Several of the Senate's private bills were received from the House, with amendments, all of which were concurred in.

The House bill authorizing the Treasury to pay John Charles Fremont one hundred and eighty-three thousand dollars, with interest at ten per cent., from 1850, for beef purchased and furnished by him to the California Indians, was read three times and passed.

The private bills passed by the House yesterday were received, read and referred—some of them considered and passed.

The River and Harbor bill was then taken up. The pending amendment was that giving power to the Secretary of War to suspend such appropriations as he might deem advisable. Mr. Stuart moved to strike out the "Secretary of War," and insert "President of the United States." Adopted, 24 to 22. The question then recurred on the amendment as amended, and a debate between various Senators ensued, including a personal controversy between Messrs. Seward, Stuart and Benjamin. The amendment was rejected—14 to 35.

Several other amendments were proposed, and the debate was continued up to half-past four o'clock, when without conclusion the Senate adjourned.

HOUSE.—The House went into Committee of the Whole on the bill making appropriations for Ocean Mail Service for the year ending June, 1855.

The appropriations for the Collins steamers being under consideration, Mr. Olds of Ohio moved to strike out the direction given to the Secretary of the Navy to give the notice provided in the Deficiency bill of 1852, to terminate the arrangement for the additional allowances for the transportation of the mails between New York and Liverpool in the Collins line of steamers, as therein provided. Mr. Olds said the Committee on Post Offices and Post Roads reported a bill early in the session, not only giving notice, but putting an end to mail steamer contracts; the bill, however, cannot be read until next session. A long and spirited debate followed, after which the Committee rose. The amendment was concurred in, and the bill passed. It merely appropriates the amounts for the steam service required by law.

An additional section was added authorizing the dispensation of the present arrangements for transporting the mails, provided it can be done without a violation of the contract, in which case proposals from the lowest responsible bidder are to be invited for the service. Adjourned.

DIED.—A despatch was received at Buffalo, from a reliable source, announcing the death of ex-President Fillmore's brother, Charles, who died Friday, the 28th, at St. Paul, Minnesota, suddenly, of cholera.

The Washington Star says that intelligence received by the Foreign Ministers, per Africa, authorises the belief that the Spanish insurrection will prove successful.

HARPER'S

Gazetteer of the World.

THIS work has been undertaken to supply a want which is daily becoming more pressing. The Censuses of the United States, of Canada and British America, of Mexico, of Great Britain, and of the Continental States of Europe, are all of recent date; and of these the most important have been laboriously consulted, and their information arranged and classified in the best manner. The editor has had it constantly in view to present the greatest amount of useful matter in the smallest possible space; and confidently hopes that the work will fully meet the wants of the times, and that the general reader, the student and the artisan will find in it all the information adapted to their several requirements, brought down as nearly as possible to the present day, in a form more convenient than in any other work of similar character.

Harper's Gazetteer of The World is to be completed in TEN NUMBERS at 50 cents each; and will comprise about 1800 royal octavo pages, with seven new and accurate Maps.

☞ No. 1 can be seen, and subscriptions received, at the Bookstore of

jy26 JOSEPH H. FOSTER.

Pauline Chart.

J. F. SHORES, Js. No. 1 Congress Block, has for sale the PAULINE CHART—by J. W. Bonham. This chart comprises a map of the "Countries adjacent to the Mediterranean, Illustrating the Acts of the Apostles."

Also, arranged according to time, an account of the principal occurrances in the Life of St. Paul, as follows: First Missionary Tour; Second Missionary Tour; Third Missionary Tour and Travels while a Roman Prisoner. Each occurrence is given with the name of the Place, its Locality and the Reference to the Chapter and verse.

Sunday School Teachers and Pupils will find this Chart a very great assistance in studying the Life and Travels of St. Paul, and it is highly recommended by clergymen who have examined it.

TEACHER OF MUSIC,

WOULD respectfully give notice to the citizens of Portsmouth, that he would be happy to give instruction to a limited number of Pupils on the PIANO FORTE, ORGAN, THOROUGH BASS and SINGING.

Particular attention paid to the cultivation of the voice.

N. B.—Mr. P. is agent for Messrs. Hallett and Davis's celebrated Piano Fortes. Persons wishing to procure superior instruments will do well to consult him before purchasing elsewhere.

☞ Mr. Pearson has taken the spacious Room in the rear of the Chronicle Office, formerly occupied by Mr. T. P. Moses—where he may be found during business hours. Residence No. 44 Hanover Street. 8w*jy6

Sagamore House, in Rye.

FROST'S POINT.

THIS is an entirely new House, situated about four miles from the Portsmouth Depots. There is easy access to it by land or water. It is located on a point of land nearly surrounded by water, and seaward presents a finer view of the ocean, Isles of Shoals, &c, than can be obtained from any other house in Rye. An excellent view of Portsmouth and the Piscataqua River is also had from the top of the house. The location of the Sagamore combines the advantages of quiet retirement in a beautiful country, with convenience of access and all the facilities enjoyed at other Beach Houses. The opportunities for Bathing and fishing are unsurpassed. Boats are always in readiness for the accommodation of visitors. A Pilot Boat touches regularly at the Point, on her daily trips to the Shoals.

The Sagamore House was newly furnished throughout, this Spring, in the best manner. The Ladies' Parlor is fifty feet in length, and the Dining Room of the same proportions. The Sleeping Rooms are capacious and airy, and the building thoroughly ventilated.

An experienced man has charge of the house, and every facility provided, and no pains spared for the accommodation of all visitors who may favor us with a call.

The Tables will be provided with the best the market affords, for in this respect the proprietor wishes it distinctly understood that he will not be excelled by any other House in Rye or on the seashore.

TERMS.—For permanent boarders $1.00 per day. Transient visitors as cheap as elsewhere.

Carriages will be at the Portsmouth Depots on the arrival of every train of cars to convey passengers to the Sagamore House.

We ask ladies and gentlemen to give us a call and we will satisfy them that we will do all we promise.

THOMAS CLARK, Proprietor.

Rye, July 27. 2w

Hacking Notice.

FARE TWENTY-FIVE CENTS.

THE SUBSCRIBERS, including all the proprietors of Hacks in Portsmouth, would respectfully inform the public, that after another trial of 12½ cent rates for Hacking, they find it impossible to work at that price, with hay and grain at the present high rates, and have therefore agreed that the charge for conveyance of passengers within the compact part of the city, shall be 25 cents, from and after this date.

J. W. STOCKING, Piscataqua House.

je16 GEORGE A. DAVIS.

DYSENTERY, CHOLERA MORBUS

AND

DIARRHŒA ELIXIR,

PREPARED BY WM. R. PRESTON,

Druggist, Congress Block, Congress street.

AT this season of the year, when the above diseases are so prevalent, and in our larger cities, sweeping off a great portion of the population, it becomes every one to keep in his family a remedy that will immediately arrest its course and give certain relief. This is no quack nostrum; it has been used the present season by one of the first Physicians in New York, and in thirty cases out thirty-two of confirmed cholera, that came under his treatment, he was successful in the employment of the above remedy.

PRICE 50 CENTS A BOTTLE.

Sold by

BEWARE OF COUNTERFEITS!!

THE CELEBRITY OF

DR. S. O. RICHARDSON'S

Sherry Wine Bitters

HAS induced several persons, who do not possess the least medical knowledge, to assume the title of Doctor, and put before the public an article in imitation of my Medicine, which they call Sherry Wine Bitters, and attempt to palm them off under the pretence that I have retired from business, and also that they manufacture an improved article of the same name.

I would say to those in pursuit of health, to be sure that you obtain the REAL article, which may be known by the fac simile signature upon the outside wrapper, covering each bottle, and also by the copyright border of the same covering.

Sold wholesale and retail at my office, No. 51 Hanover street, Boston, and by all dealers in Medicine in every city, town and village throughout the New England States.

N. B.—OTIS MORTON, JR., is my sold Travelling Agent for the N. E. States. je28 3m2aw*

No. 5 Pleasant street, near Market Square,

where they will find all articles at the lowest prices for CASH.

Portsmouth, June 26.

Garden Engines.

JUST received at "the sign of the Big Coffee Pot" a full supply of Garden or Fire Engines, which are respectfully commended by the subscriber to the notice of the public. Wherever these Engines have been introduced they have invariably given entire satisfaction. They are unsurpassed for power, capacity or usefulness. From the size of the air chamber sufficient power is obtained to enable one man to throw a steady stream of water to the height of fifty feet perpendicularly, thereby rendering it a desirable article as a

PROTECTION AGAINST FIRE,

And for washing windows of second and third stories of buildings, carriages, &c. With a newly invented water diffuser as a Garden Engine it defies competition. The diffuser is a perfect and simple article, and its superiority over the common rose sprinkler is that it will throw three times the quantity of water a much greater distance and spread it perfectly even, with less power applied. An Engine with a diffuser of this description, used in orchards and gardens to throw soap suds on the young trees, will destroy many kinds of vermin liable to injure the fruit and be an invaluable addition to the implements of the Nurseryman and Horticulturist.

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE,
Boston, Dec 7 1852.

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent I am very respectfully,

Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

eodly

The "World's Fair" bubble in New York, after a spasmodic effort by Barnum to keep it alive, has burst, vanished like a new blown rose at the month of an oven. The Mirror says—"The surroundings of the Crystal Palace present a most desolate appearance. Every shop is closed, and the Palace is without visitors. The block of an expensive Hotel and Refectory in the vicinity was sold at public auction on Wednesday. The furniture of the hotel was new and rich."

REV. E. H. CHAPIN.—A correspondent of the New Orleans Bulletin says, "The Rev. E. H. Chapin is the first living orator in the United States. In voice, in figure, in gesture, in fluency, in originality, in fancy, in diction, in logic, I cannot find a defect, and I have heard him under all circumstances, on a dozen different occasions."

The Greatest Medical Discovery of the Age.

MR. KENNEDY, of Roxbury, has discovered in one of our common Pasture Weeds a remedy that cures every kind of Humor, from the worst scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and patches among the hair.

From six bottles are warranted to cure scrofula running sores.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Nine bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the self pimple.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle and a perfect cure is warranted when the above quantity is taken.

This is a medicine invaluable to those who have prejudiced all the wonderful medicines of the day, as that a common weed growing on the pastures and along old stone walls should cure every humor under the sun, yet it is now a fixed fact. It has cured hundreds of cases that Physicians and others had given up as incurable.

Persons living at a distance can send by Express, and receive a bottle by paying $1 00.

Agents wanted in the country to peddle over a thousand bottles of it in the vicinity of Boston. I have the agency for sale for Boston, and have already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old, to old people of 60 years. I have seen a poor, puny, worm look-ing children, whose flesh was soft and flabby, restored to health and strength by the use of this medicine.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in Catarrh and distinness. Some have taken it who have been deaf for years, and have been regularly cured. Some two bottles, and it works quite easily, but where there is any derangement of the functions of nature it will cause very singular feelings, but you must not be alarmed; they will disappear in from one to two days, and a very good result follows; on the contrary, when that thing is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.—Following is the number of Patent Medicines that are been received by the public with so much favor as this simple preparation. It is now composed of nine different herbs. In May, 1852, I commenced making a business of it, and sold about two hundred bottles. In June, 1853, I sold 620 bottles. In October, 1853, I sold 6120 bottles. I hope you will call this done well! I do.

I am a born practical. I confine it strictly to humors, and cures the worst humors in the world. Everybody think what cured them will cure any thing and any body; they accordingly recommend it for every variety of disease. In this way a great many virtues of it have been found that I never dreamed of.

Cases of Dyspepsia, of many years standing, that withstood every known remedy, have been permanently cured.

I know one man to gain 17 lbs by taking three bottles; another 21 lbs; another 10 lbs; and another 7 lbs—the venerable master Robinson of Boston.

In diseases of the Liver it is a specific. I know several well persons with dull and yellow eyes, the body constipated and the mind melancholy, get fat and cheerful by a few bottles.

I know several cases of Dropsy, and one particularly bad. A body, aged 50 years, had to leave his home for the past twelve years, was so much reduced, she was reduced in circumference thirty-four inches, so as to visit her friends in several neighboring towns.

Also, one had Dropsy in her left leg, and was unable to walk for ten years, sometimes swelling to an enormous size; at last burst, making a bad wound which could not be healed; by taking three bottles and using the healing ointment, she is as sound as ever. Who it should make worse fat and chubby, I cannot tell, but so it is.

I know of several cases of Kidney complaints cured by it. In the columns of a newspaper was a proper medicine, and a cure of the kidney disease, of all diseases that would make your heart bleed, that were permanently cured by it.

It has been lately found to be a sure cure for Panama fever. In one case the first spoonful made the patient sick in 6 hours. One bottle cured him. Another came home to die, and was induced by his brother to try it. Three bottles cured him.

It likewise gives great relief in the Asthma. A lady in Lawrence was unable to lie in bed for a month, but sat in a chair; she can now lie without the least inconvenience.

A lady in Weymouth lost the use of her left side in the Erysipelas. On the second bottle she broke out in masses of the Erysipelas from head to foot. In a few days she was well.

It has lately been found to be equally good for humor outside as inside, (taking it inwardly in the meantime,) for a cancer, for a Erysipelas, Pimples on the face, or any eruption of the skin whatever; only where the flesh is very sore you must dilute it with water.

When made weak enough it is the best eye-wash for weak and watery eyes that I ever saw.

Others use it to cleanse the dandruff out of the hair and strengthen its roots, which it certainly does, and to crown all, it made the hair grow on bald heads, which, if I had not seen with my own eyes, I would not believe from you or anybody else.

As regards dieting, I never came across the first person that ever got any benefit from it. On the contrary, numbers came to death's door by it, as it gives the humors the upper hand. My medicine requires the most nourishing food you can get. It will soon give you an appetite.

Do not for a moment suppose that I warrant a cure of all those diseases in every case. I merely tell you what it has done, hoping it will do the same for you. I do not warrant a cure in any disease but humors, *which it never fails.* For further particulars see the circumstantial pamphlets.

No change of diet ever necessary. Eat the best you can get, and enough of it.

I have an herb, simmered in olive oil, scatters Scrofulous swellings of the neck and under the ears. Price fifty cents per box.

DIRECTIONS FOR USE. Adults, one table spoon full per day; children of eight years, dessert spoonful; from five to eight, tea spoonfuls. As no direction can be applicable to all constitutions, take enough to move on the bowels twice a day.

Manufactured and for sale by DONALD KENNEDY, 120 Warren street, Roxbury.

For sale by E. M. ROLLINS, Concord, N. H.—Agents wishing to form an Agency in New Hampshire, will please address E. M. ROLLINS, Concord, who will supply the trade at the manufacturer's prices.

For sale in Portsmouth by W. R. Preston, J. H. Thacher, B. Hutchings, and D. Kimball.

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, Mercurial Affections, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the strongest testimony to recommended by the most celebrated physicians and other eminent persons. Among others, by W. Gibson, M.D., Prof. of Surgery, Pa. University. Valentine Mott, M.D., Prof. of Surgery, N. Y. W. Rhees, M.D., Prof. of Materia Medica, Pa. University. N. Chapman, M.D., Prof. of Physic, Pa. University. T. Parke, M.D., Pres't College of Physicians, Phila. Dr. Del Valle, Prof. of Medicine, Havana. Dr. Francisco de Paula Pizarro, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spain. J. Chapman, Member Royal Col. Surg., London. Sir Thomas Pearson, Maj. Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

Hundreds of the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant with safety.

The retail price has been reduced to $1.50 per bottle (containing three half pints), or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIMS—PANACEA—PHILADA."

and having the name of Jas. Swaim stamped on the sealing wax, and written on the label covering the cork, and a splendid engraving for the side of the wrapper, composed of a geocentric lithe work, combined of different dies, which have been turned by Jones, Schenck & Co., Inspectors, by Draper, Hill & Co., bank note engravers of Philadelphia. Also, a portrait of the late Wm. Swaim, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding at the stomach, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name is not spelled incorrectly on the bottles and labels, or they may be imposed on by medicines made in imitation of them by a person bearing a name and similar name, well calculated to deceive.

General Agents for the United States,

SCHIEFFELIN BROTHERS & CO.,

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Cramp, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Chest, Back, etc.

It does not give relief, the money will be refunded; provided that he asks it in a fair trial, and use it according to the directions.

It is an English Remedy, and was used by William IV. late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Liniment, but considers warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's office, 240 Green

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc.

Agents in Portsmouth—B. Hutchings, S. Gilbert, W. R. Preston and J. H. Wells. n21 eod&wly

Marble Chimney Pieces.

THE PENRHYN MARBLE is a new and beautiful article, manufactured of Stone imported from England, which is enameled in imitation of the richest and most expensive Spanish, Galway, Egyptian, Pyronese, Lisbon, Sienna and other rare and desirable kinds of Marble—the imitation is so perfect as to challenge detection without the closest scrutiny. In style of finish these Chimney Pieces stand unequalled, being very highly polished—retaining their beauty much longer than common marble, and are not injured by oils, smoke, steel pens or acids. They have been extensively introduced into public and private buildings, giving perfect satisfaction to those who have used them. The best of references can be given, showing their adaptedness for general use; the undersigned having furnished some of the best dwelling houses in the city with them during the last two years.

While excelling all others in beauty of finish and appearance, they are sold much cheaper than any thing of the kind in the market. The subscriber has now in Store a complete assortment of the above named desirable Goods, to which he invites the attention of all interested.

je21 G. N. CARLETON, 15 Daniel st.

For Summer Riding.

C. H. SIDES & CO., having fully refurbished their Stable with the best of Horses, and Carriages of the latest and most approved styles, for the summer travels, would respectfully invite a call from those about enjoying themselves by riding. The best and safest teams furnished, for any purpose, at reasonable rates.

HACKING in all its departments, attended to with promptness. Their splendid new Hack, the most beautiful carriage ever brought into Portsmouth, will run for public accommodation as heretofore.

Stable on State street, nearly opposite the Rockingham House. m31

Ocean House,

ISLES OF SHOALS.

THE subscribers respectfully inform their friends and the public that they have taken the well known House on SMUTTY NOSE, where they will be pleased to entertain all who may favor them with their patronage. Every attention will be given to make their sojourn with them pleasant during the hot months.

The Yacht SPY, CAPT GOODWIN, will run daily to the Islands from Pier Wharf, Portsmouth, at 10 o'clock, A. M., or on arrival of cars from Boston and Concord. LEMUEL L. CASWELL,

je22 2m EDWARD S. FOSS.

Appledore House,

ISLES OF SHOALS.

STEAM having died out in Portsmouth, the subscriber has the pleasure to announce to his old friends and the public, that he has chartered the beautiful YACHT AMY, of 50 tons burden, and has had the good fortune to secure the services of Capt. JAMES W. GOODWIN, the well known pilot, as master. His skill, carefulness and attention to accommodate the travelling public, more safe, expeditious, comfortable and pleasant transit to and from the Islands, than has hitherto been attained.

She will leave PIER WHARF, foot of State Street, Portsmouth, every morning (Sundays excepted) immediately after the arrival of the trains from Boston and Concord, and return in season for the evening trains.

Many alterations and improvements have been made in the establishment to make it more convenient and comfortable.

An abundant supply of Ice has been carefully laid in, and the facilities for fishing perfected.

To the invalid, the weary and the active pleasure seeker, this location presents attractions not equaled in New England.

je17 o THOMAS B. LAIGHTON.

Gerrish House,

KITTERY POINT, MAINE.

THIS Establishment having been put in perfect order, will open for visitors on the 15th of June. Every attention will be given to make this House one of the most pleasant Summer resorts. Kittery Point is celebrated for its conveniences for bathing, fishing and sailing. Spring waters have been made to afford every facility for guests to enjoy the above amusements. The Post Office is within three minutes' walk of the House. A daily stage regularly runs to and from the Point, via the U. S. Navy Yard, arriving at and leaving the City of Portsmouth, three miles distant, on the arrival and departure of the cars. For further particulars address the proprietor, at Kittery Point, Me.

For Sale.

HOUSE on Christian Shore, suitable for two small families. If applied for immediately will be sold low. Apply to

April 17. E. S. WENDELL.

HOUSES FOR SALE.

THE DWELLING HOUSE, No. 9 School street. This is a well built house, two (high) stories, in good repair, and is convenient for one family or two families, or for a large Boarding House. It contains nine or more rooms and two sculleries, and has an excellent cellar under the whole house. The situation is central, being about equi-distant from the markets, factories and railroads. Connected with this house is a building which has been and may be occupied both as a barn and a work-shop. If not sold soon, a part or the whole of the premises will be let.

The DWELLING HOUSE No. 6 Green street. This house is fitted for two tenements; it is well built, was thoroughly painted and put in good order the last season, and is well calculated for two families, (having about 6 rooms each) and may be considered a good location for persons employed at the north end. It is centrally located between the different ship-yards in that section of the city, each tenement will be sold separately, if desired.

The DWELLING HOUSE No. 7 Liberty street, corner of Charles street. This house was formerly owned and occupied by the late Peter M. Lowd and is in good order. Attached to it is a lot of land large enough for a Stable or for another dwelling house. It would make a good place for the residence of a person employed at the shipyards across the river, or at the Navy Yard.

The DWELLING HOUSE No. 47 Bow street.—This house has been built but a few years, is well finished off, and is very convenient. In the rear is quite a large garden spot. This would be a desirable place for a person employed at the shipyards, or at the Navy Yard nearly opposite.

Also, for sale, a BUILDING LOT, on Mount Vernon street, (opposite No. 2,) with a small building thereon, which can be finished off into a Dwelling house.

All of the above property will be sold on liberal terms, if applied for soon. For further particulars apply to JOSEPH M. EDMONDS.

Feb. 27. No. 9 Islington street.

TO LET—The STORE on the corner of Vaughan and Deer streets. It was occupied as the first Union Store in this city, and is considered as a good stand for business. It is within a few rods of the Boston and Concord Railroad Depots. Possession can be had immediately.

FOR SALE—The HOUSE in the rear of the above, on Vaughan street—a convenient house for two families, and has been so occupied for about six years, by the same tenants. I rent to Sell. For information, terms, &c., call on JOSEPH L. LOCKE, on the premises, or JOSEPH M. EDMONDS, 9 Islington st. m29

is published by
FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER,
At No. 4 Exchange Buildings,
Pleasant Street,.....PORTSMOUTH, N. H.
TERMS $4 a year, or $3 if paid strictly in advance.

The Weekly Chronicle,
A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING.—For a square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

CHOLERA IN MASSACHUSETTS STATE PRISON.—The Boston Traveller states that a sudden and violent sickness broke out in the State Prison on Thursday night. At about 11 o'clock the Deputy Warden, Mr Walker, was called to the cell of Peter York, the colored man in prison for life, for murder committed in Ann street, and found him apparently in the last stages of cholera. He administered remedies, and sent for the physician of the prison Dr. William B. Morris, who was promptly on the spot. York had scarcely been taken to the Hospital before another and another were taken, and at noon Friday no less than seventy-nine of the prisoners were under he Doctors care, twenty of whom were admitted to the Hospital, and fifty treated in their cells. Nine of those in the Hospital have the cholera the others have cholera morbus; those in the cells a violent diarrhœa. All were doing well at noon. The cause of this sudden attack is unknown.—Heretofore the prison has been quite healthy.

P. S.—None of them are dead; and they are doing well. They ate a salt fish dinner: then drank too much cold water because they were terribly dry. Some were taken sick; and this circumstance frightened the rest and made them sick also.

In the reports of legislative proceedings, we frequently hear that a bill has been 'lost,' but here is an account of a bill 'lost' by a rather unusual process. The New Haven Register says:

It turns out that the law which passed the Legislature prohibiting circus and theatrical amusements is lost, and what is worse, *cannot be found!* Gov. Dutton is confident he *signed* it—left his room for a moment—and, it hasn't been seen since! Of course, the old law stands for another year. We hope Parson Train, who opposed the bill, has not carried it off, by mistake, in his capacious pocket.—Others suggest that it fell between the three houses; but we give this insinuation no credence. It is gone—and that is enough.

DROWNED ALMOST!—The Buffalo Democrat says:—An Irish woman fell into the canal, directly in the rear of our office, yesterday forenoon. She sunk once, but before she had time to rise, a boy put off in a skiff, and, by catching her foot, pulled her out of the water. The process was somewhat akin to that of drawing a cat through a picket fence by the tail, but the gallant little fellow effected the rescue, amid the cries of more than a score of infants, nearly of a size, and all of whom seemed to have a direct or collateral interest in the saved. She faithfully recompensed their sympathy by baring the ears of as many as she could catch, which so reassured them that they cheerfully returned to the business of standing on their heads in the sand heaps adjacent. The bystanders state that the woman was evidently quite intoxicated.

MODESTY A THING OF FASHION.—H. Marion Stevens, is, we believe, 'The New Correspondent' of the N. Y. Spirit of the Times, wh writes from Newport thus, concerning decorum:—

Last year, some letter writer described the fashionables as wearing their dresses down to the very edge of decorum. This year they wear them several inches *below* the edge of decorum; heaven knows whether twists of any description will be fashionable when another season comes round with its train of follies. It is all very well for the fresh, plump little beauties, if it could only be confined to *them;* but it seems to me as if some of the scraggy women here were trying their utmost to show *masculinity* wh necks and shoulders *can* become.

The steamer Pacific, on the evening of her leaving New York on her last voyage to Liverpool, took fire around the main smoke pipe or funnel, burning a small hole through the upper deck. The next afternoon one of the flues of the boiler burst, permitting an escape of steam which blew the coal of her furnace on to the floor. Immediately, there came pouring up great volumes of steam and smoke, all seemed aglow, is though the ship were all on fire. Water being thrown upon the ignited coal, caused a copious emission of gas, and one of the engineers, who was sleeping near, said that he liked to have suffocated.—A letter-writer, who furnishes the above, states that there are ample facilities on board the follins steamers for extinguishing fires, but he thought the Pacific did not have lifeboats enough for an emergency.—*Boston Cour.*

Morning Chronicle.

WEDNESDAY, AUGUST 2, 1854.

CONGRESS.

MONDAY, July 31.

SENATE.—Mr. Rusk reported back the House bill amending the Postage laws. Taken up, read and postponed.

Mr. Sumner reported back the House resolution for a settlement of the accounts of Mr. Woodbury, Pension Agent at Portland, Me.

Mr. Houston moved that when the Senate adjourn to-day, it be to meet to-morrow at 10 1-2 o'clock. He desired an half-hour to make certain explanations. Agreed to.

A motion made by Mr. Mason to go into Executive session was lost—19 to 31.

Mr. Seward reported a bill granting a pension to Betsey Nash, widow of Dr. Nash, of Madison co. N. Y. He moved that the bill be now considered. Agreed to and bill read.

Mr. Adams moved to amend the bill by adding thereto, a section directing the Secretary of the Treasury to pension the widow of Jas. Batchelder, lately killed while ading the U. S. Marshal to execute the law in Boston.

Mr. Stuart said that this would lead to a long discussion, and it would open the whole question of slavery and no one could tell where it would end. He moved that the bill be postponed till tomorrow. Lost—16 to 36.

Mr. Foot called for the reading of the report in Betsey Nash's case. Read.

Mr. Sumner called for the reading of the report in Mrs. Batchelder's case. Read.

Mr. Seward spoke at great length in opposition to the amendment offered by Mr. Adams, and other Senators gave their views upon it when it was adopted—35 to 14.

Mr. Sumner moved to add to the bill a section repealing the fugitive slave law.

Mr. Benjamin raised a point of order that the amendment was not in order.

The Chair decided the amendment out of order.

The bill thus amended passed 37 to 12.

HOUSE.—Mr. Orr of South Carolina moved a suspension of the rules with a view to taking from the Speaker's table the Senate bill providing for the payment of such creditors of the late republic of Texas as are comprehended in the act of September, 1850. The House refused to suspend—70 to 64; two-thirds being necessary to do it.

Mr. Wheeler of N. Y. presented a memorial from merchants in New York, trading with San Juan, asking remuneration for property recently destroyed by United States authority at that town. He desired it to be read, but objection was made. Referred to committee on Foreign Affairs.

Mr. Riddle of Del. from the select committee, reported a bill regulating the trade, in part, between Peru and the United States.—Referred to Committee of the Whole. The report recommends the President to enter into negotiations with Peru for a more liberal trade in Guano. Failing in this, the bill they have matured goes into effect. It provides that guano be admitted free, at $40 per ton, four per cent. when below $50, and six per cent. when above $50 a ton.

The Senate bill authorizing a subterranean line of telegraph from Mississippi to the Pacific, was referred to the committee on Territories.

Mr. Houston of Ala. moved the House go into committee on the General Appropriation Bill. Mr. Dawson of Penn. asked Mr. Houston to withdraw his motion in order to give him the opportunity of asking the consent of the House to take up the Homestead bill as amended by the Senate. He was anxious to have the bill further amended to secure more fully the rights of actual settlers, and press it to a final passage. Objection made.

The House then went into Committee on the General Appropriation bill as it returned from the Senate with numerous amendments.

The clause for the erection of public buildings in Kansas and Nebraska being under consideration, Mr. Giddings moved to strike out certain words, leaving the remainder "that the act for the organization of these territories" be repealed. Mr. Giddings urged the amendment, and Mr. McMullen of Va. opposed it. Rejected—50 to 78. After acting on other amendments the committee rose.

The Greytown affair.—The Speaker laid before the House a message from the President, in reply to the resolution calling for information relative to the recent destruction of Greytown. Among the documents is a letter from Secretary Marcy, dated June 9, 1854, addressed to Mr. Fabens, U. S. Commercial Agent at San Juan.

The following is Secretary Dobbin's letter to Commander Hollins:

NAVY DEPARTMENT, July 10, 1854.

Sir:—The government has recently received intelligence that the interests of our countrymen require the presence of a national vessel at San Juan, or Greytown, and, from your experience in that region, and confidence in your prudence and energy, and in pursuance of the wishes of the President, the Department has concluded to direct that you proceed with the Cyane to that port, as soon as she can fully be ready for that cruise. The property of the American citizens interested in the accessory Transit Company, it is said, has been unlawfully detained by persons residing in Greytown. Apprehension is felt that further outrages will be committed. Our minister (Mr. Borland) has been treated with rudeness and disrespect. You will, however, learn from Mr. Fabens, our commercial agent at Greytown, more particularly the conduct of the people, and the views of our government, which have been communicated to him from the State Department. You will consult with him freely, and ascertain the state of facts. Now, it is very desirable that the people should be taught that the United States will not tolerate these outrages, and that they have the power and determination to check them. It is, however, very much to be hoped that you can effect the purpose of your visit without a resort to violence, and destruction of property, and loss of life. The presence of your vessel will, no doubt, do much good. The Department reposes much in your presence and good sense. Former despatches have acquainted you with the peculiar political position of this town, and of the relations of your government to it, &c., &c., &c. J. C. DOBBIN.

Capt. Hollins replied to the British Commander on the 12th of July, expressing his sincere regret that Capt. Jolly feels himself under the necessity to protest against the action he was about to take in relation to the city of San Juan Del Norte. The people had seen fit to commit outrages on the property and persons of citizens of the United States, after a manner only to be regarded as piratical. "I am" he says in conclusion, "directed to enforce the reparation demanded by my government. Be assured I sympathize with you in the rescue of English subjects and property under the circumstances, and regret exceedingly that the force under your command is not doubly equal to that of the Cyane."

Other documents of less interest are embraced. The House voted to meet, hereafter, at 10 o'clock. Adjourned.

NEW YORK ELECTION.—The New York Herald says the temperance people, upon the question of the Maine Liquor Law, will be an independent party in our November election. They will make all other questions, and principles, and issues, subservient to the election of a legislature and a Governor who may be relied upon in the passage of the Maine Liquor law. We may rely upon it that every candidate for Governor, or for the Assembly, or the Senate, will be required to give his opinions in writing upon the liquor question and the liquor; and when such opinions are withheld, or are opposed to the temperance platform, or "whip the——around the stump," we may rely upon it that that ticket will be dreadfully, and in most cases, we apprehend, fatally scratched at the polls.

We admonish all other parties or cliques intending to take a hand in our legislative and gubernatorial election that it will be necessary, in making out their calculations in advance, to allow a considerable margin for a probable loss or gain, as the case may be, from the acquisition or opposition of the temperance vote. We shall now, probably, have more than half a dozen factions or parties in the field—the hard shells and soft shells—perhaps two or three factions of each—the Temperance Alliance, the Anti-Slavery Alliance, the whigs, the Know Nothings, the Irish Catholic party, the Germanic lager bier party; and nobody can tell how many more.

IMPORTANT INVENTION.—Among the patents issued at the Patent Office, Washington, the past week, is one to Dr. J. R. Nichols, of Haverhill, Mass., for improvements in apparatus for manufacturing soda water. We have carefully examined Dr. Nichols's beautiful instrument, and tested the soda water which has poured forth in almost one continued stream the present season from these he has in use, and we feel fully convinced that he has effected not only an entire revolution in the method of manufacturing the water, but also in the *quality* of the same. His instrument is very compact, and so simple in its operation that any one of ordinary capacity can work it. It dispenses entirely with wheels and force pumps, and obviates the necessity of cumberous and expensive apparatus. The pressure can be raised from 125 to 180 pounds to the square inch. It is made perfectly safe by an ingenious safety valve attached to the apparatus. It it so cheap that every dealer in the country can afford to buy one or two, and pay for them in one season by the immense saving of expense over the old method. The soda water is made from pure sup. carb. of soda, instead of lime, chalk, &c., new universally used. In this fountain we believe all objectionableness against the free use of soda water, is removed, and we think Dr. Nichols's patent will come into universal use.—*Haverhill Gazette.*

Dr. Jos. H. Thacher, at the Good Samaritan Drug Store, has one of these new Fountains in almost constant use; and we are happy to endorse the above remarks, at least so far as they relate to the *quality* of the delicious and healthful beverage.

A PRINCESS TURNED FARMER.—Princess Murat has recently purchased a residence in the vicinity of Tallahassee, which she is improving and ornamenting according to her own taste. She lately sent to the editor of the *Florida Sentinel* an Irish potato weighing fifteen ounces, as a sample of her crop. We rather suspect, however, that this is over an average specimen. The Princess Murat, our readers know, is widow of Achille Murat, son of the *Beau Sabner*, King Joachim of Naples. She is a Virginia lady, daughter of the Hon. Bird Willis.—*N. O. Register.*

BREADSTUFFS.—The price of Flour keeps up on account of the light receipts, which it will be perceived by the returns are now less than half of what they were last year. The arrivals at New York have been recently less than 3000 barrels a day, a supply much too small to meet the demand. The incoming crops are reported to be excellent, both in the United States and in Europe, and we shall probably have a better supply before the close of inland navigation.—*Newburyport Herald.*

ESCAPE OF SLAVES.—The Parkersburg News publishes the number and value of slaves that have escaped from Wood County, Virginia, for the last 15 or 20 years, together with the names of the owners, as ascertained by the Commissioner of the Revenue in his recent assessment. The number that absconded is 211—valued at $131,200.—*Richmond Enquirer, 25th.*

Among the deaths annoueced by telegraph, says the Albany Atlas, is that of J. Richardson, the defaulting collector at Oswego. He is said to have died at Kingston, in Canada, whither he had fled, as is supposed, to evade the process, on behalf of the government, issued for his apprehension.

The Eastern Railroad property, at Lewis wharf, Boston, which was put up at Auction on Saturday, was, after three bids—$100,000, $101,000 and $120,000—withdrawn at the request of the Directors of the Eastern Railroad and the sale postponed indefinitely.—*Courier.*

The ladies who took part in the liquor riot at Barabo, Wis., have had their examination and been discharged on the ground that no crime had been committed.

LOCAL.

PIC NIC AT ELIOT.

Our streets looked dull and deserted on Tuesday, in the middle of the day; for the reason that hundreds of our people had gone from this city to see and hear at Eliot, the gathering and the greeting of those, who loving freedom themselves, rejoice at its possession by others.

A loaded train went from hence to the Grove in Eliot, about 10 o'clock; and all the disposable carriages also went thither, or disappeared somewhere.

There was a large assemblage, not only from this, but from other and more distant places, besides the multitude of dwellers in Eliot, Kittery, &c.; a great concourse in the whole. The day was pleasant, and the company seemed to enjoy the coolness of the grove.

The meeting was opened by the Rev. Mr. Hall of Eliot, president of the meeting, who stated the object was to celebrate the Emancipation of all the slaves in the British Dominions. Rev. Mr. Clark then offered a fervent prayer, expressive of thankfulness for the great event they were about celebrating. Music followed.

The first regular speech was from Rev. Mr. Brewster of Lowell, who delivered an animating address of 30 minutes, on the emancipation of the 1st August 1833, particularizing many events.

Next came Miss Daggett, a middle aged lady, President of a Society in New Vineyard, with a set speech, a little on the scolding order, which was frequently cheered.

Rev. Austin Willey of Portland took the stand with an ardent, sensible speech, against slavery, pointing out the great work for anti-slavery efforts.

Then all were invited to partake of a collation provided by the ladies of Eliot. The tables were handsomely furnished, and the ladies deserved and received the thanks of the multitude.

After dinner, Mr. Webb of Boston, an excellent speaker, took a text, the "weak against the strong," and gave an address of an hour in length, highly gratifying to the audience.—Mr. Webb and Mr. Brewster made a second speech each, highly acceptable and frequently cheered.

Mr. Kimball sung the Marseilles Hymn, accompanied by the full Band, which enlivened the ceremonies and delighted the audience.

The whole affair passed off in a manner highly satisfactory to the whole party, without accident or anything to mar the enjoyment of the occasion.

THEFT AT THE BEACH.—On Monday evening, officer Adams of this city arrested a young man named Joseph Locke, aged 20, for stealing a watch and other property from a bathing house on Jenness's Beach at Rye.

He was examined before Justice Storer on Tuesday;—when it appeared that the property, viz., a gold watch, bosom pin, and about $12 in money, belonged to Capt. Wm. Parsons, of this city, who was at the beach, and bathing, on Monday at the time the theft was committed. Locke had pretended to have some charge of the bathing houses, to look after clothes, &c.

After examination, in default of $500 bail, he was committed for trial.

The property has been recovered.

JONES' PANTOSCOPE OF NEBRASKA AND CALIFORNIA.—We are glad to announce the coming of this splendid Scenic Painting.—Jones' Pantoscope is one of the few Panoramas worth seeing, as it has evidently been executed with great skill and unusual accuracy. The Boston press has with one voice extolled it in the highest terms, while the Boston public sustained it munificently during an exhibition of six consecutive months in that city. All the views are from daguerreotypes taken on the spot, and extraordinary care has been taken to render the work superior to criticism. The exhibition begins on Thursday Evening. *

NEW VOLUME.—The commencement of a volume is a good time for those who wish to preserve their paper, to begin their subscriptions and files. Subscribers will please bear in mind our terms—$4 per year for the Daily, or $3 strictly in advance; Weekly, $1 per year, in advance. Subscriptions to either may commence at any time.

NEW EDITION OF
Sir Gardiner Wilkinson's Popular Account of the United States,

REVISED and abridged from his larger work by himself. Illustrated by five hundred wood cuts. For sale by JOSEPH H. FOSTER.

Also a fresh supply of Mrs. Stowe's Sunny Memories of Foreign Lands; Autocrasy of Russia and Poland, by Julian Allen; Brown's Thrilling Escape from Chilian convicts at Terra del Fuego. al

LOST—On Thursday last a PORTE MONNAIE containing a small sum of money, and a cluster Pin, both valuable to the owner. The finder will confer a favor by leaving them at this office.

Window Shades.

200 PIECES of new and beautiful patterns just received at City Sales Room, 3 Congress Block, and will be sold at great discount from former prices. j28 G. W. TOWLE & CO.

The High School Committee

WILL meet at the Girls' High School Room, on WEDNESDAY, Aug. 2d, at 9 o'clock, and in the Boys' High School Room on FRIDAY, Aug. 4th, at 9 o'clock, A. M., to attend to the examination of candidates for the respective schools.

No pupil will be admitted to either of the High Schools who is not eleven years old.

There will be no special re-examination of the unsuccessful candidates.

All applicants for admission to either of the High Schools, after the time specified by the Committee, must furnish satisfactory evidence that it was their intention to have been present at the time of examination, and that they were unavoidably prevented.

By direction of the High School Committee.

j24. JOHN BENNETT, Secretary.

DOCTOR YOURSELF!

THE POCKET ÆSCULAPIUS:

OR, EVERY ONE HIS OWN PHYSICIAN.

THE Fortieth Edition, with One Hundred Engravings, showing Diseases and Malformations of the Human System in every shape and form. To which is added a Treatise on the Diseases of Females, being of the highest importance to married people, or those contemplating marriage.

BY WILLIAM YOUNG, M. D.

Let no father be ashamed to present a copy of the Æsculapius to his child. It may save him from an early grave. Let no young man or woman enter into the secret obligations of married life without reading the POCKET ÆSCULAPIUS. Let no one suffering from a hacking Cough, Pain in the Side, sleepless nights, nervous feelings and the whole train of Dyspeptic sensations, and given up by their physician, be another moment without consulting the Æsculapius. Have the married, or those about to be married any impediment, read this truly useful book, as it has been the means of saving thousands of unfortunate creatures from the very jaws of death.

☞ Any person sending TWENTY-FIVE cents enclosed in a letter, will receive one copy of this work by mail, or five copies will be sent for one dollar. Address, (post paid,)

DR. WM. YOUNG,

1yj29W No. 13 Spruce st., Philadelphia.

EUROPEAN NEWS.

Three Days Later.

By the Canada which arrived at Halifax July 31st, we have Liverpool dates to July 22.—The Boston Courier, in its summary, remarks, The latest war news is but a continuation of that which was before received. Austria, Prussia, and the whole German powers show very plainly that they side with Russia, and that they have no sympathy with France and England.

The Queen of England has called upon Parliament for additional supplies for the war.

Spain appears to be entirely in the hands of the revolutionists.

The Liverpool cotton market was firm, without change in prices. There has been a panic in the Liverpool breadstuffs market, and flour has declined 3 or 4 shillings a barrel.

The Liverpool Corn Market Report of July 21, says, the market is dull, and prices irregular. In Flour there is quite a panic at a decline of 3s a 4s 6d. Western Canal is quoted at 28s 6d. Philadelphia, 30s a 30s 6d; and good Ohio 31s. For Wheat, prices are considerably lower, the circulars quoting white, 9s 2d a 9s 9d; red, 8s 6d a 9s 2d. American Corn, white and yellow, 22s 6d.

From the first of August, postage between Great Britain, Nova-Scotia, New-Brunswick and Newfoundland will be reduced to six pence.

Wm. Hale, inventor of Hale's rocket, died at Constantinople.

FRANCE.—Marshal St. Arnaud has returned to Paris. The Emperor and Empress left Paris on the 19th for Bayonne, on the way to the Baths of Baretz.

Count Cassimer Bathyanny died at Paris on the 12th.

ASIA.—Kerim Pasha surprised 12,000 Russians and defeated them, capturing 6 guns and 400 prisoners, at a pass in the mountain.

GREECE.—The Porte consents to re-open Turkish ports to Greek merchants, but demands from Greece indemnity for losses sustained through the recent Greek insurrection.

Prussia and Austria, it is said, have asked France and England to state the conditions on which they are willing to conclude a peace.

A Russian party asserts that the "military operations of the allies are nearly at a stand still, and the attack on Sebastepol indefinitely postponed. An attack on Cronstadt will not take place this year, and a great battle near Bucharest is problematical. Hostile operations are reduced to simple blockade, and in the end Russia will triumph by her diplomacy."

In Spain, the insurrection is spreading rapidly. It is telegraphed from Bayonne, on the 20th, that Madrid and the garrison have pronounced against the Queen. The Cabinet is dissolved. San Louis, the Premier, has fled. Narvaez has offered to form a new ministry.

The insurrection hitherto was mostly military, but citizens are now joining it. Watchwords are, "Viva Le Constitution," Down with the Ministry," "Down with the Queen Christina."

Rumors were current that Queen Christina had fled to Bayonne, and Queen Isabella left Madrid. It is considered doubtful.

Generals Concha and Gonzales Bravo have arrived in England. Manuel Concha has escaped to the Canary Islands. General Mazzuelo has fled to France. The insurgents, if successful, may offer the throne to Don Pedro of Portugal.

The French government is said to favor the insurrection.

ROCHESTER, N. Y. July 30.—*Loss of an Ogdensburg Railroad Propeller.* The propeller Boston, Capt. McNott, was run into by a schooner, on Friday night, off Oak Orchard, and sunk. She went down in fifteen minutes after being struck. The propeller had a full cargo of flour, pork, wheat and corn, and was owned by the Ogdensburg Railroad Company. The passengers and crew, twenty-five in number, arrived at the mouth of the Genessee River about nine o'clock Saturday evening, having been on the Lake in an open boat nearly twenty-four hours.

BALTIMORE, July 29. The cholera reports from the alms-house are not credited, and a committee of experienced physicians will examine into the matter to-morrow. A party of besotted paupers stripped a tree of green pears last week, and ate them; all were taken sick, and eight died. No other cases are reported in the city as yet.

PHILADELPHIA, July 30. *The Cholera.*—Four members of one family were interred this afternoon, who died from cholera on Friday and Saturday—father, mother and two sons, and three children survive, two of whom are very sick.

PHILADELPHIA, July 26.—LIQUOR DECISION.—The Supreme Court of Pennsylvania rendered a decision, this morning, in one of Mayor Conrad's Sunday Liquor Law cases, to the effect that the selling of liquor on Sunday did not constitute a disorderly house, but was only a finable offence. The Mayor takes the ground that the license only covers six days, and does not warrant selling seven days in the week. It is supposed that all taverns that all taverns that can afford to pay the fine will now open on Sunday.

BERRIES.—It is stated that *eight hundred and ninety-four bushels* of berries of different kinds were in Quincy market, Boston, on Saturday morning. Enough for a monster pudding, and a few pies besides.

MONTREAL.—Up to Monday, July 24, the interments in Montreal, for the month preceding, were *one thousand and one*—as reported in the Montreal Pilot.

A boy 13 years of age, got up on Tuesday morning perfectly well, ate some green apples and a pint of cherries before dinner, drank plentifully of milk at his dinner, and was buried in the cemetery before dark of the same day.—*Albany Express.*

HARPER'S

Gazetteer of the World.

THIS work has been undertaken to supply a want which is daily becoming more pressing. The Censuses of the United States, of Canada and British America, of Mexico, of Great Britain, and of the Continental States of Europe, are all of recent date; and of these the most important have been laboriously consulted, and their information arranged and classified in the best manner. The editor has had it constantly in view to present the greatest amount of useful matter in the smallest possible space; and confidently hopes that the work will fully meet the wants of the times, and that the general reader, the student and the artisan will find in it all the information adapted to their several requirements, brought down as nearly as possible to the present day, in a form more convenient than in any other work of similar character.

Harper's Gazetteer of The World is to be completed in TEN NUMBERS at 50 cents each; and will comprise about 1800 royal octavo pages, with seven new and accurate Maps.

☞ No. 1 can be seen, and subscriptions received, at the Bookstore of

jy26 JOSEPH H. FOSTER.

Pauline Chart.

J. F. SHORES, JR. No. 1 Congress Block, has for sale the PAULINE CHART—by J. W. Bonham. This chart comprises a map of the "Countries adjacent to the Mediterranean, illustrating the Acts of the Apostles."

Also, arranged according to time, an account of the principal occurrances in the Life of St. Paul, as follows: First Missionary Tour; Second Missionary Tour; Third Missionary Tour and Travels while a Roman Prisoner. Each occurrence is given with the name of the Place, its Locality and the Reference to the Chapter and verse.

Sunday School Teachers and Pupils will find this Chart a very great assistance in studying the Life and Travels of St. Paul, and it is highly recommended by clergymen who have examined it.

Sagamore House, in Rye.

FROST'S POINT.

THIS is an entirely new House, situated about four miles from the Portsmouth Depots. There is easy access to it by land or water. It is located on a point of land nearly surrounded by water, and seaward presents a finer view of the ocean, Isles of Shoals, &c, than can be obtained from any other house in Rye. An excellent view of Portsmouth and the Piscataqua River is also had from the top of the house The location of the Sagamore combines the advantages of quiet retirement in a beautiful country, with convenience of access and all the facilities enjoyed at other Beach Houses. The opportunities for Bathing and fishing are unsurpassed. Boats are always in readiness for the accommodation of visitors. A Pilot Boat touches regularly at the Point, on her daily trips to the Shoals.

The Sagamore House was newly furnished throughout, this Spring, in the best manner The Ladies' Parlor is fifty feet in length, and the Dining Room of the same proportions. The Sleeping Rooms are capacious and airy, and the building thoroughly ventilated.

An experienced man has charge of the house, and every facility provided there, and no pains spared for the accommodation of all visitors who may favor us with a call.

The Tables will be provided with the best the market affords, for in this respect the proprietor wishes it distinctly understood that he will not be excelled by any other House in Rye or on the seashore.

TERMS.—For permanent boarders $1.00 per day. Transient visitors as cheap as elsewhere.

Carriages will be at the Portsmouth Depots on the arrival of every train of cars to convey passengers to the Sagamore House.

We ask ladies and gentlemen to give us a call and we will satisfy them that we will do all we promise.

THOMAS CLARK, Proprietor.

Rye, July 27. 2w

Hacking Notice.

FARE TWENTY-FIVE CENTS.

THE SUBSCRIBERS, including all the proprietors of Hacks in Portsmouth, would respectfully inform the public, that after another trial of 12½ cent rates for Hacking, they find it impossible to work at that price, with hay and grain at the present high rates, and have therefore agreed that the charge for conveyance of passengers within the compact part of the city, shall be 25 cents, from and after this date.

je16 GEORGE A. DAVIS.

DYSENTERY, CHOLERA MORBUS

AND

DIARRHŒA ELIXIR,

PREPARED BY WM. R. PRESTON,

Druggist, Congress Block, Congress street.

AT this season of the year, when the above diseases are so prevalent, and in our larger cities, sweeping off a great portion of the population, it becomes every one to keep in his family a remedy that will immediately arrest its course and give certain relief. This is no quack nostrum; it has been used the present season by one of the first Physicians in New York, and in thirty cases out thirty-two of confirmed cholera, that came under his treatment, he was successful in the employment of the above remedy.

PRICE 50 CENTS A BOTTLE.

Sold by

BEWARE OF COUNTERFEITS!!

THE CELEBRITY OF

DR. S. O. RICHARDSON'S

Sherry Wine Bitters

HAS induced several persons, who do not possess the least medical knowledge, to assume the title of Doctor, and put before the public an article in imitation of my Medicine, which they call Sherry Wine Bitters, and attempt to palm them off under the pretence that I have retired from business, and also that they manufacture an improved article of the same name.

I would say to those in pursuit of health, to be sure that you obtain the real article, which may be known by the Fac Simile of my signature upon the outside wrapper, covering each bottle, and also by the copyright border of the same covering.

Sold wholesale and retail at my office, No. 51 Hanover street, Boston, and by all dealers in Medicine in every city, town and village throughout the New England States.

N. B.—OTIS MORTON, JR., is my sold Travelling Agent for the N. E. States. je23 3m2aw*

No. 5 Pleasant street, near Market Square,

where they will find all articles at the lowest prices for cash.

Portsmouth, June 26.

Garden Engines.

JUST received at "the sign of the Big Coffee Pot" a full supply of Garden or Fire Engines, which are respectfully commended by the subscriber to the notice of the public. Wherever these Engines have been introduced they have invariably given entire satisfaction. They are unsurpassed for power, capacity or usefulness. From the size of the air chamber sufficient power is obtained to enable one man to throw a steady stream of water to the height of fifty feet perpendicularly, thereby rendering it a desirable article as a

PROTECTION AGAINST FIRE,

And for washing windows of second and third stories of buildings, carriages, &c. With a newly invented water diffuser as a Garden Engine it defies competition. The diffuser is a perfect and simple article, and its superiority over the common rose sprinkler is that it will throw three times the quantity of water a much greater distance and spread it perfectly even, with less power applied. An Engine with a diffuser of this description, used in orchards and gardens to throw soap suds on the young trees, will destroy many kinds of vermin liable to injure the fruit and be an invaluable addition to the implements of the Nurseryman and Horticulturist.

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby our applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one dollar*.—Assignments recorded at Washington.

R. H. EDDY,

Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

"PATENT OFFICE,

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent I am very respectfully,

Yours, &c. THOMAS EWBANK,

Commissioner of Patents."

Boston, Dec 7 1853. eodly

THE DOG FOR WARM WEATHER.—The Detroit Inquirer says:—A friend who has a large and sagacious dog, told us yesterday that 'Watch' saw the man leave the usual daily supply of ice at the door, which not being observed by the servant, lay melting away upon the area boards. Watch observed this wasting process with concern, until he could bear it no longer, when he commenced pushing the ice to a shaded place, and having been a short time absent, returned with a piece of old carpet, which he threw over it as he had seen the servant do. "There was method in that!"

Bowing at the *Gloria Patri* has been formally condemned by the Bishop of London as a novelty in the Church of England.

LEATHER BELTS,

Manufactured from the best Oak Leather

THOROUGHLY STRETCHED by powerful Machinery, cemented and rivited,—and are warranted to RUN STRAIGHT on the Pullies.—A full supply constantly on hand.

MEXICAN MUSTANG LINIMENT—

Every land has hailed with
Xtacy this preparation whose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its tortures, have yielded to its
Magical influence; cancers, contorted joints,
Ulcerated and swollen limbs that have
Suffered for years under the weight of disease,
Turn by its application to suppleness and health.
A remedy of such general usefulness that can
Restore newness of Action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.

Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over diseases,
No matter of how long standing—sold at
The agencies in all parts of the Union,

A. G. BRAGG & CO., Proprietors, 304 Broad way, New York. D. TAYLOR, Jr., General Agent Boston. d6 2awlw 118

10,000 *Bottles Sold since the First of January.*

DR. ORDWAY'S
HUMOR DISCOVERY,
AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now decided to let it as Herb, discovered in California, by Dr. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The native, when bitten by a rattlesnake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head.
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.

Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all gone feelings of the stomach; and removing low spirits and melancholy, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA.

A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS,

It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.

One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,

It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Fever Sores in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.

☞ **Price $1.00.** ☜

HE HAS ALSO A HUMOR SALVE,

Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.

PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.

This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicicine yet discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.

PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.

This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into the present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.

PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

Swaim's Celebrated Panacea,
FOR THE CURE OF
INCIPIENT CONSUMPTION,
Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the description of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by

W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y.
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
T. Parke, M.D., Pres't College of Physicians, Phila.
Dr. Del Vallo, Prof. of Medicine, Havana.
Jose Eourenco de Luz, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spain.
J. Chapman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swain, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Costiveness, Flatulence, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

General Agents for the United States,
SCHIEFFELIN BROTHERS & CO.,
170 Williams St., cor. of Beekman, New York.
je1 6m

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Chest, Back, etc.

If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.

It is an English Remedy, and was used by William IV. late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Liniment, but considers warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's Office, 240 Green

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other. Colic, Spasms, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc. wioh street, New York.

Marble Chimney Pieces.

THE PENRHYN MARBLE is a new and beautiful article, manufactured of Stone imported from England, which is enameled in imitation of of the richest and most expensive Spanish, Galway, Egyptian, Pyrenees, Lisbon, Siena and other rare and desirable kinds of Marble—the imitation being so perfect as to challenge detection without the closest scrutiny. In style of finish these Chimney Pieces stand unequalled, being very highly polished—retaining their beauty much longer than common marble, and are not injured by oils, smoke, coal gas or acids. They have been extensively introduced into public and private buildings, giving perfect satisfaction to those who have used them. The best of references can be given, showing their adaptedness for general use, the subscriber having furnished some of the best dwelling houses in the city with them during the last two years.

While excelling all others in beauty of finish and appearance, they are sold much cheaper than any thing of the kind in the market. The subscriber has now in Store a complete assortment of the above named desirable Goods, to which he invites the attention of all interested.

je21 G. N. CARLETON, 15 Daniel st.

For Summer Riding.

C. H. SIDES & CO., having fully re-furnished their Stable with the best of Horses, and Carriages of the latest and most approved styles, for the summer travels, would respectfully invite a call from those about enjoying themselves by riding. The best and safest horses furnished, for any purpose, at reasonable rates.

HACKING in all its departments, attended to with promptness. Their splendid new Hack, the most beautiful carriage ever brought into Portsmouth, will run for public accommodation as heretofore.

Stable on State street, nearly opposite the Rockingham House. m31

Ocean House,
ISLES OF SHOALS.

THE subscribers respectfully inform their friends and the public that they have taken the well known House on SMUTTY NOSE, where they will be pleased to entertain all who may favor them with their patronage. Every attention will be given to make their sojourn with them pleasant during the hot months.

The Yacht SPY, CAPT GOODWIN, will run daily to the Islands from Rye Beach, Portsmouth, at 10 o'clock, A. M., or on arrival of cars from Boston and Concord. LEMUEL L. CASWELL,
je22 2mo EDWARD S. FOSS.

Appledore House,
ISLES OF SHOALS.

STEAM having died out in Portsmouth, the subscriber has the pleasure to announce to his old friends and the public, that he has chartered the beautiful YACHT SPY, of 40 tons burden, and has had the good fortune to secure the services of Capt. JAMES W. GOODWIN, the well known pilot, as master. His skill, carefulness and attention will secure to the travelling public a more safe, expeditious, comfortable and pleasant transit to and from the Islands, than has hitherto been attained.

She will leave PIER WHARF, foot of State Street, Portsmouth, every day (Sundays excepted) immediately after the arrival of the trains from Boston and Concord, and return in season for the evening trains.

Many alterations and improvements have been made in the establishment to make it more convenient and comfortable.

An abundant supply of Ice has been carefully laid in, and the facilities for fishing perfected.

To the invalid, the weary and the active pleasure seeker, this location presents attractions not equaled in New England.

je17e THOMAS B. LAIGHTON.

Gerrish House,
KITTERY POINT, MAINE.

THIS Establishment having been put in perfect order, will open for visitors on the 15th of June. Every attention will be given to make this House one of the most pleasant Summer resorts, Kittery Point is celebrated for its conveniences for bathing, fishing and sailing. Arrangements have been made to afford every facility for guests to enjoy the above amusements. The Post Office is within three minutes' walk of the House. A coach runs regularly twice a day to and from the Point, via the U. S. Navy Yard, arriving at and leaving the City of Portsmouth, three miles distant, on the arrival and departure of the cars. For further particulars address the proprietor, at Kittery Point, Me.

For Sale.

HOUSE on Christian Shore, suitable for two small families. If applied for immediately will be sold low. Apply to

April 17. E. S. WENDELL.

HOUSES FOR SALE.

THE DWELLING HOUSE, No. 9 School street. This is a well built house, two (high) stories, in good repair, and is convenient for one family or two families, or for a large Boarding House. It contains nine or more rooms and two sculleries, and has an excellent cellar under the whole house. The situation is central, being about equi-distant from the markets, factories and railroads. Connected with this house is a building which has been and may be occupied both as a barn and a work-shop. If not sold soon, a part or the whole of the premises will be let.

The DWELLING HOUSE No. 6 Green street. This house is fitted for two tenements; it is well built, was thoroughly painted and put in good order the last season, and is well calculated for two families, (having about 6 rooms each) and may be considered a good location for persons employed at the north dock. It is centrally located between the different ship-yards in that section of the city, each tenement will be sold separately, if desired.

The DWELLING HOUSE No. 7 Liberty street, corner of Charles street. This house was formerly owned and occupied by the late Peter M. Lowd and is in good order. Attached to it is a lot of land large enough for a Stable or for another dwelling house. It would make a good place for the residence of a person employed at the shipyards, or at the Navy Yard nearly opposite.

The DWELLING HOUSE No. 47 Bow street.—This house has been built but a few years, is well finished off, and is very convenient. In the rear is quite a large garden spot. This would be a desirable place for a person employed at the shipyards, or at the Navy Yard nearly opposite.

Also, for sale, a BUILDING LOT, on Mount Vernon street, (opposite No. 2,) with a small building thereon, which can be finished off into a Dwelling house.

All of the above property will be sold on liberal terms, if applied for soon. For further particulars apply to JOSEPH M. EDMONDS,
Feb. 27. No. 9 Islington street.

TO LET—The STORE on the corner of Vaughan and Deer streets. It was occupied as the first Union Store in this city, and is considered as a good stand for business. It is within a few rods of the Boston and Concord Railroad Depots. Possession can be had immediately.

FOR SALE—The HOUSE in the rear of the above, on Vaughan street—a convenient house for two families, and has been so occupied for about six years, by the same tenants. It rents for $160. For information, terms, &c., call on JOSEPH L. LOCKE, on the premises, or JOSEPH M. EDMONDS, 9 Islington st. m29

House Lots.

10,000 *Bottles Sold since the First of January.*

DR. ORDWAY'S
HUMOR DISCOVERY,
AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. KELLEY, which makes it the most wonderful remedy for
HUMORS OF ALL KINDS,
LIVER COMPLAINTS AND CHRONIC DISEASES.
The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattles ake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.
If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head.
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.
For Liver Complaints and Jaundice.
Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.
FOR DYSPEPSIA.
A fair trial will convince you that there is nothing like it.
FOR CANCEROUS HUMORS,
It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.
FOR COSTIVENESS.
One gentleman says that it was the only medicine that cured him.
FOR KIDNEY DIFFICULTIES,
It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him. and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the system, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first. but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.
FULL DIRECTIONS ON THE BOTTLE.
☞ Price $1.00. ☜

HE HAS ALSO A HUMOR SALVE,
Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.
PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.
This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.
No medicicine yet discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.
PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.
This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.
PRICE 25, 37½ AND 50 CENTS A BOTTLE.
Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

Morning Chronicle.

THURSDAY, AUGUST 3, 1854.

For the Chronicle.

MASKS OFF.—A FAIR UNDERSTANDING.

We cannot reason logically, without understanding the premises from which conclusions are drawn. Thus far, since the institution of slavery has been tolerated in our country, the patriotic founders of our government generally, and all friends of freedom, have admitted that slavery is a moral evil, to say the least, and with them the question has been—how to get rid of it? The sin has been laid at the door of the English for its first introduction. Recent events have induced the Southern slaveholders boldly and fearlessly to take a new position. We applaud their frankness, although it may put the Northern doe-faces to the blush. We might fill columns with extracts from the South, showing the doctrine now attempted to be supported, and it is more manly than former sycophantical pretences, that the Southern aristocracy wished to extirpate the evil.

The Virginia Examiner says—

We dare and do vindicate slavery in the abstract. This is the only tenable ground for its defenders. We lose the authority of the bible, of ancient history, of the universal practice of mankind (which is but the stern and fixed ordination of Providence,) if we confine the vindication to negro slavery. We thereby admit that the bible is false and wicked, and that the practice of mankind in all ages—from Abraham, Isaac and Jacob; from Pharaoh, Joseph and Moses; from Christ, Paul and the fathers, down through all history, sacred and profane, till now—have been unjust and cruel; for negro slavery is a *new* thing. If we admitted slavery in the general to be wrong, we are driven to prove that the negro is not a man.

This is logical reasoning—for the stealing of the Africans to convert them into slaves was not commenced until after the abolition of slavery in western Europe. The slaves of Greece and Rome were mostly captives of war, and not negroes. The Israelites in Egypt were of dark complexion, but not wholly black—but if the bible, or the word of God, justified their enslavement, or the Greek and Roman slavery, Christians have never yet understood their bible. The intimation that the patriarchal bondage was slavery, is a perversion of language. The bondmen had rights.

The Charleston Mercury, and the Standard march up to the line. The Mercury says:

The South no longer regard slavery as a necessary evil—it no longer dreams of emancipation as a pleasing prospect. But soberly and laboriously, in all the lights of religion, morals, politics, and a growing experience, the question has been examined, and she now stands up before the world and asserts her institution to be a positive good. [Of course there can be no evil in good.] How can any man who regards slavery as a blessing, object to the employment of the proper means for its diffusion? [Especially over the future garden of the North American continent.] If slavery be an evil, the course is plain. Remove all obstacles to its destruction. If a blessing, remove all obstacles to its progress.

This is really candid. The Standard publishes a long article in support of the new position, and says—

That there is no moral wrong in slavery, is an assumption which lies at the very base of that institution. It is the principle which we establish when we show that both races are better under the influence of the institution than they are without it, and, in fact, the intelligent mind of the South is fast approaching the conclusion that slavery, the union of unequal races in the constitution of a social system, is the normal condition of human society. [Would it be the condition, should the now ruled colored race rule, as they have done on the Barbary coast?] It is fast becoming the belief, that to advance, society must be composed of two classes—the one to direct, and the other to obey. Nature is the mother and protector of slavery.

Enough of such extracts for the present.—Slavery is charged upon the God of nature—said to be sustained by the bible—a blessing—a positive good, and an ordination of Providence! one class of men, all booted and spurred, are born to rule—another class, without regard to color, are born to be slaves!—Southern statesmen, in and out of Congress, have often given us their gratuitous advice that our Northern laborers would be in a better condition (more quiet of course) to be held in slavery—for then their masters would supply their wants. There is one objection, at least—that inasmuch as nearly all at the North are laborers, it would be difficult to find a sufficient number to rule. T.

PHILADELPHIA.—The enforcement of the Sunday law in Philadelphia is likely to produce a collision between the Mayor and the State Courts, one of the Judges of the Supreme Court having decided against the Mayor on the Sunday law. The taverns of the city were kept open on Sunday in consequence of the decision of the Judge, and there was much trouble in the streets in consequence thereof.—*Boston Courier.*

These consequences are quite natural. The Mayor shut up the drinking houses on Sunday, and order prevailed. The Judges' decision reopened the houses, and the drunkards made trouble in the streets. This is all as natural as for water to run down hill.

PRESIDENT'S MESSAGE.—President Pierce sent a message into the Senate on Tuesday, August 1, on Spanish affairs. Its purport is to repeat the request made March 16, for an appropriation of money, ($10,000,000,) to be placed at his discretion, and to be used as he and the cabinet see fit, either to crush the filibusters or to help them get Cuba, either to buy Cuba of Spain or to pay the cost of a fight with the latter for the former.

The Washington Union says:

"It strikes us as one of the cases in which nothing is risked in passing the bill except the fidelity of the President in the use of the money."

This hits the nail exactly on the head. If Congress award the President their praise for his patriotism and discretion in settling the Greytowa and Borland difficulty, doubtless they will confide Cuba and the $10,000,000 to his fidelity and ability.

Some Washington despatch maker says:

The lukewarmness of the House on the Spanish affairs will render it ineffective in its object. No appropriation can be got from Congress to operate with during the recess. War fever is entirely defunct in the House.

We shall see how this turns out.

THE NATIONAL MAGAZINE, for August, contains about 20 articles, besides many more brief notices. Among the illustrated articles are—A Trip from St. Petersburg to Constantinople; Luther and Reformation; the Catacombs at Rome, &c. Agent for Portsmouth, Rev. Mr. Spaulding.

Harper's New Monthly Magazine for August, is on our table from Fetridge & Co., Boston via J. F. Shores of Portsmouth.

The first article is a View of Newport, Historical and Social; and a very fair view it is, with 19 illustrations, including Trinity Church, the old mill, &c.

Next we have Holy Week at Rome, with ten illustrations, of striking scenes.

A chapter of Abbot's Saint Napoleon in the third article. This describes Bonaparte's banishment to Elba, and the death of Josephine, with 10 illustrations.

There are 12 articles in all. At the close of the No. is a punchy leaf of descriptive cuts, entitled the Mosquito War, and, two patterns of very extravagant and misshapen ladies' dresses.

FRUITS AND FARINACEA—the best food of Man—Part 3, just received from Fowlers & Wells, publishers, New York.

PUTNAM'S MONTHLY, for August, just received from Federhen & Co., Boston via J. P. Morse of this city. Fine number, already noticed.

HARTFORD, CONN.—The Maine law people of Hartford behave very intemperately.—They did all they could on Saturday, by yells, hisses and hootings, to interrapt the proceedings of the town meeting called to express an opinion upon the appointment of agents to sell liquor. Still the result of the balloting showed a majority of ninety nine against the appointment of agents, namely, nays 1036, yeas 937. The meeting then passed a formal resolve, requesting the selectmen not to appoint such agents. On Tuesday there was another meeting upon the question whether the selectmen shall be authorized to draw money from the town treasury for the *purchase* of liquor.—*Boston Post.*

It seems very strange that the temperance people made all the yelling, while the advocates of liquor were all orderly and quiet. Such things do not often happen this way; liquor commonly makes people noisy here; but in Connecticut it may be different.

THE CROPS.—The wheat harvest is closing. The Rochester American estimates that the yield in Monroe county will exceed a million of bushels, which is well for a county containing only 300,000 acres of improved land, though not so large as was at one time expected. The opening price of new wheat is a matter of speculation. The buyers say $1,50. Farmers, on the other hand, with the memory of $2 25 fresh in their minds, will be likely to turn a deaf ear to any such sound; and unless the price should reach or nearly approach two dollars, a large influx of wheat is not expected. A table of prices at Albany for a period of sixty-one years, from 1783 to 1854, shows that wheat reached the mark of two dollars five times only, while it was seventeen times at one dollar or under.—*Boston Courier.*

OUTRAGE IN BRADFORD.—As Mr. Simeon McQuestion, of Bradford, Mass., was crossing the bridge between Haverhill and the former town, on Saturday evening last about 9 o'clock, he suddenly received a shot from a pistol or gun, which took effect in the abdomen, and prostrated him to the ground. He laid for some time in a senseless condition, but finally had strength to reach the residence of Benjamin Greenleaf, by whom he is employed. He had immediate medical attendance, but the physicians could not extract the ball, and he is now in a critical state. Mr. McQuestion noticed that he was followed by two men, and thinks he must have been mistaken for another person. It is to be hoped that the perpetrators of this cowardly and murderous assault will be discovered, and that they will receive their deserts.

A private soldier writing home from Gallipoli, gives an account of finding an English woman reduced to slavery by some Greek. She was shipwrecked when she was 12 years old—when found she was in irons, with a large weight upon her chest. The men who had reduced her to slavery were to be tried, and are sure to be shot.

LOCAL.

GRECIAN PAINTING.—We publish in our advertising columns, a notice of an accomplished lady teacher of this art. At Mr. Wenzell's store is a fine specimen of this exquisite style of painting—a female bust. It is very beautiful and lifelike. A knowledge of this style of oil painting, is said to be very easily and cheaply acquired.

ADVENT MEETINGS.—The World's Crisis informs us that Bro. S. W. Bishop will preach at Portsmouth, N. H., on Sunday, August 6.

FIRE IN DOVER.—We learn by a despatch from Dover, that the New Hampshire Hotel took fire Tuesday afternoon, at two o'clock and was badly damaged by fire and water.—The firemen fought like tigers, and finally subdued the flames about four o'clock, P. M. The hotel was insured for $7000.

THE VINE DISEASE—PREJUDICE AGAINST RAILWAYS.—TheGenoa correspondent of the Newark Advertiser, writes, July 7th, as follows, upon the two subjects named above:

The vine again shows symptoms of the disease that has for two or three years cut off the grape harvest, which is to Italy what the potato crop is to Ireland. The recurrence of such a calamity is of course deprecated by all classes, and the rulers of the country are again offering rewards for the discovery of the cause and nature of the malady, with the view to a remedy. It is not surprising that an ignorant and superstitious peasantry should regard it as a divinely appointed scourge, beyond the reach of natural remedies, nor that their priests should avail themselves of the feeling as a means of discipline; but it is strange that it should have excited a prejudice against railroads.

There is, it is true, a coincidence in the introduction of the two things, but the connection between them is as great a mystery as that between some other causes and effects in these mystery-loving countries. In some places some mysterious evil influence is supposed to be diffused by the long lines of iron through the soil; others ascribe the vegetable malady to the smoke and gas of the locomotives, while there are these who more plausibly conjecture that such powerful electro magnetic conductors, accompanied as they often are by telegraphic wires, must have an effect upon the electrical condition and relations of the atmosphere. This last notion, by the way, was suggested to me some years ago by an esteemed American naturalist.

But whatever may be the philosophy of the case, it is certain that the railways have been variously obstructed by the violence of the people, and in one case the rails were recently torn up for several miles, and thrown into ditches. The prejudice has proved so general and mischievous in Tuscany, that the government has issued a decree denouncing it, and calling upon its officers and the religious teachers of the country to enlighten the people on the subject, at the same time proclaiming that the grape malady prevails as well in the Island of Elba, and other remote and unfrequented districts, as in the regions traversed by railways.

The 'glorious uncertainty' of the law was beautifully illustrated in the County Court of Marylebone, England, where an importunate tailor attempted to recover £9 for clothes furnished to an ingenious, though slippery customer. After clearly proving his case, the council on the other side asked what kind of *buttons* he had put on the coat in question.—The tailor answered unhesitatingly, cloth buttons. The Judge, somewhat surprised, asked what that had to do with the case? 'Very much, your Honor,' said the shrewd practitioner; and therefore, to the astonishment of the Court and Jury, he began to quote acts of William III., Queen Anne, and George I., giving chapter and verse, proving that the making of cloth buttons was decidedly illegal. The Court was nonplussed—the plaintiff thunderstruck—and the case settled in favor of the defendant, who threatens to sue the tailor for violation of the law of the land.—The beauty of it all is, that with fifteen Judges, at £100,000 per annum, a Lord Chancellor, and any quantity of minor officers, this law has never been repealed, and is still binding. Glorious conservation!

Mackerel are being seined in great numbers along the southern coast of Nova Scotia.—Every little creek and bay from Cape Sable to Halifax is overflowing with them. They are taken in nets, from one hundred to six hundred barrels being secured at one draught. Men, women and children are employed day and night "curing" them, yet the whole atmosphere is "odorous" with the stench of those impossible to be taken care of. So says the Belfast Age.

EDUCATION OF DOGS.—A writer in the London Examiner lately saw a blind man looking with much apparent interest at the prints in Colnaghi's window. "Why, my friend," said we, "It seems you are not blind?" "Blind! no, thank God, your honor," replied the man, "I have my blessed sight as well as another." "Then why do go about led by a dog with a string?" asked we. "Why? because I hedicates dogs for blind men."

INSURANCE FRAUDS.—We learn from the Worcester Transcript, that the Franklin office, of Saratoga, whose failure has been announced, has had a branch office in that city, and the news of its failure has created quite a sensation there. The liabilities of the bankrupt company in Worcester and its vicinity are very large, and what renders it doubly worse, is that policies to the amount of $20,000 are due to the sufferers by the late fire of June 14th, none of which have been paid.

The New York Evening Post published on Saturday the names of all the persons who have died by cholera in that city this season, up to the 22d of July, embracing a period of nine weeks. The aggregate number is 631: 502 were foreigners, and 129 were native Americans.

HORRIBLE MURDER IN DELAWARE.—The Milford (Del.) Beacon, of the 22d ult., says: We have just received intelligence of a horrible murder perpetrated at or near Laurel, Sussex county, on Thursday night last, by a negro slave. We have not gained the full particulars, but give them as far as we have ascertained: It seems that a man by the name of Anderson had a negro hired by the name of Samuel Calaway, who had seduced his daughter; and upon the fact being discovered, Anderson threatened to shoot the negro, whereupon the negro left. Anderson, however, went to the negro's master, purchased his time, and got a bill of sale. He then sold him to a trader by the name of Tindale, who employed two men, named Collins and Hearn, to take him; and the negro having left his clothes at Anderson's, he (Anderson) sent him word that he could return and get them.

The negro kept his clothes in a granary or some other out-house, wherein Collins and Hearn had secreted themselves, for the purpose of tying him when he entered to get them. The negro came and A. went with him to this house; and when the negro entered, Anderson closed the door, and the two men inside attempted to seize him, when the negro knocked Collins down with a club, and stabbed him to the heart with a butcher knife, killing him almost instantly. Upon hearing the scuffle, Anderson rushed in, and the negro fell upon him and Hearn, cutting Hearn's throat in such a horrid manner that his life is despaired of, and inflicted a fearful gash in Anderson's stomach, which exposed his entrails.

Anderson's wound has been sewed up, and his physician has some slight hope of his recovery; but Hearns, it is feared, will die. The Delaware Journal says:—We have heard that the negro is concealed in a large swamp, which is surrounded by hundreds of armed people. It is feared that they will lynch him if taken. It is said, from good authority, that the daughter of one of the citizens near Laurel is connected with the fellow.

The Kentucky hemp crop is pronounced the best both in quantity and quality, since 1842.

MARRIED.

In Amesbury, Mr Charles Locke of Seabrook to Miss Betsey Scribner of Newburyport.

DIED.

In Greenland, Aug. 2, of small pox, Mr Alfred M. Berry, aged about 29. Mr Berry went from this place about five years ago to California, and thence moved again to Oregon and Washington territory. He had for some time been one of the publishers of the "Pioneer and Democrat" at Olympia, Washington Territory, who had been elected printers for the territory. He came this way, we understand, to make some arrangements in regard to this printing, intending soon to return. He was a son of Mr Thomas Berry of Greenland, and an amiable and enterprising young man.

In Rye, July 9, Widow Martha Dalton, aged 68.—11th, Widow Mary Rand, aged 69.—29th, Mrs Clarissa, aged 82, wife of Mr James Jenness.

CONGRESS.

TUESDAY, August 1.

SENATE.—Mr. Houston of Texas addressed the Senate in defence of his military and political conduct during the Texan revolution, and the days of the republic, from certain charges, imputations, and slanders, contained in a book called "The History of Texas, Mexico, and the United States," by General Thomas Jefferson Green, a book which found its way into the Congressional library. He reviewed the conduct of Green in Texas, and pronounced him a dastardly livered man, of the most puissant cowardice.

Mr. Houston continued until a quarter past twelve.

Mr. Mason offered the following resolution, which was adopted:

Resolved, that the President be requested to inform the Senate, if in his opinion it be not incompatible with the public interest, whether any thing has arisen since the date of his message to the House of Representatives, on the 15th of March last, concerning our relations with the government of Spain, which in his opinion may dispense with the suggestion therein contained, touching the propriety of provisional measures by Congress to meet an exigency that may arise in the recess of Congress affecting those relations.

The River and Harbor bill was taken up. The question pending was on the amendment offered by Mr. Toombs to strike out the provision relating to the Louisville and Portland Canal. Lost—yeas 15, nays 20.

Various other amendments were proposed and disposed of. The bill was then reported to the Senate and all the amendments made in Committee of the Whole were concurred in. Numerous other amendments were proposed and mostly rejected, when the bill was ordered to a third reading by yeas 31, nays 17. It was then read a third time and passed.

Mr. Mason moved for an executive session—agreed to. At 7 o'clock the doors were opened and after a short time devoted to the Fortification bill the Senate adjourned.

HOUSE.—Mr. Perkins of Louisiana, from the Committee on Foreign Affairs, reported a bill to remodel the diplomatic and consular system of the United States. Referred to the Committee of the Whole.

Mr. Sollers offered a resolution that 200,000 extra copies of the report of the Special Committee on the guano trade be printed for the use of the members of the House. Referred to the Committee on printing.

The House passed several Senate bills creating certain collection districts, &c.

The House then went into committee on the General Appropriation bill.

The Senate amendment increasing the salary of the Chief of the Supreme Court of the United States to $7000, and each associate Justice $6500, being under consideration, a debate sprang up between Mr. Smith of Virginia and Mr. Seward, of a personal nature.

Mr. Hunt advocated the Senate amendmentbut, it was rejected—yeas 56, nays 80.

The House agreed to the Senate amendment making appropriation for the purchase of an assay office building in New York.

The amendment making appropriation to reimburse Edward Riddle for the expenses incurred by him in the American depot at the Great Exhibition at London, was debated and rejected, 66 against 80.

The amendment appropriating $242,000 for running a northwestern boundary between the United States and British possessions was debated and rejected. The House also rejected the appropriation of $500,000 for continuing the Washington Water Works.

The amendment making appropriations for various Custom Houses and other buildings in places already enumerated was agreed to—70 to 52.

The amendment authorizing the employment of a private Secretary, steward, &c., in the President's household and making appropriations therefor was, after debate, rejected.

The 189 amendments of the Senate have been acted on, and most of them disagreed to: At 8 1-4 o'clock the House adjourned.

WASHINGTON, Aug. 1.—It is stated that the nomination of George N. Sanders as Consul to London will be made again and sent to the Senate by Thursday. It will be again rejected.

The resolution of the Senate to meet on the 1st of November was to have been introduced to-day, but was delayed.

WASHINGTON, August 2.—It is understood that Mr. Hunter will, to-day or to-morrow, introduce an amendment to the army Appropriation Bill, placing $10,000,000 at the disposal of the President during the recess, with authority to suspend the neutrality laws add appoint a special commissioner to negotiate with Spain.

In executive session yesterday the Reciprocity treaty was debated three hours, many amendments were proposed and rejected, and the treaty reported to the Senate and engrossed. It will be confirmed to-day without further debate.

There is little doubt but that the House will finally agree to the Senate's amendment of the River and Harbor bill: it will probably be disposed of to-day.

The House has reduced the Civil and Diplomatic Appropriation bill to $13,000,000, and resolute efforts will be made to defeat it altogether.

The Senate confirmed a long list of nominations yesterday.

There was a personal skirmish in the Post Office of the House yesterday between Mike Walsh and Mr. Seward of Georgia, in which Mike got the worst by some scratches.

WASHINGTON, Aug. 2.—Mr. Slidell offered a resolution continuing the business of the Senate, and before committees and undisposed of at this session, until the next session.—Adopted.

Mr. Butler, from the Judiciary committee, reported that Mr. Williams from New Hampshire is entitled to hold his seat no longer.—Laid on the table and ordered to be printed.

NEW YORK, Aug. 2. The barque, A. H. Kimball arrived from Leghorn this morning, and has on board twenty-five Roman exiles, who were banished by order of the Pope, after four years' imprisonment without a trial, and without permission to communicate with their families.

HARPER'S

Gazetteer of the World.

THIS work has been undertaken to supply a want which is daily becoming more pressing. The Censuses of the United States, of Canada and British America, of Mexico, of Great Britain, and of the Continental States of Europe, are all of recent date: and of these the most important have been laboriously consulted, and their information arranged and classified in the best manner. The editor has had it constantly in view to present the greatest amount of useful matter in the smallest possible space; and confidently hopes that the work will fully meet the wants of the times, and that the general reader, the student and the artisan will find in it all the information adapted to their several requirements, brought down as nearly as possible to the present day, in a form more convenient than in any other work of similar character.

Harper's Gazetteer of The World is to be completed in TEN NUMBERS at 50 cents each; and will comprise about 1800 royal octavo pages, with seven new and accurate Maps.

☞ No. 1 can be seen, and subscriptions received, at the Bookstore of

jy26 JOSEPH H. FOSTER.

Pauline Chart.

J. F. SHORES, Jr. No. 1 Congress Block, has for sale the PAULINE CHART—by J. W. Bonham. This chart comprises a map of the "Countries adjacent to the Mediterranean, illustrating the Acts of the Apostles."

Also, arranged according to time, an account of the principal occurrences in the Life of St. Paul, as follows: First Missionary Tour; Second Missionary Tour; Third Missionary Tour and Travels while a Roman Prisoner. Each occurrence is given with the name of the Place, its Locality and the Reference to the Chapter and verse.

Sunday School Teachers and Pupils will find this Chart a very great assistance in studying the Life and Travels of St. Paul, and it is highly recommended by clergymen who have examined it.

Sagamore House, in Rye.

FROST'S POINT.

THIS is an entire new House, situated about four miles from the Portsmouth Depots. There is easy access to it by land or water. It is located on a point of land nearly surrounded by water, and seaward presents a finer view of the ocean, islets of Shoals, &c, than can be obtained from any other house in Rye. An excellent view of Portsmouth and the Piscataqua River is also had from the top of the house The location of the Sagamore combines the advantages of quiet retirement in a beautiful country, with convenience of access and all the facilities enjoyed at other Beach Houses. The opportunities for Bathing and fishing are unsurpassed. Boats are always in readiness for the accommodation of visitors. A Pilot Boat touches regularly at the Point, on her daily trips to the Shoals.

The Sagamore House was newly furnished throughout, this Spring, in the best manner The Ladies' Parlor is fifty feet in length, and the Dining Room of the same proportions. The Sleeping Rooms are capacious and airy, and the building thoroughly ventilated.

An experienced man has charge of the house, and every facility provided, and no pains spared for the accommodation of all visitors who may favor us with a call.

The Tables will be provided with the best the market affords, for in this respect the proprietor wishes it distinctly understood that he will not be excelled by any other House in Rye or on the seashore.

TERMS.—For permanent boarders $1.00 per day. Transient visitors as cheap as elsewhere.

Carriages will be at the Portsmouth Depots on the arrival of every train of cars to convey passengers to the Sagamore House.

We ask ladies and gentlemen to give us a call and we will satisfy them that we will do all we promise.

THOMAS CLARK, Proprietor.

Rye, July 27. 2w

Hacking Notice.

FARE TWENTY-FIVE CENTS.

THE SUBSCRIBERS, 'including all the proprietors of Hacks in Portsmouth, would respectfully inform the public, that after another trial of 12½ cent rates for Hacking, they find it impossible to work at that price, with hay and grain at the present high rates, and have therefore agreed that the charge for conveyance of passengers within the compact part of the city, shall be 25 cents, from and after this date.

jel6 GEORGE A. DAVIS.

DYSENTERY, CHOLERA MORBUS

AND

DIARRHŒA ELIXIR,

PREPARED BY WM. R. PRESTON,

Druggist, Congress Block, Congress street.

AT this season of the year, when the above diseases are so prevalent, and in our larger cities, sweeping off a great portion of the population, it becomes every one to keep in his family a remedy that will immediately arrest its course and give certain relief. This is no quack nostrum; it has been used the present season by one of the first Physicians in New York, and in thirty cases out thirty-two of confirmed cholera, that came under his treatment, he was successful in the employment of the above remedy.

PRICE 50 CENTS A BOTTLE.

LEONARD COTTON,

June 7. No. 18 Pleasant st.

Wanted.

A BOY, as Clerk in the Auction and Commission business. Apply to

my25 H. F. WENDELL, 70 State Street.

Saddlery Goods, &c.

JAMES LARRABEE, No. 5 Pleasant street, has just received a NEW STOCK of

SADDLERY GOODS,

Carefully selected in Boston, for his customers, to which he would invite the attention of those in want of

RIDING SADDLES AND BRIDLES,

Fancy Driving Bridles, Horse Nets, Whips, or any other article in this line for use or ornament.

He manufactures to order, as heretofore, every description and quality of

HARNESSES,

From the lightest Trotting Rig to the heaviest Truck or Team Harness; and guarantees the stock and workmanship of Harnesses from this establishment to be equal to any manufactured for a similar price.

TRIMMING of new or old Carriages, in any desired style, carefully and neatly executed.

TRUNKS made to order—and any business in his line promptly attended to. Those in want will do well to call at

No. 5 Pleasant street, near Market Square,

where they will find all articles at the lowest price for cash.

Portsmouth, June 26.

Garden Engines.

JUST received at "the sign of the Big Coffee Pot" a full supply of Garden or Fire Engines, which are respectfully commended by the subscriber to the notice of the public. Wherever these Engines have been introduced they have invariably given entire satisfaction. They are unsurpassed for power, capacity or usefulness. From the size of the air chamber sufficient power is obtained to enable one man to throw a steady stream of water to the height of fifty feet perpendicularly, thereby rendering it a desirable article as a

PROTECTION AGAINST FIRE.

And for washing windows of second and third stories of buildings, carriages, &c. With a newly invented water diffuser as a Garden Engine it defies competition. The diffuser is a perfect and simple article, and its superiority over the common rose sprinkler is that it will throw three times the quantity of water a much greater distance and spread it perfectly even, with less power applied. An Engine with a diffuser of this description, used in orchards and gardens to throw soap suds on the young trees, will destroy many kinds of vermin liable to injure the fruit and be an invaluable addition to the implements of the Nurseryman and Horticulturist.

jy8 J. E. CHAPMAN, 18 Daniel st.

Stationery, Blank Books, &c.

100 REAMS LETTER PAPER;
25 " Cap "

PATENTS.

American and Foreign Office,

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 76 state Street, opps. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1836) determined to present advantageous terms to Inventors, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS instead of *twenty*, as paid back by others, will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,

Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

"PATENT OFFICE, ———.

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent I am very respectfully,

Yours, &c. THOMAS EWBANK,

Commissioner of Patents."

Boston, Dec. 7, 1853. eodly

MEXICAN MUSTANG LINIMENT—

Every land has hailed with
Xtacy this preparation whose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its fortures, have yielded to its
Magical influence; cancers, contorted joints,
Ulcerated and swollen limbs that has
Suffered for years under the weight of disease,
Turn by its application to suppleness and health.
A remedy of such general usefulness that can
Restore newness of Action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.

Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over diseases.
No matter of how long standing—sold at
The agents in all parts of the Union.

The Greatest Medical Discovery of the Age.

MR. KENNEDY, of Roxbury, has discovered in one of our common Pasture Weeds a remedy that cures Every Kind of Humor, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the Worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing on the pastures and along old stone walls, should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. There is no if's and ands, buts and ifs, and has's about its suiting some cases, but not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old; to old people of sixty. I have seen poor, puny, worm looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some have taken it who have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings; but you must not be alarmed; they will disappear in from four days to a week. There is never a bad result from it; on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

Nothing in the annals of Patent Medicines has ever been received by the public with so much favor as this simple preparation. It is now composed of nine different herbs. In May, 1852, when I commenced making a business of it, I sold about two bottles per day. In June, 1853. I sold 4320 bottles. In October, 1853, I sold 6120 bottles. I hope you will call that doing well; I do.

In my own practice, I use it strictly to humors; but there are some who are so enthusiastic in its favor they think what cured them will cure any thing and any body; they accordingly recommend it for every variety of disease. In this way a great many virtues of it have been found that I never would suspect.

Cases of Dyspepsia, of many years standing, that withstood every known remedy, have been permanently cured.

I know one man to gain 17 lbs. by taking three bottles; another 11 lbs.; another 10 lbs.; and another 7 lbs.—the venerable master Robinson of Boston.

In diseases of the Liver it is a specific. I know several cases of yellow skin and yellow eyes, the body emaciated and the mind melancholy, get fat and cheerful by a few bottles.

I know several cases of Dropsy, and one particularly bad. A lady, aged 79, was unable to leave her house for the last twelve years, was so much relieved (she was reduced in circumference thirty-four inches,) as to visit her friends in several neighboring towns.

Another had the Dropsy in her left leg, and was unable to walk for ten years, sometimes swelling to an enormous size; at last burst, making a bad wound which could not be healed; by taking three bottles and using two boxes of ointment, she is now quite well. Why it should make some fat and others lean, I cannot tell, but so it is.

I know of several cases of Kidney complaints cured by it. If the columns of a newspaper was a proper medium, I could tell of cases of this most distressing of all diseases that would make your heart bleed, that were permanently cured by it.

It has been lately found to be a sure cure for Panama fever. In one case the first spoonful put off the fit two hours. One bottle cured him. Another came home to die, and was induced by his brother to try it. Three bottles cured him.

It likewise gives great relief in the Asthma. A lady in Lawrence was unable to lie in bed for a number of years; she can now lie without the least inconvenience.

A lady in Weymouth lost the use of her left side by the Erysipelas. On the second bottle, she broke out in one mass of humor from head to foot. In a few days she was well.

It has lately been found to be equally good for humor outside as inside, (taking it inwardly in the meantime,) for Erysipelas, Salt Rheum, Pimples on the Face, or any eruption of the skin whatever; only where the flesh is very sore you must dilute it with water.

When made weak enough it is the best eye-wash for weak and watery eyes that I ever saw.

Others use it to cease the dandruff out of the hair and strengthen its roots, which it certainly does, and to grown all, it mends the hair grow on bald heads, which, if I had not seen with my own eyes, I would not believe from you or anybody else.

As regards dieting, I never came across the first person that ever got any benefit from it. On the contrary, numbers came to death's door by it, as it gives the humors the upper hand. My medicine requires the most nourishing food you can get. It will soon give you an appetite.

Do not for a moment suppose that I warrant a cure of all those diseases, in every case. I merely tell you what it has done, hoping it will do the same for you. I do not warrant a cure in any disease but tumors, under no circumstances. For further particulars see the circular around each bottle.

No change of diet ever necessary. Eat the best you can get, and enough of it.

I have an herb, simmered in olive oil, scatters Scrofulous swellings of the neck and under the ears. Price fifty cents per box.

DIRECTIONS FOR USE. Adults, one table spoonful per day; children of eight years, dessert spoonful; from five to eight, tea spoonful. As no direction can be applicable to all constitutions, take enough to operate on the bowels twice a day.

Manufactured and for sale by DONALD KENNEDY, 120 Warren street, Roxbury.

For sale by E. H. ROLLINS, Concord, N. H.

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swellings, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which referance is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by W. Gibson, M.D., Prof. of Surgery, Pa. University. Valentine Mott, M.D., Prof. of Surgery, N. Y. "W. P. Dewees, M.D., Prof. of Mid., Pa. University. N. Chapman, M.D., Prof. of Practice, Pa. University. T. Parke, M.D., Pres't College of Physicians, Phila. Dr. Del Vallo, Prof. of Medicine, Havana. Jose Eourenco de Luz, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spaine. J. Chipman, Member Royal Col. Surg., London. Sir Thomas Pearson, Maj. Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a cornic lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelt correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name. Be careful to inquire for SWAIM'S.

L. D. GALE, | THOS. H. EVERETT,
J. H. LANE, | F. SOUTHGATE SMITH,
WM. CHAUNCY LANGDON,
Principal Examiners, | *Assistant Examiners.*

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

W. M. P. N. FITZGERALD,
Late Principal Examiner of Patents.

Boston, Dec. 31, 1858.

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Chest, Back, etc.

If it does not give relief, the money will be refunded; all that the Doctor asks is a fair trial, and use it according to the directions.

It is an English Remedy, and was used by William IV. late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

In cases Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Liniment, but considers it unnecessary, it is sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's Office, 240 Green St.

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc.

Marble Chimney Pieces.

THE PENRHYN MARBLE is a new and beautiful article, manufactured of Stone imported from England, which is enameled in imitation of of the richest and most expensive Spanish, Galway, Egyptian, Tyrocess, Lisbon, Sienna and other rare and desirable kinds of Marble—the imitation being so perfect as to challenge detection without the closest scrutiny. In style of finish these Chimney Pieces stand unequalled, being very highly polished—retaining their beauty much longer than common marbles, and are not injured by oils, smoke, coal gas or acids. They have been extensively introduced into public and private buildings, giving perfect satisfaction to those who have used them. The best of references can be given, showing their adaptedness for general use, the subscriber having furnished some of the best dwelling houses in the city with them during the last two years.

While excelling all others in beauty of finish and appearance, they are much cheaper than any thing of the kind in the market. The subscriber has now in Store a complete assortment of the above named desirable Goods, to which he invites the attention of all interested.

je21 G. N. CARLETON, 15 Daniel st.

For Summer Riding.

C. H. SIDES & CO., having fully re-furnished their Stable with the best of Horses, and Carriages of the latest and most approved styles, for the summer travels, would respectfully invite a call from those about enjoying themselves by riding. HOUSE on Christian Shore, suitable for two small families. If applied for immediately will be sold low. Apply to

April 17. E. S. WENDELL.

HOUSES FOR SALE.

THE DWELLING HOUSE, No. 9 School street. This is a well built house, two (high) stories, in good repair, and is convenient for one family or two families, or for a large Boarding House. It contains nine or more rooms and two sculleries, and has an excellent cellar under the whole house. The situation is central, being about equi-distant from the markets, factories and railroads. Connected with this house is a building which has been and may be occupied both as a barn and a work-shop. If not sold soon, a part or the whole of the premises will be let.

The DWELLING HOUSE No. 6 Green street. This house is fitted for two tenements; it is well built, was thoroughly painted and put in good order the last season, and is well calculated for two families, (having about 6 rooms each) and may be considered a good location for persons employed at the north end. It is centrally located between the different ship-yards in that section of the city, each tenement will be sold separately, if desired.

The DWELLING HOUSE No. 7 Liberty street, corner of Charles street. This house was formerly owned and occupied by the late Peter M. Lowd and is in good order. Attached to it is a lot of land large enough for a Stable or for another dwelling house. It would make a good place for the residence of a person employed at the shipyards across the river, or at the Navy Yard.

The house at the Navy Yard usually occupied by Mr. Lowd, is now for sale and may be occupied immediately.

Also, for sale, a BUILDING LOT, on Mount Vernon street, (opposite No. 2,) with a small building thereon, which can be finished off into a Dwelling house.

All of the above property will be sold on liberal terms, if applied for soon. For further particulars apply to JOSEPH M. EDMONDS,

Feb. 27. No. 9 Islington street.

TO LET—The STORE on the corner of Vaughan and Deer streets. It was occupied as the first Union Store in this city, and is considered as a good stand for business. It is within a few rods of the Boston and Concord Railroad Depots. Possession can be had immediately.

FOR SALE—The HOUSE in the rear of the above, on Vaughan street—a convenient house for two families, and has been so occupied for about six years, by the same tenants. It rents for $160. For information, terms, &c., call on JOSEPH L. LOCKE, on the premises, or JOSEPH M. EDMONDS, 9 Islington st. m29

MORNING CHRONICLE.

BY MILLER & GRAY. PORTSMOUTH, N. H., FRIDAY, AUGUST 4, 1854. VOLUME 5. NO. 4.

THE DAILY MORNING CHRONICLE

is published by
FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER,
At No. 4 Exchange Buildings,
Pleasant Street,.....PORTSMOUTH, N. H.

TERMS $4 a year, or $3 if paid strictly in advance.

The Weekly Chronicle,
A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING.—For a Square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.
Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.
☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

CHARLES DICKENS.—An absurd story is going the rounds of the papers in this country in reference to Charles Dickens. It was started by the New York National Democrat in its London correspondence. It is a medley of gossip served up in such a manner as to have great publicity, and from the seeming familiarity of the writer with the details of the private life of the subject of his slanders, it will be swallowed as truth by large numbers of persons who are ever ready to give credence to reports *against* the reputation of any distinguished peason. The Boston Advertiser says:

"We are happy to have it in our power to lay before our readers a communication from the pen of a gentleman recently returned from abroad, who has had the amplest opportunities of obtaining correct information, which not only completely refutes this silly story, but furnishes truly some interesting particulars with regard to Mr. Dickens's private life."

This writer we presume to be Professor Felton of Harvard University. He says, One feels humiliated in reading such shameless falschoods in an American journal. It would be impossible to condense in the same space a greater number of vulgar and atrocious falschoods than that letter contains. It is there charged that Mr. Dickens has given leg ball to his creditors, being deeply involved in debt; in other words, that he has fled to escape the penalty of his debts. We copy the closing paragraphs:

It is a matter of delicacy to touch upon the private affairs of a gentleman. But I will venture to say a word or two with regard to those of Mr. Dickens, whose domestic life has been so ruthlessly invaded by this slanderer. Ever since the commencement of the Pickwick Papers, Mr. Dickens has received a large income; and that income has been generously but not extravagantly devoted, so far as was necessary, to the comfort and happiness of those dependent on him. The noble manner in which he has discharged his duties, and more than his duties, towards those with whom the relations of life have closely bound him, is known to all who know him and them; and the affectionate admiration with which he is regarded by the circle of relatives and friends by whom he is surrounded, should forever silence the tongue of the slanderer. Mr. Dickens lives in a style of simple elegance, without the slightest extravagance, and far within his means. His industry is scarcely equalled by any man in England; and the popularity and circulation of his works, quite surpasses anything known in modern times, except Mrs. Stowe's Uncle Tom. He receives his friends with genial hospitality, but without ostentation. He enjoys life in a rational manner, running into none of the excesses of fashion or parade, which might tempt a weaker man placed in his circumstances, in a great city like London.

I have reason to believe that the profits of the new and revised edition of his works, which has an enormous sale, are wholly untouched by his expenses. If so, then few literary men are so well off in their pecuniary circumstances as Charles Dickens.

A MAN AND WIFE HOUSELESS—*A Singular Case.*—We are told of an amusing scene created at a late hour a few nights since. The wife of a gentleman living on——street had, by the permission of her husband, accompanied another lady and her husband to the theatre, and as they lived in the same street, the man and wife left their companion at her own door, and proceeded on their way home.

Contrary to her expectation and request, she found the night-latch down, and she was unable to get in. The servant having gone out to spend the night with a neighboring servant, left her no recourse but to awaken her husband. Thus determined, she commenced ringing the door-bell violently, but could not obtain a response, as her liege lord slept remarkably sound.

Her desperate situation, however, caused renewed exertions, and after full twenty minutes tugging at the bell-ball, she finally heard the sound of approaching footsteps. Slowly the door opend, and "my lord and master" appeard dressed with nothing on except his linen, who half asleep, in a vain attembt to open his eyes, said, "Is that you my dear," addressing his wife.

"Certainly it is," rather pettishly answered the lady, "I have been ringing this half hour." The deuce you have," returned the husband, stepping on to the stoop and looking at the heavens, as men are very apt to do, when slam! bang! came the door shut in their faces! A rear door having been left open caused a current of air to rush through the hall and had closed the door in rather a summary manner.

There was a situation for a married couple. The door was closed, the husband in his—— linen, and the night key in his pantaloons pocket up stairs. How they finally succeeded in gaining an entrance to their house, and how they were surprised by one of the police, who supposed the man to be a ghost or a burglar, we have passed our word not to tell.—*Albany Evening Transcript, July 19.*

Morning Chronicle.

FRIDAY, AUGUST 4, 1854.

For the Morning Chronicle.

NEW POSITION OF THE SOUTH.

The Newburyport Herald of July 31, contains a number of extracts from Southern papers, showing the new position which Southern statesmen have assumed, viz., that slavery, instead of being an evil as heretofore admitted, is a positive good, and is justified by the christian religion! In our last we presented some extracts showing this new position.—The Herald says:

We might give unnumbered extracts from Southern papers, to show their *new born zeal* in support of an institution of which their fathers spoke with shame and sadness.

The Herald, since it became united with the Daily Union, in January last, has sometimes assumed a new political position, arguing occasionally in support of the measures of the present administration, the extension of slavery by annexing Cuba, &c. We were, therefore, agreeably surprised at the following remark of that paper:

We were never benevolent enough to support an institution that *depraves, cripples* and *curses* twenty two millions of whites, and jeopardizes the liberties of the human race, for the benefit of three millions of blacks.

The editors allude to the ground the South now take—"that they demand the removal of all obstacles to the extension of slavery; they ask that we shall withdraw our fleet employed to suppress the slave trade; and legalize and encourage that which in the light of religion, morals and politics, the world has for many years denounced as piracy—reestablishing the stealing and trafficking of African negroes." This, the editors say, is a very unfortunate state of mind into which our Southern friends have fallen! "Least of all should they seek to have us renew the horrors of the piratical slave trade. If they do make such propositions, they may blame themselves for the revulsion that follows."

Language like this does not betray the familiar style in that paper of one of the Cabinet officers, and we hope no longer to see the Herald in any way attempting to justify or uphold the institution of slavery. The admission that the institution depraves, cripples and curses twenty two millions of whites, although unexpected from that source, is yielding only to the behests of truth.

In our rapid career towards the zenith of national prosperity and greatness, some of the Southern people at least, are ignorant that their progress might have been far greater without that blighting curse—slavery; and the enlightened North, generally, seem to be unmindful that it is a cancer upon the body politic. There can be no doubt that in order to preserve the liberties of the country, it must be eradicated. It is true that the disease has not yet preyed upon us as it has upon the South; but should the system be extended over the North, as some Southern writers now contemplate, there would be similar fatal results. Like causes produce similar effects. Facts speak louder than declamation. With far superior natural advantages, the South, at this moment, would probably have more products and a larger population than the North, had it not been for the curse "entailed upon them." But the white population of the North exceeds that of the South about nine millions; and while the products of the latter are estimated at less than five hundred millions in value, those of the former are estimated at about thirty hundred millions. Should we draw a line of comparison in respect to literature, morals, temperance, general comfort, the state of religion and the churches, the South would appear in a still less enviable condition. Knowing, then, the true cause of the sterility of the soil and the squalid misery which every where meet the eye in the old slave States, it becomes the duty of all Northern men, acting in the defence of their free institutions, to resist all further aggressions of the slave power, and to oppose all further territorial acquisitions whose object is the extension of that power. The man must be ignorant of passing events who can doubt that a mighty struggle will soon take place, which will try the strength of our Union. The Southern rulers (the masses have but little concern in the affairs of State) rely for success upon our party divisions. But we need have no fears in respect to results, should there be a firm and determined majority in all the free States resolved upon maintaining Northern interests and Northern rights. T.

HORRIBLE IF TRUE.—The Lexington (Mo.) Express contains an account of the death of a slave at the hands of his master. The lash, fire, gouging, beating over the head with heavy clubs, the rubbing of cayenne pepper and tobacco in his eyes, etc., were some of the appliances used, not for a single hour, a single day, or a single week, but every day for more than three weeks, until he died.

Mrs. Stowe must look to her laurels. If she don't make a third volume of Uncle Tom pretty soon, the Southern papers will show the pictures in her work to be altogether underdrawn, tame and spiritless, compared with the realities.

FACTS ABOUT POSTAGE.—Letter postage would be still further reduced in this country, were it not for the long routes, sparse population, and light postal collections of the Southern States. In all the States, the postal revenues collected during the last fiscal year were $5,084,464 57, and it cost $4,199,951 68 to transport the mails; leaving a ballance of $484,512,89 in favor of the department.

The Albany Express places the leading facts connected with the Post Office Department in this country in a striking light. In the State of Massachusets, the amount of postage collected during the last year was $125,124, and the cost of transportation $52, 767. In North Carolina, the postage collected in the same period amounted to $60,751, and the cost of transportation was $175,630. In Massachusetts the revenue exceeded the cost of transportation $72,357; in North Carolina the cost of transportation exceeded the revenue collected $114,880!

Look at another instance—During the same period in New York, the sum of $1,175,116 was collected for postages, and the amount paid for transportation was $455,019. In Virgina in the same year, the collections reached $143,472, and the transportation cost $313,224. The excess of revenue over the cost of transportation in New York was $720, 407, while the cost of transportation exceeded the amount of revenue in Virginia $129,762!

And this great disparity holds good in all the Slave States except Delaware and Louisiana. In these two there was during the last year a small balance in favor of the Department. But two of the Free States—Michigan and California—exceed in cost of transportation the amount of collections, and these but in a small degree. The fact therefore is, that the Free States support the Department, carry the Slave States with them, and secure the present low rases of postage.

SCHUYLERIZED.—We hear a rumor that the Granite State Bank, of Exeter, N. H., has been a sufferer to the amount of from $40,000 to $80,000 by the recent over-issue of stock of the Vermont Central Railroad, by Edward Crane, its President, and that a meeting of the directors has been called to investigate its affairs. Crane married his wife in Exeter, and being well known there induced sundry persons to venture rather deeper into his stock transaction than was altogether prudent.—*Boston Atlas.*

The Boston Journal learns, by a letter from Mr. Samuel H. Stevens, Cashier of the Bank, that the rumor has no foundation in fact; and that the bank never has been and is not now interested to the amount of a single dollar in the Vermont Central Railroad.

A letter has been received by A. Reed, Esq., the British vice consul at Guayama, from the British consul general at St. Johns, P. R., informing him of the arrival of a British sloop from Port au Platte, St. Domingo, with a cargo of tobacco. The captain of the sloop reports that on the 28th of June, in Mona Passage, his vessel was taken possession of by a fore and aft schooner of about 130 tons, masts raking very much, and manned with a long brass eighteen pound gun amidships, and two carronades and a large quantity of small arms. She was manned with about seventy men, speaking English. The only color shown was a blue flag with a red cross. After having the sloop in charge thrity-six hours, they cast her off on the appearance of a ship and brig. The consul was of the opinion that said schooner was a pirate, and cautions all masters of British ships to be on the look out. —*Boston Post.*

A SHARPER SHARPENED.—A gentleman(?) put up a few days since at one of our first class hotels, had a choice room, and "fared sumptuously every day," for two or three days, when he vamosed without paying his bill. Upon making up his bed, the sharper's purse, containing about $40, was found under the pillow, where he had left it in his hurry to get away. Of course, the gentleman had too much honor to return for the missing change. This is a new method of financiering, and we presume this experiment will teach him to not be quite so sharp as to make game of himself. We are not at liberty to give his name.—*Niagara Falls Gazette.*

THE EASTERBROOK MURDERERS.—Three out of five of the murderers of Mr. Thomas Easterbrook, of Reading, Vt., who, it will be remembered, left that place in December last for St. Joseph county, Michigan, where he was engaged to marry a lady, and who never reached his place of destination, have been discovered, and are now in jail. The officers are on the search for the others. Mr. Easterbrook was murdered and robbed in a wood on the way to the house of his betrothed, by these five ruffians, and his body buried under a tree. One of the wretches, while under arrest on a charge of larceny, confessed the crime, and criminated his companions.

ARREST OF A MURDERER.—The citizens of Laurel, Del., have at length, after several days search in the swamps, secured the negro, who it will be remembered, a few days since murdered Mr. William Collins of that place, mortally wounded Mr. Elijah Hearn, and stabed in several places Mr. William A. Anderson. Mr. Anderson is recovering faom his wounds.

☞ Dr Robert M. Graham of New Orleans, being very drunk, stabbed and killed Col. Loring, at the St. Nicholas Hotel in New York, on Tuesday night. Col. L. had merely requested him not to be noisy.

Rev. G, W. Adams, who is charged with absconding from New Hampshire with 5000 dollars awarded to Mrs. Templeton for the death of her husband caused by the Norwalk tragedy, was arrested in Wisconsin last week. The Vermont Transcript is credibly informed that the above reverend gentleman is no other than the veritable Rev. Lyman D. Foster, who figured so conspicuously in Vernon village last winter. He is said to have seduced a number of young ladies, besides making dupes of several whom he had married and left to rue the days when they were united to such a monster.

LOCAL.

CITY COUNCIL.

In the Board of Aldermen, last evening, the subject of a new reservoir; and as to the purchase of new hose, with a recommendation for four hydrants, were referred to the committee on the Fire Department.

The application for the extension of common sewer on Cass street, was referred to committee on Roads; as also the petition for a side walk at west end of State street.

The enlargement of Cotton's Burying was referred to the committee on Burying Grounds.

A petition, received from the Council, asking for a modification of the Sunday ordinance, so as to allow Barbers to keep open on the Sabbath until 10 A. M. was referred to a special committee.

In the Common Council, a resolution was passed, to make inquiry respecting the pilot laws, in view of the passage of the Reciprocity Treaty, to see that every facility be given to business affected by that treaty, in this harbor. [Non-concurred in by Board of Ald.]

MILL POND MUD.

To the Editors of the Chronicle:—Permit me to make use of your columns to draw the attention of the city authorities to the intolerable nuisance created by the South Mill Pond while in its present state. To have the free air of heaven so poisoned by the miasma that we are obliged to sit with closed doors and windows, when the thermometer is ranging in the neighborhood of 80, is hard to bear with patience.

Ought not the city to take immediate measures to have this offence done away with? It has been increasing for several years, and before long something *must* be done. Why not do it at once, that our health and comfort may no longer suffer through such a pernicious atmosphere? SOUTH END.

STREET GRADING.—We are glad to see our new street Commissioner, Mr. Haines, digging down some parts of Congress street to fill up others. We hope this is but a commencement of a system of grading which is much needed in our streets generally. In digging to lay gas and water pipes, it is found that, buried from one to three feet below the road on which we now travel, is another as good or better. It is thought by those who have examined the matter, that there has been too much filling-in of the streets, when other portions should have been dug out. We need a scientific survey of the whole city, to set the matter aright.

TRAINS DELAYED.—The trains between Boston and Portland were nearly an hour behind time yesterday. The delay was occasioned by a picnic in the town of Eliot, Me. The large company occupied the regular trains. This arrangement may be profitable to the company, but it is not so pleasant to the passengers to wait an hour in the cars or station houses, when the mercury is above 85 in the shade.—*Boston Transcript, Wednesday.*

All true as a book. And we remember that several times when there have been trifling celebrations round about Boston, the regular trains have been so delayed by the large company, as to be quite unpleasant to some passengers.

We believe Boston is just about as far from Eliot, as Eliot is from Boston—and as great crowds cannot be safely taken up and set down without time to do it in—therefore somebody must wait when a crowd occurs—and if they are grumblers they will grumble a little, almost as a matter of course.

CHANCE FOR BOYS IN THE NAVY.—A correspondent of the New York Mirror says:—"It is said a new regulation permits the enlistment of boys of 16 to 20 in the Navy.—There are hundreds who better their condition by going to sea. In three years they will be able to earn $16 a month and found. It is said 40 boys entered the Navy last week. We have no doubt, when it is generally known, there will be plenty of applicants."

Over-issues of Stock

COME to light daily, and the safest and most profitable way for Ladies to invest their money is to call at the NEW YORK FANCY GOODS STORE, corner of Daniel street and Market square, where Goods bought for cash at Auction in New York last week when money was tight, are sold cheaper then ever before, and Bargains that are Bargains, are offered. Now is the only time to save 50 per cent.

Here is the price of a few articles:

Japanese Canker Drops,

FOR SORE MOUTH and Throat, Canker, &c. Please read the following letter from a well known Dry Goods Merchant, Geo. W. Chipman, Esq., Hanover street, Boston.

Boston, May 30, 1854.

Dear Sir—For a number of years, I have used the Japanese Canker Drops, for Sore Mouth and Throat, Canker, Burns, Scalds, and as a family medicine for all complaints of that nature, with great success. The medicine has my entire confidence, and I cheerfully and strongly recommend its use as truly valuable in every family.

STATE OF MAINE.

At a Court of Probate held at York within and for the County of York, on the first Monday in July, in the year of our Lord eighteen hundred and fifty-four, by the Honorable Joseph T. Nye, Judge of said Court.

JOHN H. ROGERS, Guardian of Bernard W. Hanscom, Sarah Hanscom and John Hanscom, minors and children of Samuel Hanscom, late of Eliot in said county, deceased, having presented his petition for allowance out of the personal estate of said deceased, to his said Wards—

Ordered that the said petitioner give notice to all persons interested, by causing a copy of this order to be published three weeks successively in the Chronicle printed at Portsmouth in the State of New Hampshire, that they may appear at a Probate Court to be held at Alfred in said County on the first Monday of October next, at ten of the clock in the forenoon, and shew cause, if any they have, why the same should not be allowed.

CONGRESS.

WEDNESDAY, August 2.

SENATE.—Mr. Fish, from the select committee on the causes of the mortality on board emigrant vessels, reported a bill for the better preservation of life on board vessels.

The bill granting the right way to the Marysville and Benicia Railroad through certain public grounds in California was taken up and passed.

The fortification bill was then taken up.—Mr. Hunter said that for some years the House had refused to pass any fortification bill; this one had passed by only three majority. The committee has conceded that to secure its passage no amendment should be made to it.

The bill was passed—35 to 9.

Mr. Hunter moved to take up the post-office appropriation bill. Mr. Mason wanted an executive session. Mr. Hunter's motion was agreed to—19 to 17.

Several amendments were adopted, among them the following:—That the mail steamer between Charleston, Key West and Havana be continued during August and September, as it is other months; allowing the postmaster of Washington city a commission of one mill per pound on the public documents sent through the post office, out of which commission he is to pay his employees increased compensation of $250 each. The bill was reported to the Senate, and the amendments made in committee of the whole were concurred in. An amendment for a daily mail between Cairo, Ill., and New Orleans, was agreed to after considerable debate. The bill was then read a third time and passed.

The civil and diplomatic appropriation bill was then taken up. Mr. Hunter moved that the Senate insist its amendments, and asked a committee of conference. Agreed to, and the committee appointed.

It was then ordered that the Senate meet for the rest of the session at 10 A. M. Mr. Mason at 3 1-2 o'clock moved for an executive session. Agreed to. The doors were opened at half-past six o'clock. Mr. Stuart offered the following—"Resolved, the House concurring that the time fixed by the resolution of July 1st for the adjournment of the present session of Congress, be, and the same is hereby extended to ———.

Mr. Hunter reported the naval appropriation bill without amendment; it was taken up, but without action. Senate adjourned.

HOUSE.—The House passed several Senate bills.

On motion of Mr. Walley, the House concurred in the Senate amendment to the bill providing for the temporary accommodation of the U. S. Courts in Boston, New York and Philadelphia.

The general appropriation bill was then taken up. The Senate's amendment appropriating $26,000 to reimburse Edward Riddle for sums expended by him on account of his official position at the London Industrial exhibition, was rejected—87 to 88.

Mr. Letcher moved the Senate's amendments be laid on the table.

The speaker said if this should prevail the bill would be carried with it.

The question was decided in the negative—70 to 113. The bill was then returned to the Senate.

Mr. Haven moved the river and harbor bill as amended by the Senate be referred to a committee of the whole. The House refused to suspend the rules—99 against 76; not two-thirds.

Mr. Duncan moved that the House proceed to the business on the speaker's table, with a view to take up the homestead bill.—Motion failed—81 against 83.

WASHINGTON, August 2.—The reciprocity treaty was ratified by the Senate to day, without amendment.

NEW YORK, Aug. 3.—A Paris correspondent writing to the Tribune, July 17th, says that the French government insist upon having Consul Dillon's flag saluted when again hoisted at San Francisco, and the correspondent says it is understood at Paris that the government at Washington has assented to this adjustment of the difficulths arising out of the arrest of the French Consul some months since at San Francisco.

The same correspondent also says that it is an admitted fact that the insurrection in Spain is secretly favored by the Queen who greatly detests her present ministry. Mr. Soule is understood to regard the present insurrection as wholly favorable to the transfer of the island of Cuba to the United States for a pecuniary consideration.

NEW YORK, Aug. 3.—In Brooklyn last night, whilst in a state of madness induced by rum, a man named S. N. J. Tucker, editor of the Brooklyn Daily Freeman, killed his little son, four years old, and cut his wife's throat, so that she is not likely to live. He also attempted to kill the officers when they arrested him.

STRIKE AT CHARLESTOWN NAVY YARD.—We understand that on Tuesday noon, most of the ship carpenters employed at the Navy Yard in Charlestown, struck for $3 per day. They had been receiving $2,50. Thursday morning the remainder joined in the strike, so that not a single ship carpenter was left in the yard. The regular wages of ship carpenters outside of the yard, we are told, is $3 per day, and workmen think it rather hard to labor for Uncle Sam at less price than private individuals pay for the same kind of work.—*Boston Journal.*

RATTLESNAKE.—Zebina Moody, of Granby, Mass., while spreading hay, almost stumbled backwards over a rattlesnake, four feet long, with fourteen rattles. The man captured the snake alive.

THE LARGEST RATTLESNAKE YET.—On Friday last, Mrs. Henry Clark, in returning from a berry party in Medford, was suddenly notified, by the noise of his rattle, that she was within a few inches of an enormous rattlesnake. Nothing daunted, she immediately procured a stone, with which she so far disabled him, that she could fasten a cord around his neck and drag him to her home, much to the astonishment of her frightened husband. His snakeship measures nearly six feet in length, and has twelve rattles, indicating that he is fifteen years old.

HARPER'S

Gazetteer of the World.

THIS work has been undertaken to supply a want which is daily becoming more pressing. The Censuses of the United States, of Canada and British America, of Mexico, of Great Britain, and of the Continental States of Europe, are all of recent date; and of these the most important have been laboriously consulted, and their information arranged and classified in the best manner. The editor has had it constantly in view to present the greatest amount of useful matter in the smallest possible space; and confidently hopes that the work will fully meet the wants of the times, and that the general reader, the student and the artisan will find in it all the information adapted to their several requirements, brought down as nearly as possible to the present day, in a form more convenient than in any other work of similar character.

Harper's Gazetteer of The World is to be completed in TEN NUMBERS at 50 cents each; and will comprise about 1800 royal octavo pages, with seven new and accurate Maps.

☞ No. 1 can be seen, and subscriptions received, at the Bookstore of

jy28 JOSEPH H. FOSTER.

Pauline Chart.

J. F. SHORES, JR. No. 1 Congress Block, has for sale the PAULINE CHART—by J. W. Bonham. This chart comprises a map of the "Countries adjacent to the Mediterranean, illustrating the Acts of the Apostles."

Also, arranged according to time, an account of the principal occurrances in the Life of St. Paul, as follows: First Missionary Tour; Second Missionary Tour; Third Missionary Tour and Travels while a Roman Prisoner. Each occurrence is given with the name of the Place, its Locality and the Reference to the Chapter and verse.

Sunday School Teachers and Pupils will find this chart a very great assistance in studying the Life and Travels of St. Paul, and it is highly recommended by clergymen who have examined it. jy27

MEXICAN MUSTANG LINIMENT—

Every land has hailed with
Xtacy this preparation whose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its tortures, have yielded to its
Magical influence; cancers, contorted joints,
Ulcerated and swollen limbs that have
Suffered for years under the weight of disease,
Turn by its application to suppleness and health.
A remedy of such general usefulness that can
Restore newness of Action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.

Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over diseases,
No matter of how long standing—sold at
The agents in all parts of the Union,

TEACHER OF MUSIC,

WOULD respectfully give notice to the citizens of Portsmouth, that he would be happy to give instruction to a limited number of Pupils on the PIANO FORTE, ORGAN, THOROUGH BASS AND SINGING.

Particular attention paid to the cultivation of the voice.

N. B.—Mr. P. is agent for Messrs. Hallett and Davis's celebrated Piano Fortes. Persons wishing to procure superior instruments will do well to consult him before purchasing elsewhere.

☞ Mr. Pearson has taken the spacious Room in the rear of the Chronicle Office, formerly occupied by Mr. T. P. Moses—where he may be found during business hours. Residence No. 44 Hanover Street. 8w*jy6

Sagamore House, in Rye.

FROST'S POINT.

THIS is an entirely new House, situated about four miles from the Portsmouth Depots. There is easy access to it by land or water. It is located on a point of land nearly surrounded by water, and seaward presents a finer view of the ocean, Isles of Shoals, &c, than can be obtained from any other house in Rye. An excellent view of Portsmouth and the Piscataqua River is also had from the top of the house. The location of the Sagamore combines the advantages of quiet retirement in a beautiful country, with convenience of access and all the facilities enjoyed at other Beach Houses. The opportunities for Bathing and fishing are unsurpassed. Boats are always in readiness for the accommodation of visitors. A Pilot Boat touches regularly at the Point, on her daily trips to the Shoals.

The Sagamore House was newly furnished throughout, this Spring, in the best manner The Ladies' Parlor is fifty feet in length, and the Dining Room of the same proportions. The Sleeping Rooms are capacious and airy, and the building thoroughly ventilated.

An experienced man has charge of the house, and every facility provided, and no pains spared for the accommodation of all visitors who may favor us with a call.

The Tables will be provided with the best the market affords, for in this respect the proprietor wishes it distinctly understood that he will not be excelled by any other House in Rye or on the seashore.

TERMS.—For permanent boarders $1.00 per day. Transient visitors as cheap as elsewhere.

Carriages will be at the Portsmouth Depots on the arrival of every train of cars to convey passengers to the Sagamore House.

We ask ladies and gentlemen to give us a call and we will satisfy them that we will do all we promise.

THOMAS CLARK, Proprietor.

Rye, July 27. 2w

Hacking Notice.

FARE TWENTY-FIVE CENTS.

THE SUBSCRIBERS, including all the proprietors of Hacks in Portsmouth, would respectfully inform the public, that after another trial of 12½ cent rates for Hacking, they find it impossible to work at that price, with hay and grain at the present high rates, and have therefore agreed that the charge for conveyance of passengers within the compact part of the city, shall be 25 cents, from and after this date.

No. 5 Pleasant street, near Market Square,

where they will find all articles at the lowest prices for CASH.

Portsmouth, June 26.

Garden Engines.

JUST received at "the sign of the Big Coffee Pot" a full supply of Garden or Fire Engines, which are respectfully commended by the subscriber to the notice of the public. Wherever these Engines have been introduced they have invariably given entire satisfaction. They are unsurpassed for power, capacity or usefulness. From the size of the air chamber sufficient power is obtained to enable one man to throw a steady stream of water to the height of fifty feet perpendicularly, thereby rendering it a desirable article as a

PROTECTION AGAINST FIRE,

And for washing windows of second and third stories of buildings, carriages, &c. With a newly invented water diffuser as a Garden Engine it defies competition. The diffuser is a perfect and simple article, and its superiority over the common rose sprinkler is that it will throw three times the quantity of water a much greater distance and spread it perfectly even, with less power applied. An Engine with a diffuser of this description, used in orchards and gardens to throw soap suds on the young trees, will destroy many kinds of vermin liable to injure the fruit and be an invaluable addition to the implements of the Nurseryman and Horticulturist.

Boots and Shoes of every description made to order, at 14½ Market Street, Corner Ladd st.
my27 J. C. CARR.

The Greatest Medical Discovery of the Age.

MR. KENNEDY, of Roxbury, has discovered in one of the common Pasture Weeds a remedy that cures Every Kind of Humor, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of crofula.

A benefit is always experienced from the first bottle and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing on the pastures and along old stone walls, should cure every humor in the system, yet it is now a fixed fact. Do you have a humor it has to start. There is no if's and ands, hums and ha's about its suiting some cases, but not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old; to old people of sixty. I have seen poor, puny, wormy looking children, whose flesh would not stay on, and be restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some have taken it who have been costive for half twelve years, was so much ted by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings; but you must not be alarmed; they will disappear in from four to five days at most. There is never a bad result from it; on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

Nothing in the shape of a Medicine has ever been received by the public with so much favor as this simple preparation. It is now composed of nine different herbs. In May, 1852, when I commenced making a business of it, I sold about two bottles per day. In June, 1853, I sold 4320 bottles. In October, 1853, I sold 6120 bottles. I hope you will call that doing well; I do.

In my own practice, I confine it strictly to humors; but there are some who have taken it in its favor they think what cured them will cure any thing and any body; they accordingly recommend it for every variety of disease. In this way a great many virtues of it have been found that I never so much suspect.

Cases of Dyspepsia, of many years standing, that withstood every known remedy, have been permanently cured.

I know one man to gain 17 lbs. by taking three bottles; another 11 lbs., another 10 lbs.; and another 7 lbs.—the venerable master Robinson of Boston.

In diseases of the Liver it is a specific. I know several with yellow skin and yellow eyes, the body emaciated and the mind melancholy, get fat and cheerful by a few bottles.

I know several cases of Dropsy, and one particularly bad. A lady, aged 79, was unable to leave her house for the last twelve years, was so much relieved (she was reduced in circumference thirty-four inches,) as to visit her friends in several neighboring towns

Another had the Dropsy in her left leg, and was unable to walk for ten years, sometimes swelling to an enormous size; at last bursted, making a bad wound which could not be healed; by taking three bottles and using two boxes of ointment, she is now quite well. Why it should make some fat and others lean, I cannot tell, but so it is.

I know of several cases of Kidney complaints cured by it. It the columns of a newspaper was a proper medium, I could tell of cases of this most distressing of all diseases that would make your heart bleed, that were permanently cured by it.

It has been lately found to be a sure cure for Panama fever. In one case the first spoonful put off the fit two hours. One bottle cured him. Another came home to die, and was induced by his brother to try it. Three bottles cured him.

It likewise gives great relief in the Asthma. A lady in Lawrence was unable to lie in bed for a number of years; she can now lie without the least inconvenience.

A lady in Weymouth lost the use of her left side by the Erysipelas. On the second bottle, she broke out in one mass of humor from head to foot. In a few days she was well.

It has lately been found to be equally good for humor outside as inside, (taking it inwardly in the meantime,) for Erysipelas, Salt Rheum, Pimples on the Face, or any eruption of the skin whatever; only where the flesh is very sore you must dilute it with water.

When made weak enough it is the best eye-wash for weak and watery eyes that I ever saw.

Others use it to cleanse the dandruff out of the hair and strengthen its roots, which it certainly does, and to crown all, it made the hair grow on bald heads, which, if I had not seen with my own eyes, I would not believe from you or anybody else.

As regards dieting, I never came across the first person that ever got any benefit from it. On the contrary, numbers came to death's door by it, as it gives the humors the upper hand. My medicine requires the most nourishing food you can get. It will never give you an appetite.

Do not for a moment suppose that I warrant a cure of all those diseases, in every case. I merely tell you what it has done, hoping it will do the same for you. I do not warrant a cure in any disease but humors, *where it never fails.* For further particulars see the circular around each bottle.

No change of diet ever necessary. Eat the best you can get, and enough of it.

I have an herb, simmered in olive oil, scatters Scrofulous swellings of the neck and under the ears. Price fifty cents per box.

DIRECTIONS FOR USE. Adults, one table spoonful per day; children of eight years, dessert spoonful; from five to eight, tea spoonfuls. As no direction can be applicable to all constitutions, take enough to operate on the bowels twice a day.

Manufactured and for sale by DONALD KENNEDY, 120 Warren street, Roxbury

Swaim's Celebrated Panacea,

FOR THE CURE OF
INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by

Wilson Jones, M.D., Prof. of Surgery, U. S. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y.
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
T. Parke, M.D., Pres't College of Physicians, Phila.
Dr. Del Valle, Prof. of Medicine, Havana.
Jose Eourenco de Lus, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spaine.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c. &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA.:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c. &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the U. States, and have been regularly

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

UNITED STATES AND FOREIGN
PATENT AGENCY,

No. 39 State Street, - - - - - - - - - - Boston.

SAMUEL COOPER,

Late Chief Examiner in the United States Patent Office,

Procures Patents in this and Foreign Countries.

References.—Hon. Edmund Burke, Present Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, lately a Principal Examiner in this Office; and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the Office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY B. RENWICK, T. R. PEALE,
L. D. GALE, THOS. H. EVERETT,
J. H. LANE, F. SOUTHGATE SMITH,
WM. CHAUNCY LANGDON,
Principal Examiners, *Assistant Examiners.*

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.
Boston, Dec. 31, 1853.

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sore Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Chest, Back, etc.

If it does not give relief, the money will be refunded, and that is asked is a fair trial, and use it according to the directions.

It is an English Remedy, and was used by William IV. late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Linimeut, but considers warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's Office, 240 Green

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc.

Marble Chimney Pieces.

THE PENRHYN MARBLE is a new and beautiful article, manufactured of Stone imported from England, which is enameled in imitation of of the richest and most expensive Spanish, Galway, Egyptian, Pyronese, Lisbon, Sienna and other rare and desirable kinds of Marble—the imitation being so perfect as to challenge detection without the closest scrutiny. In style of finish these Chimney Pieces stand unequalled, being very highly polished—retaining their beauty much longer than common marble, and are not injured by oils, smoke, coal gas or acids. They have been extensively introduced into public and private buildings, giving perfect satisfaction to those who have used them. The best of references can be given, showing their adaptedness for general use, the subscriber having furnished some of the best dwelling houses in the city with them during the last two years.

While excelling all others in beauty of finish and appearance, they are sold much cheaper than any thing of the kind in the market. The subscriber has now in Store a complete assortment of the above named desirable Goods, to which he invites the attention of all interested.

je21 G. N. CARLETON, 15 Daniel st.

For Summer Riding.

C. H. SIDES & CO., having fully re-furnished their Stable with the best of horses, and Carriages of the latest and most approved styles, for the summer travels, would respectfully invite a call from those about enjoying themselves by riding. The best and safest teams furnished, for any purpose, at reasonable rates.

Every attention will be given to make their sojourn with them pleasant during the hot months.

The Yacht SPY, CAPT GOODWIN, will run daily to the Islands from Pier Wharf, Portsmouth, at 10 o'clock, A. M., or on arrival of cars from Boston and Concord. LEMUEL L. CASWELL,
je22 2mo EDWARD S. FOSS.

Appledore House,

ISLES OF SHOALS.

STEAM having died out in Portsmouth, the subscriber has the pleasure to announce to his old friends and the public, that he has chartered the beautiful YACHT SPY, of 40 tons burden, and has had the good fortune to secure the services of Capt. JAMES W. GOODWIN, the well known pilot, as master. Having a skilful, careful ness and attention will secure to the travelling public a more safe, expeditious, comfortable and pleasant transit to and from the Islands, than has hitherto been attained.

She will leave PIER WHARF, foot of State Street, Portsmouth, every day (Sundays excepted) immediately after the arrival of the trains from Boston and Concord, and return in season for the evening trains.

Many alterations and improvements have been made in the establishment to make it more convenient and comfortable.

An abundant supply of Ice has been carefully laid in, and the refrigerator is doing perfectly.

To the invalid, the weary and the active pleasure seeker, this location presents attractions not equaled in New England.

je17 THOMAS B. LAIGHTON.

Gerrish House,

KITTERY POINT, MAINE.

THIS Establishment having been put in perfect order, will open for visitors on the 15th of June. Every attention will be given to make this House one of the most pleasant Summer resorts. Kittery Point is celebrated for its conveniences for bathing, fishing and sailing. Arrangements have been made to afford every facility for guests to enjoy the above amusements. The Post Office is within three minutes' walk of the House. A stage runs regularly twice a day to and from the Point, via the U. S. Navy Yard, arriving at and leaving the City of Portsmouth, three miles distant, on the arrival and departure of the cars. For further particulars address the proprietor, at Kittery Point, Me.

CORNER of State and Pleasant streets, recently occupied by the subscriber—to whom apply.
m2 R. K. OXFORD, 72 State st.

For Sale.

HOUSE on Christian Shore, suitable for two small families. If applied for immediately will be sold low. Apply to
April 17. E. S. WENDELL.

HOUSES FOR SALE.

THE DWELLING HOUSE, No. 9 School street. This is a well built house, two (high) stories, in good repair, and is convenient for one family or two families, or for a large Boarding House. It contains nine or more rooms and two ecuileries, and has an excellent cellar under the whole house. The situation is central, being about equi-distant from the markets, factories and railroads. Connected with this house is a building which has been and may be occupied both as a barn and a work-shop. If not sold soon, a part or the whole of the premises will be let.

The DWELLING HOUSE No. 6 Green street. This house is fitted for two tenements; it is well built, was thoroughly painted and put in good order the last season, and is well calculated for two families, (having about 6 rooms each) and may be considered a good location for persons employed at the north end. It is centrally located between the different ship-yards in that section of the city, each tenement will be sold separately, if desired.

The DWELLING HOUSE No. 7 Liberty street, corner of Charles street. This house was formerly owned and occupied by the late Peter M. Lowd and is in good order. Attached to it is a lot of land large enough for a Stable or for another dwelling house. It would make a good place for the residence of a person employed at the shipyards across the river, or at the Navy Yard.

The DWELLING HOUSE No. 47 Bow street.—This house has been built but a few years, is well finished off, and is very convenient. In the rear is quite a large garden spot. This would be a desirable place for a person employed at the shipyards, or at the Navy Yard nearly opposite.

Also, for sale, a BUILDING LOT, on Mount Vernon street, (opposite No. 2,) with a small building thereon, which can be finished off into a Dwelling house.

All of the above property will be sold on liberal terms, if applied for soon. For further particulars apply to JOSEPH M. EDMONDS,
Feb. 27. No. 9 Islington street.

TO LET—The STORE on the corner of Vaughan and Deer streets. It was occupied as the first Union Store in this city, and is considered as a good stand for business. It is within a few rods of the Boston and Concord Railroad Depots. Possession can be had immediately.

FOR SALE—The HOUSE in the rear of the above, on Vaughan street—a convenient house for two families, and has been occupied for about six years, by the same tenants. It rents for $160. For information, terms, &c., call on JOSEPH L. LOCKE, on the premises, or JOSEPH M. EDMONDS, 9 Islington st. m29

House Lots.

MORNING CHRONICLE.

BY MILLERS & GRAY. PORTSMOUTH, N. H., SATURDAY, AUGUST 5, 1854. VOLUME 5. NO. 5.

THE DAILY MORNING CHRONICLE

is published by
FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER,
At No. 4 Exchange Buildings,
Pleasant Street,.....PORTSMOUTH, N. H.

TERMS $4 a year, or $3 if paid strictly in advance.

The Weekly Chronicle,
A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING.—For a Square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

The National Intelligencer relates that a gentleman in Georgia about a year ago died, stipulating in his will that his negroes, 150 in number, should be sent to Indiana or Illinois, where a comfortable settlement should be procured for them, including a suitable quantity of land, with timber, wagons, teams, housekeeping articles, &c. He further stipulated that if any of his heirs should attempt to thwart his wishes, such offender shall be disinherited. One of the executors has made inquiries, and ascertained from the Governors of Indiana and Illinois that these negroes cannot be established in either of those States. The executor desires to have the case brought before the legal tribunals, and to obtain a decree for the delivery of the negroes to the Colonization Society, for transportation to Liberia.

In a case of this difficulty, the uppermost suggestion would seem to be, that the negroes should be placed in some other State, as nearly as possible like Indiana or Illinois, and there furnished with their farm and implements.

These facts, from such a quarter as the National Intelligencer, may stand instead of a thousand arguments against the system which gives them birth.

A Southern man on his death-bed, wills freedom to his slaves, as his duty and their boon; that boon, however, they cannot take on the spot, by the laws (?) of Georgia; but they must be sent away.

The dying man, in his ignorance, fancies that Illinois and Indiana are free States: but the executor finds their doors closed against him, and has to ask for a special law to get over the difficulty.

A system of honesty is simple and easy;—but a dishonest system is complicated, contradictory and confused.

WILL CASE.—A singular Will case is now before the Judge of Probate of Essex county. Dr. Manning, an old physician of Ipswich, when dying, left a will, bequeathing the bulk of his property, about $70,000, to found a high school in that town. He had but one child, a son, and to him, in case he did not marry a certain female relation, he left $1000 a year; if he did, then but $200 per annum. Some of the bequests are rather odd, and altogether there is ample room for the skill and ingenuity of counsel in arguing the sanity or insanity of the testator, as it is on these grounds that the will is defended and sought to be set aside. George Bemis appears for the execution of the will, and Rufus Choate and Otis P. Lord for the son. Whatever may be the decision of the Judge of Probate, it is probable that the case will go before the Supreme Court.

WELL DONE.—The Lynn News says that a few days since Capt. David Harris of Ipswich, on his eighty-fourth birth day, rowed out into the bay a distance of some four or five miles, caught about fifty handsome codfish, and was on his way home before sunrise.—Capt. Harris "has followed the sea for many years, but now lives at home, occasionally taking a trip down the river in his boat, in which he rides over the waves with a speed which might be envied by many younger boatmen."

THE OLDEST HOUSE IN NEW YORK.—The oldest house standing in the city of New York, is the building owned by old Alderman Gilford, and known as No. 122 William st. The garden of this house, a hundred years ago, extended to the strand of the East River—a gradual descent; and for many years was known and celebrated, as producing the finest peaches and plums grown on this island. The house was built of brick imported from Holland. Some of the timbers in this house must be 120 years old, if not more.—*Correspondent N. Y. Mirror.*

A RELIC.—The editor of the Chicago Press has been shown a book owned by H. W. James, Esq., called 'America,' being the latest and most accurate description of the New World. It was published in London in 1672, and is a translation into English from the original in Dutch, by Arnold Montanus It consists of 674 pages, and is adorned profusely with illustrations. Being 183 years old, it may be regarded literally as a history of 'Young America.'

A young lady, attired in boy's clothes, was apprehended in Washington, Friday night for going about the city under suspicious circumstances. It is supposed that she escaped from Bishop Doane's Seminary at Princeton.

Rockingham Ice

PATENTS.
American and Foreign Office.
AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors for the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ———.
"R. H. EDDY, Esq., Boston, Mass.
"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent I am very respectfully,
Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Fire & Marine—Metropolitan, No. 14 State street, Boston,	"	426,768

Morning Chronicle.

SATURDAY, AUGUST 5, 1854.

ALTERED BILLS.

The alteration of Bank Bills is always a misdemeanor, and generally a felony. Bankers, merchants, and the whole community, consider the alterers of such bills as standing on a moral level with forgers, counterfeiters, and thieves; and treat them accordingly.

There is another kind of bills beside bank bills, viz. Legislative Bills, before Congress, destined, if they pass, to become laws, and to be enforced by all the civil, moral and military power of the United States.

A complaint has lately been made, in Congress, that one of these bills, viz. one about Minnesota, was altered privately, and without authority, and that, thus altered, it stands as a law. A committee of examination was raised; and that committee, as will be seen, have reported that a very *important* alteration was made at the instance of Col. Forney, who, by the way is not exactly the man to be trusted to make laws alone.

The committee also report that this bill about Minnesota, as it finally passed, "and is now a law, was never in the House of Representatives at all." [We maintain, then, that the fraudulent or accidental bill is no law at all: not even a statute—for it has not been through the forms of legislation.]

They report further, that such verbal alterations are quite common in both Houses.

We think a reform is called for. Dismiss all drunken legislators; and have clerks who will not obey the dictation of Col. Forney, or Col. Any-body-else, when they wish the records falsified, or bills altered without a vote.

For the Chronicle.

CHRISTIANITY vs. SLAVERY.

In the Missionary Herald, for August, we find published the following extract from the journal of Mr. Bushnell, missionary at Gaboon:—

"March 18. In the town, we found a Pangive man with his hands manacled and one foot thrust through a large log of wood. Upon inquiry we learned that he had made his way down from the interior to a Pangive town, about twelve miles distant, where, being a stranger, he was seized and sold to a man belonging to this town, as a slave. His purchaser not being able to pay for him, has left his wife in pawn with the Pangives until he can sell him and return the price he promised the kidnapper. So it appears that the Pangives have learned the horrid practice of *selling their fellow men*,—a custom which, we suppose, they were free from till they came in contact with tribes on the river, where the slave trade has so long exerted its desolating influence. *How important that the missionary hasten to meet these people with the gospel of peace*, as they descend from their primitive Ethiopian wilds."

Attention is asked to the above extract, especially those sentences which we have italicised. The Pangives are cannibals. Mr. Bushnell says: "two persons have been eaten by them within a few months; they eat the corpses of their own people." But the selling of their fellow men, says the missionary, is a 'horrid practice' which they 'have learned.' And so horrid in practice, that it is important for the missionary to 'hasten to meet these people with the Gospel of Peace.'

Mr. Bushnell had better take care how he writes about kidnapping and man-selling being horrid practices, or he may raise the wrath of the Nebraska press against himself, as being found in the company of the three thousand and fifty ministers, who have nothing to do with declaiming against 'horrid practices.' You may talk about the wall around China, and the prohibition of missionaries among foreign 'Pangives'—but there is no such prohibition to missionary labor, as is established among the 'Pangives' of the 'Land of Freedom.'

I wonder if the propagandists will be on the lookout for the annexation of these foreign 'Pangives!' 'Birds of a feather, &c.' *

SONTAG AND JENNY LIND.—The New York Musical World and Times has lately published an able, and we think just, comparison drawn between the lamented Sontag and Jenny Lind, by C. Bassini, which he sums up as follows:—*N. Y. Musical Review.*

"Nothing now remains but to draw a definite comparison between these two celebrities; and I would say, that in *artistic accomplishments, vocalization, phrasing, embellishment*, Sontag was vastly the superior of Jenny Lind; while in *natural gifts*, as *voice, passion, spontaneousness*, Jenny Lind stood in advance of Sontag.

I here judge them as singers only. If we speak of them as actresses, Jenny Lind was far inferior to Henrietta Sontag."

FATAL GUNNING ACCIDENT.—Joseph F. Robinson, aged about twenty, son of Mr. Isaiah F. Robinson of Nantucket, was killed on Tuesday forenoon. He had been gunning, and while in the act of placing his gun, which was loaded, in the boat, he slipped, and striking the lock against the boat, caused the gun to discharge its whole contents into his body, killing him instantly. Young Robinson was a youth of much promise, a resident recently of the city of Boston, and was on a visit to his father's family.

LOCAL.

THE PANTOSCOPE.

California, and the overland route thither, may be seen in some of their glories, and some of their terrors also, by all who choose to go to the Temple this evening, and by such children as may be present this afternoon.—The scenes are varied, and shown with little intermission or interruption. They appear faithfully portrayed, and plainly described giving the visiters, especially the younger portion, a vivid picture for the memory. See Advertisement.

OLD SOUTH CHURCH.—Our readers are aware that this ancient Meeting House has been occupied for public worship during the year past, enjoying the ministrations of Rev. Samuel Hoyt, who closed his labors there, on the last Sabbath, having engaged in another field of action.

The Congregation, we learn, has been gradually increasing, and is now somewhat larger in its regular attendance than at any previous time during the year. The people have engaged Rev. John N. Rines, of Monroe, Me. to be their minister for a year to come. He is to commence his labors here on the third Sabbath in August.

Rev. Mr. Clark will preach to-morrow, and Rev. D. P. Cilley, of Boston, the Sabbath after.

To the Editors of the Chronicle:—The communication signed "South End," published in your Friday's paper, will apply with equal force to the smoke that comes from the Planing Machine in the rear of Green street.—That it is an intolerable nuisance, all who live in the immediate neighborhood will willingly testify; and as that writer says, to have the free air of heaven so poisoned as to be obliged to sit with closed doors and windows, when the thermometer is ranging in the vicinity of 80, is hard to bear with patience. Those living in the immediate vicinity of this smoke, are not only obliged to sit with closed doors and windows this hot weather, but are obliged on washing days to hang their wet clothes in some part of the house to dry, as they cannot hang them in the yard for fear of having them spoiled by the soot.

It appears to me, if the City authorities have any power to abate nuisances, this should be attended to immediately.

NORTH END.

Another correspondent complains grievously about the filthy state of the open lot on Court street, in the rear of Messrs. Sides' stable. The owner of the lot should see to it, or be made to. Where *are* our health officers?

WASHINGTON HOUSE, RYE BEACH.—*Messrs. Editors:*—Among the pleasant houses to which one or one's family may resort, at Rye Beach, we may call attention to the Washington House, kept by Mr. Leavitt, standing between the Union House and the Ocean House. For a quiet, homelike, cozy retreat, the "Washington" presents superior advantages. And if you do really want relaxation from toil and anxiety, and want the privilege of a *do-as-you-like* and *feel-comfortable* sort of a time,—we advise you to give friend Leavitt a call. You will find the house comfortable, the rooms airy, the table well furnished, and the family and servants attentive, as in your own home. Besides, friend Leavitt has a fountain of the *best of Liquors!—Cold Water*. This is a most desirable feature for *families*, who don't want to feel in fear all day, of a little 'bit of a spree' all night among the 'fancy.' The expense is about half that you would be required to pay, if you wanted the privilege of 'dressing up' three or four times a day, a *luxury* which some are fond of paying for. *

ICE CREAM.—At the Islington Saloon, between Brewster and Ann streets, among the usual articles of a Confectionery establishment, are always to be found the most excellent Ice Creams. Hilton manufactures in any quantity, of all flavors; and his Creams can't be beat.

THE WATER COOLER advertised by Mr. E. A. Stevens, Daniel street, is a very simple yet effective contrivance. The Cooler is a double jar, of zinc, with a close air chamber between, which of course prevents the ice from soon melting within. It is a neat article, furnished with a stop-cock, and will contain almost two gallons. They are selling for from $4 to $6.

MUSICAL.—The N. Y. Musical Review for the first half of August, contains, among other things, two original pieces of music, arranged for men's voices, by Prof. Wm. B. Bradbury. The adoption of the German fashion of men singing by themselves, is becoming more general in this country, and we need good music adapted to this use.

JULLIEN'S father was French and his mother Italian. The *maestro* himself was born at Sisteron, a small town amid the French Alps, on the passage of his parents from Rome to Paris.

CONGRESS.

THURSDAY, August 3.

SENATE.—In the Senate, Mr. Mason reported on numerous private claims, and Mr. Hunter reported back the Ocean Mail Appropriation bills.

Mr. Rockwell's resolution calling for the residue of the correspondence of Mr. Marsh, respecting events at Constantinople, was adopted.

The private calendar was taken up, and twelve House bills were passed.

Mr. Gwin moved to add to the bill an appropriation of $200,000 for the Navy Yard at San Francisco. Adopted. Several other amendments were then adopted. Mr. Gwin moved an amendment, paying for the use of the steam propeller, Columbus, belonging to the Pacific Steamship Company on the coast of California, $130,000, or at the rate of $1500 per day, in addition to a charge of $35 per ton for the company, which has been paid by the government.

Mr. Benjamin of Louisiana opposed the amendment, as shameful and exorbitant.—Mr. Gwin replied, and demanded to know on what authority the Senator pronounced the chartering at this price, as shameful and exorbitant upon its face. I make the statement on my responsibility as a Senator. A long debate then ensued.

Mr. Stuart of Michigan said this bill would lead to a very long debate, and he moved that it be laid aside, to take up his resolution providing for the extension of the time of the adjournment of Congress; he made the motion with the view of testing the sense of the Senate, on extending the session until Monday. The motion was lost, there being not ten affirmative votes.

Mr. Gwin's amendment was rejected—yeas 11, nays 30.

Other amendments were offered, including the following:—That the pay of non-commissioned officers and privates of marines be increased to the same rate of the same grade in the army. Adopted. That a board of naval officers be appointed to investigate the character and qualification of all officers of the Navy, of the grade of Captain and lower grades, and report to the Secretary of the Navy such as are disqualified for duty, and that the Secretary be authorized to drop from service such officers. A long debate ensued, in which Mr. Gwin read a statement from the Navy Department of several officers in high rank, who, from habitual intemperance, mental derangement produced thereby, and other like causes, have been incompetent for duty for 20 years. The amendment was rejected—22 to 23.

That a naval depot, &c., be established on the right bank of the river at New Orleans—adopted.

Mr. Rusk moved an amendment, authorizing the President to nominate as officers of the Army and Navy of the United States the surviving officers of the Texan Army and Navy—debated and rejected.

Mr. Rusk offered an amendment allowing the officers of the Texan navy the pay of officers on leave of absence, since the time of the annexation to the present time. Agreed to—yeas 18, nays 16. The bill was reported to the Senate, and the amendments concurred in.

Mr. Mallory renewed his amendment for a naval board, pending which the bill was laid aside until six o'clock, for a recess.

HOUSE.—Mr. Houston of Alabama asked that a message be sent to the Senate, asking the return of the General Appropriation bill and amendments, with a view to correct an error in the latter.

Mr. Haven of New York objected, desiring first to take up for reference the River and Harbor bill.

Mr. Orr said that the gentleman wanted to take up that bill out of its order, although the Homestead bill had the preference.

Mr. Houston was sorry to see his friends exhibiting so much uneasiness, and throwing obstacles in the way of the General Appropriation bill.

Mr. Haven replied. He would oppose every Appropriation bill until the River and Harbor bill—passed by a large majority of both Houses, and returned from the Senate with amendments—be taken up and disposed of in the ordinary course of legislation.

A message was received from the Senate, informing the House that they have appointed a Committee of Conference on the disputed amendments to the General Appropriation bill, and requested the House to do the same.

Mr. Houston said he would ease the trouble of his friend (Mr. Haven) by asking the appointment of the Committee of Conference, and through that means, the error to which he alluded could be corrected.

Mr. Haven wanted action on the General Appropriation bill delayed until the River and Harbor bill should be taken up and referred, and asked for the yeas and nays on Mr. Houston's motion.

Mr. Campbell of Ohio, rose to a question of privilege and to make a report from the select committee appointed to investigate the alteration made in the Minnesota Land bill, and relative to all other cases of interpolation of bills on the joint resolution of the House during the present session.

The Committee express their deep conviction that the unauthorized changes in the text of bills has a most disastrous tendency, and express their opinion that they who made the change deserve severe censure. The evidence shows that changes verbal or unimportant are made without authority in both houses, and they call attention to the fact that such things are calculated to produce injurious results.—The Committee report the bill with a view to remedy the error caused by the change; restoring "or" for "and," &c.

Mr. Campbell, on the part of the minority of the committee, reports—

That the alteration was made subsequent to the engrossment, and that the alteration was not merely clerical but material, completely changing one of the most important features. The bill, as it passed the Senate, and now a law, has never been acted on by the House of Representatives.

The alteration was made by Mr. Sproul, the House Engrossing Clerk, by authority and under direction of Col. Forney, and Mr. Sproul had previously refused to make the alteration.

While they do not condemn the motive for the alteration, they condemn the *act*, and it is for the House to say whether they will or will not take action on the subject.

Mr. Breckenridge briefly explained the report of the majority. He moved that the committee be discharged, that the report be accepted and the report and evidence printed. After debate the motion was agreed to—yeas 95; nays 73.

A brief message was received from the President, transmitting a copy of the Canada Reciprocity Treaty, the ratification of which, he doubts not, will soon be exchanged, and recommends the passage of such a law by Congress as on our part will give effect to the treaty.

CONGRESS.—On Thursday, in the House, towards evening, an ineffectual attempt was made to get up the Homestead Bill and make it the special order for the 3d Tuesday in December. The rules were suspended, and the resolution of thanks to Capt. Ingraham was taken up. The Senate's amendments were concurred in.

Japanese Canker Drops,

FOR SORE MOUTH and Throat, Canker, &c. Please read the following letter from a well known Dry Goods Merchant, Geo. W. Chipman, Esq., HANOVER street, Boston.

Boston, May 30, 1854.

Dear Sir—For a number of years, I have used the Japanese Canker Drops, for Sore Mouth and Throat, Canker, Burns, Scalds, and as a family medicine for all complaints of that nature, with great success. The medicine has my entire confidence, and I cheerfully and strongly recommend it, as a truly valuable in every family.

HOUSE SCALES—Three sizes suitable for family use—for sale by E. A. STEVENS.

THE WISCONSIN FUGITIVE SLAVE AFFAIR.—The Kenosha (Wisconsin) Telegraph of July 25, says:

"The Supreme Court, to which Booth applied for a writ of habeas corpus to be relieved from his present durance, after hearing, refused to grant the application. The ground is, because the jurisdiction of the United States Court had already attached, which precluded them from interfering."

MYSTERY EXPLAINED.—The Boston Post says:

Mr. McQuestion, who was so mysteriously shot at Bradford, Mass., on Saturday night last, is better, with a prospect of his ultimate recovery, though the ball has not yet been extracted from the abdomen, where it lodged. A young man named Francis Lang has confessed that he committed the deed, and states as the reason for doing it that he imagined that he was assaulted and struck, and that he, in consequence, fired his pistol. He had been to a restaurator in the town just previous, and perhaps some stewed oysters or cold pie urged him to the deed.

There ought to be an injunction served on the Restaurator man at once, to prevent his selling poisonous food.

DARTMOUTH COLLEGE.—The number of the graduating class at Dartmouth College, Hanover, N. H., on Thursday, was 57. The number of graduates from the Chandler School, receiving the degree of Bacheldor in Science, was four. This institution was established by a bequest of $50,000 by the late Abial Chandler. The following honorary degrees were conferred: A. M., upon Benjamin R. Allen, G. F. Bailey, and Erasmus B. Bigelow.

That of D. D. upon Rev. Isaac Hard, of Exeter, N. H., a graduate of Harvard College, 1806.

That of LL. D. upon Reuben Dimond Mussey, M. D., of Cincinnati; and Samuel Dana Bell, of Manchester, N. H., a graduate of Harvard College, 1816.

NEW YORK, August 4.—The Senate yesterday confirmed Roger Barton of Mississippi, Consul to Havana; Robert B. Campbell of Texas, Consul to London, in place of Geo. N. Sanders; H. J. Harris has been reappointed District Attorney for Mississippi. A son of Dudley Mann has been confirmed Secretary of Legation at Chili; Mr. Wheeler of North Carolina, Charge to Nicaragua; Mr. Marlin of Nashville, Charge to Guatemala; Caleb Boody, Collector of the new Collection District of El Paso, New Mexico; Samuel H. Montgomery of Arkansas, Indian Agent for New Mexico.

FLORIDA.—A writer in the Floridian and Journal, says the upper stratum of Florida rests on one vast net work of irregular arches of stupendous magnitude, through which innumerable rivers, creeks and mineral waters in silent darkness perpetually flow. The creeks of this denomination are too numerous to mention; most of them afford fine mill sites. The number of mineral and thermal springs in Florida is more than two thousand. The theory of Prof. Agassiz is that Florida was built by the coral worm, and other marine animalcula, and that it took them upwards of one hundred thousand years to accomplish it.

THE WESTMINSTER REVIEW for July, presents for a list of contents:—Cardinal Walsey; the Beard; the Civil Service; Parody; the Russo-European Embroilmont; Wycliffe and his Times; Compte's Positive Philosophy; the Fact and Principle of Christianity; Contemporary Literature.

Professor Anderson, the wizard, says Louis Napoleon owes him £500, which he lent him fourteen years ago when he was in distress in London.

DOCTOR YOURSELF!
THE POCKET ÆSCULAPIUS:
OR, EVERY ONE HIS OWN PHYSICIAN.

THE FORTIETH Edition, with One Hundred Engravings, showing Diseases and Malformations of the Human System in every shape and form. To which is added a Treatise on the Diseases of Females, being of the highest importance to married people, or those contemplating marriage.
BY WILLIAM YOUNG, M. D.

Let no father be ashamed to present a copy of the Æsculapius to his child. It may save him from an early grave. Let no young man or woman enter into the secret obligations of married life without reading the POCKET ÆSCULAPIUS. Let no one suffering from a hacknied Cough, Pain in the Side, restless nights, nervous feelings, and the whole train of Dyspeptic sensations, and given up by their Physician, be another moment without consulting the Æsculapius. Have the married, or those about to be married any impediment, read this truly useful book, as it has been the means of saving thousands of unfortunate creatures from the very jaws of death.

☞ Any person sending TWENTY-FIVE cents enclosed in a letter, will receive one copy of this work by mail, or five copies will be sent for one dollar. Address, (post paid,)
DR. WM. YOUNG,
1y1y29W No. 153 Spruce st., Philadelphia.

HARPER'S
Gazetteer of the World.

THIS work has been undertaken to supply a want which is daily becoming more pressing. The Censuses of the United States, of Canada and British America, of Mexico, of Great Britain, and of the Continental States of Europe, are all of recent date; and of these the most important have been laboriously consulted, and their information arranged and classified in the best manner. The editor has constantly in view to present the greatest amount of useful matter in the smallest possible space; and confidently hopes that the work will fully meet the wants of the times, and that the general reader, the student and the artisan will find in it all the information adapted to their several requirements, brought down as nearly as possible to the present day, in a form more convenient than in any other work of similar character.

Harper's Gazetteer of The World is to be completed in TEN NUMBERS at 50 cents each; and will comprise about 1800 royal octavo pages, with seven new and accurate Maps.

☞ No. 1 can be seen, and subscriptions received, at the Bookstore of
jy26 JOSEPH H. FOSTER.

Pauline Chart.

J. F. SHORES, JR. No. 1 Congress Block, has for sale the PAULINE CHART—by J. W. Bonham. This chart comprises a map of the "Countries adjacent to the Mediterranean, illustrating the Acts of the Apostles."

Also, arranged according to time, an account of the principal occurrances in the Life of St. Paul, as follows: First Missionary Tour; Second Missionary Tour; Third Missionary Tour and Travels while a Roman Prisoner. Each occurrence is given with the name of the Place, its Locality and the Reference to the Chapter and verse.

Sunday School Teachers and Pupils will find this Chart a very great assistance in studying the Life and Travels of St. Paul, and it is highly recommended by clergymen who have examined it.
jy27

Dentistry.

FRANK FULLER, DENTIST,
CALLS the attention of Citizens and Strangers to his extensive and complete
DENTAL ESTABLISHMENT,
No. 60 Congress Street,
PORTSMOUTH, N. H.

The establishment has been recently thoroughly refitted and enlarged, and the facilities for the performance of every operation in

Surgical or Mechanical Dentistry,
materially increased.

The services of a a skilful and competent Assistant,
DR. JULIUS GUTTMAN, OF GERMANY,

For some years past in the employ of DR. HIRCHCOCK, of Boston—have been secured, and persons desiring DENTAL OPERATIONS will be attended to with less delay than formerly.

☞ Every operation performed at this Establishment is warranted as satisfactory, elegant and servicable as can be produced in Boston or elsewhere.

☞ Office open day and evening.

STATE OF MAINE.

At a Court of Probate held at York within and for the County of York, on the first Monday in July, in the year of our Lord eighteen hundred and fifty-four, by the Honorable Joseph T. Nye, Judge of said County:

JOHN H. ROGERS, Guardian of Bernard W. Hanscom, Sarah Hanscom and John Hanscom, minors and children of Samuel Hanscom, late of Eliot in said county, deceased, having presented his petition for allowance out of the personal estate of said deceased, to his said Wards—

Ordered that the said petitioner give notice to all persons interested, by causing a copy of this order to be published three weeks successively in the Chronicle printed at Portsmouth in the State of New Hampshire, that they may appear at a Probate Court to be held at Alfred in said County on the first Monday of October next, at ten of the clock in the forenoon, and shew cause, if any they have, why the same should not be allowed.

Attest,—FRANCIS BACON, Register.

MEXICAN MUSTANG LINIMENT—

Every land has hailed with
Xtacy this preparation whose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its tortures, have yielded to its
Magical influence; cancers, contorted joints,
Ulcerated and swollen limbs that have
Suffered for years under the weight of disease,
Turn by its application to suppleness and health.
A remedy of such general usefulness that can
Restore newness of Action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.

Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over diseases,
No matter of how long standing—sold at
The agents in all parts of the Union,

A. G. BRAGG & CO., Proprietors, 304 Broad, way, New York. D. TAYLOR, JR., General Agent Boston. d6 2awlw f18

jy25 W. J. LAIGHTON'S.

To the Musical Public.

A. PEARSON,
TEACHER OF MUSIC,

WOULD respectfully give notice to the citizens of Portsmouth, that he would be happy to give instruction to a limited number of Pupils on the PIANO FORTE, ORGAN, THOROUGH BASS and SINGING.

Particular attention paid to the cultivation of the voice.

N. B.—Mr. P. is agent for Messrs. Hallett and Davis's celebrated Piano Fortes. Persons wishing to procure superior instruments will do well to consult him before purchasing elsewhere.

☞ Mr. Pearson has taken the spacious Room in the rear of the Chronicle Office, formerly occupied by Mr. T. P. Moses—where he may be found during business hours. Residence No. 44 Hanover Street. 3w*jy6

Sagamore House, in Rye.

FROST'S POINT.

THIS is an entirely new House, situated about four miles from the Portsmouth Depots. There is easy access to it by land or water. It is located on a point of land nearly surrounded by water, and seaward presents a finer view of the ocean, Isles of Shoals, &c, than can be obtained from any other house in Rye. An excellent view of Portsmouth and the Piscataqua River is also had from the top of the house. The location of the Sagamore combines the advantages of quiet retirement in a beautiful country, with convenience of access and all the facilities enjoyed at other Beach Houses. The opportunities for Bathing and fishing are unsurpassed. Boats are always in readiness for the accommodation of visitors. A Pilot Boat touches regularly at the Point, on her daily trips to the Shoals.

The Sagamore House was newly furnished throughout, this Spring, in the best manner. The Ladies' Parlor is fifty feet in length, and the Dining Room of the same proportions. The Sleeping Rooms are capacious and airy, and the building thoroughly ventilated.

An experienced man has charge of the house, and every facility provided, and no pains spared for the accommodation of all visitors who may favor us with a call.

The Tables will be provided with the best the market affords, for in this respect the proprietor wishes it distinctly understood that he will not be excelled by any other House in Rye or on the seashore.

TERMS.—For permanent boarders $1.00 per day. Transient visitors as cheap as elsewhere.

Carriages will be at the Portsmouth Depots on the arrival of every train of cars to convey passengers to the Sagamore House.

We ask ladies and gentlemen to give us a call and we will satisfy them that we will do all we promise.

THOMAS CLARK, Proprietor.
Rye, July 27. 2w

Hacking Notice.

FARE TWENTY-FIVE CENTS.

THE SUBSCRIBERS, including all the proprietors of Hacks in Portsmouth, would respectfully inform the public, that after another trial of 12½ cent rates for hacking, they find it impossible to work at that price, with hay and grain at the present high rates, and have therefore agreed that the charge for conveyance of passengers within the compact part of the city, shall be 25 cents from and after this date.

J. W. STOCKING, Piscataqua House.
W. H. DENNETT, 2d, Vaughan street.
ISRAEL MARDEN, City Hotel.
C. H. SHORT, State street.
W. D. PERKINS, Franklin House.
PORTSMOUTH, N. H., July 14, 1854.

Farm for Sale.

THE subscriber offers for sale his FARM in Portsmouth, formerly known as the Wentworth place, and more recently as the Wm. Sheafe farm, containing about 52 acres, suitably divided into pasture, mowing and tillage land, with a dwelling house and other buildings. On the farm is a good orchard of grafted fruit.

For further particulars apply to

jel6 GEORGE A. DAVIS.

DYSENTERY, CHOLERA MORBUS
AND
DIARRHŒA ELIXIR,
PREPARED BY WM. R. PRESTON,
Druggist, Congress Block, Congress street.

AT this season of the year, when the above diseases are so prevalent, and in our larger cities, sweeping off a great portion of the population, it becomes every one to keep in his family a remedy that will immediately arrest its course and give certain relief. This is no quack nostrum; it has been used the present season by one of the first Physicians in New York, and in thirty cases out thirty-two of confirmed cholera, that came under his treatment, he was successful in the employment of the above remedy.

PRICE 50 CENTS A BOTTLE.
Sold by
jy21 1m WM. R. PRESTON, Apothecary.

BEWARE OF COUNTERFEITS!!

THE CELEBRITY OF
DR. S. O. RICHARDSON'S
Sherry Wine Bitters

HAS induced several persons, who do not possess the least medical knowledge, to assume the title of Doctor, and put before the public an article in imitation of my Medicine, which they call Sherry Wine Bitters, and attempt to palm them off under the pretence that I have retired from business, and also that they manufacture an improved article of the same name.

I would say to those in pursuit of health, to be sure that you obtain the REAL article, which may be known by the Fac Simile of my signature upon the outside wrapper, covering each bottle, and also by the copyright border of the same covering.

Sold wholesale and retail at my office, No. 51 Hanover street, Boston, and by all dealers in Medicine in every city, town and village throughout the New England States.

N. B.—OTIS MORTON, Jr., is my sold Travelling Agent for the N. E. States. je23 3m2aw*

TRUNKS made to order—and any business in his line promptly attended to. Those in want will do well to call at

No. 5 Pleasant street, near Market Square,

where they will find all articles at the lowest prices for CASH.
Portsmouth, June 26.

Garden Engines.

JUST received at "the sign of the Big Coffee Pot" a full supply of Garden or Fire Engines, which are respectfully commended by the subscriber to the notice of the public. Wherever these Engines have been introduced they have invariably given entire satisfaction. They are unsurpassed for power, capacity or usefulness. From the size of the air chamber sufficient power is obtained to enable one man to throw a steady stream of water to the height of fifty feet perpendicularly, thereby rendering it a desirable article as a

PROTECTION AGAINST FIRE,

And for washing windows of second and third stories of buildings, carriages, &c. With a newly invented water diffuser as a Garden Engine it defies competition. The diffuser is a perfect and simple article, and its superiority over the common rose sprinkler is that it will throw three times the quantity of water a much greater distance and spread it perfectly even, with less power applied. An Engine with a diffuser of this description, used in orchards and gardens to throw soap suds on the young trees, will destroy many kinds of vermin liable to injure the fruit and be an invaluable addition to the implements of the Nurseryman and Horticulturist.
jy8 J. E. CHAPMAN, 18 Daniel st.

COPELAND'S CONFECTIONERY

JUST received and for sale at the New Ice Cream Saloon, corner of Chesnut and Congress sts. FREEMAN & NEWCOMB.

ALLUDING to the performance of the "Hallelujah" by the immense orchestra of the Crystal Palace Company, the Athenæum observes that whereas Handel was able to assemble only dozens of singers and players, he dreamed of countless multitudes; and that, owing to the simple magnificence of their proportions, and the inherent grandeur of their ideas, certain of his choruses are capable of *any conceivable extension* in the scale of execution, provided the area in which they are performed shall admit it.

The Grand Jury of Elizabethtown, Hardin County, Ky., have found a true bill for perjury against four of the Ward jurymen, and they are held to bail in $1000 each, to appear at the next Circuit Court to be held at that place.

The Greatest Medical Discovery of the Age.

MR. KENNEDY, of Roxbury, has discovered in one of our common Pasture Weeds a remedy that cures Every Kind of Humor, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of crofula.

A benefit is always experienced from the first bottle and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing on the pastures and along old stone walls, should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. There is no if's and ands, hums and ha's about its suiting some cases and not others. I peddled over a thousand bottles of it in the vicinity of Boston. I know the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old; to old people of 80. I have seen poor, puny, wormy looking children, whose flesh would crawl on them, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some have taken it who have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings; but you must not be alarmed; they will disappear in from four days to a week. There is never a bad result from it; on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

Nothing in the annals of Patent Medicines has ever been received by the public with so much favor as this simple preparation. It is now composed of nine different herbs. In May, 1852, when I commenced making a business of it, I sold about two bottles per day. In June, 1853, I sold 4320 bottles. In October, 1853, I sold 6120 bottles. I hope you will call that doing well; I do.

In my own practice, I confine it strictly to humors; but there are some who are so enthusiastic in its favor they think what cured them will cure any thing and any body; they accordingly recommend it for every variety of disease. In this way a great many virtues of it have been found that I never would suspect.

Cases of Dyspepsia, of many years standing, that withstood every known remedy, have been permanently cured.

I know one man to gain 17 lbs. by taking three bottles; another 11 lbs.; another 10 lbs.; and another 7 lbs—the venerable master Robinson of Boston.

In diseases of the Liver it is a specific. I know several with yellow skin and yellow eyes, the body emaciated and the mind melancholy, get fat and cheerful by a few bottles.

I know several cases of Dropsy, and one particularly bad. A lady aged 70, was unable to leave her house for the last twelve years, was so much relieved (she was reduced in circumference thirty-four inches,) as to visit her friends in several neighboring towns

Another had the Dropsy in her left leg, and was unable to walk for ten years, sometimes swelling to an enormous size; at last bursted, making a bad wound which could not be healed; by taking three bottles and using two boxes of ointment, she is now quite well. Why it should make some fat and others lean, I cannot tell, but so it is.

I know of several cases of Kidney complaints cured by it. If the columns of a newspaper was a proper medium, I could tell many cases of most distressing of all diseases that would make your heart bleed, that were permanently cured by it.

It has been lately found to be a sure cure for Panama fever. In one case the first spoonful put off the fit two hours. One bottle cured him. Another came home to die, and was induced by his brother to try it. Three bottles cured him.

It likewise gives great relief in the Asthma. A lady in Lawrence was unable to lie in bed for a number of years; she can now lie without the east incon venience.

A lady in Weymouth lost the use of her left side by the Erysipelas. On the second bottle, she broke out in one mass of humor from head to foot. In a few days she was well.

It has lately been found to be equally good for humor outside as inside, (taking it inwardly in the meantime,) for Erysipelas, Salt Rheum, Pimples on the Face, or any eruption of the skin. Externally it ease the flesh is very sore you must dilute it with water.

When made weak enough it is the best eye-wash for weak and watery eyes that I ever saw.

Others use it to clean the dandruff out of the hair and strengthen its roots, which it certainly does, and to crown all, it made the hair grow on bald heads, which, if I had not seen with my own eyes, I would not believe from you or anybody else.

As regards dieting, I never came across the first person that ever got any benefit from it. On the contrary, numbers came to death's door by it, as it gives the humors the upper hand. My medicine requires the most nourishing food you can get. It will soon give you an appetite.

Do not for a moment suppose that I warrant a cure of all those diseases, in every case. I merely tell you what it has done, hoping it will do the same for you. I do not warrant a cure in any disease but humors, *where it never fails.* For further particulars see the circular around each bottle.

No change of diet ever necessary. Eat the best you can get, and enough of it.

I have an herb, simmered in olive oil, scatters Scrofulous swellings of the neck and under the ears. Price fifty cents per box.

DIRECTIONS FOR USE. Adults, one table spoonful per day; children of eight years, dessert spoonful; from five to eight, tea spoonfuls. As no direction can be applicable to all constitutions, take enough to operate on the bowels twice a day.

Manufactured and for sale by DONALD KENNEDY, 120 Warren street, Roxbury.

For sale by E. H. ROLLINS, Concord, N. H.

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by hundreds of physicians and other eminent persons. Among others, Dr. W. Gibson, M.D., Prof. of Surgery, Pa. University. Valentine Mott, M.D., Prof. of Surgery, N. Y. " W. P. Dewees, M.D., Prof. of Mid., Pa. University. N. Chapman, M.D., Prof. of Physic, Pa. University. T. Parke, M.D., Pres't College of Physicians, Phila. Dr. Del Vallo, Prof. of Medicine, Havana. Jose Eourenco de Luz, Prof. of Surgery, Lisbon. J. Irving, late Minister to Spaine. J. Chipman, late Master Rol. Col. Surg., London. Sir Thomas Pearson, Maj. Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork; and a steel plate engraving for the side of the bottle, composed of a geo-centric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured

ALSO, SWAIM'S VERMIFUGE,

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive system, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD YORK ROAD, SIX MILES, below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

UNITED STATES AND FOREIGN

PATENT AGENCY,

No. 39 State Street, - - - - - - - - - - Boston.

SAMUEL COOPER,

Late Chief Examiner in the United States Patent Office,

Procures Patents in this and Foreign Countries.

References.—The undersigned Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a Principal Examiner in this Office; and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the Office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY B. RENWICK, T. R. PEALE,
L. D GALE, THOS. H. EVERETT,
J. H. LANE, F. SOUTHWORTH,
WM. CHAUNCY LANGDON,
Principal Examiners, *Assistant Examiners.*

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.

Boston, Dec. 31, 1858.

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can now procure a remedy equal to a Principal EGYPTIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Joints and Back.

If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.

It is an English Remedy, and was used by William IV. late King of England, who recommended it by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Liniment, but considers warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's Office, 240 Green

Dr, Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc.

Sold by Druggists in Boston, and by Agents in Portsmouth—B. Hutchings, S. Gilbert, W. H. Preston and J. H. Wells. m21 eod&wly

Marble Chimney Pieces.

THE PENRHYN MARBLE is a new and beautiful article, manufactured of Stone imported from England, which is enameled in imitation of of the richest and most expensive Spanish, Galway, Egyptian, Pyronese, Lisbon, Sienna and other rare and desirable kinds of Marble—the imitation being so perfect as to challenge detection without the closest scrutiny. In style of finish these Chimney Pieces stand unequalled, being very highly polished—retaining their beauty much longer than common marble, and are not injured by oils, smoke, coal gas or acids. They have been extensively introduced into public and private buildings, giving perfect satisfaction to those who have used them. The best of references can be given, showing their adaptedness for general use, the subscriber having furnished some of the best dwelling houses in the city with them during the last two years.

While excelling all others in beauty of finish and appearance, they are sold much cheaper than any thing of the kind in the market. The subscriber has now in Store a complete assortment of the above named desirable Goods, to which he invites the attention of all interested.

For Sale.

HOUSE on Christian Shore, suitable for two small families. If applied for immediately will be sold low. Apply to

April 17. E. S. WENDELL.

HOUSES FOR SALE.

THE DWELLING HOUSE, No. 9 School street. This is a well built house, two (high) stories, in good repair, and is convenient for one family or two families, or for a large Boarding House. It contains nine or more rooms and two scullories, and has an excellent cellar under the whole house. The situation is central, being about equi-distant from the markets, factories and railroads. Connected with this house is a building which has been and may be occupied both as a barn and a work-shop. If not sold soon, a part or the whole of the premises will be let.

The DWELLING HOUSE No. 6 Green street. This house is fitted for two tenements; it is well built, was thoroughly painted and put in good order the last season, and is well calculated for two families, (having about 6 rooms each) and may be considered a good location for persons employed at the north end. It is centrally located between the different ship-yards in that section of the city, each tenement will be sold separately, if desired.

The DWELLING HOUSE No. 7 Liberty street, corner of Charles street. This house was formerly owned and occupied by the late Peter M. Lowd and is in good order. Attached to it is a lot of land large enough for a Stable or for another dwelling house. It would make a good place for the residence of a person employed at the shipyards across the river, or at the Navy Yard.

The DWELLING HOUSE No. 17 Bow street.—This house has been built but a few years, is well finished off, and is very convenient. In the rear is quite a large garden spot. This would be a desirable place for a person employed at the shipyard or at the Navy Yard nearly opposite.

Also, for sale, a BUILDING LOT, on Mount Vernon street, (opposite No. 2,) with a small building thereon, which can be finished off into a Dwelling house.

All of the above property will be sold on liberal terms, if applied for soon. For further particulars apply to JOSEPH M. EDMONDS.

Feb. 27. No. 9 Islington street.

TO LET—The STORE on the corner of Vaughan and Deer streets. It was occupied as the first Union Store in this city, and is considered as a good stand for business. It is within a few rods of the Boston and Concord Railroad Depots. Possession can be had immediately.

FOR SALE—The HOUSE in the rear of the above, on Vaughan street—a convenient house for two families, and has been so occupied, for about six years, by the same tenants. It rents for $160. and will be sold very low, &c., call on JOSEPH L. LOCKE, on the premises, or JOSEPH M. EDMONDS, 9 Islington st. m29

MORNING CHRONICLE.

BY MILLERS & GRAY. PORTSMOUTH, N. H., MONDAY, AUGUST 7, 1854. VOLUME 5. NO. 6.

THE DAILY MORNING CHRONICLE

is published by
FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER,
At No. 4 Exchange Buildings,
Pleasant Street,.....PORTSMOUTH, N. H.
TERMS $4 a year, or $3 if paid strictly in advance.

The Weekly Chronicle,
A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING.—For a Square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.
Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

ESCAPE.—The collision of the ships Trade Wind and Olympus, at sea, in June, by which both were sunk with many lives, will be remembered by many. A Liverpool date of the 17th says:—"Ship Empire, on the 1st July, from Boston, brought information of the loss of two ships—the Trade Wind of New York, from Mobile for Liverpool, and the Olympus, from Liverpool for Boston, with a loss of 24 lives. No further particulars were received, but the arrival of the American ship Empire, from New York, has placed us in possession of more detailed accounts of the disaster.—In lon. 58 west, fell in with the foremast of the Trade Wind, with one man upon it, who had been in that position for six days, and all he had for nutriment during that period was a small piece of tobacco. Capt. Zerega immediately lowered the boat, which being manned put off to the wreck, when the man swam off to her."—*Boston Courier.*

In New Orleans, on Wednesday, a man named James O'Neill, committed suicide by hanging himself. The True Delta says that about two months ago he was prosecuted for bigamy, he then having two wives living in faubourg Lafayette. Before the case had come to an issue, however, one of the wives was accidentally killed on the Carrollton Railroad, and the other ran away from the city with a younger man. Being thus deprived of both his comforters, the poor husband's grief, it is said, overpowered him, and he determined to put a period to his misery by self destruction. The same day a Mrs. Sam Haynes cowhided her husband twice on the public streets.

MARRIAGE OF A NIECE OF MRS AARON BURR.—A letter from Bordeaux, France, dated June 25th 1854, says: "We had a visit yesterday from the widow of Aaron Burr. Her business here is the marriage of a niece to a gentleman of this place, named Perry. She gives $100,000 as a marriage gift; and Mr. Perry, the father of the young man, gives the same amount. Mr. Bowen, the U. S. Consul, has been requested to be the trustee of the money.

COUNTERFEIT TEN CENT PIECES.—Dye's Bank Mirror says a large amount of counterfeit ten cent pieces, are being circulated in New York and Boston, of the most dangerous kind ever invented. They have a Goddess and liberty pole, cap, stars and date on one side, and United States of America, wreath, and 'One Dime' on the other; they appear to be manufactured out of type metal, and are galvanized. They have the exact weight, size, thickness, and appearance of the genuine, but break as easily as type.

Some one writes that while Kate and Ellen Bateman were passing a week with the royal children at Windsor Castle, the young Prince of Wales, taking Kate's hand one day, said—"Kate, as soon as I'm a man ma's going to give me throne, and then I'll make you my little wife and Queen." Miss Kate, then said—"Well, little Wales, if you'll be a good boy, and study some honorable profession, I'll take your case into consideration."

SINGULAR DEATH.—Yesterday morning, as the lightning train was passing the flag station at Allen's Creek, a stick of wood fell from the tender upon one of the wheels, by which it was projected with the velocity of a rifle ball in the direction of the house of the flag man, who was standing in his door. The stick, about four inches square, struck the man square in the head, passing nearly through it, and of course killing him instantaneously. The deceased's name was Farrenberg, and he leaves a wife and three or four children.—*Rochester American, 12th.*

A GREAT CROW HUNT was decided July 24th, in Cary's prairie, Johnson township, as we learn from the Vincennes (Ind.) Transcript, the editor of which says:—They had hunted two months previous, with twenty-three hunters on each side; each individual having his honor pledged to fair dealing in the hunt. The first side counted 8,219 scalps; the second 5,550, making a total of 13,769 scalps. We should think this hard to beat for a neighborhood hunt.

During a violent storm which burst over Paris a few days since, the electric fluid entered a room in which was seated a man who had long been suffering from a paralysis, which deprived him completely of the power of speech. It set fire to the bed curtains, and did other damage in the room; but instead of injuring the infirm man, it restored to him his speech and health.

Rockingham Ice

PATENTS.
American and Foreign Office.
AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.
Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.
R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ———.
"R. H. EDDY, Esq., Boston, Mass.
"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,
Yours, &c. THOMAS EWBANK,
Commissioner of Patents."
Boston, Dec 7, 1853. eodly

Morning Chronicle.

MONDAY, AUGUST 7, 1854.

THE CROPS IN EUROPE.—The good news of the fall in England of the breadstuffs, from their present unnatural prices, is also accompanied by the equally cheering intelligence of a most propitious harvest in that country.—The well informed correspondent of the New York Commercial Advertiser writes from London, July 21st, as follows:

The fine weather which set in last week, after a long period of rain, has continued without interruption, and the statements from all quarters as to the appearance of wheat, and the rapidity with which it is ripening, are such as to create the most sanguine expectations. Should no unfavorable change occur, the season will unquestionably be one of the most abundant ever known; but even assuming the possible turn of bad weather, the growth and condition already attained are such that some practical persons assert we are certain, under any conceivable circumstances, of a return twice as great as that of last year.

When in connexion with these reports, it is also stated that there is a prospect this season for the first time for seven years, of the potate crop being preserved both in Great Britain and Ireland, it will be understood that the anticipation respecting the future cheapness of food in this country must be of the most encouraging kind. From the continent likewise the information on the subject continues to be highly satisfactory, although in the wine growing countries, especially France and Portugal, severe distress seems likely to be experienced from an intense reappearance of the grape blight.

The intelligence comes at a time when we hear from every quarter that there is an overwhelming wheat harvest in this country, and that farmers only grieve at the scarcity and price of labor, which is necessary to enable them to recover their grain. People therefore may take courage, for the famine prices of the staff of life must give way.

EFFECTS OF THE SCHUYLER FRAUD.—Col. Fuller, writing to the N. Y. Mirror, from Newport, remarks:

It is said that many persons who had engaged houses here for the summer, have been cruelly prevented by the Schuyler fraud.—Men (and women too) who counted on stock profits, or stock dividends, to pay their summer expenses, have been obliged to stay at home or retire to more economical quarters. Of course Mr. Schuyler gets a daily 'blessing' from the thousands who have been defrauded of money and disappointed of pleasure through his 'over issues.' Among other hard things said of is the following 'damnable inuendo,' which was put to a breakfast party interrogatively:—'Do you remember the fact that many years ago Robert Schuyler was President of the New Jersey Transportation Company?—that Mr. Handy of this town was Treasurer of that Company?—that there were large defalcations discovered; and that poor Handy was found dead with a vial of strychnine by his side?' Of course we all remembered all these circumstances; but the questions were answered by an awful silence that made one shudder.

SWEDISH IMMIGRANTS. — The Sweedes, who of late are arriving rather numerously, constitute one of the most valuable classes of foreigners who seek to make homes in the new world. They do not attempt to linger in the cities, but find their way soon as possible to the agricultural regions of the Far West, where they generally become good and substantial citizens. A body of this description, numbering some 300 men, women and childrea—all stout, healthy and happy looking—were seen in Boston on Thursday morning, on their way to the Western Railroad station. The men were armed with guns, and marched under the American and Swedish flags. They would make a capital importation for Nebraska or Kansas, and perhaps they may proceed thither.—*Transcript.*

SUIT AGAINST OFFICERS FOR DAMAGES'—Mr. William H. Ela, of Roxbury, has commenced a suit agains Mayor Smith, Major-General B. F. Edmands, U. S. Marshal Freeman, and Capt. Evans of the Boston Artillery, for injuries recived at the time of the fugitive slave riots, laying his damages at the modest sum of $20,000. The writ, which is returnable at the next term of the Supreme Court to be holden in Norfolk county, alleges in substance, that on the day of the rendition of Anthony Burns, Mr. Ela was brutally beaten and stabbed by the military, or persons acting under the direction of the defendants in this suit. Charles M. Ellis, Esq., who appeared as counsel for Burns, is counsel for Mr. Ela.—*Boston Journal.*

At Laredo, Texas, Dr Linton, formerly of U. S. Navy—having shot Achilles Centro, an Italian, and Pedro Careor, a Mexican—was lynched and hung by the U. S. Soldiers.—Linton insulted the wife of Centro at a musical exhibition where Centro was band-master, and Career director. Centro resenting it, Linton first shot Career, who had placed himself between them, and then shot Centro, and escaped to the Rio Grande, where he committed some other outrage, for which he was imprisoned, when the soldiers went over, took him from the authorities, and executed him on plaza. Linton, it is said, was aboard the Somers when Spencer was hanged by McKenzie, and was in favor of McKenzie upon his trial. He was an accomplished scholar and surgeon, and after hanging him, the soldiers mutilated his body in a style anything but secundum artem. P. S.—It is now denied that Linton was on board the Somers.

The papers state that the Germans are getting up new secret societies called the "Humanitarians." The society is opposed to slavery, aristocracy, Jesuitism, and religious bigotry, stringent Sabbath laws, and to the Maine law, so far as it restricts individual liberty; but will be in favor of temperance as a habit, and will exclude those members who get intoxicated.

UNIVERSALIST QUARTERLY REVIEW.—The July number contains the usual variety of excellent reading matter upon public questions, theology and literature. The first article is by the Rev. G. H. Emerson, on the "Eastern Question." Next comes an able article of twenty-one pages on "Precedents and Principles," by the Rev. T. S. King. The article has been called forth by the passage of the Nebraska bill. The author denies that religion has nothing to do with this great public question. He asks if there is "not an eternal truth as well as a conventional legality—if there is not a clear, intense and holy light in which to search and judge, as well as a light elicited from temporary statutes and the collisions of acute legal intellects in Congressional debates." The theological articles are from the pens of Rev. Dr. Sawyer of New York, Rev. J. O. Skinner, and Rev. G. H. Emerson. The literary articles occupy ten pages. Dr. J. V. C. Smith's "Turkey and the Turks" is cut up.

THE HYDROPATHIC FAMILY PHYSICIAN, a Ready Prescriber and Hygienic Adviser, with reference to the nature, causes, prevention, and treatment of diseases, accidents, and casualties of every kind. By Joel Shew, M. D., illustrated with nearly three hundred engravings. Fowlers & Wells, publishers, New York and Boston. This is a large and handsome volume of 820 pages; and would be a valuable acquisition to any family library. It is well adapted to give the reader an accurate idea of the organization and functions of the human frame. Besides being one of the most complete works of its kind, as stated above, it contains a large amount of matter of interest and importance for popular reading. Price $2.50.

BROWNSON'S REVIEW.—A new Catholic University has been erected in Dublin, of which Dr. Newman is to be President. The Chair of Geography was offered to Dr. Brownson. He declined it, and asked for that of Philosophy, which was refused. Since then the Dr. has had no great sympathy with foreigners or foreign institutions, as may be seen by a perusal in a late number of his Review, of the Know Nothing article, which, by the way, caused Archbishop Hughes to send a peremtory order to 'stop his Review.'—*N. Y. Times.* [It is not stopped.]

DEATH OF A CUBAN.—Mr. Jose E. Longa, of Matanzas, aged 21 years, died at South Boston on Wednesday evening. His disease was typhoid fever, which terminated in congestion of the brain. He was an amiable young man, and had made many friends, although but a short time in Boston. There are quite a number of young Cubans in Boston at the present time. The Spanish authorities of the island, it is said, are drafting for the army in Spain all the young men whom they suspect to be in the least hostile to their continued rule in the island, and hence large numbers of these young men come to the United States to escape this impressment. It is only necessary to converse with these Cubans for a short time to see how bitter and universal is their hostility to the Spanish rule in their beautiful island.—*Boston Post.*

THE BRADFORE SHOOTING CASE—We understand that Mr. McQuestion, who was so mysteriously shot at Bradford, Mass., on Saturday night last, is better, with a prospect of his ultimate recovery, though the ball has not yet been extracted from the abdomen where it lodged. A young man of about 22 years, heretofore bearing a good character, and of peaceable disposition, has come forward and confessed that he committed the deed.—His name is Francis Lang, and he states the reason for doing it rather incoherently, that he imagined that he was assaulted and struck, and that he in consequence fired his pistol.—It is also stated that previous to the affair he he had visited a restorator in the town. He has been arrested and committed to await an examination.—*Boston Traveller.*

ADROIT ROBBERY.—A few days ago a lady, temporarily in this city, was stopping at one of our hotels, when her chamber was suddenly entered by two well dressed men, who politely inquired if Mr. Rice occupied the room, to which she replied that she was the sole occupant. The intruders, with many apologies, retreated, but the lady discovered that they had taken with them her portmonnaie containing about $100 in cash, and a check for a similar amount, her funds for a contemplated journey, and which she had, after counting, laid upon her trunk. Subsequent inquiry showed that there was no Mr. Rice in the house, and the two acquaintances of the gentleman were not afterwards seen.—*Boston Traveller.*

CRITICISM ON MRS. STOWE.—Rev. F. D. Huntington, in the August number of the Monthly Religious Magazine, in a review of "Sunny Memories of Foreign Lands," says Mrs. Stowe "writes with an ease that runs sometimes into carelessness; but the unmistakable stamp of genius is there. We have read most of what she has written for the last few years; and we have no hesitation in saying, that, whatever she may do hereafter, her place among the potent spirits of this age is securely taken."

INCREASE OF BUSINESS IN THE MUNICIPAL COURT.—The number of criminal cases before the Municipal Court of Portland, from the 1st of April to the 31st of July last, were 270, exceeding by 106 the number of cases in the corresponding space of time last year.—Twenty two of these cases were for selling spirituous liquors, there being convictions in all but one. During the corresponding time last year there were fifteen complaints for liquor selling, and twelve convictions.—*Portland Adv.*

LOCAL.

TAXES IN PORTSMOUTH.

The decree of Cesar Augustus, that all the world should be taxed, seems to be generally followed by all governments down to the present time. As an item of local interest, coming home to every one's business, bosom and purse, we give the following synopsis of our City Taxes for the Current Year.

The proportion of taxes in this city the present year is 83 3-4 cts. on $100.

The number of rateable Polls is 1506.—And the total amount of taxes $47,357,41.

The taxes are assessed on

Horses	308	valued at	$21,566
Oxen	142	"	5,990
Cows	398	"	9,562

HIGH SCHOOLS.—We are informed that the examination of candidates last week, for admission to the High Schools, was quite satisfactory. 39 girls were presented, all of whom passed: and 37 boys were examined, of whom 34 were admitted. The examinations this year are said to compare favorably with the last, manifesting general improvement.

THE PORTSMOUTH MUSICAL UNION.—The regular Quarterly Meeting of the Portsmouth Musical Union, will be held at their Hall, this evening, at a quarter before 8 o'clock.

FIRE IN THE WOODS.—The woods, between Dover and Rochester, but within the precints of Somersworth, were on fire Wednesday, and the flames spread very rapidly. Every precaution should be taken against fire at the present time when everything is so exceedingly dry.—*Dover Gazette.*

SETTLED BY MATRIMONY.—John B. Learock, *alias* John L. Brown, who was arrested some days since on the charge of an aggravated and felonious assault upon the person of Miss Anna E. A. Dougherty, his lately deceased wife's sister, was discharged from custody yesterday, the parties having been married since the complaint was entered, and the District Attorney having entered a *nol. pros.* in the case.—*Boston Transcript.*

CAUTION TO RAILROAD TRACK WALKERS.—On Friday last, as the 7 P. M. train on the Great Falls Branch, was running from this village to connect with the steamboat train on the Boston & Maine Railroad, a female was discovered walking upon the track. The whistle was blown, and efforts were made to drive her from the track as well as to stop the train, but all to no purpose. The train passed over her, cutting her head from her body and mangling one of her legs. She leaves a husband and four children.

It has become almost a universal practice among the people of this vicinity to walk upon the railroad track. The practice cannot be said to be other than an extremely reckless one, and that person who loses his or her life while in the act, is, in our opinion, as guilty of suicide as though he applied the knife to his own throat. The road is the property of the corporation, and no person whatever has any right to trespass upon that property.—*Great Falls Journal.*

PROVIDENCE, August 4.—The Granate Mill at Granatesville, Burrillville, was entirely destroyed by fire between 11 and 12 o'clock last night. The mill belonged to Stephen L. and Lysa Shepman, and was carried on by J. T. Leagrave, for the manufacture of fancy Cassimeres. It contained the full sets of machinery, and in all respects was one of the best mills in New England. The origin of the fire is not known. The loss on the mill is about $90,000; on stock and goods about $35,000. The insurance on the mill and machinery is about $70,000, including some buildings belonging to the establishment not destroyed. On stock and goods $21,000. By the disaster 75 to 100 persons are thrown out of employment.

Additional Testimony for Gilbert's Polypodium.

MILFORD, N. J., Aug. 2, 1854.

MR. S. GILBERT,—It gives me pleasure to address you a few lines to state the good effects of your Extract of Polypodium. Having a severe attack on my Lungs last spring—spitting of blood, &c.—I was induced to try the Extract of Polypodium; and I can say it has done me great good. I am now enjoying a reasonable degree of health and strength; and would recommend it as the best medicine for such complaints now before the public. Yours resp'y, JAMES C. WRIGHT.

The Extract of Polypodium is manufactured and sold at wholesale and retail by

S. GILBERT, No. 18 Exchange Buildings.

CONGRESS.

WASHINGTON, August 14.

SENATE.—2 1-2 o'clock P. M. At a quarter past 2 o'clock, the Army bill, after having been most extensively and voluminously amended, was finally passed.

Mr. Hunter, from the committee of conference on the Civil and Diplomatic Appropriation bill, made a report, which was concurred in.

Mr. Rusk, from the committee of conference on the Post-office bill, reported that the committee had been unable to agree, and he moved that the Senate again insist on its amendments, and ask for a new committee of conference. Agreed to.

The Ocean Mail Steamer Appropriation bill was then taken up.

Mr. Brodhead moved to strike out that part of the bill which provides for the notice to be given to the owners of the Collins line of the discontinuance of the contract. After a debate of two hours, and repeated votes, the Senate refused to strike out.

The bill to extend pre-emption privileges over the unsurveyed public lands in the Minnesota Territory was taken up and passed.

Mr Weller reported the House bill to increase the pay of the rank and file of the Army, which was taken up and passed.

From 9 o'clock to 9.50, the Senate was in Executive session. The committee of conference on the Army bill made a report.

Mr. Mallory, from the committee of conference on the Naval bill, reported that the committee had met and could not agree. Mr. Hunter moved that the Senate insist on its amendments and a new conference. Agreed to.

The House bill declaring the boundary of New Mexico was taken up and passed.

Mr. Dodge of Iowa said that when the vote was taken last night, declaring Mr. Williams no longer entitled to his seat, that the Senator was absent. He desired now to be heard upon the matter and to give him the opportunity. Mr. Dodge moved the vote be reconsidered. After some debate, agreed to, 19 to 15.

Both Houses sat through the whole of Thursday night, and until Friday past noon; but even then did not finish their business: the most important bills including the principal appropriation bills were still pending between the two Houses as usual at the close of the session. A vote had been passed to adjourn, but it was necessary to rescind this to save the appropriation bills, and as now ordered Congress will adjourn on Monday.

In the Senate, Mr. Williams of New Hampshire, spoke in defence of his claim to a seat and urged a postponement till the next session, but the Senate *unanimously* concurred in the report of the judiciary committee declaring him no longer entitled to his seat.

The House bill to carry into effect the treaty between the United States and Great Britain, signed on the 5th of June, 1854, the reciprocity treaty, was then taken up and passed.

At two o'clock, the Senate adjourned till Saturday noon.

The House considered the Senate's amendment to the River and Harbor bill, also the amendments to the Army and Navy Appropriation bills, all of which were rejected and committees of conference appointed.

The proceedings occupied the attention of the House from three to four hours, many of the members sleeping meantime, and had to be aroused whenever votes had to be taken.

The President sent in a veto on the River and Harbor bill: and after much fuss and little progress, at 8 o'clock the House adjourned to Monday morning at 7 o'clock.

The Ten Million scheme has been abandoned by the Committee on Foreign Relations. It was apparent that the Administration could not carry the measure.

FRENCH SPOLIATIONS. — A Washington letter says: "The French Spoliation bill lies like a dead log on the Speaker's table of the House, there to remain to the end of the session. Its managing advocates and agents have borne it down with their unpopular dead weight."

FROM WASHINGTON.—On Thursday, in the Senate, the bill increasing the pension of Thomas Bronaugh having been called up, Mr. Pearce of Maryland moved to amend by adding a section *repealing the Minnesota Land bill.* After considerable discussion, the amendment was adopted by a vote of 36 to 10. [The Senate's amendment was subsequently concurred in by the House.]

Mr. Mason, from the Committee on Foreign Relations, made a report, which was ordered to be printed, on the Spain and Cuba matters, leaving the matter where it is, without appropriating the $10,000,000, till the next session.

Four reports were made from the Colt Investigating Committee.

The Herald despatch says of them—

That signed by Messrs. Wheeler and Thurston is plain and to the point, that the charges upon which the committee was raised are wholly unsupported by the evidence. Elliott and Zollicoffer make separate reports, reading homilies to members, but acknowledging that no improper conduct has been proved on the part of Colt or his attorneys. Letcher's report, signed also by Eddy and Ruffin, branches off into a lot of platitudes, a good deal of impertinence, a very fair sprinkling of the demagogue, and whilst unwillingly compelled to own that no frauds have been discovered, yet insists upon it there is 'a nigger in the wood pile.'

THE RIVER AND HARBOR BILL.—The following is the vote by which the River and Harbor bill passed the Senate:

Yeas—Messrs. Allen, Bell, Benjamin, Cass, Chase, Cooper, Dodge, (Wis.,) Dodge, (Iowa,) Fessenden, Fish, Foot, Geyer, Gillette, James, Johnston, Jones, (Iowa,) Jones (Tenn.) Pearce, Petit, Pratt, Rockwell, Rusk, Sebastian, Seward, Slidell, Stuart, Sumner, Thompson, (Ky.,) Thompson, (N. J.,) Wade, Walker.

Nays—Messrs. Adams, Atchison, Bright, Brown, Clay, Dawson, Douglas, Evans, Fitzpatrick, Houston, Hunter, Mallory, Mason, Morton, Toombs, Williams.

HARPER'S

Gazetteer of the World.

THIS work has been undertaken to supply a want which is daily becoming more pressing. The Censuses of the United States, of Canada and British America, of Mexico, of Great Britain, and of the Continental States of Europe, are all of recent date; and of these the most important have been laboriously consulted, and their information arranged and classified in the best manner. The editor has had it constantly in view to present the greatest amount of useful matter in the smallest possible space; and confidently hopes that the work will fully meet the wants of the times, and that the general reader, the student and the artisan will find in it all the information adapted to their several requirements, brought down as nearly as possible to the present day, in a form more convenient than in any other work of similar character.

Harper's Gazetteer of The World is to be completed in TEN NUMBERS at 50 cents each; and will comprise about 1300 royal octavo pages, with seven new and accurate Maps.

☞ No. 1 can be seen, and subscriptions received, at the Bookstore of

jy26 JOSEPH H. FOSTER.

Pauline Chart.

J. F. SHORES, Jr. No. 1 Congress Block, has for sale the PAULINE CHART—by J. W. Bonham. This chart comprises a map of the "Countries adjacent to the Mediterranean, illustrating the Acts of the Apostles."

Also, arranged according to time, an account of the principal occurrances in the Life of St. Paul, as follows: First Missionary Tour; Second Missionary Tour; Third Missionary Tour and Travels while a Roman Prisoner. Each occurrence is given with the name of the Place, its Locality and the Reference to the Chapter and verse.

Sunday School Teachers and Pupils will find this Chart a very great assistance in studying the Life and Travels of St. Paul, and it is highly recommended by clergymen who have examined it. jy27

STATE OF MAINE.

At a Court of Probate held at York within and for the County of York, on the first Monday in July, in the year of our Lord eighteen hundred and fifty-four, by the Honorable Joseph T. Nye, Judge of said County:

JOHN H. ROGERS, Guardian of Bernard W. Hanscom, Sarah Hanscom and John Hanscom, minors and children of Samuel Hanscom, late of Eliot in said county, deceased, having presented his petition for allowance out of the personal estate of said deceased, to his said Wards—

Ordered that the said petitioner give notice to all persons interested, by causing a copy of this order to be published three weeks successively in the Chronicle printed at Portsmouth in the State of New Hampshire, that they may appear at a Probate Court to be held at Alfred in said County on the first Monday of October next, at ten of the clock in the forenoon, and shew cause, if any they have, why the same should not be allowed.

MEXICAN MUSTANG LINIMENT—

Every land has boiled with
Xtacy this preparation whose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its tortures, have yielded to its
Magical influence; cancers, contorted joints,
Ulcerated and swollen limbs that have
Suffered for years under the weight of disease,
Turn by its application to suppleness and health.
A remedy of such general usefulness that can
Restore newness of Action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.
Let the rheumatic, halt, lame and palsied
Invalid examine the testimony they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over diseases,
No matter of how long a period it has stood at
The agents in all parts of the Union,

Sagamore House, in Rye.

FROST'S POINT.

THIS is an entirely new House, situated about four miles from the Portsmouth Depots. There is easy access to it by land or water. It is located on a point of land nearly surrounded by water, and seaward presents a finer view of the ocean, Isles of Shoals, &c, than can be obtained from any other house in Rye. An excellent view of Portsmouth and the Piscataqua River is also had from the top of the house. The location of the Sagamore combines the advantages of quiet retirement in a beautiful country, with convenience of access and all the facilities enjoyed at other Beach Houses. The opportunities for Bathing and fishing are unsurpassed. Boats are always in readiness for the accommodation of visitors. A Pilot Boat touches regularly at the Point, on her daily trips to the Shoals.

The Sagamore House was newly furnished throughout, this Spring, in the best manner. The Ladies' Parlor is fifty feet in length, and the Dining Room of the same proportions. The Sleeping Rooms are capacious and airy, and the building thoroughly ventilated.

An experienced man has charge of the house, and every facility provided, and no pains spared for the accommodation of all visitors who may favor us with a call.

The Tables will be provided with the best the market affords, for in this respect the proprietor wishes it distinctly understood that he will not be excelled by any other House in Rye or on the seashore.

TERMS.—For permanent boarders $1.00 per day. Transient visitors as cheap as elsewhere.

Carriage will be at the Portsmouth Depots on the arrival of every train of cars to convey passengers to the Sagamore House.

We ask ladies and gentlemen to give us a call and we will satisfy them that we will do all we promise.

THOMAS CLARK, Proprietor.

Rye, July 27. 2w

Hacking Notice.

FARE TWENTY-FIVE CENTS.

THE SUBSCRIBERS, including all the proprietors of Hacks in Portsmouth, would respectfully inform the public, that after another trial of 25 cent rates for Hacking, they find it impossible to work at that price, with hay and grain at the present high rates, and have therefore agreed that the charge for conveyance of passengers within the compact part of the city, shall be 25 cents, from and after this date.

DOCTOR YOURSELF!

THE POCKET ÆSCULAPIUS;

OR, EVERY ONE HIS OWN PHYSICIAN.

THE FORTIETH Edition, with One Hundred Engravings, showing Diseases and Malformations of the Human System in every shape and form. To which is added a Treatise on the Diseases of Females, being of the highest importance to married people, or those contemplating marriage.

BY WILLIAM YOUNG, M. D.

Let no father be ashamed to present a copy of the Æsculapius to his child. It may save him from an early grave. Let no young man or woman enter into the secret obligations of married life with out reading the POCKET ÆSCULAPIUS. Let no one suffering from a hacknied Cough, Pain in the Side, restless nights, nervous feelings, and the whole train of Dyspeptic sensations, and given up by their Physician, be another moment without consulting the Æsculapius. Have the married, or those about to be married any impediment, read this truly useful book, as it has been the means of saving thousands of unfortunate creatures from the very jaws of death.

☞ Any person sending TWENTY-FIVE cents enclosed in a letter, will receive one copy of this work by mail, or five copies will be sent for one dollar. Address, (post paid,)

HOUSE SCALES—Three sizes suitable for family use—for sale by E. A. STEVENS.

TARDY JUSTICE.—The Salem Gazette says that Mr. Asa Andrews of Ipswich, now in the ninety-third year of his age, has had for many years a claim of $1,983 upon the United States for a balance due him in the settlement of his accounts, when Collector of the port of Ipswich, to which office he was appointed by Washington, and from which he was removed by Jackson. The House of Representatives on Friday last passed a bill authorizing the payment of the claim.

Garden Engines.

JUST received at the sign of the Big Coffee Pot a full supply of Garden or Fire Engines, which are respectfully commended by the subscriber to the notice of the public. Wherever these Engines have been introduced they have invariably given entire satisfaction. They are unsurpassed for power, capacity and usefulness. From the size of the air chamber sufficient power is obtained to enable one man to throw a steady stream of water to the height of fifty feet perpendicularly, thereby rendering it a desirable article as a PROTECTION AGAINST FIRE.

And for washing windows of second and third stories of buildings, carriages, &c. With a newly invented water diffuser as a Garden Engine it defies competition. The diffuser is a perfect and simple article, and its superiority over the common rose sprinkler is that it will throw three times the quantity of water a much greater distance and spread it perfectly even, with less power applied. An Engine with a diffuser of this description, used in orchards and gardens to throw soap suds on the trees, will destroy many kinds of vermin liable to injure the fruit and be an invaluable addition to the implements of the Nurseryman and Horticulturist.

jy8 J. E. CHAPMAN, 18 Daniel st.

j23. GEO. W. TOWLE & Co.

10,000 *Bottles Sold since the First of January.*

DR. ORDWAY'S HUMOR DISCOVERY,

AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. Kelley, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known by Dr. Kelley by an Indian, who was his patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattles ake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.

Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all-gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA.

A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS,

It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.

One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,

It is spoken of in the highest terms. A young man was sick so much with a kidney complaint he had to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.

☞ Price $1.00. ☜

HE HAS ALSO A HUMOR SALVE,

Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.

PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.

This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicine yet discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.

PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.

This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.

PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by

W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y.
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
T. Parke, M.D., Pres't College of Physicians, Phila.
Dr. Del Vallo, Prof. of Medicine, Havana.
Jose Lorenzo de Lua, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spain.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints), or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is put in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swain, copy right secured

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a name that similar name, well calculated to deceive.

UNITED STATES AND FOREIGN

PATENT AGENCY,

No. 39 State Street, - - - - - - - - - - Boston.

SAMUEL COOPER,

Late Chief Examiner in the United States Patent Office,

Procures Patents in this and Foreign Countries.

References.—The undersigned Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, lately a Principal Examiner in this Office; and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the Office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY B. KENWICK,	T. R. PEALE,
L. D. GALE,	THOS. H. EVERETT,
J. H. LANE,	F. SOUTHGATE SMITH,
Principal Examiners,	WM. CRAUCHY LANGDON, *Assistant Examiners.*

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.

Boston, Dec. 31, 1853.

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Chest, Back, Side.

If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.

It is an English Remedy, and was used by William IV. late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and wherever introduced that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery, in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Linimeut, but considers warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's office, 240 Green

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc.

Marble Chimney Pieces.

THE PENRHYN MARBLE is a new and beautiful article, manufactured of Stone imported from England, which is enameled in imitation of of the richest and most expensive Spanish, Galway, Egyptian, Pyronese, Lisbon, Sienna and other rare and desirable kinds of Marble—the imitation being so perfect as to challenge detection without the closest scrutiny. In style of finish these Chimney Pieces stand unequalled, being very highly polished—retaining their beauty much longer than common marble, and are not injured by oils, smoke, coal gas or acids. They have been extensively introduced into public and private buildings, giving perfect satisfaction to those who have used them. The best of references can be given, showing their adaptedness for general use, the subscriber having furnished some of the best dwelling houses in the city with them during the last two years.

While excelling all others in beauty of finish and appearance, they are sold much cheaper than any thing of the kind in the market. The subscriber has now in Store a complete assortment of the above named dwelling Goods, to which he invites the attention of all interested.

je1 G. N. CARLETON, 15 Daniel st.

For Summer Riding.

G. H. SIDES & CO., having fully re-furnished their Stable with the best of Horses, and Carriages of the latest and most approved styles, for the summer travels, would respectfully invite a call from those about enjoying themselves by riding. Every attention will be given to make their sojourn with them pleasant during the hot months.

The Yacht SPY, Capt Goodwin, will run daily to the Islands from Pier Wharf, Portsmouth, at 10 o'clock, A. M., or on arrival of cars from Boston and Concord. LEMUEL L. CASWELL,

je22 2mo EDWARD S. FOSS.

Appledore House,

ISLES OF SHOALS.

STEAM having died out in Portsmouth, the subscriber has the pleasure to announce to his old friends and the public, that he has chartered the beautiful YACHT SPY, of 40 tons burden, and has had the good fortune to secure the services of Capt. JAMES W. GOODWIN, the well known pilot, as master. His skill, carefulness and attention will secure to the travelling public a more safe, expeditious, and comfortable and pleasant transit to and from the Islands, than has hitherto been attained.

She will leave PIER WHARF, foot of State Street, Portsmouth, every day (Sundays excepted) immediately on the arrival of the trains from Boston and Concord, and return in season for the evening trains.

Many alterations and improvements have been made in the establishment to make it more convenient and comfortable.

An abundant supply of Ice has been carefully laid in, and the facilities for fishing perfected.

To the invalid, the weary and the active pleasure seeker, this location presents attractions not equaled in New England.

je17e THOMAS B. LAIGHTON.

Gerrish House,

KITTERY POINT, MAINE.

THIS Establishment having been put in perfect order, will open for visitors on the 15th of June. Every attention will be given to make this House one of the most pleasant Summer resorts. Kittery Point is celebrated for its conveniences for bathing, fishing and sailing. Arrangements have been made to afford every facility for guests to enjoy the above amusements. The Post Office is within three minutes' walk of the House. A coach runs regularly twice a day to and from the Point, via the U. S. Navy Yard, arriving at and leaving the City of Portsmouth, three miles distant, on the arrival and departure of the cars. For further particulars address the proprietor, at Kittery Point, Me.

m2 R. K. OXFORD, 72 State st.

For Sale.

HOUSE on Christian Shore, suitable for two small families. If applied for immediately will be sold low. Apply to

April 17. E. S. WENDELL.

HOUSES FOR SALE.

THE DWELLING HOUSE, No. 9 School street. This is a well built house, two (high) stories, in good repair, and is convenient for one family or two families, or for a large Boarding House. It contains nine or more rooms and two sculleries, and has an excellent cellar under the whole house. The situation is central, being about equi-distant from the markets, factories and railroads. Connected with this house is a building which has been and may be occupied both as a barn and a work-shop. If not sold soon, a part or the whole of the premises will be let.

The DWELLING HOUSE No. 6 Green street. This house is fitted for two tenements; it is well built, was thoroughly painted and put in good order the last season, and is well calculated for two families, (having about 6 rooms each) and may be considered a good location for persons employed at the north end. It is centrally located between the different ship-yards in that section of the city, each tenement will be sold separately, if desired.

The DWELLING HOUSE No. 7 Liberty street, corner of Charles street. This house was formerly owned and occupied by the late Peter M. Lowd and is in good order. Attached to it is a lot of land large enough for a Stable or for another dwelling house. It would make a good place for the residence of a person employed at the shipyards across the river, or at the Navy Yard.

The DWELLING HOUSE No. 47 Bow street.—This house has been built a few years, is well finished off, and is very convenient. In the rear is quite a large garden spot. This would be a desirable place for a person employed at the shipyards, or at the Navy Yard nearly opposite.

Also, for sale, a BUILDING LOT, on Mount Vernon street, (opposite No. 2,) with a small building thereon, which can be finished off into a Dwelling house.

All of the above property will be sold on liberal terms, if applied for soon. For further particulars apply to JOSEPH M. EDMONDS,

Feb. 27. No. 9 Islington street.

TO LET—The STORE on the corner of Vaughan and Deer streets. It was occupied as the first Union Store in this city, and is considered as a good stand for business. It is within a few rods of the Boston and Concord Railroad Depots. Possession can be had immediately.

FOR SALE—The HOUSE in the rear of the above, on Vaughan street—a convenient house for two families, and has been so occupied for about six years, by the same tenants. It rents for $160. For information, terms, &c., call on JOSEPH L. LOCKE, on the premises, or JOSEPH M. EDMONDS, 9 Islington st. m29

House Lots.

MORNING CHRONICLE.

BY MILLERS & GRAY. PORTSMOUTH, N. H., TUESDAY, AUGUST 8, 1854. VOLUME 5. NO. 7.

THE DAILY MORNING CHRONICLE

is published by
FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER,
At No. 4 Exchange Buildings,
Pleasant Street,.....PORTSMOUTH, N. H.

TERMS $4 a year, or $3 if paid strictly in advance.

The Weekly Chronicle,
A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING.—For a Square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

10,000 *Bottles Sold since the First of January.*

DR. ORDWAY'S
HUMOR DISCOVERY,
AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to make it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,
LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—saving the man in a few days. The natives, when bitten by a rattles ake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.
Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all-gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA.
A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS,
It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.
One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,
It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use and indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.
☞ **Price $1.00.** ☜

HE HAS ALSO A HUMOR SALVE,
Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.
PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.
This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, Backing of the Throat, Raising of Blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicine yet discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.
PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.
This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.
PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

ORDWAY & WADLEIGH,
LAWRENCE, MASS.
SOLE PROPRIETORS.

PATENTS.
American and Foreign Office.
AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others), will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure the utmost, priority and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ———.

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,
Yours, &c. THOMAS EWBANK,
Commissioner of Patents."
Boston, Dec 7, 1853. eodly

Garden Engines.

JUST received at "the sign of the Big Coffee Pot" a full supply of Garden or Fire Engines, which are respectfully commended by the subscriber to the notice of the public. Wherever these Engines have been introduced they have invariably given entire satisfaction. They are unsurpassed for power, capacity or usefulness. From the size of the air chamber sufficient power is obtained to enable one man to throw a steady stream of water to the height of fifty feet perpendicularly, thereby rendering it a desirable article as a PROTECTION AGAINST FIRE,

And for washing windows of second and third stories of buildings, carriages, &c. With a newly invented water diffuser as a Garden Engine it defies competition. The diffuser is a perfect and simple article, and its superiority over the common rose sprinkler is that it will throw three times the quantity of water a much greater distance and spread it perfectly even, with less power applied. An Engine with a diffuser of this description, used in orchards and gardens to throw soap suds on the young trees, will destroy many kinds of vermin liable to injure the fruit and be an invaluable addition to the implements of the Nurseryman and Horticulturist.

Fire & Marine—Metropolitan, No. 14 State street, Boston,	"	426,766

Morning Chronicle.

TUESDAY, AUGUST 8, 1854.

For the Chronicle.

THE BURNING OF GREYTOWN.

That our national character is somewhat involved in respect to the total destruction of Greytown, or San Juan del Norte, is evident. The very few who attempt to justify the act, assume as a fact that the inhabitants were pirates, or of a piratical character. They can find no other justification. It seems, by the accounts, to have been a place where Englishmen, Frenchmen, and some others had goods and merchandize deposited, in transit, for other markets, of the value of over a million of dollars,—that it was the head-quarters of an American transportation company for California and other places,—that the notorious Capt. Smith ran a steamboat there,—that the inhabitants had organized a civil government. But in addition to these facts, our Administration would not have sent out instructions to negociate with the authorities of the place, had they been considered to be a band of pirates.

The inhabitants of Greytown constituted an independent sovereignty of some kind—if it were only a "squatter sovereignty," it should be respected as such by the administration.—Thus organized as an independent people, the right to make war upon them was the *exclusive* province of Congress. The administration might demand redress for any wrong, but could not levy war—and, therefore, upon the supposition that the people were guilty of all the wrongs and insults with which Mr. Borland charges them, still they afford no justification for the conflagration of American, English and French property, and the dwellings of the men, women and children, who, of course, were involved in extreme distress. It is not pretended that any guilt attached to the women and children, but only to some very few of the men. Mr. Borland, our minister to Central America, was on his passage, having no authority, as minister, at Greytown—but he protected from arrest Capt. Smith, who had murdered one of the inhabitants, and for his unlawful interference, received some insult, which, under the circumstances, would naturally be expected.

Another reason alleged for burning the town was that some two or three persons stole and conveyed away in a boat some flour and meal belonging to the transportation company; but the statement is that no proof of the theft could be obtained.

From what appears, Messrs. Borland and Smith, prior to the destruction of the town, were the chief offenders. To screen a murderer from justice, in our view, is a high-handed offence. While some impute all the wrong upon the powerless people of Greytown, let us be careful that there is no "beam in our own eyes." In such a community, but recently sprung into existence, composed of people of different nations, in part of our own enterprising citizens, it would not be unprecedented that some wrongs should be committed.—Should we for such occurrences, send our naval force to burn down California, or any other new settlement? The character of a minister, who would rescue a culprit, cannot be very sacred—but for the consequences of the petty insult, a demand will be made upon our government to pay for all damages and the loss of property, (the British minister has already made a demand,) and the people of the United States will, probably, be taxed for the full amount of the loss. But in our view of the matter, the payment of the damage is a small matter in comparison to the injury to our national character in the eyes of civilized nations. And as a christian nation, we feel some self-degradation, when our own public servants justify or tolerate conduct which would have brought reproach even upon the dark ages. The documents in justification of the measure are now before the public. Many of our public journals indulge in harsh epithets in respect to the outrage. Our remarks are founded upon statements generally admitted to be true. ——— A. B.

NOTE.—Our correspondent A. B. is behind the spirit of this progressive age. Such an old fogy is he that he cannot see the consistency of our proceedings in the Greytown war and victory. There was no government in Greytown which could be trusted with the trial of a homicide, at the time when Mr. Borland was insulted. But when the insult and injury were to be paid for, Capt. Hollins must call on the authorities or government for $24,000. Every true American is expected to see the consistency of these things.

Perhaps A. B. may be old enough to remember the story of a dissenting minister in England, many years ago, who in a household visit, prayed that the God of armies would prosper the right. An old Scotchwoman, who stood by, and who had a son in the army, said, "De'il peck your eye for your wicked wish. God stand by Hamilton's regiment, right or wrang!"

The woman was a patriot; the minister an old fogy after the manner of A. B.

We perceive some savious creatures are trying to pluck feathers out of the caps of the executive, and let Capt. Hollins have all the glory of the burning to himself,—under the pretence that the instructions did not require the burning. It is quite certain that they did require the "destruction" of the town, unless an apology was made, and certain moneys paid. Neither was done: there was nobody to do it.

Secretary Marcy's letter says, "Nothing short of an apology will save the place from the infliction," &c. And Secretary Debbin hopes Capt. Hollins can "effect his object without a resort to violence, and destruction of property, and loss of life." This can imply no less than that he must use these means, if the claims were not satisfied.

We give Capt. Hollins all the credit which belongs to a good sailor and a brave soldier, in bombarding and burning according to order. But we cannot see the government cheated out of its laurels—nor the people out of theirs.—Some of the glory belongs to every one of us, or ought to, for every one must pay his share of the damages, by and by, in the shape of duties or taxes.

CLOSE OF CONGRESS.

One of the most remarkable sessions of Congress, has just closed. There were large majorities of the democratic party in both houses, chosen in the same year with the President. Yet differences between the two houses have been very common, and differences of both with the President have several times occurred.

The important measures which have been lost during the session are:

The Homestead Land bill; the Texas Debt bill, $8,500,000; the River and Harbor bill, $2,700,000, (vetoed); French Spoliation bill, $5,000,000; Ramsay California Mail Route bill; Shanghae Steamship bill; Weekly Mail to California bill; Ocean Steamship bill, $850,000; Pacific Telegraph bill; Pacific Railroad bill; to Increase Rates of Postage; Capt. Duncan Ingraham's resolutions: Minnesota Railroad bill (repealed.)

The famous ten million appropriation for the purchase of Cuba died in the Committee of Foreign Relations. The responsibility of this abortion lies with Senator Weller of California, who bolted from the subject, so that the committee stood three for it and three against it. The President is said to have felt much mortification at this "want of confidence" in him.

Among the most important of the bills passed and approved are—

The regular Appropriation bills; the Kansas and Nebraska bill; the bill providing for six first class war steamers; the Ten Million bill of the Gadsden treaty; the Homestead bill for Kansas and Nebraska; the bill extending the Warehousing System; the bill to give effect to the Canadian Reciprocity treaty; the bill to provide for the accommodation of the Courts of the United States in the district of Massachusetts and in the cities of New York and Philadelphia.

The House also carried through its project of a restoration of the civil superintendence of armories, by the strenuous exertions of Messrs. Faulkner of Virginia and Banks of Massachusetts. The Senate adopted the change by a majority of two, though it was not an administration measure, being strongly opposed by the Washington Union; and after a military superintendence of thirteen years, the civil rule prevails again.

A Washington letter-writer, in describing the loose manner in which the most important legislation was performed, observes that the last business on the four Public Bills—Army, Navy, Civil and Diplomatic, and Post Office bills—covering appropriations to the tune of more than fifty millions of dollars, were left entirely to the Committee on Conference; and in the Senate these conference reports were not all read, and when partly read but one or two members listened to them.—Among the items lost we are sorry to notice the sum of $26,000, advanced by Peabody of London to save the American branch of the Crystal Palace at London from positive national disgrace. The Senate passed the amendment, and the House disagreed by one majority only.

TREMENDOUS EXPLOSION AND NARROW ESCAPE FROM DEATH.—We learn from the Traveller that last Thursday evening about 6 o'clock, the large fly wheel at the Rolling Mill on First street, City Point, South Boston, burst with a terrific noise. The wheel weighed some sixteen tons, and was revolving at a very rapid rate, when the centrifugal force caused it to break into a hundred fragments. One piece, weighing three or four tons, was carried through the roof of the building across the yard, and down through the roof of the main building. The remainder of the wheel broke into smaller pieces, which scattered in every direction, doing great damage to the buildings. Heavy timbers were cut off as neatly as with a saw, while the machinery was seriously broken.

Strange as it may seem, although there were 200 men at work in the establishment, no one was in the least injured, although some met with most narrow escapes from instant death. The noise of the explosion was heard some distance off, and as soon as its cause was known the families of those working at the mills came rushing to the scene in great numbers, supposing that some must be killed.

Work at the mills will probably be suspended for a fortnight or more, in consequence of the accident.

The total damage we hear estimated at several thousand dollars.

NORTH CAROLINA.—The few returns from the election in North Carolina on Thursday last, rather indicate the election of Dockery, Whig, for Governor—and if so a Whig Legislature. (*Mem.* North Carolina Whigs are a very different article from Massachusetts Whigs.)—*Boston Chron.*

LOCAL.

DEATHS IN PORTSMOUTH IN JULY.—We copy the following account of the mortality in this city during the past month, from the record of Mr. Robert Bell:—

Males nine—aged respectively, 1 year, 24, 32, 41, 48, 56, 67, 75, 84. *Females* four—aged respectively, 8 mos., 2 years, 42, 63. Total thirteen. This is about the usual number of deaths in July, but for the males so much to exceed the females, is somewhat unusual, as our female population is by far the larger.

☞ A man named Taylor Robinson was found drowned in a shallow brook, in Epping, on Saturday. He was an intemperate man, and it is presumed was drowned while in a state of intoxication. A bottle partly filled with liquor, was found beside him.

DOG DAYS.—Every dog has his day; but Newburyport dogs, unlike their brethren elsewhere, after having, as the people hoped, had their day, have returned to torment them again. We hope this matter, which is engaging the attention of our citizens, will be attended to by the proper authorities *before* any one has been bitten or otherwise annoyed. —*Newburyport Herald.*

Ditto in Portsmouth. We were told of an instance a few days since, of a little girl being bitten through the upper lip by a large dog, so badly as to need the attention of a physician. There is a constant liability to annoyance and such accidents while such a multitude of dogs of all sizes are allowed in our midst. And there are other good reasons why the "curs of low degree" should be thinned out. They are a nuisance, anyhow.

A GOOD MOVE.—The hatters, clothiers, and shoe-dealers, of Newburyport, advertise in the Herald that they will hereafter close their stores at eight o'clock in the evening, except on Saturdays; and ask their customers to call before that hour. This is a judicious arrangement—they will lose no trade, and gain some time for themselves by it. Some such arrangement, we think, has more than once been defeated here by the cupidity of a few, to the inconveniences of many. A medium between making Jack "a dull boy" or "a mere toy," is the best.

LAUNCH.—A ship of 1600 tons, called the Driver, was launched on Saturday morning, from the yard of Messrs Currier & Townsend, Newburyport. She is owned by Messrs David Ogden and others, of New York.

A little girl, daughter of Mr William Milton, was run over by a carriage, in the vicinity of the ship yards at Newburyport, on Thursday, and died on Friday morning.

NEW HAMPSHIRE.—We learn from the Manchester Messenger that J. A. Gilmore, Esq., has resigned the office of Superintendent of the Manchester & Lawrence Railroad.

Hon. George Y. Sawyer has resigned his position as Judge of the Court of Common Pleas.

OUTRAGE.—A young Irishman, by the name of Michael Horsman, employed in the Globe Mill, was suddenly seized near the Gun House, on Sunday evening last, by three men, gagged, forced down to the brink of the pond, and thrown in where the water is quite deep. He did not know any of them, had no conversation with them, and knows no cause for the outrage upon him, except what can be gathered from the only words which were used by them; one simply remarking when they threw him into the water, "let the d— Paddy drown."—*Newburyport Herald.*

A man by the name of Carlos Clark disappeared from his home in Sanbornton, N. H., on the 28th ult. Foul play is suspected.

ACCIDENT—SLAVES IN KANSAS.—A despatch in the "Platte Argus," dated at Kansas on the 21st of July, says that some time in the previous day, Judgo Walderan, in pursuit of runaway negroes, when attempting to dismount from his horse, discharged his gun, and eight buck and sixteen goose shot penetrated his body. He died the same night.

PINE TREES.—At a meeting of the New York Farmers' Club, last week, it was stated that the pitch pine tree flourishes best in soil worn out for purposes of agriculture. Pines can be raised from seeds, or by transplanting. They should be planted upon poor land.—Take care not to bruise the root in transplanting; that is the great trouble in moving all pines. With care they may be safely transplanted any month in the year.

A man named Johnson was attacked with hydrophobia on Thursday afternoon, and died the same night, at his house on Front street, Charlestown. The disease was caused by the bite of a dog three months ago. The wound was on the thumb, and had apparently healed.

FATHER MATTHEW.—English papers received by the Canada, mention with regret "that there is a necessity for seeking subscriptions to relieve the low estate of a living celebrity—the benevolent Father Matthew."

OCEAN RAFT.—A large raft, containing $12,000 worth of timber, owned by Col. E. H. Herbert, of Norfolk county, reached Norfolk last Thursday, and was taken in tow by a steamer to be carried to New York. It is intended for the United States government.

WASHINGTON, August 4.—The official statement of the Treasury Register shows the receipts of the United States for the last quarter, $16,800,000.

Additional Testimony for Gilbert's Polypodium.

MILFORD, N. J., Aug. 2, 1854.

MR. S. GILBERT,—It gives me pleasure to address you a few lines to state the good effects of your Extract of Polypodium. Having a severe attack on my Lungs last spring—spitting of blood, &c.—I was induced to try the Extract of Polypodium; and I can say it has done me great good. I am now enjoying a reasonable degree of health and strength; and would recommend it as the best medicine for such complaints now before the public. Yours resp'y, JAMES C. WRIGHT.

The Extract of Polypodium is manufactured and sold at wholesale and retail by
S. GILBERT, No. 18 Exchange Buildings.
Portsmouth, N. H.

2 WEEKS LATER FROM CALIFORNIA.

ARRIVAL OF THE STAR OF THE WEST.

NEW YORK, August 7.—The steamer Star of the West, from San Juan, arrived here this morning, bringing 435 passengers from San Francisco, and $663,000 in gold.

The dates from San Francisco are to the 15th of July.

The Star of the West connected with the Sierra Nevada.

The mail steamer California sailed from Panama on the 15th, with $1,304,000 specie on freight.

One of the most notable events during the past two weeks, is the great fire which took place in San Francisco, on the morning of the 11th of July. The fire broke out in or near the kitchen of the Golden Gate Hotel, at 6 o'clock in the morning. The whole of the block bounded by Jackson, Davis, Front and Oregon streets, was destroyed. One third of that bounded by these three last mentioned, and Washington streets. About one half of two blocks between Davis, Jackson, Drum and Washington streets, divided by Oregon street; the north-east corner of Jackson and Davis streets. The whole number of buildings burned is between 60 and 70, some eighteen of which were hotels, and large boarding houses. The whole loss is estimated at from 250,000 to $300,000.

Sacramento city has again been the victim of a destructive fire, which, it is estimated, has destroyed property to the amount of nearly $500,000. The fire broke out at 11 o'clock on the morning of the 12th of July, in the block bounded by Third, Fourth and K streets, and spread with such rapidity that in a few hours no less than twelve blocks were more or less destroyed. The number of houses burned is estimated at about 200.

A large fire broke out in Columbia, Calaveras county, on the morning of the 10th of July, which resulted in the almost entire destruction of that town. All the property bounded by Broadway, Fulton, State and Washington streets was entirely consumed, except a single fire proof building. The fire is supposed to have been the work of an incendiary. The loss is estimated at $500,000.

On the evening of July 8th, the mining town of Minesota was burned entirely to the ground, with the exception of three houses.—Loss estimated at $50,000.

FROM THE ISTHMUS.—The inhabitants of San Juan have commenced rebuilding their town, but most of the influential men have left for other places.

The greatest excitement existed at Kingston relative to the destruction of Greytown, and it was reported that the English and French Admirals had each sent a frigate in pursuit of the Cyane. A steamer had been despatched to Halifax with intelligence.

The Cyane left Greytown on the 8th ult., for Pensacola via Navy Bay. Immediately after her departure, Commander Jolly, of the British brig Bermuda, proclaimed the town under martial law, and established a blockade of the port.

The English ship of-war Espeigle holds Punta Arenas, and her Commander says that point is a part of San Juan, and that he will hold is as security until something can be arranged between the two countries. Altogether a lively state of things is likely to grow out of the Greytown exploit.

The Star of the West left in the port of San Juan the English mail steamer Treviot, the English brig-of-war Espiegle, sent from Jamaica with relief for the citizens of San Juan, and the surveying cutter Bermuda.

LATER FROM EUROPE.

The Collins steamer Atlantic, with European advices to July 26, arrived at New York on Saturday evening. Cotton was firm, and breadstuffs had declined.

Concerning the war—every thing awaits the action of Austria.—Prussia seems inclined to favor Russia.

The Turks claim another victory at Giurgevo and state that two Russian Generals were wounded.

Gortschakoff expresses a determination to hold the Principalities, with 200,000 men, if necessary.

Prince G's mission to Austria is said to have failed entirely, and a new and decisive protocol was expected to be signed by the western powers on the 19th or 20th of July.

The British Parliament have voted an extra war credit of three million pounds sterling.

The Spanish Revolution is triumphant—the chief cities have joined the insurrection, and Espartero has been requested by Isabella to form a Government. The palace of Christina and the residences of her favorites have been sacked and demolished, and she has fled to France. Madrid is covered with barricades, but quiet at last accounts, although there had been some fighting.

THE LATEST ASPECT OF THE WAR.—According to telegraphic despatches, dated July 25th, and the ministerial announcement in both houses, two points of infinite importance to the future course of the war are now answered. It is affirmed, with confidence, both that the Emperor of Russia will maintain the occupation of the Principalities by force of arms, and that the Emperor of Austria will, if necessary, by force of arms expel him. If these resolutions have indeed been finally taken by the Courts of St. Petersburgh and Vienna respectively, there will be an end to all those delays and uncertainties which have hitherto attended the land operations of the war.—*London Times.*

Liverpool Market.—Breadstuffs—Wheat again declined 6d and corn 2s 6d, the continued fine weather having greatly improved the prospects for the growth of the crops. Western Canal flour 28s 6d a 29 6. Philad, Balt and Canada 29 6 a 30; white wheat 8 a 8 3, red 8 a 9 6; corn 29 a 30s. Arrival of breadstuffs considerable.

HARPER'S
Gazetteer of the World.

THIS work has been undertaken to supply a want which is daily becoming more pressing. The Censuses of the United States, of Canada and British America, of Mexico, of Great Britain, and of the Continental States of Europe, are all of recent date; and of these the most important have been laboriously consulted, and their information arranged and classified in the best manner. The editor has had it constantly in view to present the greatest amount of useful matter in the smallest possible space; and confidently hopes that the work will fully meet the wants of the times, and that the general reader, the student and the artisan will find in it all the information adapted to their several requirements, brought down as nearly as possible to the present day, in a form more convenient than in any other work of similar character.

Harper's Gazetteer of The World is to be completed in TEN NUMBERS at 50 cents each; and will comprise about 1800 royal octavo pages, with seven new and accurate Maps.

☞ No. 1 can be seen, and subscriptions received, at the Bookstore of
jy26 JOSEPH H. FOSTER.

Pauline Chart.
J. F. SHORES, Jr. No. 1 Congress Block, has for sale the PAULINE CHART—by J. W. Bonham. This chart comprises a map of the "Countries adjacent to the Mediterranean, illustrating the Acts of the Apostles."

Also, arranged according to time, an account of the principal occurrances in the Life of St. Paul, as follows: First Missionary Tour; Second Missionary Tour; Third Missionary Tour and Travels while a Roman Prisoner. Each occurrence is given with the name of the Place, its Locality and the Reference to the Chapter and verse.

Sunday School Teachers and Pupils will find this Chart a very great assistance in studying the Life and Travels of St. Paul, and it is highly recommended by clergymen who have examined it.

STATE OF MAINE.
At a Court of Probate held at York within and for the County of York, on the first Monday in July, in the year of our Lord eighteen hundred and fifty-four, by the Honorable Joseph T. Nye, Judge of said County:

JOHN H. ROGERS, Guardian of Bernard W. Hanscom, Sarah Hanscom and John Hanscom, minors and children of Samuel Hanscom, late of Eliot in said county, deceased, having presented his petition for allowance out of the personal estate of said deceased, to his said Ward—

Ordered that the said petitioner give notice to all persons interested, by causing a copy of this order to be published three weeks successively in the Chronicle printed at Portsmouth in the State of New Hampshire, that they may appear at a Probate Court to be held at Alfred in said County on the first Monday of October next, at ten of the clock in the forenoon, and shew cause, if any they have, why the same should not be allowed.

Attest,—FRANCIS BACON, Register.

MEXICAN MUSTANG LINIMENT—
Every land has hailed with
Xtacy this preparation—Rose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its tortures, have yielded to its
Magical influence; cancers, contorted joints,
Ulcerated and swollen limbs that have
Suffered for years under the weight of disease,
Turn by its application to suppleness and health.
A remedy of such general usefulness that can
Restore newness of Action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.
Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over diseases,
No matter of how long standing—sold at
The agents in all parts of the Union,

A. PEARSON,
TEACHER OF MUSIC,
WOULD respectfully give notice to the citizens of Portsmouth, that he would be happy to give instruction to a limited number of Pupils on the PIANO FORTE, ORGAN, THOROUGH BASS and SINGING.

Particular attention paid to the cultivation of the voice.

N. B.—Mr. P. is agent for Messrs. Hallett and Davis's celebrated Piano Fortes. Persons wishing to procure a superior instrument will do well to consult him before purchasing elsewhere.

☞ Mr. Pearson has taken the spacious Room in the rear of the Chronicle Office, formerly occupied by Mr. T. P. Moses—where he may be found during business hours. Residence No. 44 Hanover Street. 3w*jy6

Sagamore House, in Rye.
FROST'S POINT.

THIS is an entirely new House, situated about four miles from the Portsmouth Depots. There is easy access to it by land or water. It is located on a point of land nearly surrounded by water, and seaward presents a finer view of the ocean, Isles of Shoals, &c, than can be obtained from any other house in Rye. An excellent view of Portsmouth and the Piscataqua River is also had from the top of the house The location of the Sagamore combines the advantages of quiet retirement in a beautiful country, with convenience of access and all the facilities enjoyed at other Beach Houses. The opportunities for Bathing and fishing are unsurpassed. Boats are always in readiness for the accommodation of visitors. A Pilot boat touches regularly at the Point, on her daily trips to the Shoals.

The Sagamore House was newly furnished throughout, this Spring, in the best manner The Ladies' Parlor is fifty feet in length, and the Dining Room of the same proportions. The Sleeping Rooms are capacious and airy, and the building thoroughly ventilated.

An experienced man has charge of the house, and every facility provided, and no pains spared for the accommodation of all visitors who may favor us with a call.

The Tables will be provided with the best the market affords, for in this respect the proprietor wishes it distinctly understood that he will not be excelled by any other House in Rye or on the seashore.

TERMS.—For permanent boarders $1.00 per day. Transient visitors as cheap as elsewhere.

Carriages will be at the Portsmouth Depots on the arrival of every train of cars to convey passengers to the Sagamore House.

We ask ladies and gentlemen to give us a call and we will satisfy them that we will do all we promise.

THOMAS CLARK, Proprietor.
Rye, July 27. 2w

Hacking Notice.
FARE TWENTY-FIVE CENTS.
THE SUBSCRIBERS, including all the proprietors of Hacks in Portsmouth, would respectfully inform the public, that after another trial of 12½ cent rates for Hacking, they find it impossible to work at that price, with hay and grain at the present high rates, and have therefore agreed that the charge for conveyance of passengers within the compact part of the city, shall be 25 cents, from and after this date.

DOCTOR YOURSELF!
THE POCKET ÆSCULAPIUS:
OR, EVERY ONE HIS OWN PHYSICIAN.

THE FORTIETH Edition, with One Hundred Engravings, showing Diseases and Malformations of the Human System in every shape and form. To which is added a Treatise on the Diseases of Females, being of the highest importance to married people, or those contemplating marriage.

BY WILLIAM YOUNG, M. D.

Let no father be ashamed to present a copy of the Æsculapius to his child. It may save him from an early grave. Let no young man or woman enter into the secret obligations of married life without reading the POCKET ÆSCULAPIUS. Let no one suffering from a hacknied Cough, Pain in the Side, restless nights, nervous feelings, and the whole train of Dyspeptic sensations, and given up by their Physician, be another moment without consulting the Æsculapius. Have the married, or those about to be married any impediment, read this truly useful book, as it has been the means of saving thousands of unfortunate creatures from the very jaws of death.

☞ Any person sending TWENTY-FIVE cents enclosed in a letter, will receive one copy of this work by mail, or five copies will be sent for one dollar. Address, (post paid),

jy6. GEO. W. TOWLE & Co.

The Greatest Medical Discovery of the Age.

MR. KENNEDY, of Roxbury, was discovered in one of our common Pasture Weeds a remedy that cures Every Kind of Humor, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor.) He has now by his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of crofula.

A benefit is always experienced from the first bottle and a perfect cure is warranted when the above quantity is taken.

Nothing looks more improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing on the pastures and along old stone walls, should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. There is no if's and ands, hums and ha's about its selling some cases, but not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old; to old people of sixty. I have seen poor, puny, wormy looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some have taken it who have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any disarrangement of the functions of nature, it will cause very singular feelings; but you must not be alarmed; they will disappear in from four days to a week. There is never a bad result from it; on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

Nothing in the annals of Patent Medicines has ever been received by the public with so much favor as this simple preparation. It is entirely composed of nine different herbs. In May, 1852, when I commenced making a business of it, I sold about two bottles per day. In June, 1853, I sold 4320 bottles. In October, 1853, I sold 6120 bottles. I hope you will call that doing well; I do.

In my own practice, I confine it strictly to humors; but there are some who are so enthusiastic in its favor they think what cured them will cure any thing and any body; they accordingly recommend it for every variety of disease. In this way a great many virtues of it have been found that I never would suspect.

Cases of Dyspepsia, of many years standing, that withstood every known remedy, have been permanently cured.

I know one man to gain 17 lbs. by taking three bottles; another 11 lbs.; another 10 lbs.; and another 7 lbs —the venerable master Robinson of Boston.

In diseases of the Liver it is a specific. I know several with yellow skin and yellow eyes, the body emaciated and the mind melancholy, get fat and cheerful by a few bottles.

I know several cases of Dropsy, and one particularly bad. A lady, aged 79, was unable to leave her house for the last twelve years, was so much relieved (she was reduced in circumference thirty-four inches,) as to visit her friends in several neighboring towns.

Another had the Dropsy in her left leg, and was unable to walk for ten years, sometimes swelling to an enormous size; at last bursted, making a bad wound which could not be healed; by taking three bottles and using two boxes of ointment, she is now quite well. Why it should make some fat and others lean, I cannot tell, but so it is.

I know of several cases of Kidney complaints cured by it. If the kidneys are in a wasting purpose with a proper medium, I could tell of cases of the most distressing of all diseases that would make your heart bleed, that were permanently cured by it.

It has been lately found to be a sure cure for Panama fever. In one case the first spoonful put off the fit two hours. One bottle cured him. Another came home to die, and was induced by his brother to try it. Three bottles cured him.

It likewise gives great relief in the Asthma. A lady in Roxbury was unable to lie down for a number of years; she can now lie without the least inconvenience.

A lady in Weymouth lost the use of her left side by the Erysipelas. On the second bottle, she broke out in one mass of humor from head to foot. In a few days she was well.

It has lately been found to be equally good for humor outside as inside, (taking it inwardly in the meantime,) for Erysipelas, Salt Rheum, Pimples on the face, or any exception of the skin whatever; only where the flesh is very sore you must dilute it with water.

When made weak enough it is the best eye-wash for weak and watery eyes I ever saw.

Others use it to clease the dandruff out of the hair and strengthen its roots, which it certainly does, and to crown all, it made the hair grow on bald heads, which, if I had not seen with my own eyes, I would not believe from you or anybody else.

As regards dieting, I never came across the first person that ever got any benefit from it. On the contrary, numbers came to death's door by it, as it gives the humors the upper hand. My medicine requires the most nourishing food you can get. It will soon give you an appetite.

Do not for a moment suppose that I warrant a cure of all those diseases, in every case. I merely tell you what it has done, hoping it will do the same for you. I do not warrant a cure in any disease but humors, *where it never fails.* For further particulars see the circular around each bottle.

No change of diet ever necessary. Eat the best you can get, and enough of it.

Have an herb, simmered in olive oil, scatters Scrofulous swellings of the neck and under the ears. Price fifty cents per box.

DOSE FOR ADULTS.—Adults, one table spoonful per day; children of eight years, dessert spoonful; from five to eight, tea spoonfuls. As no direction can be applicable to all constitutions, take enough to operate on the bowels twice a day.

Manufactured and sold by DONALD KENNEDY, 120 Warren street, Roxbury.

For sale by E. H. ROLLINS, Concord, N. H.

☞ Dealers wishing the Agency in New Hampshire, will please address E. H. ROLLINS, Concord, who will supply the trade at the manufacturer's prices.

Swaim's Celebrated Panacea,

FOR THE CURE OF
INCIPIENT CONSUMPTION,
Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by W. Gibson, M.D., Prof. of Surgery, Pa. University. Valentine Mott, M.D., Prof. of Surgery, N. Y. " W. P. Dewees, M.D., Prof. of Mid., Pa. University. N. Chapman, M.D., Prof. of Physic, Pa. University. T. Parke, M.D., Pres't College of Physicians, Phila. Dr. Del Valle, Prof. of Medicine, Havana. Jose Eourenco de Luz, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spaine. J. Chipman, Member Royal Col. Surg., London. Sir Thomas Pearson, Maj. Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name Swaim stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swain, copy right secured

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

UNITED STATES AND FOREIGN
PATENT AGENCY,

No. 39 State Street, - - - - - - - - - - Boston.

SAMUEL COOPER,
Late Chief Examiner in the United States Patent Office,
Procures Patents in this and Foreign Countries.

References.—The undersigned Principal and Assistant Examiners in the United States Patent Office, have several years been well acquainted with Mr. Samuel Cooper, lately a Principal Examiner in this Office; and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that the scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY B. RENWICK, T. R. PRALL,
L. D. GALE, THOS. H. DUFFIELD,
J. H. LANE, F. SOUTHGATE SMITH,
WM. CHAUNCY LANGDON,
Principal Examiners. *Assistant Examiners.*

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.
Boston, Dec. 31, 1853.

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Chest, Back, etc.

If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.

It is an English Medicine, and was used by William IV. late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and never have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Liniment, but considers warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's Office, 240 Green

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc.

Marble Chimney Pieces.

THE PENRHYN MARBLE is a new and beautiful article, manufactured of Stone imported from England, which is enameled in imitation of the richest and most expensive Spanish, Galway, Egyptian, Pyronese, Lisbon, Sienna and other rare and desirable kinds of Marble—the imitation being so perfect as to challenge detection without the closest scrutiny. In style of finish these Chimney Pieces stand unequalled, being very highly polished—retaining their beauty much longer than common marble, and are not injured by oils, smoke, coal gas or acids. They have been extensively introduced into public and private buildings, giving perfect satisfaction to those who have used them. The best of references can be given, showing their adaptedness for general use, the subscriber having furnished some of the best dwelling houses in the city with them during the last two years.

While excelling all others in beauty of finish and appearance, they are sold much cheaper than any thing of the kind in the market. The subscriber has now in Store a complete assortment of the above named desirable Goods, to which he invites the attention of all interested.
je21 G. N. CARLETON, 15 Daniel st.

For Summer Riding.

C. H. SIDES & CO., having fully re-furnished their Stable with the best of Horses, and Carriages of the latest and most approved styles, for the summer travels, would respectfully invite a call from those about enjoying themselves by riding. ISLES OF SHOALS.

THE subscribers respectfully inform the public that they have taken the well known Hotel on SMUTTY NOSE, where they will be pleased to entertain all who may favor them with their patronage Every attention will be given to make their sojourn with them pleasant during the hot months.

The Yacht SPY, Capt Goodwin, will run daily to the Islands from Pier Wharf, Portsmouth, at 10 o'clock, A. M., or on arrival of cars from Boston and Concord. SAMUEL L. CASWELL,
je22 2me EDWARD S. FOSS.

Appledore House,

ISLES OF SHOALS.

STEAM having died out in Portsmouth, the subscriber has the pleasure to announce to his old friends and the public, that he has chartered the beautiful YACHT SPY, of 40 tons burden, and has had the good fortune to secure the services of Capt. JAMES W. GOODWIN, the well known pilot, as master. His skill, carefulness and attention will secure to the travelling public a more safe, expeditious, comfortable and pleasant transit to and from the Islands, than has hitherto been attained.

She will leave PIER WHARF, foot of State Street, Portsmouth, every day (Sundays excepted) immediately after the arrival of the trains from Boston and Concord, and return in season for the evening trains.

Many alterations and improvements have been made in the establishment to make it more convenient and comfortable.

An abundant supply of Ice has been carefully laid in, and the facilities for fishing perfected.

To the invalid, the weary and the active pleasure seeker, this location presents attractions not equaled in New England.
je17o THOMAS B. LAIGHTON.

Gerrish House,

KITTERY POINT, MAINE.

THIS Establishment having been put in perfect order, will open for visitors on the 15th of June. Every attention will be given to make this House one of the most pleasant summer resorts. Kittery Point is celebrated for its conveniences for bathing, fishing and sailing. Arrangements have been made to afford every facility for guests to enjoy the above amusements. The Post Office is within three minutes' walk of the House. A coach runs regularly twice a day to and from the Point, via the U. S. Navy Yard, arriving at and leaving the City of Portsmouth, three miles distant, on the arrival and departure of the cars. For further particulars address the proprietor, at Kittery Point, Me.

For Sale.

HOUSE on Christian Shore, suitable for a small family. If applied for immediately will be sold low. Apply to
April 17. E. S. WENDELL.

HOUSES FOR SALE.

THE DWELLING HOUSE, No. 9 School street. This is a well built house, two (high) stories, in good repair, and is convenient for one family or two families, or for a large Boarding House. It contains nine or more rooms and two scullieries, and has an excellent cellar under the whole house. The situation is central, being about equi-distant from the markets, factories and railroads. Connected with this house is a building which has been and may be occupied both as a barn and a work-shop. If not sold soon, a part or the whole of the premises will be let.

THE DWELLING HOUSE No. 6 Green street. This house is fitted for two tenements; it is well built, was thoroughly painted and put in good order the last season, and is well calculated for two families, (having about 6 rooms each) and may be considered a good location for persons employed at the north end. It is centrally located between the different ship-yards in that section of the city. each tenement will be sold separately, if desired.

THE DWELLING HOUSE No. 7 Liberty street, corner of Charles street. This house was formerly owned and occupied by the late Peter M. Lowd and is in good order. Attached to it is a lot of land large enough for a Stable or for another dwelling house. It would make a good place for the residence of a person employed at the shipyards across the river, or at the Navy Yard.

The DWELLING HOUSE No. 47 Bow street.—This house has been built but a few years, is well finished off, and is very convenient. In the rear is quite a large garden spot. This would be a desirable place for a person employed at the shipyards, or at the Navy Yard nearly opposite.

Also, for sale, a BUILDING LOT, on Mount Vernon street, (opposite No. 2,) with a small building thereon, which can be finished off into a Dwelling house.

All of the above property will be sold on liberal terms, if applied for soon. For further particulars apply to JOSEPH M. EDMONDS,
Feb. 27. No. 9 Islington street.

TO LET—The STORE on the corner of Vaughan and Deer streets. It was occupied as the first Union Store in this city, and is considered as a good stand for business. It is within a few rods of the Boston and Concord Railroad Depots. Possession can be had immediately.

FOR SALE—The HOUSE in the rear of the above, on Vaughan street—a convenient house for two families, and has been so occupied for about six years, by the same tenants. It rents for $160. For information, terms, &c., call on JOSEPH L. LOCKE, on the premises, or JOSEPH M. EDMONDS, 9 Islington st. m29

MORNING CHRONICLE.

BY MILLERS & GRAY. PORTSMOUTH, N. H., WEDNESDAY, AUGUST 9, 1854. VOLUME 5. NO. 8.

THE DAILY MORNING CHRONICLE

is published by FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER, *At No. 4 Exchange Buildings,* Pleasant Street,.....PORTSMOUTH, N. H.

TERMS $4 a year, or $3 if paid strictly in advance.

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING.—For a Square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

10,000 *Bottles Sold since the First of January.*

DR. ORDWAY'S

HUMOR DISCOVERY,

AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. Kinzer, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattles ake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.

Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all-gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA.

A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS,

It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.

One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,

It is spoken of in the highest terms. A young man was sick so much so that he had to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Disease, Taints in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.

☞ Price $1.00. ☜

HE HAS ALSO A HUMOR SALVE,

Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.

PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.

This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicine ever discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.

PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.

This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.

PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

ORDWAY & WADLEIGH,

LAWRENCE, MASS.

SOLE PROPRIETORS.

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1836) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ———.

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,

Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Boston, Dec 7 1852 eodly

Garden Engines.

JUST received at "the sign of the Big Coffee Pot" a full supply of Garden or Fire Engines, which are respectfully commended by the subscriber to the notice of the public. Wherever these Engines have been introduced they have invariably given entire satisfaction. They are unsurpassed for power, capacity or usefulness. From the size of the air chamber sufficient power is obtained to enable one man to throw a steady stream of water to the height of fifty feet perpendicularly, thereby rendering it a desirable article as a PROTECTION AGAINST FIRE.

And for washing windows of second and third stories of buildings, carriages, &c. With a newly invented water diffuser as a Garden Engine it defies competition. The diffuser is a perfect and simple article, and its superiority over the common rose sprinkler is that it will throw three times the quantity of water a much greater distance and spread it perfectly even, with less power applied. An Engine with a diffuser of this description, used in orchards and gardens to throw soap suds on the young trees, will destroy many kinds of vermin liable to injure the fruit and be an invaluable addition to the implements of the Nurseryman and Horticulturist.

Fire & Marine—Metropolitan,	No. 14 State street,	Boston, "	496,768

Morning Chronicle.

WEDNESDAY, AUGUST 9, 1854.

GOVERNMENTAL MORALS.

No careful observer of the late session of Congress can have failed to perceive a deplorably low state of morals existing in that body, and in the city of Washington.

One drunken member of the House of Representatives was led out of the Hall; and others but little better, were not led out. In the other branch, gross intemperance has been charged on some members, and so far as we have seen, not denied.

Now it is vain to say, such things cannot be helped. They can, unless the people choose to have it so. There is no reason why a sober people should vote for a sottish representative. That they may be and are deceived in regard to the moral character and private habits of candidates for high office, is too true: and so it is true that there is an unwillingness to have the frailty of great men unmasked. Yet it is a fact that some great men have been kept from high stations by a revelation of their private faults: while smaller and meaner men, with faults as great, but better covered or winked at, have risen to posts of honor.

In this matter we need a searching reform. Even the Spanish nation feels itself injured and insulted by the debauched private life of the Queen; and a revolution springs up to abate the nuisance. We have no need of revolution—only of care in voting for good men in things great and small. And as a preparatory step to this, a higher and purer state of morals among the people.

It is not to be expected that the representatives will rise much above the level of those who create or elect them.

ILLITERATE PERSONS IN MASSACHUSETTS AND NEW ENGLAND.—According to the census of 1850, there were then in Massachusetts 28,364 persons upwards of twenty years of age, who could not read of write; of whom 11,578 were white males, and 15,961 white females; 375 colored males and 431 colored females; 1,861 natives, and 26,484 foreigners. In all the rest of New England there were 24,442 persons who could not read or write, as follows: Maine 6,282; New Hampshire 3,009; Vermont 6,240; Rhode Island 3,607; Connecticut 5,306. Of this number 6,266 were natives, and 18,208 foreigners.—*The papers.*

There is no reasonable excuse for so large a number of ignorant "natives," where educational facilities are so great. But the Maine Law will correct all that in less than twenty years. We can and must educate the foreigners as fast as they come among us, and thus increase their usefulness. Keep the people *temperate*, and we will answer for their education.—*Phrenological Journal.*

Nine tenths of these "Natives" who cannot read and write, are undoubtedly the children of immigrant catholics, who were kept out of our common schools by the influence of priests and prejudice.

The number of persons whose parents were born in New England, and who yet cannot read and write, must be small indeed.

Taking the proportions as they stand above, for 8000 natives who cannot read, there are 34,000 foreigners in the same condition.

DEATH OF THE HON. THOMAS B. WASHINGTON.—This gentleman, a grand-nephew of George Washington, arrived in this city at the Stanwix Hall, accompanied by his wife and two children, on Thursday night, overcome by exhaustion and fatigue. He had travelled in the cars, incessantly for the preceding three days and nights, on his return home from the North and West where he had been for the benefit of his health. He was taken ill between this city and Utica, and grew worse until he arrived at the Stanwix, where the best of medical attendance was provided for him by Mr. Britton, but it was of no avail. He sank rapidly and died about ten o'clock in the evening. Every attention that human agency could procure, was provided for the invalid, by the kind and attentive proprietor, and the best medical advice in the city obtained. He was a resident of Jefferson County, Va., where he has lived for a long time past. He was about fifty years of age.—*Albany State Register.*

We don't wonder that he died; we only wonder that his wife and children did not die also. A man goes to the North West, an invalid, to benefit his health: and then rushes back towards the south, at railroad speed, for three days and three nights in succession.—Time, dog-days: thermometer 90 or so.

MAGAZINES AND PAPERS.—The Water Cure Journal and the Phrenological Journal, for August, are just received from the publishers, Messrs Fowlers & Wells, of New York.

These publishers announce, and will issue on the first of October, a large and valuable weekly Newspaper, entitled Life Illustrated, suitable for families in all parts of the country. Price $2 per annum.

The monthly magazines are to be continued the same as ever.

NORTH CAROLINA ELECTION.—Returns by telegraph from twenty-four counties in North Carolina give a gain to the Democratic candidate for Governor of 632 votes upon the vote for President in 1852, when Gen. Scott had a majority of 1061 in the state. The vote is very close. The returns for members of the Legislature do not indicate which party has the majority, though the chances are in favor of the Democrats.

PRESIDENT PIERCE INSULTED.—*Washington, Aug. 5.*—Immediately after the adjournment of the Senate, this afternoon, as President Pierce was leaving the capitol, he was followed out and addressed by James M. Jeffards of Charlestown, S. C. Jeffards was considerably intoxicated at the time, and was in company with J. S. Duke of St. Louis, and J. F. Wiggins of New York, all of whom had been drinking. The President shook hands with Jeffards, who asked him to take a drink, which the President declined, and turned to enter his carriage. As he was doing so, his hat was knocked off by a hard boiled egg. Jeffards returded into the capitol, saying the President was a d——d fool. The President spoke to one of the police, asking if he had authority to make an arrest. Capt. Dunnington and officer Walles shortly after arrested Jeffards, who denied throwing the egg. An examination was had, when one witness testified that he saw Jeffards with an egg in his hand a few minutes previous to the assault, and another testified that he saw him throw an egg at and hit the President.—The Justice decided to hold Jeffards to bail; and the accused sent for Senator Evans of South Carolina, who declined becoming bail. In the meantime he became more sober, cried bitterly, and declared that if sent to jail he would not be living. He then took out a small knife, and stabbed himself in the leg, just above the knee, saying he was determined to bleed to death. As blood flowed profusely, he became alarmed, and allowed it to be examined, and was disarmed. The Attorney General then communicated to Capt. Dunnington the desire of the President that the prisoner be not prosecuted, and he was accordingly discharged.

THE GREYTOWN TROUBLES.—*New York, Aug. 8.*—The Herald, this morning, reiterates its statement of martial law having been proclaimed at San Juan, and in confirmation thereof publishes the proclamation issued by Commander Jolly of the British sch Bermuda, together with another, threatening a severe flogging to any one found committing theft or depredation.

The Herald's correspondent at Point Arenas also adds: "Commander Jolly informed us he would send after the brass piece that was taken from San Juan and placed here by Capt. Hollins of the Cyane. On the 20th inst., he sent a force of marines for the cannon, which he says belongs to Great Britain, and was left, for the protection of the town. He took it under the protest of the United States Commercial Agent. He has proclaimed martial law, and blockaded the port. He was about to put the pilot, an American, in irons, for going out to bring in the American brig Reveille, which arrived here on the 20th inst.; also told him he was risking his life by going out to bring any vessel in without his permission."

From Greytown.—Captain Tinklepaugh, of the Star of the West, publishes the following in the evening papers:—The report that the port of San Juan or Greytown, Nicaragua, is in a state of blockade, and that Point Arenas is held by the British Commander for any purpose whatever, is entirely unfounded.—On the contrary, everything was quiet at Greytown and Point Arenas when the "Star of the West" left. All excitement had subsided, and matters were in as satisfactory a condition as could be desired.

THE MEMPHIS NAVY YARD.—*Party before Country.*—Mr. Atchison of Missouri recently stated in debate, that he was somewhat responsible for the navy yard at Memphis. It was established since he had been in Congress.—It was laughed at when first proposed, but at the time the Whig and Democratic candidates for Governor of Tennessee were in Congress, one in the Senate the other in the House. The Whig member went around among his political friends, saying, "If you will only give me this navy yard at Memphis, I will be able to sweep the state." The Democratic candidate appealed to his party friends that unless he could get the navy yard, the Whig candidate would defeat him. (Laughter.) Both parties were placed under this sort of party duress, and they had to vote for the navy yard.—Had it not been for this circumstance, there never would have been a navy yard seven hundred miles from the seaboard.

The "navy yard" was subsequently discontinued, and ordered to be transferred to the Corporation of Memphis.

CONGRESSIONAL TRICK.—It appears that besides the bill with one item for harbor improvement signed by the President, an item for the removal of obstructions in a southern river was smuggled into the Army Appropriation bill and passed. As this bill has been sanctioned by the President, it would seem that rivers can be *improved* under the Constitution, provided the appropriation therefor has a *military escort.*

COLLISION. — Steamboat Governor from Portland for Eastport, on the 5th August, in a fog, run down the schooner Lady Arabella, which sunk. Two men on board the schooner were drowned; but a young woman was saved, and is alive, though apparently dead when taken from the water. The steamer leaked badly after the collision and had to be beached at Cranberry Islands.

NEW YORK INDUSTRIAL SCHOOLS.—The first industrial school for girls in the city of New York was opened in the month of February, 1853. Since then, eight or nine other schools of the same kind have been opened, and are supported by the charities of the benevolent. These institutions afford education to 946 poor girls, the average attendance of whom is 532. They are taught by 123 ladies, laboring as volunteer teachers, ten teachers salaried, and seven matrons. Among these schools there is one which is somewhat peculiar in its design. It is devoted to German girls, whose parents, though poor, are seldom abject or vicious. Their chief misfortunes are their ignorance of our language and manners, and their inexperience in city life. One of the chief aims of the school is to teach the children English, so that they may be enabled to enter the public schools. They are said to be the most interesting, docile, and affectionate class of children with which the missionaries have to deal.—*Boston Journal.*

LOCAL.

CITY MORALS.—On Monday night, an unfortunate citizen was committed to the Watch House lock-up, for being drunk and making a brawl and tumult. And on Tuesday afternoon, a woman, said to be Irish, was carried to the same place for about the same reason. She had a child with her when she was staggering about the streets. Prohibitory liquor laws are said to be unconstitutional. Perhaps they are so: but there *ought* to be a remedy somewhere, for evils so gross as these. If there is not, we need a new constitution, civil or moral.

POLICE.—Several years ago when a rowdy was arrested for obstructing the streets in this city, he refused to submit, because, he said, "we voted the Police down in town meeting." The other evening one of those unfortunate men who sometimes require the aid of the law to keep them in order, having heard that there were no legally elected Police officers this year, was enjoying his newly acquired liberty by obstructing the corner of the street. Upon being admonished by the police he refused to "recognize" their authority, and repeated the offence. We are glad to learn that the City Marshal immediately conveyed the delinquent to the lock-up. The Police authority will be sustained in the most energetic measures for abating the nuisance of obstructing the corners of the streets. The Bridewell is the best remedy; let it be used until a cure is effected.

☞ Uncle Toby acknowledges the receipt of a fine boquet of flowers, raised on Hanover street, creditable to the lady who cultivated them:—Of some bars of Cream Soap from Mr. F. Rogers, very clever indeed in a dirty world, and especially in warm weather, as it makes clothes clean without boiling:—and of a package of transparent soap, from Mr. Peyser, to make the face to shine, and also to make the articles luminous, when the hands and the noddle have been washed therewith.

VENERABLE TREES.—The woodman spares *not* the old trees. The last of the beautiful old elms in front of the Buckminster house, fell a martyr to the axe within a few days; and those in Daniel street, just above Chapel st. are being cut down. These last were dead, and so much decayed as to be unsafe; but that at the corner of Bridge street was perfectly sound, and we were sorry to see it go. A large limb fell from this tree into the street a few weeks since, about midnight, with a great crash, but did no damage, beyond startling some sleepers near by. We hope these old veterans will have quick successors.

NEW HAMPSHIRE LEGISLATURE.

The Belknap (Meredith Bridge) Gazette, whose editor (Rufus C. Stevens, Esq.) was a representative in the last General Court of New Hampshire, has given brief sketches of the characters of the most prominent men on the Whig side of the House. We extract a few remarks relative to those from this section:

Nesmith, Goodwin, Emery, Clark, Flanders, Eastman, Stevens of Nashua, Cragin, and Tappan, are, perhaps the most prominent and talented members of the House.

Mr. Goodwin and Mr. Emery are both gentlemen of high respectability and merit.

Mr. Emery was a law student of Ichabod Bartlett, and after being admitted to the bar, his law partner, and while that talented, honorable and eloquent man lived, shared his confidence, enjoyed his friendship and won his approbation. Mr. Emery is a sound lawyer, a man of industry, honest, gentlemanly, straightforward, without a stain on his character. He received one of the nominations for U. S. Senator.

Mr. Goodwin is a successful and distinguished Merchant. Like many of the most eminent business men of New England, he is the architect of his own fortune, a self-made man; at one time a sea captain. He has gained his position by no "royal road," but by hard work. Energy, determination, untiring perseverance and unwearied industry, have been his "handmaids," the agents of his success. It should be stated, in commendation of Mr. Goodwin, that he is a gentleman of high moral character, of enlarged and liberal turn of mind, charitable, generous, manly, ready to assist and promote any enterprise, and all commendable schemes and all good works; the friend and benefactor of the young, the industrious and the enterprising, who start in life often without friends and in need of pecuniary aid. Mr. Goodwin is fully competent and would do honor to any office in the gift of New Hampshire, and the time is not distant we hope, when he will consent to fill some prominent station. He is a man of intellect, nerve, sagacity, and would make his mark in any sphere in which he might be placed.

Mr. Clark, a lawyer, from Manchester, who was considered at the head of the Whigs in the House, is put down as a native of Strafham. He is a graduate of Dartmouth college, commenced his legal studies in the office of George Sullivan, and completed his course with James Bell.

Mr. Flanders, the author, mover and advocate of the anti-Nebraska resolutions, is a lawyer, also from Manchester.

GRANITE STATE BANK.—It was reported last week, through the Boston papers, that this institution, located in this town, had suffered to the amount of from $40 000 to $80 000, by means of the late frauds of Edward Crane.

We are happy to say, that this report is without the shadow of a foundation.—*Exeter News Letter.*

ARRIVAL.—Schr. Iowa, with a delegation of the Masonic Fraternity from Newburyport and Haverhill, touched at this port last evening, *en route* for Portland and the Isles of Shoals. From appearances we should judge their excursion is enjoyed only as can be appreciated by those of the mystic tie.

GEN. H. K. OLIVER, of Lawrence, has accepted an invitation to deliver the annual address before the York (Me.) County Agricultural Society, at Saco, on the 4th of October next.

PRETTY GOOD.—A friend of ours who doesn't keep school in a New England city, relates the following incident in her experience where she does keep school. The class in history was called up for a recitation.—"What are the Middle Ages?" inquired the teacher. There was an ominous pause. The teacher, to press the matter, made a personal application: "What are the Middle Ages, Lizzie?" Lizzie hesitated, but finally thought it was about *twenty-five*—another thought it about *thirty*—and still another applied the rule of arithmetic to the question, and thought it was *thirty-five*, because the natural age of man is three score and ten years, and thirty-five being the middle of that, the middle age must be about there.

These young ladies were loaded down with jewelry, and bedecked and bedizened with all the gew-gaws of fashion.—*Nashua Telegraph.*

HOW SCHUYLER WAS RE-ELECTED.—The Hartford Times relates how Schuyler, (whose acts under a false theory of agency it is proposed the stockholders should assume) was re-elected. When the time arrived for voting for directors, Mr. Schuyler, then President, drew from his pocket a large roll of tickets, on which were printed the names of those gentlemen he designed should be elected, and very modestly distributed them around the room. His own name stood conspicuously at the head of the list. He was also provided with a pocket full of proxies, procured from his friends, *the holders of spurious* as well as genuine *stock*, and it soon became evident that he had come with a weight of influence that it would be downright folly to oppose. It is needless to state that the men of his selection had a large majority of the votes which were cast.

It is stated that during the late fire in Lowell, a troop of 500 rats having fled before the fire, from house to house, at last took refuge in the crowded street, and galloped down that to a place of safety.

SUMMER GOODS at reduced prices—selling off at great bargains, at
jy25 W. J. LAIGHTON'S.

HOPS of 1853 growth—for sale by
jy27 LA FAYETTE LAIGHTON.

NEW YORK, August 7.—*From Jamaica and Barbadoes.*—We have Kingston papers to the 22d of July.

Much excitement was caused in Jamaica by the announcement of the bombardment of Greytown. The papers are most extravagant in their denunciations and demands of redress.

The Kingston Journal states that a subscription has been raised in that city, headed by his Excellency the Governor, for the relief of the suffering and poor inhabitants of Grey. town, and that an amount bordering on £100 has already been received. The same paper of the 22d, says: "We are happy to learn that the cholera at Barbadoes has considerably abated, particularly at Bridgetown, but not without having carried off between 11,000 and 12,000 persons."

GREAT FIRE AT WILLIAMSBURG.—*New York, 7th.*—Twenty or twenty-five wooden buildings were destroyed by fire yesterday at Williamsburg. The total loss is variously estimated $100,000 to 150,000—about half insured. The fire commenced on Grand street, and consumed nearly every building in the block bounded by Grand, 7th, 8th and So. First streets.

DESTRUCTIVE FIRE AT BREWER VILLAGE.—*Bangor, 7th.*—The new block of Sawmills at Brewer Village, owned by Sargent & Stevens, was burned yesterday morning, with 250,000 feet of lumber. The block contained one gang of saws, one single saw, lath, shingle and clapboard machine, sash and blind factory, &c. Loss estimated at 15 or $20,000; insured $9000.

Sch Canton, of Newburyport, lying at the wharf, was damaged about $1500.

CHARLESTOWN.—The ship carpenters in the Navy Yard at work on the frigate, who struck for $3, held out until Saturday, when an order was received at the yard to the effect that unless the workmen go into the yard to work in 24 hours after being notified, they shall be excluded from working in the yard hereafter, and they returned to work Monday morning at the old prices, $2,50 per day.

THE BROOKLYN MURDER.—*New York, Aug. 8.*—The Coroners' Jury in the case of John W. T. Tucker, of the Freeman's Journal, who murdered his son last week, brought in a verdict that the deceased came to his death from wounds inflicted by his father with malice prepense and aforethought.

BUFFALO, August 7.—There were 70 deaths from cholera in this city during the week ending Saturday night. Only four were Americans. The cholera has entirely disappeared at Niagara Falls.

NEW ORLEANS, Aug. 5.—A destructive fire broke out here today at noon, on Tchoupitulas street, and spread with great rapidity to Fouche, Lafayette and Magazine streets, destroying many stores and a large quantity of provisions and naval stores. The loss is estimated at $1,000,000.

A SEVERE PUNISHMENT.—We learn from Capt. Hewell, that a man came to the lock-up last evening and claimed shelter for the night under circumstances of a peculiar nature. His head was completely shaved, not a vestige of hair upon the cranium, in fact nothing visible but the bare scalp. His back was one mass of coagulated blood, caused, he said, by fifty stripes being inflicted upon him, at Fort McHenry.

In answer to questions from the captain, he stated that he had been a soldier in the U. S. army, stationed at Fort McHenry, and that he had deserted, and on being arrested, was sentenced to have his head shaved, to receive fifty lashes upon the bare back, and be drummed out of the service, which had accordingly been done. Since writing the above, we have learned that the name of the man is Patrick Kelly. We also understand that the two bugglemen who were detailed to lash him are now under arrest because they did not lay on the lash with more severity. It is said they will also be punished.—*Balt. Patriot.*

THE TEN MILLION MEXICAN FUND.—General Almonte being to leave the United States temporarily, the Mexican Consul stationed at New Orleans has been entrusted with the management of the $10,000,000 Mexican fund, now deposited with several banks in New York. It is not contemplated, however, to make any immediate transfer of the fund, which, it is understood, will remain where it now is until Santa Anna's necessities shall require disbursements.

STATE OF MAINE.

At a Court of Probate held at York within and for the County of York, on the first Monday in July, in the year of our Lord eighteen hundred and fifty-four, by the Honorable Joseph T. Nye, Judge of said County:

JOHN R. ROGERS, Guardian of Bernard W. Hanscom, Sarah Hanscom and John Hanscom, minors and children of Samuel Hanscom, late of Eliot in said county, deceased, having presented his petition for allowance out of the personal estate of said deceased, to his said Wards—

Ordered that the said petitioner give notice to all persons interested, by causing a copy of this order to be published three weeks successively in the Chronicle printed at Portsmouth in the State of New Hampshire, that they may appear at a Probate Court to be held at Alfred in said County on the first Monday of October next, at ten of the clock in the forenoon, and shew cause, if any they have, why the same should not be allowed.

MEXICAN MUSTANG LINIMENT—

Every land has hailed with
Xtacy this preparation whose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its tortures, have yielded to its
Magical influence; canners, contorted joints,
Ulcerated and swollen limbs that have
Suffered for years under the weight of disease,
Turn by its application to suppleness and health.
A remedy of such general usefulness that can
Restore newness of Action to the diseased nerves,
Arteries and glands of the human body;
Is worthy of high praise.

Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over diseases,
No matter of how long standing—sold at
The agents in all parts of the Union,

A. G. BRAGG & CO., Proprietors, 304 Broadway, New York. D. TAILOR, Jr., General Agent Boston. d6 2awlw f18

Over-issues of Stock

Please call at HENRY PEYSER'S
s4 New York Fancy Goods Store.

Additional Testimony for Gilbert's Polypodium.

MILFORD, N. J., Aug. 2, 1854.

MR. S. GILBERT,—It gives me pleasure to address you a few lines to state the good effects of your Extract of Polypodium. Having a severe attack on my Lungs last spring—spitting of blood, &c.—I was induced to try the Extract of Polypodium; and I can say it has done me great good. I am now enjoying a reasonable degree of health and strength; and would recommend it as the best medicine for such complaints now before the public. Yours respy, JAMES C. WRIGHT.

The Extract of Polypodium is manufactured and sold ot wholesale and retail by
S. GILBERT, No. 18 Exchange Buildings.
Portsmouth, N. H.

Lawrence's Carminative,

Hutchings's Cure for Cholera,

Cholera Morbus, Bowel Complaint & Dysentery.

THIS is the BEST medicine used for the above diseases. Of the many phials of the above medicine sold by me for the past two years, there has not been one failure to cure the patient that has come to my knowledge. Every family should have a Phial of this invaluable medicine in their house, as the above diseases are now very prevalent. Sold only by

BRACKETT HUTCHINGS,
a3 JGN6tis s No. 4 Market street.

BUTLER & POLDEMANN,

WOULD respectfully invite those who are desirous of introducing the FRESCO finish into their Churches, Halls, Dwellings, &c., to leave their orders at Wm. R. Preston's Drug Store, No. 2 Congress Block, Portsmouth, N. H., where they will be promptly attended to. a5

For Boating Parties.

THE PILOT BOAT SIBYL, Preble, is ready at all times to take large or small parties from Portsmouth to the Shoals, or any other place on the coast. She will be at the service of parties who may wish to cruise for a number of days. The Sibyl is a new and excellent boat of about 50 tons burthen, and has no superior for speed or accommodation.

For particulars apply, in Portsmouth, to JOHN CLARK, under the Chronicle Office; at New Castle, to R. A. PREBLE. a5*

HARPER'S

Gazetteer of the World.

THIS work has been undertaken to supply a want which is daily becoming more pressing. The Censuses of the United States, of Canada and British America, of Mexico, of Great Britain, and of the Continental States of Europe, are all of recent date; and of these the most important have been laboriously consulted, and their information arranged and classified in the best manner. The editor has had it constantly in view to present the greatest amount of useful matter in the smallest possible space; and confidently hopes that the work will fully meet the wants of the times, and that the general reader, the student and the artisan will find in it all the information adapted to their several requirements, brought down as nearly as possible to the present day, in a form more convenient than in any other work of similar character.

Harper's Gazetteer of The World is to be completed in TEN NUMBERS at 50 cents each; and will comprise about 1800 royal octavo pages, with seven new and accurate Maps.

☞ No. 1 can be seen, and subscriptions received, at the Bookstore of
jy26 JOSEPH H. FOSTER.

Pauline Chart.

J. F. SHORES, JR. No. 1 Congress Block, has for sale the PAULINE CHART—by J. W. Bonham. This chart comprises a map of the "Countries adjacent to the Mediterranean, illustrating the Acts of the Apostles."

Also, arranged according to time, an account of the principal occurrences in the Life of St. Paul, as follows: First Missionary Tour; Second Missionary Tour; Third Missionary Tour and Travels while a Roman Prisoner. Each occurrence is given with the name of the Place, its Locality and the Reference to the Chapter and verse.

Sunday School Teachers and Pupils will find this Chart a very great assistance in studying the Life and Travels of St. Paul, and it is highly recommended by clergymen who have examined it. jy27ĉ

To the Musical Public.

A. PEARSON,

TEACHER OF MUSIC,

WOULD respectfully give notice to the citizens of Portsmouth, that he would be happy to give instruction to a limited number of Pupils on the PIANO FORTE, ORGAN, THOROUGH BASS and SINGING.

Particular attention paid to the cultivation of the voice.

N. B.—Mr. P. is agent for Messrs. Hallett and Davis's celebrated Piano Fortes. Persons wishing to procure superior instruments will do well to consult him before purchasing elsewhere.

☞ Mr. Pearson has taken the spacious Room in the rear of the Chronicle Office, formerly occupied by Mr. T. P. Moses—where he may be found during business hours. Residence No. 44 Hanover Street. 3w*jy6

Sagamore House, in Rye.

FROST'S POINT.

THIS is an entirely new House, situated about four miles from the Portsmouth Depots. There is easy access to it by land or water. It is located on a point of land nearly surrounded by water, and seaward presents a finer view of the ocean, Isles of Shoals, &c, than can be obtained from any other house in Rye. An excellent view of Portsmouth and the Piscataqua River is also had from the top of the house The location of the Sagamore combines the advantages of quiet retirement in a beautiful country, with convenience of access and all the facilities enjoyed at other Beach Houses. The opportunities for Bathing and fishing are unsurpassed. Boats are always in readiness for the accommodation of visitors. A Pilot Boat touches regularly at the Point, on her daily trips to the Shoals.

The Sagamore House was newly furnished throughout, this Spring, in the best manner The Ladies' Parlor is fifty feet in length, and the Dining Room of the same proportions. The Sleeping Rooms are capacious and airy, and the building thoroughly ventilated.

An experienced man has charge of the house, and every facility provided, and no pains spared for the accommodation of all visitors who may favor us with a call.

The Tables will be provided with the best the market affords, for in this respect the proprietor wishes it distinctly understood that he will not be excelled by any other House in Rye or on the seashore.

TERMS.—For permanent boarders $1.00 per day. Transient visitors as cheap as elsewhere.

Carriages will be at the Portsmouth Depots on the arrival of every train of cars to convey passengers to the Sagamore House.

We ask ladies and gentlemen to give us a call and we will satisfy them that we will do all we promise.

THOMAS CLARK, Proprietor.
Rye, July 27. 2w

Hacking Notice.

FARE TWENTY-FIVE CENTS.

THE SUBSCRIBERS, 'ncluding all the proprietors of Hacks in Portsmouth, would respectfully inform the public, that after another trial of 12½ cent rates for Hacking, they find it impossible to work at that price, with hay and grain at the present high rates, and have therefore agreed that the charge for conveyance of passengers within the compact part of the city, shall be 25 cents, from and after this date.

je16 GEORGE A. DAVIS.

DYSENTERY, CHOLERA MORBUS

AND

DIARRHŒA ELIXIR,

PREPARED BY WM. R. PRESTON,

Druggist, Congress Block, Congress street.

AT this season of the year, when the above diseases are so prevalent, and in our larger cities, sweeping off a great portion of the population, it becomes every one to keep in his family a remedy that will immediately arrest its course and give certain relief. This is no quack nostrum; it has been used the present season by one of the first Physicians in New York, and in thirty cases out thirty-two of confirmed cholera, that came under his treatment, he was successful in the employment of the above remedy.

PRICE 50 CENTS A BOTTLE.

Sold by
jy21 1mpm WM. R. PRESTON, Apothecary.

BEWARE OF COUNTERFEITS!!

THE CELEBRITY OF

DR. S. O. RICHARDSON'S

Sherry Wine Bitters,

HAS induced several persons, who do not possess the least medical knowledge, to assume the title of Doctor, and put before the public an article in imitation of my Medicine, which they call Sherry Wine Bitters, and attempt to palm them off under the pretence that I have retired from business, and also that they manufacture an improved article of the same name.

I would say to those in pursuit of health, to be sure that you obtain the REAL article, which may be known by the Fac Simile of my signature upon the outside wrapper, covering each bottle, and also by the copyright border of the same covering.

Sold wholesale and retail at my office, No. 51 Hanover street, Boston, and by all dealers in Medicine in every city, town and village throughout the New England States.

N. B.—OTIS MORTON, JR., is my sole Travelling Agent for the N. E. States. je23 3m2aw*

The most extensive assortment in the city, just received at City Sales Room, 3 Congress Block, and for sale at wholesale and retail by
je26. GEO. W. TOWLE & Co.

The Greatest Medical Discovery of the Age.

MR. KENNEDY, of Roxbury, has discovered in one of our common Pasture Weeds a remedy that cures Every Kind of Humor, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humors.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and patches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle and a perfect cure is warranted when the above quantity is taken.

Nothing will be so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing on the pastures and along old stone walls, should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. There is no if's and ands, bums and ha's about its suiting some cases, but not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old; to old people of sixty. I have seen poor, puny, wormy looking children, whose flesh was soft and flabby, restored to a perfect state of health by three bottles.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some have taken it who have been costive for years, and have been regulated by it. Wherever the body is found it works quietly, but where there is any derangement of the functions of nature, it will cause very singular feelings; but you must not be alarmed; they will disappear in from four days to a week. There is never a case of humor but it will do some good, and that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

Nothing in the annals of Patent Medicines has ever been received by the public with so much favor as this simple preparation. It is now composed of nine different herbs. In May, 1832, when I commenced making a business of it, I sold about two bottles per day. In June, 1833, I sold 4320 bottles. In October, 1833, I sold 6120 bottles. I hope you will call that doing well; I do.

In my own practice, I confine it strictly to humors; but there are some who are so enthusiastic in its favor they think it will cure them will cure any thing and any body; they accordingly recommend it for every variety of disease. In this way a great many virtues of it have been found that I never would suspect.

Cases of Dyspepsia, of many years standing, that withstood every known remedy, have been permanently cured.

I know one man to gain 17 lbs. by taking three bottles; another 11 lbs.; another 10 lbs.; and another 7 lbs.—the venerable master Robinson of Boston.

In diseases of the Liver it is a specific. I know several with yellow skin and yellow eyes, the body emaciated and the mind melancholy, get fat and cheerful by a few bottles.

I know several cases of Dropsy, and one particularly bad. A lady, aged 79, was unable to leave her house for the last twelve years, was so much relieved (she was reduced in circumference forty-four inches) as to visit her friends in several neighboring towns.

Another had the Dropsy in her left leg, and was unable to walk for ten years, sometimes swelling to an enormous size; at last it began making a bad wound which could not be healed; by taking three bottles and using two boxes of ointment, she is how quite well. Why it should make some fat and others lean, I cannot tell, but so it is.

I know of several cases of Kidney complaints cured by it. Could the columns of a newspaper was a proper medium, I could tell of cases of this most distressing of all diseases that would make your heart bleed, that were permanently cured by it.

It has been lately found to be a sure cure for Panama fever. In one case the first spoonful put off the fit two hours. One bottle cured him. Another came home to die, and was relieved by his brother to try it. Three bottles cured him.

It likewise gives great relief in Asthma. A lady in Lawrence was unable to lie in bed for a number of years; she can now lie without the least inconvenience.

Isa lady in Weymouth just lost the use of her left side by the Erysipelas. On the second bottle, she broke out in one mass of humor from head to foot. In a few days she was well.

It has lately been found to be equally good for humor outside as inside, (taken inwardly in the meantime) for Erysipelas, Salt Rheum, Pimples on the Face, or any eruption of the skin whatever; only where the flesh is very sore you must dilute it with water.

When made weak enough it is the best eye-wash for weak and watery eyes that I ever saw.

Others use it to cleanse the dandruff out of the hair and strengthen its roots, which it certainly does, and to crown all, it made the hair grow on bald heads, which I had seen with my own eyes, I would not believe from you or anybody else.

As regards dieting, I never came across the first person that ever got any benefit from it. On the contrary, numbers came to death's door by it, as it gives the humors the upper hand. My medicine requires the most nourishing food you can get. It will soon give you an appetite.

Do not for a moment suppose that I warrant a cure of all those diseases, in every case. I merely tell you that it has done, hoping it will do the same for you. I do not warrant a cure in any disease but humors, *where it never fails.* For further particulars see the circular around each bottle.

No change of diet ever necessary. Eat the best you can get, and enough of it.

I have an herb, simmered in olive oil, scatters Scrofulous swellings of the neck and under the ears. Price fifty cents per box.

DIRECTIONS FOR USE. Adults, one table spoonful per day; children of eight years, dessert spoonful; from five to eight, tea spoonfuls. As no direction can be applicable to all constitutions, take enough to operate on the bowels twice a day.

Manufactured and for sale by DONALD KENNEDY, 120 Warren street, Roxbury

For sale by E. H. ROLLINS, Concord, N. H.

☞ Dealers wishing the Agency in New Hampshire, will please address E. H. ROLLINS, Concord, who will supply the trade at the manufacturer's prices.

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by W. Gibson, M.D., Prof. of Surgery, Pa. University. Valentine Mott, M.D., Prof. of Surgery, N. Y. "W. P. Dewees, M.D., Prof. of Mid., Pa. University. N. Chapman, M.D., Prof. of Physic, Pa. University. T. Parke, M.D., Pres't College of Physicians, Phila. Dr. Del Vallo, Prof. of Medicine, Havana. Jose Eourenco de Lua, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spaine. J. Chipman, late Chief Justice, Bermuda. Sir Thomas Pearson, Maj. Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of numerous dies, which have been used for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Diarrhœa, Bloody Flux, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STANDS, Fourth St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

UNITED STATES AND FOREIGN PATENT AGENCY,

No. 39 State Street, - - - - - - - - - - Boston.

SAMUEL COOPER,

Late Chief Examiner in the United States Patent Office,

Procures Patents in the United and Foreign Countries.

References.—The undersigned Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, lately a Principal Examiner in this Office; and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the Office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage:

HENRY B. RENWICK, T. R. PEALE,
L. D. GALE, THOS. H. EVERETT,
J. H. LANE, F. SOUTHGATE SMITH,
WM. CHANNING LANGDON,
Principal Examiners, *Assistant Examiners.*

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.
Boston, Dec. 31, 1853.

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Cramp, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Chest, Back, etc.

If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.

It is an English Remedy, and was used by William IV. late King of England, and certified to by him; as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Liniment, but considers warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's Office, 240 Green

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc. which street, New York.

Marble Chimney Pieces.

THE PENRHYN MARBLE is a new and beautiful article, manufactured of Stone imported from England, which is enameled in imitation of of the richest and most expensive Spanish, Galway, Egyptian, Pyronese, Lisbon, Sienna and other rare and desirable kinds of Marble—the imitation being so perfect as to challenge detection without the closest scrutiny. In style of finish these Chimney Pieces stand unequalled, being very highly polished—retaining their beauty much longer than common marble, and are not injured by oils, smoke, coal gas or acids. They have been extensively introduced into public and private buildings, giving great satisfaction to those who have used them. The best of references can be given, showing their adaptedness for general use, the subscriber having furnished some of the best dwelling houses in the city with them during the last two years.

While excelling all others in beauty of finish and appearance, they are sold much cheaper than any thing of the kind in the market. The subscriber has now in Store a complete assortment of the above named desirable Goods, to which he invites the attention of all interested in the trade.

je21 G. N. CARLETON, 15 Daniel st.

For Summer Riding.

C. H. SIDES & CO., having fully re-furnished their Stable with the best of Horses, and Carriages of the latest and most approved styles, for the summer travels, would respectfully invite a call from those about enjoying themselves by riding. The best and safest teams furnished, for any purpose, at reasonable rates.

HACKING in all its departments, attended to with promptness. Their splendid new Hack, the most beautiful carriage ever brought into Portsmouth, will run for public accommodation as heretofore.

Stable on State street, nearly opposite the Rockingham House. m31

Ocean House,

ISLES OF SHOALS.

THE subscribers respectfully inform their friends and the public that they have taken the well known House on SMUTTY NOSE, where they will be pleased to entertain all who may favor them with their patronage. Every attention will be given to make their sojourn with them pleasant during the hot months.

The Yacht SPY, Capt Goodwin, will run daily to the Islands from Pier Wharf, Portsmouth, at 10 o'clock, A. M., or on arrival of cars from Boston and Concord. LEMUEL L. CASWELL,
je22 2me EDWARD S. FOSS.

Appledore House,

ISLES OF SHOALS.

STEAM having dried out in Portsmouth, the subscriber has the pleasure to announce to his old friends and the public, that he has chartered the beautiful YACHT SPY, of 40 tons burden, and has had the good fortune to secure the services of Capt. JAMES W. GOODWIN, the well known pilot, as master. His skill, carefulness and attention will secure to the travelling public a more safe, expeditious, comfortable and pleasant journey from the Islands, than has hitherto been attained.

She will leave PIER WHARF, foot of State Street, Portsmouth, every day (Sundays excepted) immediately after the arrival of the trains from Boston and Concord, and return in season for the evening trains.

Many alterations and improvements have been made in the establishment to make it more convenient and comfortable.

A good and abundant supply of Ice has been carefully laid in, and the facilities for fishing perfected.

To the invalid, the weary and the active pleasure seeker, this location presents attractions not equaled in New England.

je1tf THOMAS B. LAIGHTON.

Gerrish House,

KITTERY POINT, MAINE.

THIS Establishment having been put in perfect order, will open for visitors on the 15th of June. Every attention will be given to make this House one of the most pleasant Summer resorts. Kittery Point is celebrated for its conveniences for bathing, fishing and sailing. Arrangements have been made to afford every facility for guests to enjoy the above amusements. The Post Office is within three minutes' walk of the House. A coach runs regularly twice a day to and from the Point, via the U. S. Navy Yard, arriving at and leaving the City of Portsmouth, three miles distant, on the arrival and departure of the cars. For further particulars address the proprietor, at Kittery Point, Me.

For Sale.

HOUSE on Christian Shore, suitable for a small family. If applied for immediately will be sold low. Apply to
April 17. E. S. WENDELL.

HOUSES FOR SALE.

THE DWELLING HOUSE, No. 9 School street. This is a well built house, two (high) stories in good repair, and is convenient for one family or two families, or for a large Boarding House. It contains nine or more rooms and two sculleries, and has an excellent cellar under the whole house. The situation is central, being about equi-distant from the markets, factories and railroads. Connected with this house is a building which has been and may be occupied both as a barn and a work-shop. If not sold soon, a part or the whole of the premises will be rented.

The DWELLING HOUSE No. 6 Green street. This house is fitted for two tenements; it is well built, was thoroughly painted and put in good order the last season, and is well calculated for two families, (having about 6 rooms each) and may be considered a good location for persons employed at the north end. It is centrally located between the different ship-yards in that section of the city. each tenement will be sold separately, if desired.

The DWELLING HOUSE No. 7 Liberty street, corner of Charles street. This house was formerly owned and occupied by the late Peter M. Lowd and is in good order. Attached to it is a lot of land large enough for a Stable or for another dwelling house. The situation is very pleasant, being about equi-distant from the markets, factories and railroads. Connected with this house is a building which has been and may be occupied both as a barn and a work-shop. If not sold soon, a part or the whole of the premises will be rented.

The DWELLING HOUSE No. 6 Green street. This house is fitted for two tenements; it is well built, was thoroughly painted and put in good order the last season, and is well calculated for two families, (having about 6 rooms each) and may be considered a good location for persons employed at the north end. It is centrally located between the different ship-yards in that section of the city. each tenement will be sold separately, if desired.

The DWELLING HOUSE No. 7 Liberty street, corner of Charles street. This house was formerly owned and occupied by the late Peter M. Lowd and is in good order. Attached to it is a lot of land large enough for a Stable or for another dwelling house. The situation is very pleasant, being about equi-distant from the markets, factories and railroads. Connected with this house is a building which has been and may be occupied both as a barn and a work-shop. If not sold soon, a part or the whole of the premises will be rented.

The DWELLING HOUSE No. 47 Bow street.—This house has been built but a few years, is well finished off, and is very convenient. The rear is quite a large garden spot. This would be a desirable place for a person employed at the shipyards, or at the Navy Yard nearly opposite.

Also, for sale, a BUILDING LOT, on Mount Vernon street, opposite No. 2, with a small building thereon, which can be finished off into a Dwelling house.

All of the above property will be sold on liberal terms, if applied for soon. For further particulars apply to JOSEPH M. EDMONDS.
Feb. 27. No. 9 Islington street.

TO LET—The STORE on the corner of Vaughan and Deer streets. It was occupied as the first Union Store in this city, and is considered as a good stand for business. It is within a few rods of the Boston and Concord Railroad Depots. Possession can be had immediately.

FOR SALE—The HOUSE in the rear of the above, on Vaughan street—a convenient house for two families; and has been occupied for about six years, by the same tenants. It rents for $160. For information, terms, &c., call on JOSEPH L. LOCKE, on the premises, or JOSEPH M. EDMONDS, 9 Islington st. m29

Pure Ice

in any quantity, may be had at all times, at the Brick Market, at Market Square. 2mje6

MORNING CHRONICLE.

BY MILLERS & GRAY. PORTSMOUTH, N. H., THURSDAY, AUGUST 10, 1854. VOLUME 5. NO. 9.

THE DAILY MORNING CHRONICLE

is published by FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER, *At No. 4 Exchange Buildings*, Pleasant Street, ... PORTSMOUTH, N. H.

TERMS $4 a year, or $3 if paid strictly in advance.

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING.—For a Square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

The New York Tribune copies from Hunt's Merchants' Magazine a table of the price of wheat per bushel at Albany, on the 1st o January, for sixty-one years, and upon this table remarks:

You will notice that only five times in all those years wheat has been $2 or upward per bushel, while it was seventeen times at $1 or under—twice at seventy-five cents. Only once in thirty seven years, that is since 1817, to wit, in 1837, has it reached $2. The average price for the whole period is $1.38. For the last thirty years it is $1.25, and we give it as a prophecy, which we think may be relied upon, that that will be the price next January. Those who are interested may as well make a note of that. The crop of wheat is too good, too wide extended, and the demand for export to Europe or California too limited, and flour speculators too hard up to maintain present prices. You may as well mark that, Messrs. Farmers & Wheatbuyers.

DEFINITION OF A KISS.—The following definition of a kiss was translated from an old German work. We publish it for the benefit of our lady readers, who will doubtless appreciate our labors in their behalf:

What is a kiss? A kiss as it were, is a zeal of expressing our sincere attachment; the pledge of our future union; a dumb, but at the same time audible language of a living heart; a present which at the same time it is given, is taken from us; the impression of an ardent attachment, on an ivory coral press; the striking of two flints against one another—a crimson balsam for a love wounded heart—a sweet bite of the lips—an affectionate pinching of the mouth; a delicious dish which is eaten with scarlet spoons; a sweet meal which does not satisfy our hunger; a fruit which is planted and gathered at the same time; the quickest exchange of questions and answers of lovers; the fourth degree of love.

A GREAT JOKE.—It is said by the jokers about town—we give the story as we hear it—that a few days since, a colored gentleman, who had become pretty much of a nuisance, was found *dead*—drank. The wags of the vicinity ordered the Sexton to leave a coffin for a cholera subject, and call in half an hour. When the hearse arrived, the coffin was duly lifted to its place, and a small procession moved towards the receptacle of dead humanity. When the party were about lifting the coffin from the hearse, the subject revived, and perceiving his critical position he burst the lid, and landed at one bound among the mourners, a sober man. His first impulse and his first threats were to flog the crowd, but perceiving that that would be undertaking rather a large contract, he compromised the matter for a ride home upon the hearse. As the cortege returned, all the women and gossips ran to their doors to ascertain why the coffin was brought back. They were all duly assured that the victim had come to life, and he was pointed out sitting on his own coffin, whistling, "Oh, carry me back to old Virginny. The best of the joke is, the negro has given up drinking, and worked industriously ever since. The story has gone to Cleveland, and by this time it is probably reported that twenty live men are buried daily in Toledo.—*Toledo Blade.*

WELL DONE MISSISSIPPI!—NOVEL WAY TO KILL FLEAS!—A certain academy in Clarke county, Mississippi, had been the resort of a parcel of hogs, under whose structure they took shelter from the inclement weather. In the course of time, the *fleas* became very numerous, and so annoyed the students as to cause the teacher to call together the trustees, to devise ways and means to get clear of this troublesome vermin. After consulting upon the matter, the most *sure* means to rid the place of the fleas was thought to be *burning* them up. Accordingly a large quantity of fine straw was collected and spread round and under the house, and set on fire.—In a short time every flea that there inhabited, it is supposed by those who were present, was consumed in the flames or made his way off so badly scared as never to return to the scene of so dreadful havoc. While all this was going on, and such a general destruction being made among the fleas, the flames might have been seen making their way through the roof of the academy, and in less than one half hour the entire house had fallen a prey to the devouring element, with books and everything else appertaining thereto. If any of our readers are annoyed by fleas, we recommend the above as a sure and effectual means to get clear of them. The above was stated to us as being literally true.—*Alabama Standard.*

Rockingham Ice

FOR SALE by the Cargo or in large quantities, at the lowest rates.
JOSEPH HARVEY,
Agent Rockingham Ice Co.

SAMUEL CLEAVES & SON,
BLEACHED and UNBLEACHED SPERM OIL. North West do., Whale Oil and extra Bleached Polar OIL.
Fresh OILS will be received every few weeks, and will be sold at the manufacturer's prices, by SAMUEL CLEAVES & SON, at their Candle Manufactory opposite the Eastern Railroad Station.
We have constantly on hand, (and for sale) of our own manufacture—Candles, Tallow, Hard Soaps and Fancy Soaps, and Soap Stock. m21

Garden Engines.
JUST received at "the sign of the Big Coffee Pot" a full supply of Garden or Fire Engines, which are respectfully commended by the subscriber to the notice of the public. Wherever these Engines have been introduced they have invariably given entire satisfaction. They are unsurpassed for power, capacity or usefulness. From the size of the air chamber sufficient power is obtained to enable one man to throw a steady stream of water to the height of fifty feet perpendicularly, thereby rendering it a desirable article as a PROTECTION AGAINST FIRE.
And for washing windows of second and third stories of buildings, carriages, &c. With a newly invented water diffuser as a Garden Engine it defies competition. The diffuser is a perfect and simple article, and its superiority over the common rose sprinkler is that it will throw three times the quantity of water a much greater distance and spread it perfectly even, with less power applied. An Engine with a diffuser of this description, used in orchards and gardens to throw soap suds on the young trees, will destroy many kinds of vermin liable to injure the fruit and be an invaluable addition to the implements of the Nurseryman and Horticulturist.
jy8 J. E. CHAPMAN, 18 Daniel st.

A GREAT BOOK
For Booksellers and Agents for every town and city in New England to sell.

MRS. STOWE'S NEW WORK,
EDITTED

PATENTS.
American and Foreign Office.
AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.
Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.
R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ——.
"R. H. EDDY, Esq., Boston, Mass.
"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,
Yours, &c. THOMAS EWBANK,
Commissioner of Patents."
Boston, Dec 7, 1853 eodly

HOUSE SCALES—Three sizes suitable for family use—for sale by E. A. STEVENS.

Morning Chronicle.

THURSDAY, AUGUST 10, 1854.

OUR COUNTRY'S GLORY.

The brilliant affair at Greytown is reflecting its rays upon us from almost every quarter.—The Jamaica papers appear to be angry because our government has acted in this matter so much like the British government in many similar cases; and also appears to be quite unnecessarily alarmed, lest our steamers should some day bombard Kingston.

Commander Hollins carried out his instructions to the letter, and as a soldier and sailor must have the credit of it:—and the President and Cabinet must have all the glory of planning the expedition and giving the instructions.

The New York Herald attributes the act to a deliberate design of the President and Mr. Marcy, to involve us in a difficulty with England, without caring what it costs, if they can divert public attention from their own unsuccessful administration. The Herald says:

One of our national vessels, by order of our government, has destroyed a city mainly inhabited by Englishmen, Americans and Frenchmen. The provocation for the deed was not such as to justify any measure of the kind; in fact, there was no provocation at all. We shall, therefore, in the first place, be called upon to satisfy the claims of all the Englishmen, Americans and Frenchmen, who were sufferers by the destruction of San Juan. It is impossible to conceive any honest defence by which the required payment can be evaded. The United States are clearly and wholly responsible to the holders of property at San Juan for the value of all such property destroyed by Capt. Hollins and his men, whether those owners were Americans or foreigners. We must therefore prepare for a tremendous bill of damages to be presented by the English and French ambassadors to the treasury department; and so soon thereafter as our minds can be made up to do the right thing, we must pay it, and look pleasant. Our own fellow citizens' claim will be much larger in amount; is must likewise be settled promptly and in full. This little business—this diversion of Mr. Marcy's—will cost us at the start three or four millions of dollars.

The Herald takes the ground that the United States ought to hold the Isthmus, unless some Central American government is strong enough to take care of it; but scouts the Greytown business as a piece of bad management; and says:

The chances are that the present position of affairs—from the destruction of San Juan to the usurpation of Musquito and the chase of the Cyane by the British—was deliberately calculated and foreseen by the President. We know that the great outrage was distinctly directed and planned by Mr. Marcy. He must have known that it would rouse a fierce resentment on the part of the English, and that one lawless act on our part would probably lead to other lawless acts on theirs. The meanest comprehension could not help foreseeing the imminent danger of a collision between them and us, arising out of such acts. For our part, we have not the smallest doubt but that Marcy did foresee it, calculated upon it, and desired it. We believe that he was and is seeking to plange this country into a war with Europe—not for the purpose of gaining any substantial point or asserting any principle of immediate moment, for we have nothing just now to gain or to assert by such a conflict—but solely in order to divert attention from the corrupt and imbecile policy which has brought infamy on the administration of which he is a member.

We don't believe half of it. Nor do we see much danger of a collision. We have got the glory, and by and by we shall pay roundly for it.

THE CROPS OF MAINE.—The Bangor Whig has the following with regard to the crops:

The hay crop has been secured in excellent order, and is a fair crop; in some parts of the State much better than last year.

Winter wheat, in this vicinity, has returned a good crop, but not much was sown.

The corn crop promises well, but begins now to suffer on account of the severe drouth. The potato crop will suffer severely for want of abundant rains.

The summer, as well as the past winter, has been unpropitious for trees, large numbers having blighted in whole or in part. The growth of healthy fruit trees has been large."

THE HARVEST.—Our farmers are now in the midst of their harvest, says the Beaver Dam (Wisconsin) Republican; and such a harvest! Oh, it would do those down easters good just to see the stacks of grain that are being put up here. The blight has had but very little effect, and the yield is enormous. The threshers will soon be in operation, and then will begin to return the reward for their labors.

NORTH CAROLINA ELECTION.—The returns of the election in North Carolina, are still so incomplete that the result cannot be known until the whole State is heard from.—It is probable that the run is very close.—There is a large Whig gain in the counties from which returns have been received, compared with the last gubernatorial election in August, 1852, though as compared with the subsequent Presidential election, when the State was about equally divided, the Democrats have gained. For the Legislature, so far as returns have been received, there has been a net Democratic gain of four Members. In the present Legislature the Whigs have 4 majority in the House, the Democrats 6 in the Senate. But the Democratic majority of 2 on joint ballot was not sufficient for the election of a U. S. Senator.—*Boston Journal.*

NORTH CAROLINA.—There is nothing new from the North Carolina election. The chances are all in favor of the Democrats.

LOVE, SUICIDE AND MARRIAGE.—On Monday we gave a brief account of an attempt at self destruction with a pistol, at Ypsilanti, by a young lady who arrived from Chicago in search of a young man who had been trifling with her affections, to "break an honest promise in love." The young lady was not one of that kind who

"Never told her love,
But let concealment, like a worm i' the bud,
Feed on her damask cheek;
And with a green and yellow melancholy,
Sat like Patience on a monument
Smiling at grief."

She sallied out in search of her truant lover, who lived at Ypsilanti. She came prepared for desperate things. On her arrival, "the girl he left behind" him, found he was absent at Adrian, and she tried to shoot herself to assuage her grief. The mother of the young man, supposing he had been playing falsely with the fair one, immediately set her off in charge of another son—giving him a hundred dollars to pay expenses—to hunt up the undutiful boy and get an explanation, and have full justice meted out, if justice was in the premises.

After starting for Adrian, the two proceeded cosily on the road as far as Saline—a distance of nine miles—from where, the next day, the mother very unexpectedly received a letter from her son, saying that after looking the subject all over, he had concluded to marry the girl *himself*—that the job had been done up; and that they had concluded to proceed on to New York, Saratoga, Nahant, Newport, &c., to spend the honey moon, and the—one hundred dollars.

After making the acquaintance of the brother she evidently said to herself that,

"Now my love is thaw'd,
Which like a WEXEN image 'gainst a fire,
Bears no impression of the thing it was"

toward the 'tother brother, at Adrian. Under the circumstances, inasmuch as it was "all in the family," and a "bird in the hand is worth two in the bush," she concluded to take the one she could make sure of. Surely, the "tide of true love never did run smooth."—*Detroit Advertiser.*

ONE OF THE ABUSES OF LAW.—The last English mails contain accounts of a case of legal oppression such as is by no means uncommon in that country. A man named William Miller was imprisoned for debt in Winchester jail, thirty-nine years ago. He remained there closely immured until the present year, having passed the last three years and eight months in solitary confinement. At the age of seventy-one years, after spending the greater portion of his life within the dark walls of his prison cell, he was removed to the Queen's prison in London, where he now enjoys comparative liberty.—Thirty-nine years a prisoner! Could he be freed from his confinement and permitted to go forth into the busy scenes of life, what wonderful changes he would discover. Railroads, steamboats, telegraphs, and a hundred other remarkable inventions would arrest his attention, if indeed he had sufficient intellect remaining after near forty years imprisonment to comprehend them. An old man, past the allotted term of human life, he would go forth a helpless wanderer among the strangers of an unknown world.

SLAVE PIRACY.—A Frenchman, called Donald, but who says his name is Samuel Nicholas, was brought before Hon. Edward D. Ingraham, U. S. Commissioner, in Philadelphia, on Saturday, on a charge of taking negroes from Africa to Cuba, as captain of the Grey Eagle, in May last. The testimony of Joseph Town, a young man who was on the vessel during the whole voyage, is positive.—He says they sailed from New York direct to the coast of Africa. They made a slave deck when twenty days out, and took more than six hundred negroes on board at some part of the coast of Africa, not known to him, and brought them to an unfrequented part of Cuba, where they landed them. The slaves were put on board by other negroes. About sixteen died on the passage. The case was postponed until yesterday, on account of the absence of witnesses.—*Boston Advertiser.*

The Roman Catholic priest at Port Jarvis, New York, was lately liberal in the use of the horse-whip upon some of the faithful. In the ecstacy of the work, however, some of the blows missed the true Church and fell outside upon one Daniel B. Brown, who forthwith caused his reverence to be arrested for assault and battery, who was found guilty and fined $80.

These outside people must be got inside before you can touch them up with a whip with any comfort.

CRIME IN NEW YORK.—There are no less than eight persons in the Tombs at New York, confined on charge of murder. The calendar of the Court of Sessions which opens to-day, is as follows:—Murder, 8; arson, 5, attempt at arson, 2; forgery, 10: stabbing 2: burglary, 11; larceny 18; attempt at grand larceny, 3; robbery, 2; carrying slung shot, 1; false pretences, 4; bigamy, 2; embezzlement 3; receiving stolen goods, 5; felonious assault and battery, 3.

LOW-NECKED DRESSES.—A correspondent of the New-York Mirror, writing from Newport, R. I., says:

"The decollete fashion of dress seems to have gone out of fashion; and there are fewer stunningly low-necked dresses and baby sleeves this season than one usually encounters in so large a crowd of beautiful women. Whether this 'reform' comes from a growing modesty, or from fear of mosquitoes, the ladies themselves can best decide."

STEAMER ADMIRAL.—A despatch from Eastport, dated August 7, states that the steamer Admiral had been got off and towed into that port. There is a large hole in her bottom, but it is thought she can be repaired. Her machinery has suffered very little damage except by water, and she will probably be placed upon the line again. The trial has fully tested her strength and build.

DANGEROUS ILLNESS OF DR. WOODS.—The Rev. Dr. Woods of Andover is very dangerously ill. His disease is an affection of the heart, and no hopes are entertained of his recovery.

LOCAL.

CITY IMPROVEMENTS.

We have felt much regret to perceive the mill ponds at the north and south of our city, so rapidly filling up. In a few years, at the present rate, their beds would hardly be found. The railroads have tended much to reduce the North pond, which from a large and beautiful sheet of water, has become so shallow that at low tide it is not at all pleasant; and the South pond seems to decrease fully as fast. This must be a source of regret to all who appreciate these once fine bays. We need these ponds for breathing holes for the city, as well as for ornament. The dwellers on the banks of this pond, at least take no especial pains to *prevent* its being filled up, as the made land to a certain extent is theirs; and unless some public move is made to prevent it, we shall ere long have no ponds worthy the name.

There have been several efforts on the part of the proprietors of the North pond, to get a charter for the construction of a bridge across, nearly opposite the almshouse; but through opposition from some owner of a fraction of tide water here, this has been prevented in the Legislature. When this is done, it will open a new section of beautiful building lots to our citizens, and add greatly to the value of all property on the other shore of the pond.

But our attention was particularly drawn to this subject now, by a gentleman of taste and observation, respecting the South pond. This, as stated by a correspondent a few days since, is becoming an intolerable nuisance, especially at low tides, from the great exposure of the flats; and cannot be a healthy or comfortable neighbor.

The talk about bridging this pond, to a public Common on the pleasant sloping land on the southern shore, has thus far been *only* talk, we regret to say. It was the idea of the gentleman referred to above, to have the new street at the Universalist church, extended across to Auburn street. This would run along the shore of the pond, which could be dug out and preserved. The owners of the land on the westerly side of Auburn street, have, we are informed, a road planned, which would be a continuation of this proposed cut, —from Auburn street to Wibird's Hill. The earth necessary for filling in across the flats, could be dug to advantage from those of our streets which are graded too high.

We give these views as worthy of consideration and attention. Unless something is done, we shall lose much of our city's natural attraction,—to say nothing of health—in losing the old Mill Ponds.

POLICE COURT.

TUESDAY, Aug. 8.

Samuel Wilson was brought up on a warrant for being drunk and making a brawl and tumult on Monday evening. On Wednesday the case came up by adjournment,—and he was sentenced to thirty days in the House of Correction, and to pay a fine and costs amounting to $12.

He appealed and was ordered to give bail with two sureties for $100 for his appearance at Court.

ANTI-CORROSIVE PENS.—We have for a week or two been using "Herts Brothers' Amalgamated Iridium, Zinc, and Platina Pens." We find them to be really anti-corrosive. Some other pens that we have used, have resisted corrosion so long as the coating on the surface lasted; but we have filed into these new pens, and find them entirely free from corrosion, after being for hours exposed to the action of common black ink—*common,* said we! nay, not so, extra,—"Gilbert's real Yankee jet black." These pens are manufactured of four sizes, and warranted not to corrode. We recommend them as excellent.—For particulars see advertisement.

LAUNCH.—A white oak ship of about 1100 tons was launched on Tuesday from the yard of John Currier, jr., at Newburyport. She is owned in Newburyport, and is named the Oliver Putnam, in honor of the memory of one of our deceased merchants, who has left to Newburyport a noble monument of princely munificence in the Free High School which bears his name, and for the foundation and support of which he provided the ample sum of $50,000. We are glad that a name which has rendered itself worthy of honorable remembrance among the merchants of the place and in the records of the town, has been given to one of our staunch and gallant ships, to be borne far and wide to every land and every clime.—*Newburyport Herald.*

NOT BAD.—We clip the following capital hit from the Waterford Sentinel:

If you wish to keep your town from thriving, turn the cold shoulder to every young mechanic or beginner in business, look upon every new commer with a jealous scowl. Discourage all you can; if that wont do decry his work, and rather go abroad for wares of his kind, than give him your money. Last, tho' not least, refuse to patronise the village paper. "Then go to seed."

Sensible to the very last!

The New Orleans papers of the 2d inst. state that the famous bark Grapeshot, which had been at anchor off the mouth of the Mississippi for two months, had suddenly disappeared.

BY ROYAL LETTERS PATENT.
HERTS BROTHERS'
AMALGAMATED IRIDIUM, ZINC AND
PLATINA PENS,
Warranted not to Corrode.

HERTS, BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating that objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

MANUFACTORY, BIRMINGHAM, ENGLAND,

May be had, Wholesale, at the Manufacturers' DEPOTS,

DOCTOR YOURSELF!
THE POCKET ÆSCULAPIUS:
OR, EVERY ONE HIS OWN PHYSICIAN.

THE FORTIETH Edition, with One Hundred Engravings, showing Diseases and Malformations of the Human System in every shape and form. To which is added a Treatise on the Diseases of Females, being of the highest importance to married people, or those contemplating marriage.

BY WILLIAM YOUNG, M. D.

Let no father be ashamed to present a copy of the Æsculapius to his child. It may save him from an early grave. Let no young man or woman enter into the secret obligations of married life with out reading the POCKET ÆSCULAPIUS. Let no one suffering from a hacknied Cough, Pain in the Side, restless nights, nervous feelings, and the whole train of Dyspeptic sensations, and given up by their Physician, be another moment without consulting the Æsculapius. Have the married, or those about to be married any impediment, read this truly useful book, as it has been the means of saving thousands of unfortunate creatures from the very jaws of death.

☞ Any person sending TWENTY-FIVE cents enclosed in a letter, will receive one copy of this work by mail, or five copies will be sent for one dollar. Address, (post paid,)

DR. WM. YOUNG,

THREE DAYS LATER FROM EUROPE.

NEW YORK, August 8.—The steamship Arabia, Capt Judkins, from Liverpool, 29th ult., arrived at a quarter past 7 o'clock P. M.

She brings 132 passengers.

The market reports keep up the price of cotton, and indicate no alteration in the business at Manchester. The grain market had materially fallen under the splendid appearance of the crops in England; but the scarcity of American flour, of good quality, had kept up its price.

In the London stock market there was little or no change in prices. Money was in fair demand; but there was no change in the rate of discount.

SUMMARY.—The War news is exceedingly scanty.

It is evident that the Czar will not abate his pretensions. His reply to Austria's final summons is not yet published, but it is known to be haughty and unfavorable. The Austrian government meantime says, in general terms, "Austria will not disappoint the hopes of Europe."

Prussia daily shows less and less of siding with the Western Powers.

Mecklenbergh was the only state of the German Band not voting unanimously to adopt the Austro-Prussian alliance.

There is no news from the Baltic.

The Russian war steamer Volga was captured by the English squadron in the White Sea.

The Russian fleet is reported to have left Sebastopol. Consequently the allied fleets left Balschik Bay in search of it.

The Spanish insurrection remains triumphant. The position of affairs is unchanged, the fighting is all over, and all the country for a moment is quiet, awaiting Espartero's arrival at Madrid.

Ex Queen Christina is still hiding.

Queen Isabella keeps close in her palace.

France and England favor a new Ministry, and Espartero, but disapprove of a regency.

LATEST.—Russia asks for an armistice.

It is reported that, at a recent Cabinet Council at Vienna (no date) Austria and Prussia decided that the Czar must first leave the Principalities before his proposals can be considered.

ITALY, July 27.—The permanent Council of War is sitting. Two soldiers were sentenced to death and shot at Parma.

SECOND DESPATCH. — The Emperor of Russia is stated to have said to the Austrian Representative, "Tell your master that if he wants war, he shall have it; but probably neither he nor I will see the end of it."

Constantinople letters state that the Austrian Internuncio has expressed himself very strongly at Omer Pasha's presumption in crossing the Danube, after it had been agreed that the Principalities should be occupied by Austria.

According to the Paris Patrie, the Russians have completely evacuated the Dobrudscha.

The Russians are fortifying Brailow in the strongest manner.

The French transport Pericles, with 200,000 francs on board for the army of Turkey, came in collision with a steamer off Malaga, and sunk with its treasure.

100 picked men of the London Police are to be sent to the army in Turkey to act under the orders of a Provost Marshal.

Eight new ships of war have been commenced during the week, ranging from eight to twenty guns. Several more gun boats (steam) have been launched, and would reach the Baltic the second week in August.

NEW YORK, August 8. — The steamer Ericsson went down the bay this morning on a trial trip, with one engine only; the other will be ready for use in about a week. We understand that steam has been substituted for hot air, but the steam is generated and applied on a principle much more economised than that now in use.

This amounts to saying that the *hot air scheme* does not succeed, but has failed and is abandoned by its projectors and friends. The Ericsson is to be a steamboat and nothing else.

STATE OF MAINE.

At a Court of Probate held at York within and for the County of York, on the first Monday in July, in the year of our Lord eighteen hundred and fifty-four, by the Honorable Joseph T. Nye, Judge of said County:

JOHN H. EGGERS, Guardian of Bernard W. Hanscom, Sarah Hanscom and John Hanscom, minors and children of Samuel Hanscom, late of Eliot in said county, deceased, having presented his petition for allowance out of the personal estate of said deceased, to his said Wards—

Ordered that the said petitioner give notice to all persons interested, by causing a copy of this order to be published three weeks successively in the Chronicle printed at Portsmouth in the State of New Hampshire, that they may appear at a Probate Court to be held at Alfred in said County on the first Monday of October next, at ten of the clock in the forenoon, and shew cause, if any they have, why the same should not be allowed.

Attest,—FRANCIS BACON, Register.

A true copy.

MEXICAN MUSTANG LINIMENT—

Every land has hailed with Xtacy this preparation whose Intrinsic merits has introduced its Curative powers to the notice of the whole American people. Rheumatism of long duration, Neuralgia, with its tortures, have yielded to its Magical influence; canners, contorted joints, Ulcerated and swollen limbs that have Suffered for years under the weight of disease, Turn by its application to suppleness and health. A remedy of such general usefulness that can Restore newness of Action to the diseased nerves, Arteries and glands of the human body, Is worthy of high praise.

Let the rheumatic, halt, lame and palsied Invalid examine its qualities, and they will Not be disappointed. Years of study and Investigation have enabled the proprietors of the Mexican Mustang Liniment to furnish a remedy, Extraordinary in its power over diseases, No matter of how long standing—sold at The agents in all parts of the Union,

A. G. BRAGG & CO., Proprietors, 304 Broad, way, New York. D. TAYLOR, Jr., General Agent Boston. d6 2awlw f18

Please call at HENRY PEYSER'S
a4 New York Fancy Goods Store.

Additional Testimony for Gilbert's Polypodium.

MILFORD, N. J., Aug. 2, 1854.

MR. S. GILBERT,—It gives me pleasure to address you a few lines to state the good effects of your Extract of Polypodium. Having a severe attack on my Lungs last spring—spitting of blood, &c.—I was induced to try the Extract of Polypodium; and I can say it has done me great good. I am now enjoying a reasonable degree of health and strength; and would recommend it as the best medicine for such complaints now before the public. Yours resp'y, JAMES C. WRIGHT.

The Extract of Polypodium is manufactured and sold at wholesale and retail by
S. GILBERT, No. 18 Exchange Buildings.
Portsmouth, N. H.

Lawrence's Carminative,

Or Child's Pain Killer,

WILL cure Colic, Pain in Bowels, Wind in Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Nettle Rash, and other disorders incident to Weaning and teething; Sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomach, relieve pain and give tone, energy and strength to the whole system. Hutchings's Cure for Cholera,

Cholera Morbus, Bowel Complaint & Dysentery.

THIS is the BEST medicine used for the above diseases. Of the many phials of the above medicine sold by me for the past two years, there has not been one failure to cure the patient that has come to my knowledge. Every family should have a Phial of this invaluable medicine in their house, as the above diseases are now very prevalent. Sold only by
BRACKETT HUTCHINGS,
a3 1cw6tis No. 4 Market street.

BUTLER & POLDEMANN,

WOULD respectfully invite those who are desirous of introducing the FRESCO finish into their Churches, Halls, Stores, &c., to leave their orders at Wm. R. Preston's Drug Store, No. 2 Congress Block, Portsmouth, N. H., where they will be promptly attended to. a5

For Boating Parties.

THE PILOT BOAT SIBYL, Preble, is ready at all times to take large or small parties from Portsmouth to the Shoals, or any other place on the coast. She will be at the service of parties who may wish to cruise for a number of days. The Sibyl is a new and excellent boat of about 50 tons burthen, and has no superior for speed or accommodation.

For particulars apply, in Portsmouth, to JOHN CLARK, under the Chronicle Office; at New Castle, to R. A. PREBLE. a5*

HARPER'S

Gazetteer of the World.

THIS work has been undertaken to supply a want which is daily becoming more pressing. The Censuses of the United States, of Canada and British America, of Mexico, of Great Britain, and of the Continental States of Europe, are all of recent date; and of these the most important have been laboriously consulted, and their information arranged and classified in the best manner. The editor has had it constantly in view to present the greatest amount of useful matter in the smallest possible space; and confidently hopes that the work will fully meet the wants of the times, and that the general reader, the student and the artisan will find in it all the information adapted to their several requirements, brought down as nearly as possible to the present day, in a form more convenient than in any other work of similar character.

Harper's Gazetteer of The World is to be completed in TEN NUMBERS at 50 cents each; and will comprise about 1800 royal octavo pages, with seven new and accurate Maps.

☞ No. 1 can be seen, and subscriptions received, at the Bookstore of
jy26 JOSEPH H. FOSTER.

Pauline Chart.

J. F. SHORES, Jr. No. 1 Congress Block, has for sale the PAULINE CHART—by J. W. Bonham. This chart comprises a map of the Countries adjacent to the Mediterranean, illustrating the Acts of Apostles.

Also, arranged according to time, an account of the principal occurrances in the Life of St. Paul, as follows: First Missionary Tour; Second Missionary Tour; Third Missionary Tour and Travels while a Roman Prisoner. Each occurrence is given with the name of the Place, its Locality and the Reference to the Chapter and verse.

Sunday School Teachers and Pupils will find this chart a very great assistance in studying the Life and Travels of St. Paul, and it is highly recommended by clergymen who have examined it. jy27

Window Shades, Fixtures, Tassels,

To the Musical Public.

A. PEARSON,

TEACHER OF MUSIC,

WOULD respectfully give notice to the citizens of Portsmouth, that he would be happy to give instruction to a limited number of Pupils on the PIANO FORTE, ORGAN, THOROUGH BASS and SINGING.

Particular attention paid to the cultivation of the voice.

N. B.—Mr. P. is agent for Messrs. Hallett and Davis's celebrated Piano Fortes. Persons wishing to procure superior instruments will do well to consult him before purchasing elsewhere.

☞ Mr. Pearson has taken the spacious Room in the rear of the Chronicle Office, formerly occupied by Mr. T. P. Moses—where he may be found during business hours. Residence No. 44 Hanover Street. 3w*jy6

Sagamore House, in Rye.

FROST'S POINT.

THIS is an entirely new House, situated about four miles from the Portsmouth Depot. There is easy access to it by land or water. It is located on a point of land nearly surrounded by water, and seaward presents a finer view of the ocean, Isles of Shoals, &c, than can be obtained from any other house in Rye. An excellent view of Portsmouth and the Piscataqua River is also had from the top of the house. The location of the Sagamore combines the advantages of quiet retirement in a beautiful country, with convenience of access and all the facilities enjoyed at other Beach Houses. The opportunities for Bathing and fishing are unsurpassed. Boats are always in readiness for the accommodation of visitors. A Pilot Boat touches regularly at the Point, on her daily trips to the Shoals.

The Sagamore House was newly furnished throughout, this Spring, in the best manner. The Ladies' Parlor is fifty feet in length, and the Dining Room of the same proportions. The Sleeping Rooms are capacious and airy, and the building thoroughly ventilated.

An experienced man has charge of the house, and every facility provided, and no pains spared for the accommodation of all visitors who may favor us with a call.

The Tables will be provided with the best the market affords, for in this respect the proprietor wishes it distinctly understood that he will not be excelled by any other House in Rye or on the seashore.

TERMS.—For permanent boarders $1.00 per day. Transient visitors as cheap as elsewhere.

Carriages will be at the Portsmouth Depots on the arrival of every train of cars to convey passengers to the Sagamore House.

We ask ladies and gentlemen to give us a call and we will satisfy them that we will do all we promise.

THOMAS CLARK, Proprietor.
Rye, July 27. 2w

Hacking Notice.

FARE TWENTY-FIVE CENTS.

THE SUBSCRIBERS, including all the proprietors of Hacks in Portsmouth, would respectfully inform the public, that after another trial of 12½ cent rates for Hacking, they find it impossible to work at that price, with hay and grain at the present high rates, and have therefore agreed that the charge for conveyance of passengers within the compass of the city, shall be 25 cents, from and after this date.

J. W. STOCKING, Piscataqua House.
W. H. DENNETT, 2d, Vaughan street.
ISRAEL MARDEN, City Hotel.
C. H. SIDES & CO., State street.
W. D. PERKINS, Franklin House.
PORTSMOUTH, N. H., July 14, 1854.

Farm for Sale.

THE subscriber offers for sale his FARM in Portsmouth, formerly known as the Wentworth place, and more recently as the Wm. Sheafe farm, containing about 52 acres, suitably divided into pasture, mowing and tillage land, with a dwelling house and other buildings. On the farm is a good orchard of grafted fruit.

For further particulars apply to
jy18 STEPHEN A. BENNETT.

je16 GEORGE A. DAVIS.

DYSENTERY, CHOLERA MORBUS

AND

DIARRHŒA ELIXIR,

PREPARED BY WM. R. PRESTON,

Druggist, Congress Block, Congress street.

AT this season of the year, when the above diseases are so prevalent, and in our larger cities, sweeping off a great portion of the population, it becomes every one to keep in his family a remedy that will immediately arrest its course and give certain relief. This is no quack nostrum; it has been used the present season by one of the first Physicians in New York, and in thirty cases out thirty cases of confirmed cholera, that came under his treatment, he was successful in the employment of the above remedy.

PRICE 50 CENTS A BOTTLE.

Sold by
jy21 1mjx WM. R. PRESTON, Apothecary.

BEWARE OF COUNTERFEITS!!

THE CELEBRITY OF

DR. S. O. RICHARDSON'S

Sherry Wine Bitters

HAS induced several persons, who do not possess the least medical knowledge, to assume the title of Doctor, and put before the public an article in imitation of my Medicine, which they call Sherry Wine Bitters, and attempt to palm them off under the pretence that I have retired from business, and also that they manufacture an improved article of the same name.

I would say to those in pursuit of health, to be sure that you obtain the REAL article, which may be known by the Fac Simile of my signature upon the outside wrapper, covering each bottle, and also by the copyright border of the same covering.

Sold wholesale and retail at my office, No. 51 Hanover street, Boston, and by all dealers in Medicine in every city, town and village throughout the New England States.

N. B.—OTIS MORTON, Jr., is my sold Travelling Agent for the N. E. States. je23 3m2aw*

DR. ORDWAY'S
HUMOR DISCOVERY,
AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by friends and those who have used it, and saw its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing his man in a few days. The natives, when bitten by a rattles ake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will remove Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head.
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.

Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all-gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA.

A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS.

It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.

One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,

It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him, and he has now resumed his studies. A lady in Salem was perfectly cured of Spinal Medical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.

☞ Price $1.00. ☜

HE HAS ALSO A HUMOR SALVE,

Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.

PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.

This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicine yet discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.

PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.

This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.

PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

Swaim's Celebrated Panacea,
FOR THE CURE OF
INCIPIENT CONSUMPTION,
Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by W. Gibson, M.D., Prof. of Surgery, Pa. University. Valentine Mott, M.D., Prof. of Surgery, N. Y. W. P. Dewees, M.D., Prof. of Mid., Pa. University. N. Chapman, M.D., Prof. of Physic, Pa. University. T. Parke, M.D., Pres't College of Physicians, Phila. Dr. Del Valle, Prof. of Medicine, Havana. Jose Eourenco de Luz, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spaine. J. Chipman, Member Roy. Coll. Surg., London. Sir Thomas Pearson, Maj. Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a group of Lady Liberty, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, 146 Market st. corner of Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

UNITED STATES AND FOREIGN
PATENT AGENCY,
No. 39 State Street, - - - - - - - - - - Boston.
SAMUEL COOPER,
Late Chief Examiner in the United States Patent Office,
Procures Patents in the United and Foreign Countries.

References.—The undersigned Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, lately a Principal Examiner in this Office; and we have no hesitation in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the Office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY B. RYDWICK, T. R. PEALE,
L. D. GALE, THOS. H. EVERETT,
J. H. LANE, F. SOUTHGATE SMITH,
WM. CHAUNCY LANGDON,
Principal Examiners, *Assistant Examiners.*

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.
Boston, Dec. 31, 1853.

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to HORSE LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Chest, Sick, etc.

If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.

It is an English Remedy, and was used by William IV. late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was at $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Liniment, but considers warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's Office, 240 Green st.

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Childs, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc.

Agents in Portsmouth—B. Hutchings, S. Gilbert, W. R. Preston and J. H. Wells. n21 eod&wly

Marble Chimney Pieces.

THE PENRHYN MARBLE is a new and beautiful article, manufactured of Stone imported from England, which is enameled in imitation of of the richest and most expensive Spanish, Galway, Egyptian, Pyronese, Lisbon, Sienna and other rare and desirable kinds of Marble—the imitation being so perfect as to challenge detection without the closest scrutiny. In style of finish these Chimney Pieces stand unequalled, being very highly polished—retaining their beauty much longer than common marble, and are not injured by oils, smoke, coal gas or acids. They have been extensively introduced into public and private buildings, giving perfect satisfaction to those who have used them. The best of references can be given, showing their adaptedness for general use, the subscriber having furnished some of the best dwelling houses in the city with them during the last two years.

While excelling all others in beauty of finish and appearance, they are sold much cheaper than any thing of the kind in the market. The subscriber has now in Store a complete assortment of the above named desirable Goods, to which he invites the attention of all interested.

je31 G. N. CARLETON, 15 Daniel st.

For Summer Riding.

C. H. SIDES & CO., having fully re-furnished their Stable with the best of Horses, and Carriages of the latest and most approved styles, for the summer travels, would respectfully invite a call from those about enjoying themselves by riding. The best and safest teams furnished, for any purpose, at reasonable rates.

HACKING in all the departments, attended to with promptness. Their splendid new Hack, the most beautiful carriage ever brought into Portsmouth, will run for public accommodation as heretofore.

Stable on State street, nearly opposite the Rockingham House. m31

Ocean House,
ISLES OF SHOALS.

THE subscribers respectfully inform their friends and the public that they have taken the well known House on SMUTTY NOSE, where they will be pleased to entertain all who may favor them with their patronage. Every attention will be given to make their sojourn with them pleasant during the hot months.

The Yacht SPY, Capt Goodwin, will run daily to the Islands from Pier Wharf, Portsmouth, at 10 o'clock, A. M., on arrival of cars from Boston and Concord. LEMUEL L. CASWELL,
je22 2mo EDWARD S. FOSS.

Appledore House,
ISLES OF SHOALS.

STEAM having died out in Portsmouth, the subscriber has the pleasure to announce to his old friends and the public, that he has chartered the beautiful YACHT SPY, of 40 tons burden, and has had the good fortune to secure the services of Capt. JAMES W. GOODWIN, the well known pilot, as master. His skill, carefulness and attention to the travelling public a more safe, expeditious, comfortable and pleasant transit to and from the Islands, than has hitherto been attained.

She will leave PIER WHARF, foot of State Street, Portsmouth, every day (Sundays excepted) immediately after the arrival of the trains from Boston and Concord, and return in season for the evening trains.

Many alterations and improvements have been made in the establishment to make it more convenient and comfortable.

An abundant supply of Ice has been carefully laid in, and the facilities for fishing perfected.

To the invalid, the weary and the active pleasure seeker, this location presents attractions not equaled in New England.

je17o THOMAS B. LAIGHTON.

Gerrish House,
KITTERY POINT, MAINE.

THIS Establishment having been put in perfect order, will open for visitors on the 15th of June. Every attention will be given to make this House one of the most pleasant Summer resorts. Kittery Point is celebrated for its conveniences for bathing, fishing and sailing. Arrangements have been made to afford every facility for guests to enjoy the above amusements. The Post Office is within three minutes' walk of the House. A coach runs regularly twice a day to and from the Point, via the U. S. Navy Yard, arriving at and leaving the City three times daily, distant, on the arrival and departure of the cars. For further particulars address the proprietor, at Kittery Point, Me.

For Sale.

HOUSE on Christian Shore, suitable for two small families. If applied for immediately will be sold low. Apply to
April 17. E. S. WENDELL.

HOUSES FOR SALE.

THE DWELLING HOUSE, No. 9 School street. This is a well built house, two (high) stories, in good repair, and is convenient for one family or two families, or for a large Boarding House. It contains nine or more rooms and two sculleries, and has an excellent cellar under the whole house. The situation is central, being about equi-distant from the markets, factories and railroads. Connected with this house is a building which has been and may be occupied both as a barn and a work-shop. If not sold soon, a part or the whole of the premises will be let.

The DWELLING HOUSE No. 6 Green street. This house is fitted for two tenements; it is well built, was thoroughly painted and put in good order the last season, and is well calculated for two families, (having about 6 rooms each) and may be considered a good location for persons employed at the north end. It is centrally located between the different ship-yards in that section of the city, each tenement will be sold separately, if desired.

The DWELLING HOUSE No. 7 Liberty street, corner of Charles street. This house was formerly owned and occupied by the late Peter M. Lowd and is in good order. Attached to it is a lot of land large enough for a Stable or for another dwelling house. It would make a good place for the residence of a person employed at the shipyards across the river, or at the Navy Yard.

The DWELLING HOUSE No. 47 Bow street.—This house has been built but a few years, is well finished off, and is very convenient. In the rear is quite a large garden spot. This would be a desirable place for a person employed at the shipyards, or at the Navy Yard nearly opposite.

Also, for sale, a BUILDING LOT, on Mount Vernon street, (opposite No. 2,) with a small building thereon, which can be finished off into a Dwelling house.

All of the above property will be sold on liberal terms, if applied for soon. For further particulars apply to JOSEPH M. EDMONDS,
Feb. 27. No. 9 Islington st.

TO LET—The STORE on the corner of Vaughan and Deer streets. It was occupied as the first Union Store in this city, and is considered as a good stand for business. It is within a few rods of the Boston and Concord Railroad Depots. Possession can be had immediately.

FOR SALE—The HOUSE in the rear of the above, on Vaughan street—a convenient house for two families, and has been so occupied for about six years, by the same tenants. It rents for $160. For information, terms, &c., call on JOSEPH L. LOCKE, on the premises, or JOSEPH M. EDMONDS, 9 Islington st. m29

MORNING CHRONICLE.

BY MILLERS & GRAY. PORTSMOUTH, N. H., FRIDAY, AUGUST 11, 1854. VOLUME 5. NO. 10.

THE DAILY MORNING CHRONICLE

is published by

FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER,

At No. 4 Exchange Buildings,

Pleasant Street,.....PORTSMOUTH, N. H.

TERMS $4 a year, or $3 if paid strictly in advance.

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING.—For a Square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

LEATHER BELTS,

Manufactured from the best Oak Leather

THOROUGHLY STRETCHED by powerful Machinery, cemented and rivited,—and are warranted to RUN STRAIGHT on the Pullies.—A full supply constantly on hand.

Double or single BELTS, of any width, made to order and warranted.

C. L. RICHARDS,
27 *and* 29 *CENTRAL STREET,*
Jy26 3taw2m BOSTON.

10,000 *Bottles Sold since the First of January.*

DR. ORDWAY'S
HUMOR DISCOVERY,
AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattles ake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head.
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.

Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all-gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA.

A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS.

It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.

One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,

It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.

☞ **Price $1.00.** ☜

HE HAS ALSO A HUMOR SALVE,

Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.

PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.

This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicicine yet discovered has that decided effect in curing Bronchia affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.

PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.

This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.

PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

SAMUEL CLEAVES & SON,

BLEACHED and UNBLEACHED SPERM OIL, North West do., Whale Oil and extra Bleached Polar OIL.

Fresh OILS will be received every few weeks, and will be sold at the manufacturer's prices, by SAMUEL CLEAVES & SON, at their Candle Manufactory opposite the Eastern Railroad Station.

We have constantly on hand, (and for sale) of our own manufacture—Candles, Tallow, Hard Soaps and Fancy Soaps, and Soap Stock. m21

Garden Engines.

JUST received at "the sign of the Big Coffee Pot" a full supply of Garden or Fire Engines, which are respectfully commended by the subscriber to the notice of the public. Wherever these Engines have been introduced they have invariably given entire satisfaction. They are unsurpassed for power, capacity or usefulness. From the size of the air chamber sufficient power is obtained to enable one man to throw a steady stream of water to the height of fifty feet perpendicularly, thereby rendering it a desirable article as a

PROTECTION AGAINST FIRE,

And for washing windows of second and third stories of buildings, carriages, &c. With a newly invented water diffuser as a Garden Engine it defies competition. The diffuser is perfect and simple article, and its superiority over the common rose sprinkler is that it will throw three times the quantity of water a much greater distance and spread it perfectly even, with less power applied. An Engine with a diffuser of this description, used in orchards and gardens to throw soap suds on the young trees, will destroy many kinds of vermin liable to injure the fruit and be an invaluable addition to the implements of the Nurseryman and Horticulturist.

J. E. CHAPMAN, 18 Daniel st.

PATENTS.
American and Foreign Office.
AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal thereof within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ——

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent I am very respectfully,

Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Boston, Dec 7 1853. eodly

Morning Chronicle.

FRIDAY, AUGUST 11, 1854.

For the Chronicle.

COST OF MAIL TRANSPORTATION.

The North live upon the hundred and fifty millions of Southern capital, as some of the Southern journalists state. In respect to the transportation of the mails, that strong statement is not supported. It appears that in 1852, the amount of postage collected in the sixteen free states was $3,709,051.17, while the cost of transportation was $2,068,544.57; although in Michigan, Illinois, and California, the transportation exceeded the collections $60,990.46. In the fifteen slave States the amount of postage collected was $1,322,023.33, while the cost of transportation was $2,058,413.66—a difference of $736,390.33, which may be considered as drawn from the public treasury; while the free States may be considered as paying into the public treasury $1,640,506.60, for the benefit of the slave as well as the free States. The deficiency of the South, and the overplus paid by the free States amount to $2,376,896.93. But to the Southern deficiency is to be added another gross amount for a larger per centage to Southern than to Northern postmasters, as the amount collected in the Southern is less than in the Northern offices, and of course the rate is higher. The mail is transported over sparsely populated Southern regions, and some mail routes are established to accommodate a few wealthy individuals, where the postage collected does not pay a tenth part of the cost of transportation.

It may, therefore, be fairly estimated that the North are taxed, directly and indirectly, over a million and a half for the support of the Southern mails. This is, however, a small item against the free States, in comparison to the collection and payment of the public revenue, and its disbursement for Southern purposes. The South are comparatively poor, with their annual products less than five hundred millions in value; while the North with annual products estimated at thirty hundred millions, can perhaps afford to be very liberal towards their Southern brethren, in their present unfortunate condition.—This condition, and the true cause of it, is involved in no mystery. We allude to it, not to draw invidious comparisons, but with a motive to promote the Southern welfare and prosperity. We appreciate labor and its dignity. The wealth of a State consists in its annual products—the agricultural being the principal,—and not in the quantum of the precious metals. A great abundance of the latter tend to ultimate impoverishment of any country. In most of our slave States, labor is considered to be degrading to all who are not slaves, and as the labor of the latter is not half so productive as free labor, and as the white population, generally, not being owners of the soil, have no regular employment, the ultimate sterility of the soil becomes a natural consequence. The planters will not employ and pay wages to white men, while they can carry on their plantations without paying wages. This is the true explanation of the general state of indolence, with all its deplorable concomitants, at the South.—Foreign immigrants, who depend upon labor for the means of subsistence, seek other places for settlements.

We see at once why the free States pay an undue proportion for the transportation of the public mails, which are of but little use to an indolent and unlettered population. Without entering the field of argument upon a momentous subject in which all are interested, we remark that while labor has neither its requisite stimulus or just reward and honor, our Southern States can never compare in prosperity and wealth with the Northern, until the whole structure of Southern society shall be remodeled. This truth is beginning to be understood by no small portion of the most enlightened Southrons; and while they travel through the Middle and Northern States they are astonished at the mighty contrast, the result of general industry and our free institutions. Wisdom teaches them to profit by our example. T.

☞ A mass convention assembled at Biddeford, Maine, on Wednesday, and nominated John M. Wood of Portland, as their candidate for Representative in Congress, from the 1st District in Maine.

In the speeches and resolutions, the repeal of the Missouri compromise was strongly condemned; resistance to any further encroachment of the slave power was recommended; and the repeal of the fugitive slave law advised.

Two Dromios.—A well dressed boy was brought before the police court in Boston last week, for discharging a piece of fire-works in the street, contrary to law. As the trial was about to proceed, a twin brother of the accused presented himself, and so perfect was the resemblance, both as to dress and features, between the two, that the officer who witnessed the offence and made the arrest was unable to swear which was the offender, and both were permitted to depart in consequence.

THE ELECTIONS.

From *Missouri*, it appears that Mr. Benton gives place to a whig in the House of Representatives at Washington.

A private despatch from St. Louis states, that Luther M. Kennett, the Whig candidate to Congress, is elected over Thomas H. Benton by 600 votes, and that the entire American ticket was triumphant in the city. It adds that a riot was then taking place.

From *North Carolina*, there are a variety of conflicting reports.

A Louisville despatch of the 9th says:

Briggs gains in Clingman's district and is elected by a reduced majority. So far sixteen of each party are elected to the Senate, and twenty-seven Whigs and thirty-five Democrats to the House; the probability is there will be a Whig Senate and Democratic House.

A letter from Asheville reports large gains for Dockery in Clingman's district. The letter states that Briggs is elected by a small majority, that the Legislature is close, but thinks it is in favor of the Whigs.

By a Raleigh despatch of the 8th, returns from just one half of the state show a gain of 2260 for the Whigs on the last gubernatorial election, when Reid (Democrat) was elected by 5564 majority.

The Standard (Democrat) says the Governor, Senate and House will be Democratic.

The Register (Whig) says that Dockery's gains, compared with Reed and Kerr's vote, are 3,376 in forty-two Counties. The Standard says that Briggs's gain as compared with the Presidential vote for Pierce and Scott is 1000 in thirty-three counties.

Finally, a despatch from Raleigh, (the capital,) of the 9th, says:

Dockery is believed to be elected. The Postmaster of Salem writes that 50 counties are heard from, in which Dockery gains 5,553 votes.

In *Iowa*—a despatch from Muscatine, Iowa, to the Tribune, says:

The election has resulted in the triumph of the Whig anti-Nebraska and prohibitory liquor law ticket. We have chosen Senator, Representatives and the whole county ticket, and given 128 majority for Grimes for Governor.

The Difference.—Mr. Borland is hit by a glass bottle, or something of the kind; and to revenge the injury and wipe out the disgrace, an armed ship goes out and burns a town, driving the people into the wilderness, and running up a bill of costs.

Mr. Pierce is hit by a hard boiled egg, which knocks the presidential hat off; quite as great an insult, and almost as great an injury. To avenge this, the police lay hold on the criminal, but he stabs his leg and says he will die if he goes to jail: whereupon President Pierce says don't prosecute the man—and the prosecution dies.

We have no doubt Mr. Pierce is as good a man as Mr. Borland—and we have always supposed that the President was a higher officer than a Minister to Nicaragua. But some how or other the ambassador has a thinner skin than the president. In the President's case, however, the man who threw the egg had been hit by a bottle before the fray began.

If the destruction of Greytown was necessary to avenge the insult to Mr. Borland, the sacking of the city of Washington would no more than compensate for this disgrace to the country, which caused its chief magistrate to stand uncovered before the princes of the earth.

The Destruction of Greytown.—A correspondent of the New York Tribune, a passenger in the steamer Star of the West, which arrived at New York on Monday, after a visit to the ruins of Greytown, says:

Certainly it was a sad spectacle to see the heaps of ruins, cinders and cannon balls, where a little time before stood a handsome and populous town. Out of a population of 600 souls, occupying 200 dwellings, not more than fifty of the people and twenty houses remained. All was desolation; and the thought could not be repressed "Why was such havoc necessary upon an unarmed and defenceless people, for an offence utterly inadequate."

Minister Borland, after his undignified bravado on board the steamer, when an officer, was sent to arrest Capt. Smith, had no business ashore; and if, under excitement, he was pelted by a mob, why should hundreds of thousands of dollars, the property of innocent people, be destroyed with bomb and fire, to expiate the fancied insult? It is to be hoped that Congress will not have failed to sift this matter to the bottom. It is unbecoming a powerful nation thus to wreak vengeance upon an unarmed people, instead of calling Great Britain to account, whose authority is exclusively exercised in the name of the Mosquito King.

It was painful to witness the suffering occasioned by this bombardment and burning.—One case came under our notice of a most distressing character. Among the American residents was a boatman by the name of Clark—a soldier and wounded at the battle of Buena Vista—who, with his wife, had been some time at Greytown, and acquired buildings and property worth probably $5000.—Mrs. Clark had been ill of the fever of the country, and from the exposure and privations during the attack and the burning of her dwelling over her head, a stroke of paralysis was induced, which rendered her utterly helpless—and thus for two weeks had she been in unspeakable agony, without medical attendance or comforts of any kind. Her cries could be heard for a considerable distance from the temporary hovel hastily set up to shelter her from sun and rain. It was indeed a piteous case to see the tears course down the cheeks of this bereaved man, and hear his reproaches upon the government which destroyed his property, in requital for his blood shed in the battles of his country. Surely there is a wrong to be redressed.

LOCAL.

BOARD OF ALDERMEN.

In the Board of Aldermen, last evening, the Mayor notified the Board of certain repairs required on school houses—referred.

Maj. Dimick applied for sidewalk in Daniel street—granted.

The Mayor gave notice that the Lafayette Bridge required immediate repairs—referred to the Mayor.

The committee to whom the subject was referred, report that it is inexpedient to extend the common sewer on Cass street—adopted.

The Committee on Burying Grounds report that the repairs on the Cotton Burying be made, and repairs on other grounds be postponed on account of the smallness of the appropriation.

Police Justice Parker made his quarterly report; had received $59 20 beside amount paid witnesses, leaving $9 30 over his salary. Report accepted and laid on the table because fees had been paid to persons not recognized as officers by the majority of the board of Aldermen.

For the Morning Chronicle.

Fast Driving.—*Messrs. Editors:*—Is there no way to put a stop to the horse-racing which is of such common occurrence in Middle street? Not a day passes but the lives of many of our citizens are endangered by a practice at once brutal, demoralizing, and, I believe, illegal. If so, ought not our city marshal look to it; if he is ignorant of the matter, or waits for a complaint to be entered, it may be well enough to inform those engaged in it, that unless it ceases, a prosecution will be commenced by several of our citizens. It is shameful that the nuisance has been so long tolerated. P.

For the Chronicle.

KITTERY POINT.

One of the most healthy and beautiful places on our coast for a summer retreat, is Kittery Point. At this place a convenient and airy hotel is located. The house is kept by Mr. Weston. While on a recent aquatic excursion with several ladies, we touched at this landing. The gentlemanly landlord politely escorted us through the rooms of his house, when a simultaneous and involuntary exclamation was breathed by the whole of our company, "What a convenient, airy, and beautiful house; and what a charming prospect, too." From the piazza and windows of this house you behold the deep blue sea stretching many miles east and west—including a view of the Isles of Shoals, Fort Constitution, town of New Castle, Whale's Back Light, Gerrish's Island, Portsmouth Harbor on the South, and turning your eyes northward, a most charming landscape view, including Agamenticus, &c.

All the life of the deep, swift Piscataqua is before your eyes. Picnic parties of ladies and gentlemen, and fishing parties of the same are numerous, passing and repassing, and frequently "touching in" for the finest drop-cakes and sparkling tea, among agreeable sojourners—and where Nature has made the spot picturesque and delightful. There are good conveniences for bathing on the shore near the house. Also pleasure boats for sailing and fishing are connected with the establishment. Abundance of various sorts of fish are at hand here, and the finest life-resuscitating boat rides are enjoyed on the clear Piscataqua, even out upon the deep, deep sea, at pleasure.

Go to Kittery Point for health and enjoyment, and require even more such watering places there. The location is elegant.

Attillio.

Common Schools.—We have just received the Annual report of the Common Schools in New Hampshire, in a pamphlet of about 200 pages.

The whole number of scholars reported is 87,825: in the winter schools, 58,071; summer, 69,071. Average attendance, summer, 45,862; winter, 54,091. The amount paid for public schools for one year, $212,324. Amount paid for tuition in private schools, $23,494.30. Number of persons between 14 and 21 who can neither read nor write 428; increase of these in one year 352! This item shows plainly where ignorance comes from: it does not grow here; it is imported.

In the winter schools there are 1153 male, and 1127 female teachers; in the summer, 43 males, and 2077 females.

Man Drowned.—Mr. William Footman of Durham, N. H., as we learn by the Newmarket Express, was on the flats in that town making salt hay, Wednesday, and not returning home at his customary hour, search was instituted for him, and his body was found in about two feet of water; it is supposed that he fell in a fit and was drowned.

Pocket Picking.—Mr. Samuel Sinclair of Stratham, N. H., had his pocket picked at the Maine Railroad depot, on Monday forenoon, of a wallet containing $75 and two certificates of stock in the Boston and Maine Railroad.

HERTS BROTHERS'
AMALGAMATED IRIDIUM, ZINC AND
PLATINA PENS,
Warranted not to Corrode.
HERTS, BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.
This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.
Caution.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "Herts, Brothers' Patent, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.
MANUFACTORY, BIRMINGHAM, ENGLAND,
May be had, Wholesale, at the Manufacturers' DEPOTS,
1 *Jewry street, Aldgate, London, and of*

HOPS of 1853 growth—for sale by
jy27 LA FAYETTE LAIGHTON.

in this city to-day was not subdued until twenty large stores were entirely consumed. They were occupied by 26 firms, all heavy losers, the aggregate amount not falling short of $1,000,000.

The heat was intense and several sun strokes occured. The engines were short of water, but by great exertion the fire was confined to Tchoupitoulas, Commerce, Foucher and Magazine streets.

NEW YORK, August 9.—The steamship Africa sailed at two o'clock this afternoon for Liverpool, with 87 passengers and $750,000 in specie.

A pleasure boat, crowded with passengers, was upset on the Hudson river last evening, near Carnansville, and five persons (four females and a child) were drowned.

FROM THE PROVINCES.—The New Brunswicker, which has always been opposed to surrendering the fishing grounds to the Americans, says nothing of the new treaty, except to note its passage by the Senate. The St. John News has the following :—

THE RECIPROCITY TREATY.—Now that the American government has ratified the Elgin treaty, there is no alternative but to accept it in the Provinces. Jonathan has got the best of the bargain. But notwithstanding this, we look upon this measure as an opening for the brightest future that New Brunswick has ever known. Instead of now being confined to Great Britian with our trade, to suffer with her reverses, we have the whole continent of North America for a market.—We now go in for the treaty—hook, line, bob and sinker.

THE CHOLERA AT ST. JOHN.—We are indebted to Gunnisou's express for St. John papers, from which we learn that there is no diminuation of the cholera in that city, and the adjacent township of Portland. There is considerable excitement, and the papers are filled with remedies, advice, letters from physicians, &c. The number of cholera deaths reported on Thursday morning was 41; Friday morning 42; Saturday morning 29; and Sunday morning 40. The Board of Health is considering a proposition to declare all places where liquor is sold as nuisances, and to fine all persons giving or selling liquor to any one, except by order of a medical man, in the sum of £5. The same board also intend to establish an orphan asylum, and soup kitchens for the benefit of the poor. The total number of deaths by cholera in St. John and Portland, since July 26th, was 339; last week, 235.

The cholera still exists at St. John. For the three days commencing on Thursday and ending on Sunday noon the deaths in the city proper and suburb of Portland were, for the first day 42; for the 2d, 29; and for the 3d, 40; making 111 for the three days.

THE CROPS.—The accounts from the south and south-west are generally very favorable with regard to the growing crops of cotton and corn.

PRICE OF WHEAT.—The Clarksville (Va.) "Tobacco Plant" speculates on the subject of the price of wheat, and comes to the conclusion that farmers should not hold back for higher prices. The Plant says :—"An examination into the history of the market will reveal the facts that $1 60 is much above the average price obtained for wheat in the past ten years. All experience establishes the fact too, that grain speculations are dangerous, and holding wheat at the present prices, in expectation of a rise, is but a speculation."

FROM MALAGA.—A letter received in Boston from Malaga, dated July 19, states the vine disease had increased, and injured, to a great extent, the wine, Lexia, and bloom, or cask fruit grapes. The packing grapes have suffered considerably, and it is generally believed that this kind of fruit will be totally lost. The muscatel have also suffered much; but if the malady should not make further progress, there will still be a fair crop of box fruit.—*Courier.*

The vessel ran down by steamer Governor, on her late passage, was the sch. Arabella, Captain Tinker, who, with Mr. Gott, his assistant, was drowned. Miss Margaret Gott, sister of the latter, was saved, as has been mentioned.

The Abingdon Virginian states that the story of a child being killed by a panther which originated in that paper, turns out to be untrue.

A despatch from Philadelphia states that Mrs Watson, the celebrated vocalist, fell suddenly dead while on board the steamer Stockton, on the morning of the 7th.

Henry Bibb, a fugitive slave of some note, and editor of the Voice of the Fugitive, at Windsor, Canada, died at that place on the 1st inst.

Fish.

Over-Issues of Stock

COME to light daily, and the safest and most profitable way for Ladies to invest their money is to call at the NEW YORK FANCY GOODS STORE, corner of Daniel street and Market square, where Goods bought for cash at Auction in New York last week when money was tight, are sold cheaper then ever before, and Bargains that are Bargains, are offered. Now is the only time to save 50 per cent.

Here is the price of a few articles:
Embroidered Swiss Muslin Collars, 6¼; 4
Wrought French Jaconet Collars, 12½;
Embroidered Book Muslin Chimisettes, 25 cts.;
Embroidered French Cambric Sleeves, 25 cts.;
Embroidered Hdk'fs, for 6¼ and 12½ cts.;
Ladies' Breakfast Caps, all made, with strings, 6¼;
Splendid Flouncings, 18, 25, 33, a 50 cts.

A large lot of extra quality Hosiery is also offered; good sized, well finished Ladies' Hose, white, slate and mode colored, black and mixed, worth 25 cts. will be sold for 10 and 12½ cts.

Lisle Thread Gloves for 10 cts. a pair.

A lot of fine excellent Wrought Collars, worth 4 and 6 dollars, will be sold for $2, with a variety of other articles, too numerous to mention, that will be sold cheap enough to satisfy customers.

Please call at HENRY PEYSER'S
a4 New York Fancy Goods Store.

Additional Testimony for Gilbert's Polypodium.
MILFORD, N. J., Aug. 2, 1854.

MR. S. GILBERT,—It gives me pleasure to address you a few lines to state the good effects of your Extract of Polypodium. Having a severe attack on my Lungs last spring—spitting of blood, &c.—I was induced to try the Extract of Polypodium; and I can say it has done me great good. I am now enjoying a reasonable degree of health and strength; and would recommend it as the best medicine for such complaints now before the public. Yours resp'y, JAMES C. WILSON.

The Extract of Polypodium is manufactured and sold at wholesale and retail by
S. GILBERT, No. 18 Exchange Buildings.
Portsmouth, N. H.

Hutchings's Cure for Cholera,
Cholera Morbus, Bowel Complaint & Dysentery.

THIS is the BEST medicine used for the above diseases. Of the many phials of the above medicine sold by me for the past two years, there has not been one failure to cure the patient that has come to my knowledge. Every family should have a Phial of this invaluable medicine in their house, as the above diseases are now very prevalent. Sold only by
BRACKETT HUTCHINGS,
a3 1cm6tis No. 4 Market street.

BUTLER & POLDEMANN,

WOULD respectfully invite those who are desirous of introducing the FRESCO finish into their Churches, Halls, Dwellings, &c., to leave their orders at Wm. R. Preston's Drug Store, No. 2 Congress Block, Portsmouth, N. H., where they will be promptly attended to. a5

For Boating Parties.

THE PILOT BOAT SIBYL, Preble, is ready at all times to take large or small parties from Portsmouth to the Shoals, or any other place on the coast. She will be at the service of parties who may wish to cruise for a number of days. The Sibyl is a new and excellent boat of about 50 tons burthen, and has no superior for speed or accommodation.

For particulars apply, in Portsmouth, to JOHN CLARK, under the Chronicle Office; at New Castle, to R. A. PREBLE. a5*

HARPER'S
Gazetteer of the World.

THIS work has been undertaken to supply a want which is daily becoming more pressing. The Censuses of the United States, of Canada and British America, of Mexico, of Great Britain, and of the Continental States of Europe, are all of recent date; and of these the most important have been laboriously consulted, and their information arranged and classified in the best manner. The editor has had it constantly in view to present the greatest amount of useful matter in the smallest possible space; and confidently hopes that the work will fully meet the wants of the times, and that the general reader, the student and the artisan will find in it all the information adapted to their several requirements, brought down as nearly as possible to the present day, in a form more convenient than in any other work of similar character.

Harper's Gazetteer of The World is to be completed in TEN NUMBERS at 50 cents each; and will comprise about 1800 royal octavo pages, with seven new and accurate Maps.

☞ No. 1 can be seen, and subscriptions received, at the Bookstore of
jy26 JOSEPH H. FOSTER.

Pauline Chart.

J. F. SHORES, Jr., No. 1 Congress Block, has for sale the PAULINE CHART—by J. W. Bonham. This chart comprises a map of the "Countries adjacent to the Mediterranean, illustrating the Acts of the Apostles."

Also, arranged according to time, an account of the principal occurrances in the Life of St. Paul, as follows: First Missionary Tour; Second Missionary Tour; Third Missionary Tour and Travels while a Roman Prisoner. Each occurrence is given with the name of the Place, its Locality and the Reference to the Chapter and verse.

Sunday School Teachers and Pupils will find this Chart a very great assistance in studying the Life and Travels of St. Paul, and it is highly recommended by clergymen who have examined it.

The Banner Cook Stove.

THE subscriber having received his WINTER STOCK of COOKING STOVES would especially invite the attention of purchasers to this new and beautiful pattern, which he can recommend to be one of the VERY BEST Cooking Stoves in the market, in regard to durability, economy and convenience. This stove it adapted to the use of Coal or Wood, and is warranted to give entire satisfaction in every respect.

An examination of this Stove by all who intend to purchase or exchange Stoves is respectfully solicited.

Also on hand a variety of other COOKING STOVES, consisting in part of the following:
The Improved Empire State; White Mountain; King of the States; Belle of the States; Marshfield; Pearl of Troy; &c., &c
And an assortment of
PARLOR STOVES,
For Wood and Coal, with and without ovens—some of very elegant patterns; all of which will be sold as low as at any other establishment in this city or any other.
FRANK JONES, No. 61 Market st.,
a11 3m Portsmouth, N. H.

To the Musical Public.

A. PEARSON,
TEACHER OF MUSIC,

WOULD respectfully give notice to the citizens of Portsmouth, that he would be happy to give instruction to a limited number of Pupils on the PIANO FORTE, ORGAN, THOROUGH BASS and SINGING.

Particular attention paid to the cultivation of the voice.

N. B.—Mr. P. is agent for Messrs. Hallett and Davis's celebrated Piano Fortes. Persons wishing to procure superior instruments will do well to consult him before purchasing elsewhere.

☞ Mr. Pearson has taken the spacious Room in the rear of the Chronicle Office, formerly occupied by Mr. T. P. Moses—where he may be found during business hours. Residence No. 44 Hanover Street. 3w*jy6

Sagamore House, in Rye.
FROST'S POINT.

THIS is an entirely new House, situated about four miles from the Portsmouth Depots. There is easy access to it by land or water. It is located on a point of land nearly surrounded by water, and seaward presents a finer view of the ocean, Isles of Shoals, &c, than can be obtained from any other house in Rye. An excellent view of Portsmouth and the Piscataqua River is also had from the top of the house. The location of the Sagamore combines the advantages of quiet retirement in a beautiful country, with convenience of access and all the facilities enjoyed at other Beach Houses. The opportunities for Bathing and fishing are unsurpassed. Boats are always in readiness for the accommodation of visitors. A Pilot Boat touches regularly at the Point, on her daily trips to the Shoals.

The Sagamore House was newly furnished throughout, this Spring, in the best manner. The Ladies' Parlor is fifty feet in length, and the Dining Room of the same proportions. The Sleeping Rooms are capacious and airy, and the building thoroughly ventilated.

An experienced man has charge of the house, and every facility provided, and no pains spared for the accommodation of all visitors who may favor us with a call.

The Tables will be provided with the best the market affords, for in this respect the proprietor wishes it distinctly understood that he will not be excelled by any other House in Rye or on the seashore.

TERMS.—For permanent boarders $1.00 per day. Transient visitors as cheap as elsewhere.

Carriages will be at the Portsmouth Depots on the arrival of every train of cars to convey passengers to the Sagamore House.

We ask ladies and gentlemen to give us a call and we will satisfy them that we will do all we promise.

THOMAS CLARK, Proprietor.
Rye, July 27. 2w

Hacking Notice.
FARE TWENTY-FIVE CENTS.

THE SUBSCRIBERS, 'ncluding all the proprietors of Hacks in Portsmouth, would respectfully inform the public, that after another trial of 12½ cent rates for Hacking, they find it impossible to work at that price, with hay and grain at the present high rates, and have therefore agreed that the charge for conveyance of passengers within the compact part of the city, shall be 26 cents, from and after this date.

DYSENTERY, CHOLERA MORBUS
AND
DIARRHŒA ELIXIR,
PREPARED BY WM. R. PRESTON,
Druggist, Congress Block, Congress street.

AT this season of the year, when the above diseases are so prevalent, and in our larger cities, sweeping off a great portion of the population, it becomes every one to keep in his family a remedy that will immediately arrest its course and give certain relief. This is no quack nostrum; it has been used the present season by one of the first Physicians in New York, and in thirty cases out thirty-two of confirmed cholera, that came under his treatment, he was successful in the employment of the above remedy.

PRICE 50 CENTS A BOTTLE.
Sold by
jy21 1mJK WM. R. PRESTON, Apothecary.

j26 GEO. W. TOWLE & Co.

The Greatest Medical Discovery of the Age.

MR. KENNEDY, of Roxbury, has discovered in one of our common Pasture Weeds a remedy that cures Every Kind of Humor, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two cases, (both tender humor.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure the scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing on the pastures and along old stone walls, should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. There is no if's and ands, hums and ha's about its suiting some cases, but not yours. I peddled over a thousand bottles and it is the testimony of those who know the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old; to old people of sixty. I have seen poor, puny, wormy looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some have taken it who have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings; but you must not be alamed; they will disappear in from four days to a week. There never a bad result from it; on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever was listened to.

Nothing in the annals of Patent Medicines has ever been received by the public with so much favor as this simple preparation. It is now composed of nine different herbs. In May, 1852, when I commenced making it, I sold 1 doz. and about two bottles per day. In June, 1853, I sold 4320 bottles. In October, 1853, I sold 6120 bottles. I hope you will call that doing well; I do.

In my own practice, I confine it strictly to humors; but there are some who are so enthusiastic in its favor they think what cured them will cure any thing and any body; they accordingly recommend it for every variety of disease. In this way a great many virtues of it have been found that I never should suspect.

Cases of Dyspepsia, of many years standing, that withstood every known remedy, have been permanently cured.

I know one man to gain 17 lbs. by taking three bottles; another 11 lbs.; another 10 lbs.; and another 7 lbs—the venerable master Robinson of Boston.

In diseases of the Liver it is a specific. I know several with yellow skin and yellow eyes, the body emaciated and the mind melancholy, get fat and cheerful by a few bottles.

I know several cases of Dropsy, and one particularly bad. A lady, aged 72, was unable to leave her house for the last twelve years; she so much relieved (she was reduced in circumference thirty-four inches,) as to visit her friends in several neighboring towns

Another had the Dropsy in her left leg, and was unable to walk for ten years, sometimes swelling to an enormous size; at last bursted, making a bad wound which could not be healed; by taking three bottles and using two boxes of ointment, she is now quite well. Why it should make some fat and others lean, I cannot tell, but know it is.

I know of several cases of Kidney complaints cured by it It the columns of a newspaper was a proper medium, I could tell of cases of this most distressing of all diseases that would make your heart bleed, that were permanently cured by it.

It has been lately found to be a sure cure for Panama fever. In one case the first spoonful put off the fit two hours. One bottle cured him. Another came home to die, and was induced by his brother to try it. Three bottles cured him.

It likewise gives great relief in the Asthma. A lady in Lawrence was unable to lie in bed for a number of years; she can now lie without the least inconvenience.

Mrs. Lady in Weymouth lost the use of her left side by the Erysipelas. On the second bottle, she broke out in one mass of humor from head to foot. In a few days she was well.

It has lately been found to be equally good for humor outside as inside, (taking it inwardly in the meantime,) for Erysipelas, Salt Rheum, Pimples on the Face, or any eruption of the skin whatever; only where the flesh is very sore you must dilute it with water.

When made weak enough it is the best eye-wash for weak and watery eyes that I ever saw.

"Others use it to cleanse the dandruff out of the hair and strengthen its roots, which it certainly does, and to crown all, it made the hair grow on bald heads, which, if I had not seen with my own eyes, I would not believe from you or anybody else.

As regards dieting, I never came across the first person that ever got any benefit from it. On the contrary, numbers came to death's door by it, as it gives the humors the upper hand. My medicine requires the most nourishing food you can get. It will wean give you an appetite.

Do not for a moment suppose that I warrant a cure of all those diseases, in every case. I merely tell you what it has done, hoping it will do the same for you. I do not warrant a cure in any disease but humors, *warts and wens*. Call for further particulars see the circular around each bottle.

No change of diet ever necessary. Eat the best you can get, and enough of it.

I have an herb, dried in olive oil, scatters Scrofulous swellings of the neck and under the ears. Price fifty cents per box.

DIRECTIONS FOR USE. Adults, one table spoonful per day; children of eight years, dessert spoonful. From five to eight, half a teaspoonful. No direction can be applicable to all constitutions, take enough to operate on the bowels twice a day.

Manufactured and for sale by DONALD KENNEDY, 120 Warren street, Roxbury

For sale by E. H. ROLLINS, Concord, N. H.

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by

W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y. "
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
J. Parke, M.D., Pres't College of Physicians, Phila.
Dr. Del Valle, Prof. of Medicine, Havana.
Jose Eourenco de Luz, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spaine.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Maj.-Gen. British Army.
Gilbert Robertson, British Consul, S. C., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass,

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for Spencer, the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swain, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c. &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

UNITED STATES AND FOREIGN

PATENT AGENCY,

No. 39 State Street, - - - - - - - - - - Boston.

SAMUEL COOPER,

Late Chief Examiner in the United States Patent Office,

Procures Patents in this and Foreign Countries.

References.—The undersigned Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, lately a Principal Examiner in this Office; and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the Office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY B. EDDY, T. B. PEARL,
L. D. GALE, THOS. H. EVERETT,
J. H. LANE, F. SOUTHGATE SMITH,
WM. CHAUNCY LANGDON,
Principal Examiners. *Assistant Examiners.*

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.

Boston, Dec. 31, 1853.

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Chest, Back, etc.

If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.

It is an English Remedy, and was used by William IV. late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Liniment, but considers warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's Office, 240 Green

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc. which street, New York.

Agents in Portsmouth—B. Hutchings, S. Gilbert, W. R. Preston and J. H. Wells. n21 eod&w1y

The Agent will be constantly supplied with all the varieties of the purest Teas—also pure Ground CUBA, JAVA and MOCHA COFFEE, which will be sold at the lowest rates. d22

Marble Chimney Pieces.

THE PENRHYN MARBLE is a new and beautiful article, manufactured of Stone imported from England, which is enameled in imitation of of the richest and most expensive Spanish, Galway, Egyptian, Pyronees, Lisbon, Sienna and other rare and desirable kinds of Marble—the imitation being so perfect as to challenge detection without the closest scrutiny. In style of finish these Chimney Pieces stand unrecognalled, being very highly polished, retaining their beauty much longer than common marble, and are not injured by oils, smoke, coal gas or acids. They have been extensively introduced into public and private buildings, giving perfect satisfaction to those who have used them. The best of references can be given, showing their adaptedness for general use, the subscriber having furnished some of the best dwelling houses in the city with them during the last two years.

While excelling all others in beauty of finish and appearance, they are sold much cheaper than any thing of the kind in the market. The subscriber has now in Store a complete assortment of the above named desirable Goods, to which he invites the attention of all interested.

Je21 G. N. CARLETON, 15 Daniel st.

For Summer Riding.

C. H. SIDES & CO., having fully re-furnished their Stable with the best of Horses, and Carriages of the latest and most approved styles, for the summer travels, would respectfully invite a call from those about enjoying themselves by riding. The best and safest teams furnished, for any purpose, at reasonable rates.

HACKING in all its departments, attended to with promptness. Their splendid new Hack, the most beautiful carriage ever brought into Portsmouth, will run for public accommodation as heretofore.

Stable on State street, nearly opposite the Rockingham House. m31

Ocean House,

ISLES OF SHOALS.

THE subscribers respectfully inform their friends and the public that they have taken the well known House on SMUTTY NOSE, where they will be pleased to entertain all who may favor them with their patronage Every attention will be given to make their sojourn with them pleasant during the hot months.

The Yacht SPY, Capt GOODWIN, will run daily to the Islands from Pier Wharf, Portsmouth, at 10 o'clock, A. M., or on arrival of cars from Boston and Concord. LEMUEL L. CASWELL,

je22 2me EDWARD S. FOSS.

Appledore House,

ISLES OF SHOALS.

STEAM having died out in Portsmouth, the subscriber has the pleasure to announce to his old friends and the public, that he has chartered the beautiful YACHT SPY, of 40 tons burden, and has fitted her up in order to secure the services of Capt. JAMES W. GOODWIN, the well known pilot, as master. His skill, carefulness and attention will secure to the travelling public a more safe, expeditious, comfortable and pleasant passage to and from the Islands, than has hitherto been attained.

She will leave PIER WHARF, foot of State Street, Portsmouth, every day (Sundays excepted) immediately after the arrival of the trains from Boston and Concord, and return in season for the evening trains.

Many alterations and improvements have been made in the establishment to make it more convenient and comfortable.

An abundant supply of Ice has been carefully laid in, and the facilities for fishing perfected.

To the invalid, the weary and the active pleasure seeker, this location presents attractions not equaled in New England

je17e THOMAS B. LAIGHTON.

Gerrish House,

KITTERY POINT, MAINE.

THIS Establishment having been put in perfect order, will open for visitors on the 15th of June. Every attention will be given to make this House one of the most pleasant Summer resorts. Kittery Point is celebrated for its conveniences for bathing, fishing and sailing. Arrangements have been made to afford every facility for guests to enjoy the above amusements. The Post Office is within three minutes' walk of the House. A coach runs regularly twice a day to and from the Point, via the U. S. Navy Yard, arriving at and leaving the City of Portsmouth, three miles distant, on the arrival and departure of the cars. For further particulars address the proprietor, at Kittery Point, Me.

For Sale.

HOUSE on Christian Shore, suitable for two small families. If applied for immediately will be sold low. Apply to

April 17. E. S. WENDELL.

HOUSES FOR SALE.

THE DWELLING HOUSE, No. 9 School street. This is a well built house, two (high) stories, in good repair, and is convenient for one family or two families, or for a large Boarding House. It contains nine or more rooms and two sculleries, and has an excellent cellar under the whole house. The situation is central, being about equi-distant from the markets, factories and railroads. Connected with this house is a building which has been and may be occupied both as a barn and a workshop. If not sold soon, a part or the whole of the premises will be let.

The DWELLING HOUSE No. 6 Green street. This house is fitted for two tenements; it is well built, was thoroughly painted and put in good order the last season, and is well calculated for two families, (having about 6 rooms each) and may be considered a good location for persons employed at the north end. It is centrally located between the different ship-yards in that section of the city. each tenement will be sold separately, if desired.

The DWELLING HOUSE No. 7 Liberty street, corner of Charles street. This house was formerly owned and occupied by the late Peter M. Lowd and is in good order. Attached to it is a lot of land large enough for a Stable or for another dwelling house. It would make a good place for the residence of a person employed at the shipyards across the river, or at the Navy Yard.

The DWELLING HOUSE No. 47 Bow street.—This house has been built but a few years, is well finished off, and is very convenient. The rent is quite a large garden spot. This would be a desirable place for a person employed at the shipyards, or at the Navy Yard nearly opposite.

Also, for sale, a BUILDING LOT, on Mount Vernon street, (opposite No. 2,) with a small building thereon, which can be finished off into a Dwelling house.

All of the above property will be sold on liberal terms, if applied for soon. For further particulars apply to JOSEPH M. EDMONDS,

Feb. 27. No. 9 Islington street.

TO LET—The STORE on the corner of Vaughan and Deer streets. It was occupied as the first Union Store in this city, and is considered as a good stand for business. It is within a few rods of the Boston and Concord Railroad Depots. Possession can be had immediately.

FOR SALE—The HOUSE in the rear of the above, on Vaughan street—a convenient house for two families, and has been so occupied for about six years, by the same tenants. It rents for $160. For information, terms, &c., call on JOSEPH L. LOCKE, on the premises, or JOSEPH M. EDMONDS, 9 Islington st. m29

TERMS $4 a year, or $3 if paid strictly in advance.

The Weekly Chronicle,
A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published every Saturday morning—at $1 a year in advance.

ADVERTISING.—For a Square of sixteen lines nonpareil, or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.
Yearly, quarterly or monthly advertisers liberally accommodated—and their advertisements inserted in both papers without extra charge, thus affording unequalled facilities to business men.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

THE MORMONS.—A person would be amazed, interested and amused, were he to pay a visit to the Mormon camp, near Westport. It looks like a great city built up in the beautiful prairie south of the town, and the number of tents placed in regular order gives one some idea of the multitude congregated together; they number now, we believe, 1200, and still they come. Every boat brings more or less of these infatuated beings; for many of them suppose, as we hear from reliable information, that they are journeying to an earthly Canaan, which is to prove an entrance to the heavenly Zion. In fact, one old lady, questioned upon the subject, stated that she had no friends and relatives in all the company, but was in hopes her troubles would soon be at an end; for she was now near the promised land—the land of peace, plenty, and holiness. Others, old, decrepid, lame, halt and blind, are journeying on, believing that their maladies will be cured and their difficulties removed; as soon as they reach this delightful spot. Poor creatures! we hope it may be so. They seem to be ingathered from all climes and countries; but we believe the majority of them west of us here now, are Danes and English, and from the continent—few from Scotland or Ireland.

It is the intention of those in charge of them to start upon their journey across the plains this week; they are to move in bands, so that they will not impede the progress of each other. They go a new route, one which is nearer and better than any other before tried, by at least 150 or 200 miles—they leave this country and keep the Santa Fe road until they come to the 110 or Council Grove creek, and then strike immediately across to Fort Riley, and from thence in a straight direction to Fort Laramie. Guides will accompany them to show them the route. When opened out in this manner, this will be the most popular and only route travelled to Oregon, California, or Salt Lake, and insure all the emigration hereafter to depart from this country. As they progress in their course we will keep our readers advised of the road, country, and those passing over it.—*Independence Messen.*

THE CLERK'S WIFE.—A merchant's clerk, of the Rue Hauteville, Paris, recently married. His master had a niece, of Spanish birth, an orphan. She was not pretty, though very sensible and well informed. At the balls, last winter, little or no attention was paid to her—indeed she seemed to attend them rather as a whim than from inclination or amusement, as she seldom or ever danced. But if she did not dance, she noticed much and listened more. The clerk soon observed that the lady was only invited to dance when no other partner could be obtained. She herself had already noticed the same fact. Being a gallant man, he acted accordingly. The incidents that led to the *denouement* may be easily divined. In six weeks after his first dance with the fair Spaniard, he obtained her permission to ask her uncle for her hand in marriage. He, astonished, gave his clerk's proposal a very cool reception, and then had a long interview with his niece. Finally, however, all was arranged, and the lovers were married on Tuesday. The Thursday after, at breakfast, Adeline said to her husband, who exhibited considerable chagrin at being compelled to return to the duties of the office thus early in the honeymoon—

'Very well—do not go there—go there no more!'

'My love,' said he, 'it is very easy to say so, but—'

'Easy to say so, and easy to do—both,' interrupted the bride. 'I have a million and a half! I always made a point of forgetting it myself, because I wished to choose a really disinterested husband. There need be no more office work for you, if you do not wish it. Yet still, my advice is, husband, that you neglect nothing.'

RELICS OF MARTYRDOM.—A few weeks since as some men were excavating the ground for a sewer, in Smithfield Eng., they uncovered at a depth of five feet from the surface, a quantity of burned human bones and charred wood. The bones were supposed to be the remains of some of the martyrs who forfeited their lives at the stake in the days of the reformation. They were placed in a coffin and carefully deposited in a churchyard.

At Alicant, Spain, a deplorable accident happened during the revolt. A large number of women were at work in a cigar factory, when the conflict began in the street. In alarm they rushed to the staircase, the balustrade gave way, and they were precipitated into the well. Sixteen were killed and many frightfully injured.
